Mayor and City Council
Payson City
439 W Utah Ave
Payson, Ut 84651

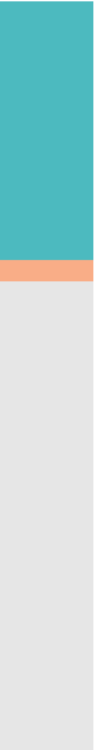

Dear Mayor and City Council,

I ask that you consider my application for the Midterm City Council Vacancy. Councilman Hulet has been a great asset to our community and his role in the City Council will be a hard one to fill. I think, though, that I can add value to our city.

My husband, three kids, and I have lived in Payson for the past seven years. In that time, I have grown to love this community. I'm currently in my fourth year on the Planning Commission. I've been involved, not only with the city, but also with my kids and their activities in Payson schools and recreation.

My experience on the Planning Commission and professionally have given me great tools and experience that I can utilize on the City Council.

On Planning Commission, I have helped make recommendations to City Council regarding proposed changes to our community. Seeing the growth has been rewarding but helping guide appropriate change has been challenging.

Professionally I am a Business Analyst/Senior Solutions Engineer working in IT Supply Chain and PLM at Nu Skin. For the last 14 years I have worked specifically with software for product formulation and supply chain. I work with users in various departments throughout the company and in most of our markets worldwide. I work to promote process improvement, help bridge the gap between the business and technology, support users globally, among many other things. I have developed critical thinking skills and interpersonal skills which would help me as a City Councilwoman.

I do meet all the eligibility and residency requirements outlined in the NOTICE OF MIDTERM CITY COUNCIL VACANCY.

I know that being on City Council is a commitment. My family and I have discussed it and I have their full support. I hope that you will consider my application.

Sincerely,

Kathy Marzan
