DAVID OLSEN MADE A MOTION TO NOMINATE MIKE MCCANDLESS AS THE CHAIR, AND SARAH BENNET AS THE VICE-CHAIR OF THE UTAH TRAILS ADVISORY COUNCIL. BEVERLY HEFFERNAN SECONDED THE MOTION. IT CARRIED UNANIMOUSLY.

12:55 4. **Review of 2021 Non-motorized RTP Grant Proposals**
Chair McCandless asked Mr. Haller and the council members if they found any applications that should be excluded for any reason.

Mr. Haller stated that applications number 20 and 21 were reviewed at the motorized RTP meeting. It was decided at that meeting that the applicant made a mistake and filled out the motorized application, and should have filled out the non-motorized application. The Off-highway Vehicle Advisory Council voted to move applications 20 and 21 over to the non-motorized RTP grant applications.

DAVID OLSEN MADE A MOTION TO INCLUDE APPLICATION NUMBERS 20 AND 21 IN THE GRANT REVIEW PROCESS. SARAH BENNETT SECONDED THE MOTION. IT CARRIED UNANIMOUSLY.

Mr. Haller commented that there is one application that arrived late and the representative from the Hutchings Museum and Institute is present. The application was dropped off after May 1, 2021, due to a miscommunication and there not being staff on that Saturday to collect applications. Mr. Haller stated if the council would like to hear what the representative from the Hutchings Museum and Institute would like to say that may be a fair approach.

Chair McCandless stated that it is a public meeting and if they want to have a conversation about their application that would be fine.

18:50 Representative presented the application that was turned in late to the council members

Chair McCandless suggested setting aside the application and voting on the rest first, then coming back to that at the end, if money is leftover.

Mr. Haller stated that the requested equipment would need to meet the Buy America Act. RTP is only able to fund \$2,500 towards non-made in America steel and iron. Mr. Haller stated that any items related to Buy America, it will be very difficult to fund. There is an exemption, but the OHV Program itself has been trying for the past four years to get an exemption without any response.

Mr. Haller also mentioned the timeline for the applicant to purchase the equipment. Council member, Sarah Bennet, stated the late start date is likely due to inventory issues.

1:36:31 4.9 TUNA Mountain Dell/SR 65 Nordic Ski Grooming Equipment \$9,750
Mr. Haller spoke with the applicant and discussed buying equipment vs. renting equipment. Mr. Haller stated that renting specialized equipment is applicable with RTP.

Mr. Haller noted the requested funding for trail counters. Historically, Mr. Haller was unsure if this council had funded trail counters. He recommended revising the applicant's budget and moving some items to their match vs. the requested funding.

1:49:01 4.10 Battle Creek Trailhead Restroom \$100,000
Mr. Haller stated the requested funding is accurate and based on the state bid.

1:53:45 4.11 Slate Creek Trail System - Phase II \$84,524
Mr. Haller stated the timeline to construct 8+ miles of trails is only three months.

Ms. Bennett and Ms. Heffernan mentioned that NEPA was not complete.

Ms. Heffernan stated the application was ADA compliant but did not state how it would be ADA compliant.

Ms. Geisler stated that UDOT would approve TIF funding in April of 2022.

Mr. Stocksdale's notes stated this appeared more like a sidewalk vs. a trail. He also noted the provided maps did not detail what segment of land the applicant intended to purchase.
