DETAILED REASON AND EXPLANATION FOR REQUEST:

The ordinance was updated to add in the types of contractor licenses we accept to do work in the public ROW. Areas were removed that are no longer consistent with our Development Guidelines and that do not meet our current City Standards. We also added wording to when a permit for street work is required. The area requiring a permit to place building material on the street was removed because we do not allow any storage to be done in the City ROW. We took out the ability for residents to move and remove snow on the City ROW with a permit and it is not allowed at all. A section was added to describe how trees need to be removed if they are a nuisance and if they are not removed that the City may do so if they obstruct or are located in the planter strip, which is part of the City ROW. Lastly we added what kinds of trees are not allowed in the planter strips.

DUE DATE:

This agenda request and any supporting documentation is due to the city recorder by the Wednesday one week prior to the council meeting. This allows final preparation of the agenda and time for the city attorney to review.
