

The Town Council of Snowville Town held its regular monthly meeting at the Snowville Town Hall on **Wednesday 8th June 2022.**

Council Present

Mayor Gwen Wilson

Garet Wirick, Council Member

John Levenduski, Council Member

Rod McGary, Council Member

Scott O'Hare, Council Member

Tammie Morgan, Clerk

Stacey Hill, Treasurer/Recorder

Others Present

Jed Pugsley, Marianne Reiner

Deputy Martinez, AJ Morgan

Collen Hansen, Kenneth Snow

Kyler Morgan, Ray Wilson

Scott Wright, Mike Morgan

Demeare Wright,

Mayor Gwen Wilson called the meeting to order at 6:00 p.m. She welcomed the council and all others present. Garet Wirick, and Rod McGary, were excused. Scott O'Hare led us in the pledge of allegiance and Stacey Hill offered the opening prayer.

John Levenduski made a motion to accept the agenda. Scott O'Hare 2nd. All council members present voted yes.

Scott O'Hare made a motion to accept the minutes from the previous. John Levenduski 2nd. All Council members present voted yes.

Deputy Caleb Martinez

Deputy Martinez gave the council a report of last month, deputy stated that there were 20 calls to Snowville. Scott O'Hare asked Deputy Martinez if any tickets had been given on North Stone Road? Deputy stated that he couldn't tell but he can get the report for the next town council. Scott stated that we have a lot of speeders on that road along with the road that is going out of town. Scott also stated that we have never seen a report that the sheriff's department has stopped someone and given them a ticket. Scott stated that people just fly up the road. Mayor Wilson stated that she and Stacey were here at the town hall on Monday and a Semi-Truck loaded with a tractor ran the stop sign like it wasn't even there. Mayor Wilson stated that she would like bumps in the road for the traffic to slow down. But she was told that the snow plow couldn't plow the roads if the town put them in. Mayor Wilson asked if they could put rumble strips before the stop sign for the traffic to slow down? Scott asked Deputy if he could get

several citations we don't need to know who they were, he is just wondering if there has been any given. The council thanked the Deputy for all that they do for the town and Congratulated him on his new addition to his family.

Revisit the No Parking Signs

Mayor Wilson stated that we are going to revisit the No Parking Signs that were placed around the Town Hall. Mayor Wilson asked the audience if anyone had anything to say about the No Parking Signs? Collen Hansen asked if the signs said no overnight parking was there a time that no one could park at the town hall? Scott O'Hare stated that the signs said no parking at any time. Scott stated that there was it was mentioned on social media, and the people that had many things to say about the signs weren't here or didn't show up tonight. Mayor Wilson asked the audience to speak freely. Mayor Wilson stated that there are many other places in town to park a Semi. Mayor Wilson stated that Mayor before her have tried to get the truck parking away from the town hall. Tammie Morgan stated that she doesn't think it's a problem that we have parking by the town hall if it's no overnight parking. She thinks that it is beneficial for every business, Tammie also stated that the business is what brings in revenue for our little town and to close it down completely is not going to be good for the town. Mayor Wilson stated that Jed has free parking for the drivers for an hour. Why can't they park there and walk down? Mayor stated that is 300 feet. Kenneth Snow stated that the lot is not free. Mayor Wilson and Scott both stated that it is for an hour. Mayor Wilson stated that they can park at Mollies, Sinclair, Flying J, and Exit 7's parking lot, Why can't they park there? Kenneth Snow stated that there is no overnight parking for Semi at Sinclair. Mayor Wilson stated that she wasn't talking about overnight parking just to get out and go eat. Kenneth Snow stated that they aren't allowed to go around the building. Mayor stated again that they can park for free at Jed's. Collen Hansen stated that it is all about convenience because this is a convenient spot. Kenneth Snow stated that the signs should read no parking from 9:30 p.m. to 6:00 a.m. Mayor Wilson asked the council what do you guys think? We need a solution tonight. Collen Hansen asked are the trucks doing damage to the parking lot? Mayor Wilson and Scott both said "Yes". Scott O'Hare asked if anyone else had a comment? Kenneth Snow stated that there is a company that has been using the parking lot to switch trailers. Mayor Wilson stated that they have been asked to move to a different location. They are the trucks that are doing the most damage to the parking lot. Scott O'Hare commented as a citizen when we voted on this we were going to just make it no overnight parking. Scott stated that we should have a sign made-up that says no parking from 7:00 p.m. to 6:00 a.m. For eleven hours there is no parking on this property. That is what Rod and Scott had suggested. Scott went back to the March minutes when this was brought before the council. Mayor Wilson stated that Kenneth Snow said in the minutes that the signs should read no commercial parking. Kyler Morgan asked are you going to put a weight limit on the parking lot? Because sometimes they park the tractor to get some lunch. Scott stated that the parking lot will be open during the day. Collen Hansen stated to have the signs say 10:00 p.m. to 5:00 a.m. no parking. During the day if the drivers are hauling hay they stop in

and get a bit to eat then leave. Scott stated that in the March minutes Garret Wirick stated that no commercial parking on the town property and Kenneth Snow stated no Commercial parking at any time. Scott stated that he doesn't see a problem with parking here, the problem that we are having in them turning around and damaging the parking lot, and them dropping and hooking that is what is tearing up the lot. Kyler Morgan stated that if they have already pulled in here then they have already done the damage to the lot. Colleen Hansen stated what about the locate people? Scott said we can't have favorites. That is defeating the purpose of our lot being damaged. The parking part is not the problem it is the turning around and damaging the lot. Colleen Hansen asked why can't you put up signs that say no U-turns. Scott stated that they wouldn't read them anyway. Scott said that we have speed limit signs that say 25 miles per hour but no one pays attention to that. Also, no one stops at the stop sign. Jed Pugsley stated that there has been a hand full on times that drivers have been parked in front of the fire station. The quick access has been blocked by overnight trucks. Mayor Wilson stated that we are dammed if you do and dammed if you don't, but dam we need to do something. AJ Morgan stated that in his lifetime of living in the valley, he has rarely seen the drivers block off the ambulance and fire station only when the roads have been closed because of snow. AJ stated that it doesn't matter what you do they will park where ever they what to. Mayor Wilson stated that we will accommodate people if that happens. AJ Morgan stated that we should accommodate them because they are giving revenue to the town. Mayor Wilson stated that we are a truck stop town. She thinks that there is enough accommodation that they don't need to use this parking lot. Ray Wilson asked Deputy Martinez if there is a federal recitation for trucks to park by or around a government building? Ray Wilson asked if this building would be declared a federal building? Deputy Martinez stated that he wasn't for sure. Ray Wilson stated that since 911 that things had changed, parking trucks around federal buildings or city government offices. Scott stated that we are incorporated and a city town. That we fall under the State as a municipality. Kyler Morgan asked when was the last time that the asphalt has been done. Mike Morgan stated that we have never redone it totally, the county has come out and fixed the holes and chipped it. Mayor Wilson asked Mike Morgan if he had to vote what would he vote for. Mike stated that he would forget it. Scott asked about the signs also. Mike stated that he thought you are causing more problems than it is worth. Mayor Wilson stated that you pick your fights. Mayor Wilson stated that this was handed down to her. Mayor Heyder told some people not to park here because they were in the way of Rod Arbon getting the snow plowed off the lot. Colleen Hansen stated that she thought that Mike was right and that is it more of a problem than what it is worth. All of the cattlemen, hay haulers, and any other drivers that drive through this town bring in revenue to the town of Snowville. Mayor Wilson asked Mike Morgan this question Why can't they park somewhere else she just doesn't get it? Is it what they have always done? Mike Morgan stated that they had a call on the ambulance and someone parked in front of the station he asked them why can't you park somewhere else and the driver replied will I just will not stop here at all. Kyler Morgan stated that we do a lot of grants maybe we can get a grant to redo the parking lot. Kyler also stated that he wished that some o the people that were on Facebook were here tonight, but no one showed up. Mayor Wilson stated that they were cyberbullies, and that can never happen again. Mayor Wilson asked the council what do you want to do? AJ Morgan stated tell he makes a comment before you vote. When AJ drives a truck he is usually pulling a train. Which is tow

trailers behind a truck. Then is really nowhere else besides Jed's lot to pull in the town of Snowville to park a train. He stated that if you go into Flying J you can't back a train up. You go into Mollie's you can't back a train up. If you can pull in and straight out you are limited to where you can park.

Scott O'Hare made a motion that we keep our \$45.00 signs and use them elsewhere. Open the Town Hall lot back up and let them park. Then look at the damages later to see if it is broking up the asphalt on the parking lot. John Levenduksi 2nd it. Motion passed all council members present voted Yes.

Mayor Wilson stated that she has some Handicap signs that she would like to have put up. Jed wants the signs in front of the fire station. Motion passed No Parking Signs.

Revisit the Ordinances Violations

Scott O'Hare stated that he had asked for this to be put back on the agenda. Scott just wanted to make sure that everyone was on the same page. Scott was under the impression that we had to have two council members of the council agree that there was a violation before we gave a violation. Mayor Wilson stated that at that time there were two members of the council going to go to be trained to write violations. Scott stated that in the February minutes we talked about this. Mayor Wilson stated that in January we adopted the ordinances and in February we talked about two people attending a class to write out violations. Scott asked so how are we writing the violations? Are they being mailed or are we physically handing them to the person? Mayor Wilson stated that they are being mailed. Tammie stated that it might be a good idea for two people on the council to know what is going on. Scott agreed that it would, and he also read a part out of the February minutes about two people on the council that would write the violations and that the town was going to be spilled up into four sections. Mayor Wilson stated that the two violations that have been given out the council had talked about before anything was given out. The Steele trailer and the other trailers in town. Mayor Wilson stated that she had written that violations. In her book that Mayor Heyder gave her if a citizen is concerned about a property they can come to the council and tell them about it and the council will decide what to do after that. Mayor also stated that Delbert Olsen came to her and asked Mayor to help him get those trailers off of his property and the guy that was buying them from him stopped paying for them. So they are in violation because of a lot of things. Scott asked are we all agreeing that two council members need to be notified before a violation is given out? Mayor Wilson stated that he doesn't like to give out violations. She would rather go to the people and ask them to take care of the stuff before it goes too far. The only reason that these two violations were given out was that the council had already talked about them and she was

asked by the property owner to help him with the problem. Scott agreed. Jed Pugsley asked if he could make a suggestion? If the town council is notified of a violation. He suggested that once a week or month that the council gets together and discusses what violations are in the town. Everyone in the town knows what the ordinances are. he suggested that you have a closed meeting and talk about the problems than in town council bring up the problems that were decided. Tammie Morgan stated that any time the council meets the town has to be notified 24 hours before the meeting. We have to post it. The community has to know that the council is meeting. Mayor Wilson stated that she wants to work with people as much as possible. She doesn't want to have to give out violations. Tammie stated that maybe you will not have to give any out after this. Mayor Wilson stated that these people have known for years that they were in violation. So something needed to be done.

Water

Mayor Wilson asked AJ Morgan about the water. AJ stated that he is trying to get those meters ordered. AJ stated that he is looking for another place to buy meters. The guy at Core and Main in Logan didn't call him back and the guy in the other Core and Main in Ogden didn't call him back so he is looking for somewhere else to buy the meters. AJ stated that he is working on them. The update that the council approved for the telemeter has been installed and the guy from Mountain Valley is supposed to call AJ with the details. So AJ can access it from his phone if something is wrong with the pumps. AJ also stated that the leak out by Tanner Hawkin's house is fixed, it was leaking on the 6-inch line and the old valve was fixed. The hydrant in front of the Fire Station is fixed. We had someone from Logan come and fix it. AJ stated that Marianne called him about a source protection plan. The Well that we aren't using doesn't have a source protection plan, the State has given us 110 days for us to get that plan in action. Mayor Wilson asked is that starting immediately? AJ stated "Yes". Tammie Morgan asked if that cost a lot of money? AJ stated that he didn't know. Marianne had all of the details. AJ also stated that it should have already been done, he didn't realize that it wasn't. The plan keeps people from building around our water source. Ray Wilson asked AJ how much growth could that well that we have now handled? AJ stated that the well we have now probably has no growth. Until we get the West Well drinkable, or we find another water source. AJ also stated that the water rights for the town are there we just have to drill a new well to find the right source. AJ talked to Tim Heyder and Alan Terry about the wells here in town and they are maxed out in the Summer months. AJ stated that he doesn't think we have a lot of water to sell until we figure out what to do with the West Well.

Fire

Jed Pugsley stated that in the last week he had been contracted by the County Commissioners of Oneida County and the Sheriff of Oneida County. Jed stated that we have a couple of issues we have what is called No mans land. It is what the ambulance covers from the board of Idaho to Cassia County the state doesn't have any coverage by a fire district. They are dispatching as

far as Twin Falls to come down and cover that area. They have asked for us to work on an M.O.U. for the Fire department to take care of that area. As well as any structure fires that might happen. Jed stated that they want the Fire department to go from the Stone line to the Reservoir turn-off. Jed asked the town council to make a motion for Jed as the Fire Chief of Snowville to take care of that M.O.U. with Oneida County. To get that established and in place. Mayor Wilson asked if we have worked with them before? Jed stated that we have worked with them on the EMS side but not the Fireside. Mike Morgan stated that EMS will go to the Hills. That is as far as they will go in Idaho. Scott O'Hare asked what an M.O. U. stood for. Jed replied Memorandum of Understanding. It is given us the authority to operate in their County. We would be responsible for billing. It would be like the EMS if there is a structure or car fire we would bill the insurance. Jed stated that if it was a grass fire we would be on call or stand by. Jed stated that there is not a ton of calls. Mayor Wilson stated that if they call her and we are the closest fire department then we would go help with the fire. Jed stated that they will be dispatching other units also to help with the fire. When the M.O.U. is in place they will dispatch the Snowville Fire department if they don't have units close enough for a structure fire. Scott O'Hare stated that the M.O.U. is a mutual aid agreement. Jed stated that there is a difference between Mutal Aid they would have to provide something and we would have to provide something. Jed stated that we are closer and they would like us to respond. Without putting another tax on their County or State. Scott O'Hare asked if we will have to bill the structure or car fires? Jed stated that we would just like we do EMS through the insurance, if the fire department has any expenses or anything like that it will be passed down to the person that had the fire. Mayor Wilson asked will you bill them or the town bill them? Jed stated that is what we will have to decide. Mayor Wilson asked Tammie and Stacey if it comes down to having the town bill out fires for Oneida could you take care of it? Scott O'Hare asked if we have fees already set up to charge for fires. Tammie stated that we could use what we already have in place with Box Elder County. Jed stated that there is an approved rate, and we can bill it that way.

Mayor Wilson stated does anyone want to make a motion for the M.O.U. to help Oneida County out with fires. Jed will go talk with Onedia County and get everything in place. Jed asked the council for the authority to get this M.O. U. started. Tammie Morgan stated that we have people across the state line that it will benefit. Everyone agreed. Jed stated that we might have to extend our fire insurance, to cross into state lines. Jed stated that wasn't in order yet, he will have to look into it. The town would have to extend workman's comp in the state of Idaho as well. Scott asked Jed you going to go talk with them and work out all the bugs then come back to the Council and talk about them before you sign any paperwork? Jed stated that we can do it that way or you give me the authority to just take care of it. Scott asked Tammie do you think that the insurance or workman's comp would be expensive to go into Idaho? Tammie stated that she didn't think so but wasn't for sure. That is something that we would have to call the Government Trust about. Scott asked Jed when he will be able to get this M.O.U. in place. Jed stated that maybe next month. Jed stated that it is a \$950 flat rate to respond to a call. In Box Elder County, then an hourly rate on top of that. Jed stated that it would be something similar to those rates. If it was a grass fire, structure fire.

John Levenduski made the motion for the M.O.U. to help Oneida County out with fires with Jed's help getting it in place. Scott O'Hare 2nd. Motion passed all of the council members present voted Yes.

4th of July

Mayor Wilson stated that this was our biggest celebration. Scott O'Hare stated that he has ordered the food. Scott stated that he will need a check for \$616.16. For Lower's Food to get the meat. That is the total for Pulled Pork and Shredded Beef. Scott stated that they are having a special and it will be 25% off. Scott stated that he tried to go with something different, but it wasn't in our budget this year. Scott stated that he will go to Kent's in Tremonton and order Potatoe Salad and Baked Beans. Scott stated that Rod McGary has already to care of the music, the same music as last year and the year before that. Scott stated that he called for bounce houses and they were not available. Demerae Wright asked the council if she could face paint if the kids wanted their faces painted, she did it at about three or four years ago. Scott stated that the council had already talked about it and they are ok with you doing it. Scott O'Hare stated that we will have to get you a budget of what you can spend. Demerae needed to buy paint that the kid wasn't allergic to. Scott told her to keep the receipts and we would reimburse her for the product that she bought, Scott stated to go with the straight water-based paint if she can so there are no problems with kids having a reaction to the paint. Jed stated that he will be in charge of the Fireworks this year. Jed asked what was the budget this year for fireworks? Tammie stated that before you go to pick them up we can write you a check. Stacey Hill stated that there is a budget of \$2500.00 for fireworks this year. Mayor Wilson asked the people in the audience if they would to come out and help for the 4th of July. There was no response. Mayor Wilson stated that we could just ask for volunteers where we are there. Scott stated that it is better to have volunteers before we start. Scott stated that we don't have bounce houses. John Levenduski asked what about the bull that we had one of the years? Mayor Wilson asked who had it? Tammie stated that it was a dollar a ride. Scott stated that he will have Keith Thompson bring his tractor down to help pull out the tables at are under the Bowery, to the grass for more people to set. Scott said that he hasn't got a hold of Robin Morgan yet to head up the parade. Demerae had no more question about the 4th of July. Greg Edwards up in Holbrook would like to know if he could sell stuff and what the vendor fee would be? Tammie stated that in the past has just done it, Scott asked what will he be selling? Demerae said stuff like cotton candy, Soda pops. Scott stated that he will have to have a health permit from the Bear River Valley Health Department. Mayor Wilson stated that he will have to come in on Monday and talk to Mayor Wilson about it. Scott stated that he will have to talk to Mayor Wilson first. John Levenduski is over the softball game. Stacey asked if you are going to have flyers to announce it? Scott stated that he will get them together. The parade will be at 4:00 p.m. then the softball game at 4:30 p.m. dinner at 6:00 p.m. then music and then fireworks.

Cemetery and Park

Scott O'Hare stated to Mayor Wilson that Scott and Demerae Wright have agreed to split the position. Scott O'Hare will take the park and Scott and Demerae Wright will take the Cemetery. So the council will not need to vote. Mayor Wilson stated that Scott Page gave him a notice in April and he wasn't able to work on the Cemetery and the Park that he had in the past. Mayor Wilson Thanked Scott Page for all of the time and effort that he put into the Park and Cemetery when he took care of it. Mayor Wilson thought that it would be a good idea to split the Park and the Cemetery positions this year. Mayor Wilson stated that Scott O'Hare will be doing the Park and Scott and Demerae will be taking care of the Cemetery. Colleen Hansen asked who will take the water? Colleen stated that there is a water turn to take. Colleen told Scott that he has a water turn for the town from 10:00 p.m. to 8:00 a.m. Colleen has the water before the town and was wondering who was going to take it for her. Colleen stated that she was floating and was wondering who didn't take the water. Scott asked her why didn't she just let the water go? Colleen stated that she got her ass chewed one time about sending the water down and she will never do it again. Mike Morgan asked Colleen if Rod Arbon turned the water down to her and Colleen said no. Mike said that the first turn was probably his fault. Everyone laughed!! Colleen stated that when it is the town's turn the person that is working for the town comes and gets the water at 10:00 p.m. from Colleen. Colleen stated that you need to pull the headgate for the water to run down to the town's ditch. Colleen and Mike were telling Scott O'Hare which ditch to pull the water from. Scott asked Mike to show him how it is supposed to be done. Scott stated that Rod Arbon took him over to the ditch and told him what to do. Colleen told Scott that after your turn the next guy up the ditch will take the water and you will not have to put the dam back in. Colleen told Stacey the water turn will be every 13 days for the town. Mayor Wilson stated that if you have a question with the park talk to Scott O'Hare and if you have a question with the Cemetery you talk to Scott and Demerae Wright. Tammie asked does Scott and Demerae know that they only have 40 hours at the Cemetery? Scott stated that he knows he has 80 hours. Mayor Wilson stated that she will call them and let them know. Jed stated that the mower at the park it needs new front tires. Jed said that he will help Scott replace them. Jed stated that the mower tires are flat by now and the blades on the mower are very dull. Stacey Hill stated that she will have Klane bring their tractor and the city mower to mow the grass down because it is so tall and the mower with not mow it.

Marianne Reiner

Marianne stated that she was going to give us an update on the traffic beacon, Landmark company has had a problem with a panel and they have ordered it and it will take 16 weeks to get here. Mayor Wilson stated she thought they were going to order the other panel there were two choices. The other ones were four months out and they could go get it. Marianne stated that she would ask about that one. Marianne stated that it will be at the end of September or the middle of October when they will start working on it. Marianne stated that she will follow up on that. Scott stated that it might not be a bad thing because Beehive will be done with their project. Stacey stated that Beehive emailed her and said that they were not going to be there tonight. Scott asked Why? Stacey stated that they didn't give her a reason they just weren't going to be there. Mayor Wilson asked when are they going to start to bring the materials out? Marianne stated that she would find that out too. Marianne stated that there is an update for the West Well water, Mayor Wilson asked Marianne to back up for a minute. Mayor read from her papers that the pole and the mass were to be on-site June 6th. But Mayor stated that it is not here. Mayor Wilson asked who is in charge of those parts. Marianne stated that she would find out. Scott stated that the last time that we talked the State was supplying the pole and the mass. Mayor stated that the flasher was only out 6 weeks. Do you have the flasher? Mayor Wilson stated that the meeting was 4 weeks ago. Mayor also asked where are supposed to have speed limit signs that start down by the Flying J. Mayor Wilson asked Marianne to have Eric send her an updated document of the changes. Mayor Wilson stated that construction was supposed to start on June 6th and June 6th has already passed. Marianne stated that one alternative is to not treat them well and drill one well. Marianne said that one stop to drill would be on Curlew Drive, which the town owns, we can drill a test well and it will be about \$7500.00. Scott asked if that was the \$7500.00 that we could get a grant for? Marianne said yes. Stacey Hill stated that Rod Arbon witch it and there wasn't enough water out there on the town property. AJ also said that he talked to Rod and he said he didn't think there was a lot of water there also. Then is a stream that runs to Vauna Wilcock's property but probably not the amount that we are looking for. AJ suggested that we also have Bart Neal come witch it too. AJ said that it doesn't sound like a lot of water on the town's property. Mayor Wilson stated that maybe we need to look somewhere else for water in the valley. Mayor Wilson asked Marianne do we need to find out if there is water there? or what to we need to do to proceed. Marianne stated that the USDA would like to treat the water on the West Well, and not drill a new well. Marianne stated that if we wanted to find more water in the valley we would have to have an engineering study done. Mayor Wilson asked Marianne don't you already have that of the valley? Marianne said yes, but there would have to be a new one done. Scott asked did they get any more information on the ozone water treatment? Mayor Wilson asked wasn't there a Sliver Bullet treatment also. Marianne stated that the Silver Bullet was less expensive. Marianne stated that the West Well needs a Drinking Water Protection plan. Marianne stated that there never has been a plan in place for the West Well. Marianne stated that the Drinking water protection plan will cost the town \$5,000.00. Mayor Wilson stated that we don't have \$5,000.00 to do that. Tammie Morgan stated at there are other resources out there for us to use. We will take care of it. Tammie stated that we are members of Rural Water and we will call them to see if they can help. Tammie stated that we need to table that for the next meeting. Tammie stated she will make a call to Rural water and ask. We will let Marianne know if they need to do the Drinking Water Protection Plan.

Revisit Town Council Assignments

Mayor Wilson asked the Council what assignments did you have last year? John Levenduski stated that he was over Landfill, Garbages, and Dog Catcher. Mayor Wilson said that she was over Streets and Roads. Scott stated that he was over recreation. Mayor Wilson asked who was over Parks and Cemetery? Scott said, Keith Thompson. Rod McGary is over the Water, and Garet Wirick would be over Park and Cemetery. Mayor Wilson asked John and Scott if that was ok with them to continue to do what they have been doing? they both said that it was fine.

Town Website

Mayor Wilson stated that it looks do good. We are so close to putting our website up. Mayor stated that the colors of the website have been changed to blue and she really likes it. We have a 15-minute Zoom class this week that answered a lot of questions that we had. Town residents will be able to pay their water bills online. Book the Bowery, get Business Permits, and License Dogs, and Look at the Ordinances, the agenda, and the minutes. Everything that you come to the town on Monday to do will be online. Scott asked if the agenda and the minutes will be put on there? Mayor Wilson stated Yes. Tammie Morgan stated that we need to call Harmony our billing software for the water. To see how we will be able to make the payments or have our customers pay online. So they can look it up and see what they actually owe. Jean told Mayor that she would send a link for us to use to receive payments for the water. Tammie stated that they will probably charge us to use that company. So maybe we can use the software that we already have. We will have to look into it. Mayor Wilson stated that it costs \$119.00 a month. Scott asked when will it be live? Mayor Wilson stated maybe this Summer. Mayor stated that we want everything to work right be we open it. Mayor Wilson stated that the outline is done we are uploading all the information to the website now.

Old and New Business

Mayor Wilson asked if we had any old and new business? Stacey Hill stated that she went to the park the other day and the water Fossett was leaking really bad. Mayor Wilson stated that when we rent out the park some people would like access to the water that is there. The water will be running for a long time. We only charge \$25.00. to use the park so what do you guys think we should do? We need to come up with a price for that. Stacey Hill stated that we were going to talk about a waiver for the park. Tammie stated that we really should have something in place. She feels like she is being very protective and she hates to be like that but it would probably be a good idea to do something like that in place. So when they pay for the park they

can sign the waiver then. Even at the town hall, we should have a waiver for it too, just to be on the safe side. Scott asked if we don't have that in place now? Tammie stated that we don't. Scott stated that if they get hurt we have no way of protecting ourselves. Mike Morgan stated that last night a kid fell off the monkey bars and broke his wrist. Tammie stated that we have signs at the park now that state play at your own risk. Scott stated that we should have some type of waiver for the park and Town Hall. Everyone agreed. Stacey Hill stated that the park is rented for the next three Saturdays. Mayor Wilson stated that she did, she had Keith Thompson come and help her with everything. Tammie stated that it is \$25.00 for the Kitchen and bathrooms and \$10.00 for just the bathrooms. Stacey and Tammie will work on the waiver. Mayor Wilson told Scott that she will give him the keys to the Park and Bowery. Kenneth Snow stated about a Veteran that is buried in the Snowville Cemetery. I am not sure of the first name but the last name was Watts?? His headstone is damaged and Kenneth would like permission to get that replaced. Tammie stated that you should talk to Shanna Terry she is the Sexton for the Cemetery. Tammie thinks that it is great that you would do that. Mike Morgan stated that he has no local family here, it was the gentleman that was working on Curtis and Gloria's home and fell and passed away. Kenneth stated that he cuts the grass around the veteran's graves and cleans their headstones. Mayor Wilson stated that the Cemetery looked good for Memorial Day, with all the flags up. Scott stated that the guards that shot the guns said that the Cemetery look really nice. Scott stated that the vinyl fence there are some pieces that are broken and need to be fixed. Scott stated that we need to get the flag pole fixed it is a mess. Mayor Wilson said to just get a new flag pole. AJ suggested getting ahold of OSI and having them lift someone up and fix the flag pole with their telehandler. Mike Morgan stated that Rocky Mountain Power help them out on time. Scott said that the rope is on the outside of the pole and it should be in the inside of the pole and the cover is wired shut. Scott also said that the pole in front of the Town Hall needs a new pole also. Mayor Wilson asked if there was anything else? Colleen Hansen said yes there are a lot of old cars parked on the side of the road. Also, there is a 5th-wheel camper parked on the road also and if someone were going down that road they wouldn't be able to pass. Why can they park there? Scott thinks that it is 25 feet from the center of the road. Scott stated that he will go look at it. Scott wanted to make a comment and wanted it on record. Scott doesn't think that anyone that sits on the town council should get into it on Facebook or social media. Everyone is their own person you can do what you want. But when we start fighting or arguing with people on Facebook. It is just bad. You know that the people that were on Facebook are not here tonight. They are not here to stand up and face us. They can sit behind their computers and type. He doesn't think that the council should talk about town stuff. All they are doing is baiting us to respond. Mayor Wilson stated that yes she was baited. She took the bait. Scott also wants everyone in the town to know that the Mayor does have a vote. Her vote is a tied breaker but she does have a vote. Scott stated that we shouldn't do stuff like what happened on Facebook. Scott and John stated that they don't have Facebook, but it was brought to his attention and then he had to read it. Then Scott's name got brought up in the mess also. Mayor Wilson stated that you were baited also. Scott stated that he wasn't on Facebook and that he went and set things straight with the problem that his name was brought up in. Scott stated that he tried of people complaining about stuff about the town and they don't have the balls to come and set things straight. Scott knows that they vote for the town but if more people would come to the town council and let us know

about things like you guys are tonight. Then it would be better. Scott stated that he is asking people to please come to the town council and voice their opinion. We are just 5 people on the council. It is not just our town. Scott stated that every quarter have an open meeting where everyone can come and voice their opinions on things here in the town. Scott thinks that we should handle it here at the council, not on Facebook. Jed stated that it should be opened for everyone on the outskirts also. Scott agreed. He had someone say will I live in Stone. Scott said how care you have a business in Snowville you should come to the town council. Tammie stated that one of the people that are here tonight our out of city limits. Scott agreed. Everyone has an opinion. Scott stated that more town's people need to get involved. He is glad that there is a lot of people here tonight. We had a lot of great advice on the parking signs tonight.

John Levenduski made the motion to pay the bills with the addition of Rocky Mountain Power, IDAWY Solid Waste, and Verizon Scott O'Hare 2nd. All council members present voted Yes.

Scott O'Hare made a motion to Adjourn. John Levenduski 2nd. All that were present voted Yes.
