

HOLDEN TOWN

ORDINANCE # 2022-02

Solar Installation Moratorium

As a result of an increased interest in solar power installations in Holden Town and the fact that the Town does not have any ordinances/regulations regarding the installation of such systems and how they might interface with the Towns municipal electric grid and the lack of a net metering policy, ORDINANCE 2022-02 establishes a moratorium for not more than six months (expires 01-14-2023) on any solar installations.

Effective 07-14-2022

Mayor Darren Fox

Clerk Carla Collins
