Subject: Comments for August 16, 2022 City Council Meeting

Date: August 16, 2022 at 8:21:07 AM MDT

To: ahulka@ch.utah.gov

Dear Mr. Hulka,

My name is John Kennington and I live on Pippin Dr. in Apple Valley.

I would like the following comments to, please, be included in the record for the subject meeting:

- I would advocate that Cottonwood Heights (CH) still maintain an opposition position to the LCC Gondola proposal even if UDOT recommends that alternative in the upcoming announcement for the LCC EIS chosen alternative to mitigate ski traffic in the few 'snow days' that occur each ski season. The chosen alternative must still be funded by the Legislature, so there is still a chance to deny it.
- I prefer the Enhanced Bus Alternative to be gradually developed and designed as needed as easier features are tried first, like tolling and increased bussing, then see what additional changes are needed to mitigate the ski traffic. These measures may reduce the needed scope of the project and save us taxpayers lots of money.
- The Horrocks Traffic Study for the Ft. Union/WSB area needs to be fully discussed and vetted with the public before implementation. A new study should be considered to include the effects of plans for LCC, BCC, WSB development, and the Gravel Pit development are formulated.

Thank you very much for your cooperation,

John Kennington
