

The Town Council of Snowville Town held its regular monthly meeting at the Snowville Town Hall on **Wednesday 10th August 2022.**

Council Present

Mayor Gwen Wilson

John Levenduski, Council Member

Rod McGary, Council Member

Scott O'Hare, Council Member

Tammie Morgan, Clerk

Stacey Hill, Treasurer/Recorder

Others Present

AJ Morgan, Tim Heyder

Colleen Hansen, Keith Thompson

James Beagley, Jonathan Gamble

Faith Gamble, Kenneth Snow

Marianne Reiner, Steven Thomas

Aubrey Stephens,

Mayor Gwen Wilson called the meeting to order at 6:00 p.m. She welcomed the council and all others present. Rod McGary led us in the pledge of allegiance and Mayor Gwen Wilson offered the opening prayer.

Scott O'Hare made a motion to accept the agenda with the addition of the people in the office. Rod McGary 2nd. All council members present voted yes.

Rod McGary made a motion to accept the minutes from the previous. Scott O'Hare 2nd. All Council members present voted yes.

Deputy Martinez

Deputy Martinez was unable to make the meeting this month. He emailed a copy of the stats for the month of July along with traffic stops that were made. There was 23 assistant that was made. Scott O'Hare stated that they only had one traffic stop. Deputy Martinez apologized for not making the meeting. Scott O'Hare also stated that they come out here for all of the other problems in the valley why can't they stay for an hour or so and pick up speeders? Scott asked Mayor Wilson to call and talk to Deputy Martinez about the one traffic stop in town, that just is unacceptable. Mayor Wilson agreed and would call Deputy Martinez.

Beehive

Mayor Wilson stated that everyone had a good time at the park when Beehive come out and hosted a dinner for all of the residents that had any questions about Beehive fiber optic and is coming into Snowville. They had 13 people sign up for the Beehive services hopefully more will send up. Mayor Wilson asked Guy that works for RMTW if they will be in town for two months to place the cable in the ground. Guy stated that September 30th is the deadline that the fiber

needs to be placed in the ground. He stated that they might have to get an extension but he hopes that they did not need one. He stated that Stone Road was almost put in and they are working on getting permission slips from the landowners to place the cable. Scott O'Hare had a permission slip for the people that didn't go to the park for the BBQ. Scott stated that Beehive told everyone that if they don't want the service from Beehive to let them put a drop to your house, it will up the value of your home. Scott stated that you will have a drop at your home and it is free, but if you want it later it will cost you \$300.00 after September 30th. You can send it up later for the Beehive services. Mayor Wilson stated that you never have to sign up if you don't want to but have to drop come to your house. Rod McGary stated that he had to talk to the CEO of Beehive and wanted everyone to know that if they have a line dropped and don't want the service know that they can have the line installed to the infrastructure and have it ready and then they can have the equipment that needs to be put in the house mailed to the people that wants the services. All the customer will have to do is install it and they will have the services. Guy stated that they need to have the permission slips and then the owner can call Beehive and have the installers come out and install the equipment in the homes. Rod McGary asked if we could put the letters in the water bills so everyone would know about it. Scott stated that he was thinking that Rod and John could go out and talk to the residents about Beehive and get a permission slip signed for the property owner. Scott stated that they had a list of the 13 people that have already signed up. He has talked to some of the residents but not all of them. Guy stated that he had put in stakes and painted lines where the cable will be. Stacey asked the gentlemen what their names were for the recorded. Guy Ingram and Paul Hunt.

Marianne Reiner

Marianne talked about the drinking water source protection plan, She state that she had contacted Rural Water about the plan. She stated that Rural water has the source to do the plan but where it goes through the State a licensed Geologist or Engineer will have to do the plan. It will cost \$8,000.00 to have this plan done. Marianne stated that we can get a USDA grant for the funding. The studies that are being done will be submitted to USDA and then they will release the funds. Marianne stated that she has emailed a conditional report to everyone. She stated that they are very long reports. Mayor stated that the report was on an 11x17 paper size and we don't have that size of paper. Marianne stated that she would fix that problem for the report. Mayor Wilson stated that she had seen the report but couldn't report it out. Tammie asked Marianne how we would be reimbursed. Marianne stated that we will have to have the studies done and into them by September. Then we will be reimbursed for the search grant. Marianne asked the council for approval for the Conditional Report tonight to get started. Scott asked AJ Morgan if he had time to look at the report that Marianne was talking about. AJ stated that he had and it is just a lot of money. Marianne was asked to send five copies of this report. Marianne stated that they are different priorities that are listed on the report. She stated that Modernize SCADA would be \$80,000.00. Then the water valves would

be \$52,000.00 to useable secondary water source \$1,005,000.00, to loop water on 800 north \$659,300.00. 3" water line to Cemetery from 800 North \$83,000.00. 8" water line on Main Street east of 100 East \$357,850.00. Marianne agreed it is all a lot of money. She stated that they don't need to be done at the same time. The town can do it whenever they want to. Scott and Mayor Wilson asked Marianne if this was to replace the all of the water lines in town and Marianne stated that it was only to put in the water line where there is not any. Scott O'Hare stated so you are going to have the water line go past 100 East and up to the Booth's house where it is not in the town limits? AJ Morgan stated that is why it is a priority number 5, in the future if you decide to have the water go up there. Scott stated that it will be going outside city limits and AJ agreed, that they may want to update the line from a 6" line to an 8" line in the future. Marianne stated that the 8" line would be out there just for a fire hydrant. AJ stated that he had made the priorities he said that they could be changed if the council wants them to be. Marianne stated that USDA is aware of SCADA and that their funds would cover that. She stated that we have to apply for the grant first. Mayor Wilson stated that she wants grants first before loans. Marianne stated that there are a lot of other places that we can get funding from, including USDA, Rural Water Drinking, Division of Water Resources, and CIV funds, that would be tied to some kind of mining with the minerals, CDBG funds, and private investors, and Business investing. Scott asked Marianne if we can apply for the grants for Priority 1 and 1A. Marianne stated that everything on the paper can be applied to the water. Tammie stated so this is just a big plan for our water. Some goals that we can work towards. Marianne stated that it was. Mayor Wilson asked if there would be an alarm for a meter if it was spinning out of control. Scott asked AJ about the water line that was going passed John Levenduski's property, is the 3" line going past his property? AJ stated that the 3" line was the line that was going from Oman's to the Cemetery. Scott asked if it was coming down 800 North and AJ said no. Scott asked AJ if someone buys John Levenduski's property and starts cutting them into different lots will our water system be able to supply them with water? AJ stated that it would not be able to do that unless we have a secondary well. The water is not available the two wells that we have would not be able to keep up with the demand. Marianne stated that the West Well was including in the big plan to move forward they would want to get funding to treat the well with ozone. Tammie stated that if we did go for grant money that this is what they want a plan to show where the money will be spent. Marianne asked the council to give her permission to start the reports for the drinking water in the sum of \$8,000.00. Scott asked her what do you need approval for? Marianne stated the Conditional Reports so she can look for funding for the projects.

Scott O'Hare made the motion for Fosgren to do the Conditional Report for the water in the amount of \$8000.00. John Levenduski 2nd. All Council members present voted Yes.

Scott O'Hare made an public apology to Mr. and Mrs. Gamble along with Kenneth Snow. Scott apologized for raising his voice at them when they came into the town hall. Scott stated that if we need to talk about it after the meeting we will. He just wanted it on the record.

Commercial Business Licensing

Mayor Wilson asked Stacey Hill to call around and ask other town's what they charged for a salvage yard. Stacey Hill called Garland city and they told her that they charge \$25.00 for home based and \$40.00 for Commerical Business License. Stacey Hill stated that last month we tabled it because there was no amount on the agenda. This month Stacey Hill put on the agenda an amount of \$40.00. Mayor Wilson stated that Frank Vit van't have a permit for his salvage yard on West mani street. He has one for his home. Mayor Wilson stated that it will not be \$40.00 if he every gets one. Tammie stated that everyone is charged differently, becasue of what business they have. Mayor Wilson stated that this will be a based rate of \$40.00. We don't have a base rate now until we pass it. Stacey Hill stated that there is not a Commerical Business rate set. Mayor Wilson asked for a motion.

John Levenduski made a motion to charge a Commerical Business License the amount of \$40.00. Rod McGary 2nd. All Council members that were present voted Yes.

Fire

Mayor Wilson turned the time over to Scott O'Hare is was fulling in for Jed Pugsley the Fire Cheif. The first thing was the pop machine from the motel eas given away. Jed Pugsley wanted permission from the town council to plug it into the outside outlet at the Fire Station. The machine will be operated as a fund raiser for the Fire Dept. Jed will stock it and maintain it. Mayor Wilson and the Town Council agreed that it would be fine for them to plug it to the Fire Station. The county has implemented a Stage 1 fire restrictions. Jed had suggested that that town does the same. Jed sent a paper with the number of order #BRCL02204 which states that thee is to be no opened fames because of how dry it is. Scott O'Hare read what was on the paper out loud for everyone there to hear. This has been approved by Box Elder County and Jed would like us to follow the same plan. Jed stated that he working on setting up training for this Fall/Winter. Jed will appoint a training officer and work with the Utah Fire and Rescue Academy it is (free) to establish course and training. Will have some small initial costs to get going, but then the department will then own training materials going forward. Jed will be working on ordering department t-shirts and ball caps. As well as a few other department expenditures. Will keep the purchase under the \$500.00 threshold as allied under approved department guidelines. Jes is still working with Idaho to establish MOU. New contract with Idaho BLM Incident Command for Initial Attack out of Burley. He is also working with State of Utah Northern Area command to establish the agreement on the border and then w can operate under that agreement. Jed stated that a lot of the department turnout gear has termed out by NFPA Standards. Gear was seen very little use in its life and is still in good condition, but needs

to be replaced as time goes on grants will probably be the only option for such a large expenditure. Scott stated that the fire gear had not been used that much, but will have to be replaced because they are out of date. Tammie stated that the money that they will get from the pop machine needs to go to Stacey and needs to be documented and she will take it to the bank and put it in the fire department fund. The money needs to be accounted for. Jed can bring the receipt to Stacey and she will take care of it. Tammie doesn't want there to be any questions. Tammie stated that the electrical bill comes out of there budget anyway. So we don't need a motion for this. Rod McGary asked if they will have it secured so no one can take it? Scott and Jed are looking into it they are trying to get a cage for it so it will be secure. Jonathan Gamble stated that the pop machines can also be bolted down like a safe so no one can take it.

Mileage Reimbursement/ The State pays .38 cent a mile

Mayor Wilson asked Tammie what the mileage reimbursement was for the town, is it .31 a mile? Tammie stated that it was .50 cent a mile. Mayor Wilson skipped this and went on with the meeting.

Weed Control/Free

Mayor Wilson stated that everyone should have a colored paper with weeds on it. Max Huggins the Mayor of Portage, is in charge of the weed control. He goes around and talks to all of the cities and towns and tries to get the Mayors to do this for there towns. Mayor Wilson showed everyone a paper of different weeds that we have in our valley, if we have these weeds we can get free chemical to kill them. Scott asked if this was for private property as well? Mayor Wilson stated if you live in the community you can get this free chemicals to kill weeds. They want us to go to Elwood and get the chemicals in containers and bring it back and spray the weeds and get rid of them. They will mix the chemicals for there weeds that are on the papers. Scott stated that Rod Arbon had spent \$800.00 on weed spray this year. Mayor Wilson told that council that Rod came in on Monday and she gave him this paper, so hopefully he will look at it and get free spray for the Town. Mayor Wilson stated that if you have a larger place on your property that will take forever to spray they will come out and help you spray the weeds. Rod McGary about what the chemical was and what it will do to the livestock and the water? Mayor Wilson stated that it will kill everything! She wasn't sure of what the chemicals will do, but will ask. Mayor Wilson stated that it was from the USU Extension office, and she didn't think that it was harmful to livestock and the ground water. Mayor Wilson asked if anyone wanted to be in charge of this? Mayor Wilson stated that it is free and we like free stuff. Mayor

Wilson stated that she would look around for someone to be in charge of this. Stacey Hill stated that Rod Arbon had some sprayers but we don't know how many, we could probably use too.

Council Position

Mayor Wilson stated that Garrett Wirick set is up for someone to full. Mayor Wilson asked if anyone on the council had any one in mind? Rod McGary had a lot of suggests but they are on the outside of town. Scott O'Hare taked to two people in town and they both weren't able to do it at this time. Scott asked John Levenduski if he had anyone in mind? John stated that he had talked to some town residents and they weren't interested. Mayor Wilson asked why can't we extend the town limits? Tammie stated that we can but there will be a lot of people that will fight the town from doing that. Stacey Hill will have to call Marla Young at the Brigham office to see what the next steps are. Scott O'Hare stated that we should table it for next month. Tammie stated that we should post it and see if we have any interest.

Pro Term Mayor

Mayor Wilson stated that we need a Pro Term Mayor if she is gone. We need to have one in place. Scott stated that he thought it was the next people that had been on the council the longest. Tammie stated that we just need someone to do it. Mayor Wilson stated that we really need someone in place. A Pro Term Mayor will be 2nd in command if the Mayor is unavailable. Mayor Wilson asked does it get voted on? Tammie stated that the council will decide. Mayor Wilson asked who wants to do it? Someone asked if a council member has to do it. Yes, someone on the council. Scott O'Hare stated that he will be Pro Term Mayor.

Rod McGary made a motion that Scott O'Hare will be the Pro Term Mayor. John Leveduski 2nd. All council members that were present voted Yes.

New Fence for the Park/ We have a budget

Mayor Wilson stated that we have a budget for the park. The old fence that is there is falling apart and it is going to stab someone if it is not fixed. Mayor Wilson talked with Ryan that works for Simon at Ocean Star and Simon has given us a budget of \$10,000. Simon doesn't want a fence like his because it is starting to rust. That the town should do something else. Mayor stated that the fence will come out front and go up past Mollie's. Mayor asked the audience that was present if anyone was against the town taking out the old fence and putting it somewhere else? Tim Heyder stated that we need to talk with Eric because the fence has been there for 80 years. Tim Heyder stated that the fence in the front can't be moved, even though it is falling apart. Scott O'Hare stated that it is a hazard right now. Tim Heyder stated that you can improve it but you can't remove it, because it is a historical site. Mayor Wilson asked Marianne if she would look in to this for us. Tim Heyder stated that he was going to remove it at one time but Eric said that he couldn't because it was a historical site we can fix it or improve it but we can't remove it. Scott stated that it is a hazard so he will put caution tape around it so no one gets hurt. Scott talked to Phoenix that owns Mollie's if the town could get 2 to 5 feet from the chain link fence. Scott stated that the trucks are backing up and hitting the fence. Scott stated that "K" rails are about \$100 to \$130 for one that is what we have at the town. Scott wants to put them in front of the new fence so it will not get destroyed by the trucks. Jonathan Gamble suggested that we use Arrow Molding in Brigham, Tammie stated that they are ones that we get our garbage cans from. They sell some that are plastic and you can put sand or water in them and they will not move.

Stripping the Park and Town Hall Parking Lots and Fire Station

Mayor Willson asked if anyone knew how much that it would cost to have this done? Scott stated that the guy came out to give us a bid, but he has not got back with him yet. Scott stated that he looked at the parking lots for both the town and fire station. Scott stated that the guy is looking to see how much it will be to redo the whole parking lot. Tammie stated that we could look into the CBDG grant to see if we could get some money from them to fix the parking lots for the town hall and the fire station. Scott stated that the park parking lot needs to be cleaned and then it could probably be stripped, the chipping is coming off where the county has chipped the road. Scott stated that they were supposed to get a bid to him but he hasn't received one yet. To fix the parking lot they were going to break up the old asphalt and put it back down and smooth it out then put newer asphalt on top. Scott stated that it probably will be really expensive. Scott stated that as soon as the bids come out he will email it to everyone.

Just Serve

Mayor Wilson asked if anyone knew what Just Serve was? It is the whole church is parting with just serve they want us to do a service project one for each month for a year. Mayor Wilson stated that she doesn't see that happening. Mayor Wilson would like to see some new benches

to go up to the Cemetery so that people can go up there and set on those benches. Mayor has been up there and it is so peaceful. Rod McGary stated that he has looked at the just serve for the bulletin board that Keith Thompson and James Beagley are building to show where people are buried. He stated that just serve is for a collection of projects that people put on the website to see how many people would come and help put the project together. Mayor Wilson stated that it is in Commemoration of 9-11. Mayor stated that it goes from September to September next year. She stated that she would really like to have benches up to the Cemetery. She also stated that if you download the app Billion graves our Cemetery is on this app. When you click on Snowville Cemetery on the orange dot it will tell you how is buried there. Some one took hundreds and hundreds of pictures. This app has all the Cemeteries in the Country. The app is free.

Offensive Business

Mayor Wilson stated that we have a ordinance of offensive businesses junk or salvage yard that is in the town limits. He wants business license. Mayor is hoping that he will sell it instead. If the sell don't go through we can look at. The town council may require investigation of any existing offensive business. The town would have a public hearing on this matter. Mayor Wilson copied pages from the ordinances and gave them to each of the council members. Mayor is trying to negotiate the point of sell first. Scott O'Hare stated that in the mean time he needs to stop bringing stuff in all hours of the night. Mayor agreed. Mayor Wilson asked the council if they want violations written on it? Scott stated that we should have a letter sent to him telling him that he can't have bring any more stuff on the property. Scott stated that he needs to stop it is not zoned for that. It is not zoned for Commerical. He can't have water or septic. There is no reason the he needs to bring the barbwire in that the State is replacing going East. Mayor Wilson stated that she knows that no one wants a junk yard in there town she hears everyone loud and clear. We have done (2) violations last month with the trailer one was one 600 North there was stuff blowing everywhere. That is almost taken care of. The other trailer has until the end of August to clean one of the trailers up and then take care of the other trailer in September. There was an asset warrant for him because he didn't show up for court. It will cost him \$4,300.00 to have the trailers moved. then those two trailers will be gone. The reason that the town has not written a bunch of violations is because this is the first time that we have ever enforced them, this is the first time that we have used the attorney. Mayor really wanted to see the process to see how it worked. If we get to go to court, if Blair was going to make it worth our time which he has, he did a wonderful job, Mayor Wilson is very pleased. Blair charges us \$1,200 a year, \$100.00 a month and it is worth every cent, and will do as many of these as the town wants. Mayor Wilson proposed that she will write up the violations for the junk yard. They are very difficult to write up. The trailers by Deleberts was 13 pages, the other guys was 11 pages. Mayor stated that they take a lot of time you can't just send pictures. Mayor stated that she will only do (2) violations at a time. She will start the junk yard. She stated that it will probably be 20 pages long. Scott stated that there needs to be two more but

we will bring it up next town meeting. Scott asked if the letters are written us by us, then sent out to the citizen that is in violation. Mayor stated that it was correct. Mayor will give them 30 days to clean it up, but if they don't they go to court. A copy is sent to the citizen and one to Blair. If they don't show up they have an arrest warrant. Mayor stated that we are getting things done. The question was asked, What is a salvage yard. Tim Heyder read an ordinance that talked about this. Mayor Wilson stated that she will do one for the junk yard and the other one for his house. Mayor stated that she will work on those this week. He will have 30 days to clean it up or he will go to court. Mayor is really pleased with Blair Wardle he know his stuff and he is a good guy.

EMC

Mayor Wilson stated that EMC stands for Emergency Management Communications. Mayor has been going to the meeting for the EMC, we already have one at the grade school, 1610 AM Radio. It is something that they have already installed for a AM radio, the frequency in 1610. If you go there now it is going to just say testing 1,2,3,4,5. Some people from Brigham are suppose to come up and show us how to program it. It is going to be used for if the cell phones are down and we need to get the word out to the residents we can use this to tell what going on. We will be able to broadcast stuff about the town, highlight our business, talk about anything we want to. It will be good for travelers coming through. When your traveling you see those signs that say tune into the local station information. Mayor went to a meeting on July 19th. Mayor stated that they were suppose to have another meeting but Mark couldn't make it so they haven't one. Mayor Wilson wanted to know if we have any hand held operators, Reagan Marcotte is one. They have a command center that the sheriff's office use because their dispatch went down. They really couldn't do a lot of demonstration because the things they were showing them were being used.

Old and New Business

Mayor Wilson asked where are we on the new software for the water billing? We have a website that is almost up and has everything on it. You can pay your water bill look at the ordinances, but we have to have new software to do that. Stacey stated that she has emailed Stephanie and we have to have 25% down for the software and I have to have you sign a contract and sent it to them. So with in the next couple of weeks we can get that started. Then we will be online. Mayor called the website and had them change the date to the 15th instead of the 1st to pay our bill and they also shut down the website for non payment. Stacey showed Mayor that they cashed the check on July 26th. Mayor ripped them a new one. Tammie suggested that maybe we set it up on auto pay. Mayor Wilson had Scott Wright and talk about

the noncompliance letter for dogs. Mayor Wilson stated that they have fees that are a lot more than ours. Scott Wright stated that the town had a \$25.00 fee the county fee is \$30.00. Scott Wright read from some papers that Mayor handed out to the council. The letter for noncompliance will go out to Frank Vit. This happened last month when the Vit's dogs went down to Abbie Adler's house where they killed 15 chickens and tried to kill a baby goat. Which we have audio of. Mayor stated that this was a letter that was going to be sent out to Frank Vit for the dogs. Stacey and Tammie both stated that those ordinances have not be passed yet and you can not use them, only or ordianaces they we have in place can be used. Tammie asked if the letter stated our ordinances? Mayor said that it didn't. Then the letter can not be sent out. Scott stated that our ordinances the first offence is a warning. All dogs that live in the city limits are to be licensed and have a rabies shot. The second we hold the dog for 24 hours and if the owners don't show up we ship it to Brigham. Mayor Wilson had Scott Wright read our ordinance that is for the town. Scott stated that we have a noise ordinance from 10:00 p.m. to 6:00 a.m. Colleen Hansen stated that there is probably a reason why a dog is barking continuously. There is something totally wrong, they are either in pain, they have not water or something is going on. So I guess we will have to call Scott and have him go over and check it out. Law offices we are being billed \$3,000.00 for Molgard Law Offices services, it is billed once every year, with an hourly rate of \$250.00. Mayor Wilson asked why do we need this attorney. Tammie stated that he was the one that helped us with the new ordinances. Mayor Wilson called him twice before she was Mayor and after she was Mayor he had to look them up. Mayor Wilson stated that we don't pay Molgard Law Offices and get rid of them we don't need two attorneys. Scott stated that we should get rid of Molgard, and just have Blair handed our things. Rod McGary asked Tim Heyder if there were any reason that we keep Molgard? Time didn't think so, Rod was just wondering if there was something in the past that was written that we had to keep Molgard. Tim didn't think so. Mayor Wilson stated that she would call Molgard and talk to him about this. Mayor Wilson was asked where Aubrey was? But she had left. Phoenix is wanting a liquor license no hard liquor. In the ordinances it said that you can't serve liquor 600 feet of a park. Rod McGary stated that if it violates an ordinance you can't do it. Tammie stated that we will have to have a public hearing for that next month. Scott stated that we should have the people come and put in their options of this. Faith Gamble stated that we should also let the stores sell beer on Sunday's. Scott O'Hare stated that we should do a public hearing at 6:00 p.m. for the liquor license for the restaurants. Scott O'Hare stated a beer license. Tammie stated that you can't pass it on that night. Scott O'Hare stated that we would have to redo that ordinance. Tim Heyder stated the you could give him a conditional use permit. (I hope that is right it was really hard to him him). The Gambles want to have the council look at the ordinance that talks about selling beer on Sunday's at the Sinclair and Flying J/ Pilot. They called it the Blue Ribbion law. Kenneth Snow stated that feral cats are still a problem. Mayor Wilson stated that we need to get some traps for them. Scott O'Hare stated is that why we have to buy the traps can't her buy the traps and traps them? Mayor Wilson stated that she didn't what him to shot the cats that is why we need to get the traps. Steven Thomas spoke up and asked Kenneth Snow if he was the one that shot his house cat and cost him a lot of money to have get put back together. There was a huge argument between Steven Thomas and Kenneth Snow. Really couldn't hear who was yelling at who the loudest. Everyone one was yelling at each other. Scott O'Hare asked Scott Wright to get three bids on some live traps for

cats. Scott didn't want people shoot cats. The flag needs to be replaced at the town hall. Scott stated that he will talk to OSI to see if we can use the lift to fix the flag. The last thing is the office, Scott stated to be in that office by yourself you have to be bonded. You can be in there but you have to be bonded. Stacey or Tammie have to be in the office with you because there is too much confidential stuff in there. If one of us goes in there and something happens they will be in front of a judge not us because they are responsible for the stuff in the office. James Beagley stated that you can not shoot anything around a school. Kenneth Snow stated that it is a toy. There is another argument with the cat problem again. Scott O'Hare asked Marianne about the light pole if it was coming because the light on the Stop sign are not working.

Scott O'Hare made the motion to pay the bill John Levenduski 2nd. Water software, Rocky Mountain Power, Verizon, and Stacey Hill. All council members present voted Yes.

Scott O'Hare made a motion to Adjourn. John Levenduski 2nd. All that were present voted Yes.

1 Hours 54 minutes 25 seconds

Stacey S. Hill, Clerk/Recorder
