- Once construction drawings are approved, a completed application for final plat approval and the required fee of \$250.00 is then submitted to the Planning Department by no later than 12:00 noon on Wednesday two weeks before a Planning Commission meeting. A paper copy of the plat will be submitted to the City Engineer for review. The City Engineer will red line the plat and email the subdivision engineer of required changes that need to be made. If a plat is still not ready for the City Engineer's signature after the second submittal, an additional fee must be paid before the Engineer performs another review.
- Once the City engineer has signed off on the plat, approval of the plat will be placed on the next Planning Commission agenda.
- A recommendation from the Planning Commission is then passed on to City Council. The City Council then considers the plat for final approval at the next regular City Council meeting.
- Once the City Council has given approval of a final plat and adequate financial security is in place, the developer may schedule a pre- construction meeting with the City Public Works Department. Construction of the subdivision may then proceed.
- Once the subdivision infrastructure is built and preliminarily accepted, the subdivision may be recorded.
