

The Town Council of Snowville Town held its regular monthly meeting at the Snowville Town Hall on **Wednesday 14th September 2022.**

Council Present

Mayor Gwen Wilson

John Levenduski, Council Member

Rod McGary, Council Member

Scott O'Hare, Council Member

Tammie Morgan, Clerk

Stacey Hill, Treasurer/Recorder

Others Present

AJ Morgan, Tim Heyder

Colleen Hansen, Scott Wright

Jonathan Gamble, Heather O'Hare

Faith Gamble, Kenneth Snow

Marianne Reiner, Heather Baldwin

Carson Morgan, Blair Wardle, Dave Smith

Demeare Wright, Mike Morgan

Jed Pugsley, Shane Larson

For the Public Hearing, everyone was welcomed and Scott stated that it was to discuss letting Mollie's Cafe` have a beer and wine license. The other one was to go over the blue ribbon law to let the stores sell beer on Sundays at Flying J /Pilot and Sinclair gas stations which are located in the town limits and if it passed it would be for Mollie's Cafe` as well. The council opened the floor for discussion. Tammie stated that when someone talks please state your name. Mayor Wilson said that the owner of Mollie's Phoenix Stephens will not be attending because he called the State and found out that to get a license from the State you have to be 200 feet away from a public park, his front door to the park is 175 feet. Mayor Wilson stated that he will not be able to get a license, not unless he expanded his business. Mayor Wilson said that we should move on to the next item of selling beer on Sundays. Tammie stated that there will not be any decisions made tonight, just public input. Kenneth Snow said that Phoenix Stephens has also bought Ranch House. Mayor Wilson stated that he has not bought it yet. She talked to Phoenix today. Scott O'Hare stated that he didn't ask to sell Beer and Wine for The Ranch House, he just asked to sell it at Mollie's. When he called and told Mayor Wilson about the State law he never asked about the Ranch House. Scott O'Hare stated that we can't talk about that right now, but will talk about the Blue Ribbon Law. Scott O'Hare stated that this wasn't a debate, this was to get public input on the matter. This public hearing will go on until 6:15 p.m.

Johnathan Gamble stated that he is a resident of Snowville. He also stated that he is a Manager of Sinclair. He said that he can go to Salt Lake and purchase beer on Sunday. Why can't he

purchase it here also? He said that we have a lot of people that drink in town, when he works on Sunday he had a lot of beer stacked behind the counter. He stated why someone drives 400 miles to purchase beer or 34 or 40 miles to Malad to buy beer, and have them drink and drive all the distance. He stated that we are putting ourselves at risk for an accident. Instead of buying beer in Snowville, they go to their homes and drink it there. That way they are home and safe and not hurting anyone else. He stated that you can also go to Tremonton and buy beer on Sundays. It is one of the more strict ordinances in the town limits it is unnecessary because you can go anywhere and buy it. He stated that all the town is doing is causing a bigger problem here. He stated that there would be a higher risk of accidents. He said that we don't have any law enforcement to catch the people that have been driving drunk doesn't mean that is not happening.

Tim Heyder a resident of the Town. Tim stated that he disagrees with the selling of beer on Sundays. For these reasons, If people want to buy beer they can on Saturday. He stated that you can't go to Tremonton and buy beer on Sundays. He stated that the only town in Box Elder County that sells beer is Corinne. He stated that the council will have to check into that. He stated that they can go to Malad and buy it. He also said that if you sell beer on Sunday you have a lot of people traveling they will buy beer on Sunday. If you have been in your vehicle you will be drinking that alcohol. That opens up people to travel a lot of miles drinking in their cars. Tim stated that there is no law enforcement out here, sometimes we don't have any law enforcement out here. He said what is the big deal if you have to buy beer on Saturday instead of Sunday. He stated that this town has never sold beer on Sunday. He stated that he has gone around town and talked to some of the people that live here, and they don't want it either. He stated that he knows that it is an inconvenience for Flying J and Sinclair to have to lock up their coolers, it is part of Management to put signs up stating that there is no beer sold on Sundays. He stated that the council will have to go into the ordinances and change the ordinances. he stated that the ordinances state that you can't sell beer on Sundays. He stated that you will have to go through the whole process of changing the ordinances. He stated that they have to be all updated before that will happen. He stated that the town will allow a lot more people to have access to buying beer. He said that he can see a lot of people traveling to Snowville to buy beer. He stated that it could cause a lot more congestion, he asked the council have you ever looked up there and seen trucks and cars lined up at the stop sign. He stated that we need to follow the current ordinance that we have in place.

Heather O'Hare is a resident of Snowville. She stated that we will have a lot of people in our town buying alcohol. She stated that she has worked in the alcohol business, where she has needed security constantly where alcohol is present. She stated that we have no law enforcement. She stated that every time there was an event she had to have more security

there because there were always problems with alcohol. She stated that if the council lets everyone buy beer on Sunday that you will need to have more law enforcement and security.

Kenneth Snow is a resident of Snowville. If we are not having a bunch of problems with drunk people driving and hitting telephone poles, six days a week. What the Hell is one more day going to do? (He pardoned his language) He stated what is one day going to make a difference? If we are not having a lot of law enforcement in this town. It takes 20 to 30 minutes to get here with no offense to law enforcement. We live in a town out in the middle of nowhere. What is one day going to make a difference? Do you want them to drive to Malad or Tremonton? He stated that he is a recovering alcoholic. He said that he had driven drunk and he was picked up for it. He got caught because it was Sunday and he went to Malad because he couldn't go two blocks from his house to buy beer. He stated that he is thankful that he was caught, but just saying it is a lot harder driving through the canyon than having his buddy take him to the gas station. Instead of going to Malad or Tremonton to buy beer, it would be safer. He stated that he has never lived in a place where that has been an ordinance. He said that he has never heard of a place where you can't buy alcohol on a specific day. Said that he thinks that it is crazy not to sell beer on Sundays. Heather O'Hare asked, does anyone know how many places in Box Elder County sell beer on Sundays? No one responded. Heather stated that why is everyone so worried about it then.

Jonathan Gamble stated that he lived in Salt Lake his whole life. He has lived here for seven years. He has been a bouncer at security nightclubs. He stated that they are not a club or a secured area. We are a township, we are acting like it is a gated community. What is wrong with a driver being down for 18 hours, pulling in on Sundays because that is when their time runs out and having a beer or two while he is going to go to bed in his truck? He stated that this is one of the main reasons that he brought this up is because of the truckers. He stated that the drivers deliver everything for us when they want a beer they can't buy on Sunday. Can't they have one to relax? Why is the town making it so hard for the drivers?

Tim Heyder suggested to Mayor Wilson to go to the Mayor's association and ask the other Mayor about their towns. Ask the Mayor if their communities let their stores sell beer on Sundays. Mayor Wilson said that she would. Scott O'Hare asked if anyone else had anything to say about this matter. No one responded and the Public meeting was closed. Scott stated that the time was 6:16 p.m.

Mayor Gwen Wilson called the meeting to order at 6:16 p.m. She welcomed the council and all others present. Mayor Gwen Wilson led us in the pledge of allegiance and Scott O'Hare offered the opening prayer.

Scott O'Hare asked to make a change to Agenda item #4 the Allen brothers emailed Scott and they will not be attending this meeting Scott will read their email when the council gets to #4. Rod McGary made a motion to accept the plan. Scott O'Hare 2nd. All council members present voted yes.

Scott stated that at August's meeting that the minutes state that there was a lot of arguing and it was too hard to determine who was talking because it was a heated subject, Scott wanted that on the record. Rod McGary made a motion to accept the minutes last month. Scott O'Hare 2nd. All Council members present voted yes.

Deputy Martinez

Deputy Martinez apologized for missing last month's meeting. Mayor Wilson asked how the new baby was doing. Deputy Martinez stated that he was already 4 months old. He said that there were 26 calls to Snowville with some extra patrols. Deputy Martinez stated that there were no traffic stops that were made in Snowville. Deputy asked the council if there was still a problem with speeding in town limits. Scott O'Hare stated that there was. Scott O'Hare asked Deputy Martinez why there were only three traffic stops in the town. Deputy expanded that when there are extra patrols when they do traffic stops. They try to spend an hour in the town doing that. Deputy Martinez stated that he had been on some of those extra patrols and he didn't get anyone. He stated that some do 10 over, 15 over, or 3 over. Mayor Wilson stated that she is worried about the stop sign that they never stop at. Many people run the stop sign. Scott O'Hare stated that you can sit here at Mollie's and see 4 or 5 trucks run through the stop sign. Mayor Wilson asked and said they don't stop. Deputy Martinez stated that he has put out emails about the problem that we are having in town. Scott stated that he had an incident where a sheriff's deputy was parked under the trees at the church. Scott said that he sat there for a good 30 minutes. Scott realizes that you have paperwork to do so he didn't go ask him why he was sitting there. The town has asked for more patrols and we are not getting them. Kenneth Snow asked deputy Martinez about having someone out here to help with traffic control and other things. Scott O'Hare stated that the town of Snowville is incorporated. We would have to hire someone to live out here. The deputies can help with assisting with the ordinance but they can't enforce the ordinance. The deputy stated that the best thing is to call it in so they have a time that it is happening and they can watch. Rod McGary asked the deputy if we do see something that is offensive what should we do to record it with a cell phone? Deputy stated just call it in. If you have people speeding through the stop sign just call it in, for their records. Scott stated that you put something across the road about 2 years ago that showed the time that people were speeding. Deputy stated that he would take it back to the Sheriff and see what he could do.

Allen Brothers

Scott O'Hare stated that they were asked to be put on the agenda for tonight. Scott stated that they owned the property just South of Jed and Camie Pugsley's Exit 7. They want an easement to go onto their property as at this time they are landlocked. The UDOT will not allow them entrance to their property, they need to get ahold of Jed Pusgley and see if they can agree to have access to their property. They were going to come here to the meeting to ask the town to give them a cross-easement between the two owners. Scott told them that the town doesn't get involved with private properties. Scott read the email to the council that they have been gathering information for the property. They decided not to attend the meeting tonight. They started to inform the council that they will not be here tonight and thanked us for our help with this matter.

Blair Wardle

Mayor introduced Blair Wardle, who is our prosecuting attorney for Box Elder County and the town. Mayor Wilson stated that she appreciated everything that he has done for her and the town. He will introduce himself and Mayor Wilson stated that if anyone has any questions they can ask him after the meeting. Mayor stated that he handles our ordinances violations and prosecutes them in court for us. Mayor Wilson writes everything up and he approves it, he tells her what to put in and take out, it is delivered and then he takes care of it. Blair stated that his contact is limited to the town. Blair stated that he was talking to deputy Martinez that if there are any speeding, misdemeanors, or anything like that. Blair will prosecute that for the town of Snowville. If it happened in Snowville the revenue that comes out of that town will get a little revenue back from that. Blair stated that is the benefit of having a prosecuting attorney. Blair stated that having a prosecuting attorney is not a revenue source. He is not concerned about bringing money in for the town. Blair stated that fines and fees are part of the justice system that has been set by the judge. Blair stated that he represents everyone in Box Elder County except Tremonton and Brigham. Some towns deal with a lot of animal control like Plymouth, here in Snowville it has been only zoning stuff. If a complaint comes up to the Mayor or the town council a letter will be sent out for violating this ordinance with photos of the problem within 30 days to fix the problem. If they fix the problem that is where it will end. But if that is ignored within the 30 days that have passed Mayor Wilson will send it to Blair and tell him what is going on and then he will send a paper to the judge and they will have to come in and see Blair and the judge, they will still work on fixing the problem at that point they will be looking at paying fines. Blair stated that if you get a letter from the town get it taken care of instead of going to court. Blair stated that they have had some court cases already. Blair said again it is not a revenue thing. Blair stated that they are not out looking for violations they are just trying to keep the ordinances enforced and have everyone play by the same rules. Blair said that they are just trying to make the community a little better. Mayor Wilson stated that some people need to take it seriously if they get a summons they will go to court. Mayor Wilson said that you need to go to court or you will have a bench warrant out for your arrest. Scott stated that the town council wants to get it cleaned up before it gets that far. Mayor Wilson stated that some

people can't clean it up in 30 days, they have to have a plan. What have you done? Is it going to be next week, not next year? Mayor Wilson stated that the first 30 days are here if they don't comply then the Mayor calls Blair and lets him know. Mayor Wilson wanted Blair to come out so the council could meet him and put a face on him because he represents the town. Blair's full-time job is as the chief deputy for the Box Elder County office. Mayor Wilson thanked Blair for coming out here tonight and so did the rest of the council.

Eric Dustler

Eric stated that he thought it was at 7:00 p.m. instead of 6:00 p.m. Marianne forgot to tell him that the time had changed. Eric stated that Matt Davison for the USDA and Marianne have the PER report done. Eric stated that there should be a check for \$30,000.00 from the USDA for this grant. Colette from USDA wants us to apply for funding and we need to get it in as soon as possible. Eric stated that the grant will be 75-25 or it could be 50-50 percent that the town will have to come up with. Tammie asked so we need to take out a loan and paid 75% percent of that. Mayor Wilson asked Eric what are you talking about the well or the pipes? Eric stated everything. The ozone also. Eric stated that it will be funded all through the USDA. Tammie asked Eric are you going to apply for that grant and Eric said yes. The PER report wants to go deeper with the well. AJ stated that the well is shallow on the West well. Eric brought a study that they had just done for Newton. Eric said that it is a Geothermal study. Eric stated that they can find water through a sonar, they can find water without drilling. Mayor Wilson stated that she thought they were going to do the Ozone on the west well, Eric stated that they want to find something cheaper for the town. AJ said that Rod Arbon called him about a week ago and he went back over the town's property on the East side of town and re-witched it. Rod said that there are 3 springs of water over there. Rod said that he is going to get Bart Neal to come and witch it also to see if he gets the same thing. Eric talked about the traffic beacon. Scott stated that everything was in they were just waiting on one thing to move forward. Mayor Wilson said that it was the electrical panel. Eric said that it was back-ordered. Mayor said that it was supposed to be here in September. Scott asked Eric if we want to have a 4-way stop on that corner can we just change the light lens out from yellow to red? Eric said that it can be done. Scott stated that when we get our property back we can have it as a 4-way stop. Mayor Wilson stated that Mollie's front lot is the town's property and when we get it taken care of we will put a 4-way stop in. Eric asked if the council wanted him to tell the contractor to get the foundation in for the stop light. Everyone agrees to get it in as soon as possible. Rod McGary stated that cooler weather is better for concrete. Eric stated that the bridge needs to be replaced. Scott asked what would the price be now. Eric said that he doesn't know what it would be. Eric said a roundabout estimate of 3.2 million. Mayor Wilson is going to a meeting with UDOT about the bridge. Tammie stated that the CBDG grant is only for \$250,000.00.

Commercial Business Licensing

Mayor Wilson stated that we will vote on making a Commercial license in the town of Snowville \$55.00. Scott stated that it is on the agenda and we have already talked about it.

Mayor Wilson asked for a motion to make a Commercial Business License for the town of Snowville \$55.00. Rod McGary made a motion to make a Commercial Business License for the town of Snowville for \$55.00. Scott O'Hare 2nd. All members present voted Yes.

EMS

Mayor Wilson asked Dave Smith the EMS president to come up and talk to the council. Dave stated that they need to use some money from their budget to go to some training in November. Tammie stated that it needs to be brought up to the council. Dave stated that he doesn't have several how many will be attending yet. Dave has to talk to all the EMTs first to see how can go. He will get back to the council with that information. Dave stated that the conference will be from November 9th through 12th, in Provo Utah. Rod McGary asked what the name of the training was. Tammie said the SUMMIT. Dave stated that the EMTs have attended it last year. Dave stated that if an EMT will attend for 3 days it will provide them enough hours it helped with the CIME hours. Scott asked for a price on how much it will cost for each person. Dave stated that he didn't have a price yet but would get one or it will be about the same as last year. Dave stated that he will have numbers for the next town council. Scott stated that we will vote on it next town council. Dave was just giving the council a heads-up. Mike stated that we need to get the hotels set up so they will not be gone. Tammie stated that she would get them reserved for the EMTs. Dave stated that he signed an agreement for our fiscal year grant, which is \$2,200.00. Tammie stated that they usually use this money for the conference. Mayor Wilson asked do you need extra money from the town. Tammie said no that they have enough in their budget. Dave stated that he also set a report of the ambulance pass inspection and it will be kept on file. Rod McGary asked what is the update on the new ambulance. Mike stated that he didn't have an update. Scott asked if the new ambulance was being brought to Salt Lake to be outfitted. Mike stated that it was. Rod McGary asked if there were enough EMTs to be fully staffed. Dave said that they don't have enough people yet and that they need to work on it. Dave stated that there will probably be more classes that will be happening in the wintertime. Dave is telling the EMTs that are on staff now if Someone is interested to let Dave know. Rod McGary asked about how many more people are you looking for. Dave stated that he would be happy with 4 or 5 more people.

New Fence

Mayor Wilson stated that as you can see the new fence is very expensive. Mayor Wilson said that we were given a limit of \$10,000.00. Mayor Wilson called the historical society the bell is a part of the historical site the fence is not. Mayor stated that is what she folded and she is going to get it in writing. Mayor Wilson asked for 3 bids and she called one place, that said they would not do it. She called another company and they asked for pictures and dimensions but didn't

send a bid. Mayor had the High Tight fence company come out and measured everything and he gave Mayor the bids. Mayor also asked for a bid to put in the back of the town hall building to fence in trash cans, that is what John wanted the bid for that is \$4,912.30. Scott asked why we have 3 bids from High and Type. Mayor Wilson stated that Commercial grade is better than residential will not bend and is a different quality. Scott asked where does the fence start and where does it end? Mayor stated at the concrete pad going south and then going back towards OSI's dance house will be a big "L" shape. Tammie asked if Mollie's is going to help us buy some of this new fence. Scott stated that they should be he has only talked to Phoenix Stephens about buying 5 feet of property to put K rail so the trucks will not hit the new fence. Scott stated that Phoenix Stephens hasn't gotten back to him yet. Mayor Wilson told the council to look it over and we can talk about it later. Mayor Wilson stated that the bid is good for 90 days. Scott stated that if the fence is ok to take out can we use it to put around the bell to keep the kids from climbing up by the bell? Mayor Wilson stated that every little pole is drilled into the concert. The bids include removing the old fence.

Mayor Wilson wanted everyone to know that John Levenduski has sold his property and they have moved. She thanked John for his service being on the town council for 5 years, he was over the landfill and dog catcher. Mayor Wilson stated that she has the landfill keys if anyone needs to take stuff to the landfill to let her know. Mayor Wilson stated that we have 2 council seats opened; they have been posted and should be filled next town council.

Stripping the Park and Town Hall

Mayor Wilson stated that she doesn't have this information. Scott O'Hare stated that he had the bids and there is nothing that we can do about it now. Mayor Wilson asked is it that much? Scott said yes it is. Scott said that the park and the town hall will be about \$367,000.00. Mayor Wilson asked to stripe. Scott said no for that it is \$1,200.00 to do the park, town hall, and fire station. When the guy that gave us the bid came out here we have some serious issues with the parking lot. Scott said that all we are going to do is put lipstick on this to make it look good. But we will have some places where people will know where to park. Scott said that they would have to come out and grade up all this asphalt and then put it back down and then return it. Scott said the one bid was \$367,921.00. Tammie said that we might be able to get a CDBG grant to help with that. Scott also said when the guys from Gold Strike came in they said that they would help the town with some money to improve the town. Scott said that he might go in that direction too. Scott said that the stripping would include 25 parking places, 2 handicapped spots, and no parking signs in front of the fire station in big red letters. Scott is going to call them back and ask them some questions because some things didn't add up. Scott said if we want them to come and strip we can. We can vote on this next month to approve it because it wasn't on the agenda.

Just Serve

Mayor Wilson said that the town had one. The church and relief society also had one. The relief society made quits. The young women and men had a food drive. The project that the town did

was we got a bench from a church it was made in 1871 in Salt Lake City. Mayor Wilson had the bench taken up to the Cemetery and put up by the flag pole. She said that Kay Harris took polyurethane and secured that bench to the concrete pad. She is hoping that someone has some bolts that they can drill holes in the bench so it will not get blown over by the wind. Mayor Wilson stated that it is really peaceful to go up there and look over the valley. She said that they are having another bench built and it will be in between the two trees that are up at the Cemetery. Mayor Wilson said that if you guys want more benches built just let her know. She said that you could put a plaque on the bench in the honor of someone. Mayor Wilson would like to have 4 up at the Cemetery altogether. Garn Larkin said that he has all the things to build a bench with he just needs someone to come and help him. Mayor Wilson stated that they want us to do something every September for Just Serve.

Update on Ordinance Violations

Mayor Wilson stated that we have an update on some ordinances violations. Mayor Wilson said that one case has been dismissed he did everything that he was supposed to do. One that is in court right now, and two that have until the end of September to let the Mayor know what they plan on doing. She said they have a 4-page letter on one of them, that the council will talk about. She really wasn't expecting them to get it all done in 30 days she just needed a plan for them on how they were going to take care of the problem. Mayor Wilson stated that she hasn't heard from one of the people that received a violation. She stated that it is a lot of work one violation was 30 pages long, and they are a lot of work to do. She said that she doesn't want to do one every month. She doesn't want to do any more until she gets these three over with. She stated that she would like to wait until October to start more. She stated that we have our hands full. She asked the council if that was ok. Scott stated that we want to work it out with people before they have to go to court. Mayor Wilson said that the other violation was 11 pages. Scott stated that he could help if you need him to. Mayor Wilson also stated that the violations have to be done right or they will be thrown out of court. Mayor Wilson works closely with Blair on every violation. Mayor stated that she has gone to every court hearing that they have had for the town. She said that it would be easier if she did them. Scott stated just let us know when you are ready for the next one.

EMC/ Radio

Mayor Wilson stated that she goes to the EMC meetings once a month at the sheriff's office in Brigham City. She is the emergency person because no one else wanted to be it. We talked about it in February. We have AM radio it is 1610 if you tune in to it the radio will say testing. Mayor Wilson stated that we are able to program the radio to say welcome to Snowville we have lodging, food, and fuel. We can say that there is a town 35 miles away. It is not commercial. If there is an emergency the county can override the town. Mayor Wilson stated that they have asked everyone to download the app. Code Red Alert. You can put your address in with 5 miles or 10 miles around. It will warn you if there is an emergency. The county is over

this app. Scott stated that we are going to get a sign that says tune into 1610 AM and if there is a real emergency we will have a flashing yellow light for the residents to tune into the radio station and hear what the important message is. Mayor Wilson said that last week the guys from Brigham came up and helped us with the programming. Scott said the let everyone know that the radio is 1610 AM. Stacey asked are they going to bring a phone. Mayor Wilson said that they will bring one out next Monday. It was funny when they opened up the box and there was no phone where it was supposed to be.

Dog Ordinance

Scott stated that in the dog ordinance 5-1-6 letter B states that the dog will be put to death. Scott wants to have this changed in the dog ordinance. Scott asked if we could vote on this tonight. Tammie said that we will have to have a public hearing next month on why everyone would like this part of the ordinance changed and rewrite the ordinance. Scott would like to request to take out "putting the dog to death". We aren't equipped to put a dog down in this town we should not have it in our ordinances. Scott said we need to stick with what we normally do with a dog and if it kills livestock we will have it removed from the town. Scott would like to add a fine we can discuss the amount on how much we would like to charge the owner if it kills livestock. Maybe we can have the fine be \$500.00 and have \$250.00 go to the person that lost the livestock and \$250.00 go to the town. Scott said that we had something like a dog killing livestock about a month ago. Blair said that there are state codes that will take care of stuff like this. Blair said that he has seen the judge order a dog to be put down, but that was once in the whole time that he has been working with the courts. The city can't put a dog down. Mayor Wilson asked Scott about the contract that we have with Brigham City, we don't have a contract with Tremonton City. Scott asked do we currently have a contract with Brigham City. Scott asked Scott Wright the dog catcher. He said that we don't have no in place. Stacey Hill stated that we do have a contract with Brigham City she has paperwork in the office from when Tim Heyder was the Mayor. Mayor Wilson said that Brigham is changing a lot of the ordinances especially the ordinances with the dogs. Scott stated that we don't have any contract with Tremonton City. Scott recommends that we stop the progress with Tremonton, and go talk to Brigham City. Scott said that if we take a dog out of Snowville that he would like it to go to a bigger town like Brigham, so the dog would have a chance of being adopted out. Scott also said that we have tried for two years to get a contract in place with Tremonton and it has gone nowhere. Right now we have a dog in Tremonton that was taken there, and they were supposed to call Scott if it didn't get adopted out. Demerae stated that she tried to call and talk to the animal control officer in Tremonton and he didn't answer they were supposed to hold the dog for 5 days. She also tried to call the Tremonto City offices but couldn't get anyone to answer. Demerae left several messages to find out about the dog. Tammie said that we will have to have a public hearing where were are changing the ordinance. Scott agreed. Scott wants to discuss not having a contract with Tremonton.

Cemetery Sexton

Mayor Wilson stated that Shanna Terry was the Cemetery Sexton for Snowville. She is no longer it was news to her today. Because Mayor Wilson made a huge mistake. She is going to tell us what happened. When Dean Hunt was out her trimming the town's trees. Mayor was helping him Shane was here helping also, they were taking down the light from the trees. Mayor was in the storage room and when she turned around Shanna Terry was standing there with this big white book. Shanna handed the book to Mayor and Mayor said to her we are going to miss you. She told her thank you so much. Mayor Wilson can't remember what she said she just assumed it was the book to the Cemetery. Will it be the book that Alan had for the water? So Mayor put on the agenda that we need to hire someone for the Cemetery. Then Shanna sent her a really messy text that Mayor said she deserved. Mayor has very thing straightened out with Shanna now she apologized to her several times. Shanna has decided that she doesn't want to be the sexton over the Cemetery now. She has a lot going on. So Mayor would like to get someone else to take her place. Mayor said that it is a paying position, Shanna said that she was getting \$10.00 an hour, but now we do \$15.00 an hour. Mayor said that she doesn't know how many hours that she did every month. Shanna told Mayor that there is a man that she had been working with that wanted to replace some headstones of his relatives the stones have been there since the 1920s and the new stones have more information on them. Shanna is letting the man do it even though he is not the executor of the graves he is a relative. Shanna told Mayor that she and Alan used to put dirt under the headstones when they were sinking. Mayor said that she didn't think that they were supposed to do that. Scott asked who digs the graves for the Cemetery. Stacey said that Bart Neal digs the gravel and Rod Arbon fills it back in with his tractor. The council asked Tim about this matter. Tim said the sexton goes up to the Cemetery with the family and the family picks out a plot. Then she measures out the grave and has Bart Neal come and dig the plot if he isn't available she finds someone else to dig the plot. He said that the town is responsible for the plot. Once the headstone is put in place the family is responsible for that headstone. Sometimes the family will come to the town and ask them to help them. the reason the town doesn't take that responsibility if someone breaks that headstone the town will have to replace it. Shanna kept track of all the plots up to the Cemetery she has a map of all the plots that have been sold. The center section is closed and they can't buy any more in that section. Scott asked if the town is responsible for that grave if it caves in. Tim said yes the town is. Mayor Wilson asked if it was our responsibility to let the family know that the grave is sinking. Tim said if the headstone is sinking then it is put in the wrong spot. Scott said that he was talking to a citizen of the town and we should have a caretaker of the Cemetery and they would take care of the graves and all the paperwork that goes along with it. Tammie said that the Sexton's job is very important. Sometimes you are very busy and then you will not have anything for 6 months. It just depends. Scott wants the caretaker to be on a different pay scale during the months of May to September. Tim said that in the middle of the winter there are rods in the ground that show you where the plot numbers are you have to use a metal detector to find the cup with the plot numbers on them. Everyone agrees that we post the job.

Old and New Business

Scott said that we should put together some SOP for each employee in the town. We should have a SOP for every position. Tammie said that there are already ones for the Mayor, Clerk, and Treasure. Then everyone will know what is expected of them. Scott would like to have an updated SOP for everyone that works for Snowville Town.

Mayor Wilson does anyone have anything to talk about? Scott Wright said yes. Scott Wright resigned as the dog catcher for Snowville Town. Mayor Wilson and the council thanked Scott Wright for his service. Scott asked Scott Wright if he had any bids for those live traps. Scott Wright said that he didn't. Scott just wanted to know if he needed to get some or not.

Jonathan Gamble asked about the Cemetery position. He said that the family is the only one that is supposed to do anything with the graves. Scott said the town is responsible to keep that grave level. The headstones are the families responsible to fix.

Kenneth Snow asked why the fence at the park hasn't been blocked off. Last meeting the council was going to put caution tape around the fence so no one would be hurt. It was talkies about but no one has done it yet. Scott said that they just decided to leave it the way that it is.

Jonathan Gamble wanted to talk to everyone on the council after the meeting if that was possible. He said that the sheriff could stay for the meeting. Scott said you can go ahead right now everyone is here. Jonathan Gamble, he is a resident of Snowville stated that last town council that his concealment was threatened. He stated that it was a Constitutional Act. Scott told him to stop for a minute. Jonathan said that Scott asked him to take off his firearm. Scott said we asked you not to bring it in. Scott said did we not have the attorney here today. Jonathan said that he was talking about last month. Scott thought that we resolved it. Jonathan said that his rights were violated. So he said that he talked to the Mayor already. I have the papers ready all I have to do is fill them out and take them to the Supreme Court, Scott said to go ahead and fill them out. Jonathan said that his rights were violated again. He would like to come to a better agreement on boundaries it shouldn't have been allowed. Scott said first off you are not going to stand here and threaten the council. When you said you have papers drawn you threatened. Scott also said that you are threatening when you say we will come to an agreement, that is another threat. It is like you are almost blackmailing us. Which is beneficial for you. Scott said this is our lawyer was here the prosecuting attorney you talked to him off record before the meeting we had a sign on the door that said no firearms if you have noticed the sign is gone Scott showed that he had his gun too. Blair told us to want we needed

to do. Scott stated that he carries a gun also he believes in the 2nd amendment but I still think the buildings still have a right just like the 2nd amendment has a right, but Blair told us that we can't stop you from bringing it into a public building. That is why the sign is off the door you have your gun and I have mine. Scott stated that it is resolved. Jonathan stated that he would like to come to an agreement. Mayor Wilson asked Johnathan want kind of agreement are you asking for. Jonathan stated that he wants to be out of the town ordinance. Jonathan wants to be excluded from any town ordinance. Jonathan said that basely on town ordinances. Jonathan stated that he will pay his water bill on time as everyone should. Scott said that you will not fill papers to the Supreme Court if you and your family are annexed from all town ordianaces. If the town will allow you to live in your camp trailer behind your house. Scott said no you are not going to do that. Jonathan stated that he wants to be left alone. Scott said you are left alone, the ordinances are for everyone, not just you. Scott said that we have ordinances for the town of Snowville, and we have our own ordinances to uphold. Scott said we have had the conversation before Mr. Gamble. Scott said if you feel that you need to take it to a higher place you have all the right to do that as a town council we have our ordinances in place and we have to enforce them these enforcement have not been done we are going to get this town back to where it needs to be we have people complaining because people are violating ordinances so no one gets any special treatment any more anyone living in the town has to follow the ordinances. Jonathan said that you said you are in a town corporate and all towns follow State laws. Some of those ordinances violate State law. Scott said according to our attorney they don't. We had the attorney look through all 470 pages of the town ordinances which took over a year for us to do. Over a year. The attorney found no fault in the new ordinances. None. Is it the same attorney that just walked out? Right? Scott said no. The attorney that we had before had no fault when he went over them, all the town council members read through them and went over each ordinance to make sure they were ok and change them where it was needed. and found no fault. Jonathan asked how long ago was that. Scott said that we just put these new ordinances in place in January 2022. Jonathan asked all of them. Scott said that we have had ordinances prior. Scott stated that the mine was coming in and we needed to update them.

The town wanted to make sure that it was covered because of all the people that might be moving in to work at the mine. Jonathan asked so you aren't going to let people live in trailers so they can be close to their job? Scott said no they will not be living on a property in travel trailers. Jonathan said what is it hurting you guys? Scott said it is just not allowed. Scott said that is just the rule. Scott said when we did these ordinances and updated them we had a public hearing for them. Mayor Wilson said in January 2022. Scott said January 2022 we had a public hearing we had copies out for everyone to read we had books lined up for people to look at and read, Do you know how many people showed up? For the ordinances, no one showed up to dispute the ordinances or anything we had books lined up in here. We are not going to send you 470 pages of ordinances. Kenneth Snow said that he has requested that book 3 months ago. Scott said when they get watermarked you can get one. Kenneth said everyone told them to go to the website. There is no website. Scott said this book is here you can come in every Monday from 9:00 a.m. to 2:00 p.m. to read that book. The Mayor is here on Thursday from 12:00 p.m. to 5:00 p.m. then you can go through the ordinances. You can't take the book out this is the town's copy to get the proper information they have to have watermarks on them

first. Then we can send them to you we don't have the proper watermarks on them yet. They have replaced all the other ordinances. they are basely the same ordinances that we have had in the past. We just updated them. For more people coming in. The ordinances for travel trailers have not changed. They were talking about Rod Arbon's trailer. They came to the council and put it on a foundation and it was approved by the town council. Kenneth Snow stated that is all we are trying to do. Scott said you haven't come to the town council. Kenneth Snow said we have come to the town council and you said it is illegal. (People are yelling and can't hear what or who is saying what). Mayor Wilson called the meeting to order. Mayor Wilson said it is not an RV it is supposed to be temporary. It can't be permanent. That trailer is not a travel trailer it is too long. Scott said it can't go to State Park or anything like that. They are for permanent use only. Jonathan said Scott how much he made. Scott said that really is none of your busy but I am on disability. There is a lot of arguing. Again. They keep saying the same thing over and over again. Scott said it is nothing personal you guys are taking it personally. These are the ordinances that are the way it is. Scott stated that the property is in your moms name, and she will have to go to court. Johnathan said that he owes that back part of the property so you will have to come at him. Scott said no if you go on the website the land is in your mom's name. Your name is nowhere on the map. Until that land has been sold and the land separated there is nothing we can do we don't give an address. The County gives the address. If you go to the county's website my name is on my property, Morgan's name is on their property, and your mom's name is on her property. Her name is on the whole thing. Jonathan said it doesn't show you that it is zoned for a second house. Not according to our ordinances. Throughout the county, it is either zoned residential, commercial, or agriculture. Jed Pugsley said that you have to separate it the land is titled and separated. If it is not titled deed or record it doesn't exist. The ordinance state that if you have a property you have to put a double wide on it. Jonathan said that the town is discriminating against them. If you don't have this. That is the ordinance. When you buy property in Snowville you are going to find out what you can and can't do. You need to find out what you can do. Jonathan asked what he is doing so wrong. Scott said you are living in your trailer illegally. According to the ordinances. Jonathan said I am not doing anything to hurt the town. Scott said you are not hurting the town. Jonathan said there is my point. Scott said what is your point. Jonathan said you just said to better the town. Jed Pugsley said if you want to change the ordinances talk to the town council. There is a lot of arguing again. Scott said when you ask a question you can talk to us. Scott said that is why we leave it to the end of the meeting. Now we have talked for another hour, Scott said I will stay here and talk as long as you want. It is not personal. the ordinance has been in place. Jed Pugsley said if you don't like the ordinance call Stacey and get it on the agenda for the next town council. Kenneth Snow stated that he called twice. Stacey said he did but not about this ordinances. Kenneth said that he asked to be put on the agenda. Stacey said no you didn't you asked about the Blue Ribbon Law and The seat on the town council. Stacey said that you didn't ask to be put on the agenda. Scott said if you want something changed we have to have a public hearing and then the council votes on it. They keep saying the same things over and over. Mayor Wilson called the meeting to order. She said the only difference between now and then is that we are enforcing them we are enforcing the ordinances. We have an attorney to do it. in the past, they tried to enforce the ordinances but no one would listen to the Mayor. He would ask them over and over and over and nothing would happen.

But now we have an attorney, and now we are enforcing them that is the only difference. It is still the same we have had to add some stuff change some stuff. Because of the laws. The part about the trailer has always been there. You can't have a single-wide trailer unless it is in a mobile home park. Chapter 28 section 10 says right there. The only way you can have a single-wide if it is brand new is if it is in a mobile park and a double-wide on your own property, at least a half of an acre.

There is a lot of arguing again.

Mayor Wilson closed the meeting.

Rod McGary made the motion to pay the bill to Scott O'Hare 2nd. Stacey Hill with additions. All council members present voted Yes.

Rod McGary made a motion to Adjourn. Scott O'Hare 2nd. All that were present voted Yes.

2 Hour 03 minutes 04 seconds

Stacey S. Hill, Clerk/Recorder
