LOGAN WET RESTROOM

Back

Logan Wet Restroom

The Logan Wet Model is an economical single flush restroom building that is ADA compliant. It is ideal for small parks, measuring 11’ 9” x 10’ 8”. This model is delivered fully-assembled, pre-wired, and pre-plumbed. The Logan has a wide variety of aesthetic choices, enabling it to easily blend with any surrounding. The gabled style roof comes standard with a Cedar Shake finish, but other finishes can be specified. The Logan Model also boasts a variety of finish and color choices. This model comes standard with stainless steel fixtures, but other fixture options can be specified to meet your budgetary needs. The chase area also can be used for storage. **VIEW FLOOR PLAN**
