Location: Spanish Fork City Council Chambers

40 South Main Street
Spanish Fork, Utah

Proposal: Spanish Fork City is closing an existing crossing located on 980 North (Expressway Lane) and opening a new crossing to the north approximately 2,000 feet. The new crossing location will connect the west and east side of Spanish Fork Parkway, providing a new major arterial roadway for east and west bound traffic across the UPRR mainline track. This new crossing will reduce traffic through neighborhoods and provide for a safer crossing which will include railroad crossing lights and gates. As part of this project, the crossing at 2400 East (3400 East / 1600 West) connecting to US-89 will be closed. Closing this crossing will be a benefit to the city due to the geometric challenges which are a safety concern to the city and for citizens trying to cross the tracks.
