 - General Fund was \$10M more than last FY
 - Impact Fees were \$5M less than last FY
 - County Quarter-Cent Sales Tax was \$3M more than last FY
- Balancing \$300+ Million unfunded capital needs over next decade in context of FY2023 CIP, \$65M Sales Tax Revenue Bond, and \$80M Parks and Public Lands General Obligation (GO) Bond
- Attachment 1 – Council’s guiding policy for CIP (Resolution updated in 2017); once a CIP project was funded, after three-years it needed to be completed or significant progress shown for the funds to be considered for re-capture
- Analysis of American Rescue Plan Act (ARPA) eligible funding report forthcoming
- Policy questions for the Council to consider
- Unfunded project updates (list currently in the CIP book was out of date)

Mary Beth Thompson, Lisa Shaffer, Mayor Mendenhall, and Kali Ruiz provided information regarding:

- Comprehensive list of City assets (City-owned buildings) would be forthcoming to the Council
- Capital Asset Management Team (cross-departmental) was being assembled to come up with an overall City strategy for management of all City assets
- Important to note that any funding placed into a CIP account (such as the request for City-wide handheld radios) would not drop into Fund Balance at the end of the fiscal year
- Reasoning for the proposed amount of money going towards buildings like Fisher Mansion and Warm Springs Plunge – the need for community partnerships to activate, manage, and possibly maintain the buildings that were in a state of disrepair/needing costly upgrades
- GO Bond spending requirements; due to its nature of being taxable – it did not have a spend time limit

Tammy Hunsaker provided information regarding:

Capital Improvement Program (CIP) – FY23 Mayor’s Recommended Budget

- FY2023 Requests: constituent requests by Council District (highest being District 2) and by type of projects
- FY2023 Mayor Recommendations: totaling just under \$27M; \$2.3 for constituent applications and breakdown of different types (new projects, renewal projects, and planning), breakdown of funding recommendations by Council District/City-wide and constituent/internal applications, and listing of specific applications that were being funded
- Looking forward: finalizing/integrating CIP Dashboard and Equity Mapping into the CIP process, utilizing data and metrics to inform CIP process, better integration of CIP into capital asset management planning, engaging the Council to reassess policies outlined in Resolution 29 of 2017: Salt Lake City Council Capital and Debt Management Policies

Council Member Petro-Eschler inquired if there was a policy for vacant City-owned facilities/buildings that were currently being maintained and said she wanted to see the City streamlining what was owned (maximizing the assets – possibly generating revenue), expressed overall opposition to funding vacant buildings. Mr. Luedtke said he did not recall such a policy, but it could be added as a legislative intent under the Council's unresolved issues.

Council Member Puy requested a feature to see unfinished/in-progress/stalled projects on the proposed CIP dashboard, noting the importance of being able to provide information to his constituents/community.

Jennifer Bruno said she was available to answer questions regarding a list provided to Council Members containing projects in the GO Bond, Sales Tax Bond, and CIP (funded/not funded), including funding sources – prepared for the Council to decide if/how any of the projects were funded – allowing for any shifting of funding or projects, changes to amount of funding, etc.

Council Member Fowler inquired about the expiration of the \$14M reserved for Parks Impact Fees – and said she wanted to see it spent and not refunded. Mr. Luedtke said for all four categories of impact fees (including Parks) the next expiration dates were in FY 2025. **Kristin Riker** said it was important to note that Public Lands was spending impact fees for current projects (Glendale Water Park and Pioneer Park) and said further information was being sought on actual expiration dates/deadlines in order to spend all reserved impact fees before they expired and said the information would be provided to the Council when it was received. Ms. Bruno indicated it would be helpful that the Administration provide both impact fees that had been approved by the Council as well as impact fees that were not yet allocated, as it was important to some Council Members

MINUTES OF THE SALT LAKE CITY COUNCIL

to potentially use unallocated dollars to balance this year's and future budgets.

Council Member Mano asked if the Parks Administration had a plan for any unspent dollars from CIP, impact fees, ARPA, or other funding sources previously discussed. Ms. Ruiz said she would provide to the Council the Administration's proposed plans based on the Mayor's recommended funding sources.

Council Member Fowler expressed the desire to further discuss ARPA eligible projects. Council Member Mano said his goal was to see CIP and sales tax bond money distributed equitably across the City and especially in the neighborhoods that currently had a decreased level of Parks investment or access to open space.

MINUTES OF THE SALT LAKE CITY COUNCIL
Tuesday, June 7, 2022

Council Member Puy inquired about the Good Landlord Program and if the City had any requirements for landlords to advertise to City residents about the program so they had an opportunity to reach the City in case there were issues, and if so was the requirement posted in the buildings. Ms. Thompson said the answer was no but spoke on the importance of the Landlord Tenant Program as well as for tenants/residents to have a resource to communicate with the City when they're having issues. Council Member Puy asked if there was a way for landlords participating to have a way to report issues (phone line, website, etc.). Ms. Thompson said that could be provided and Ms. Carver noted that requested language could be added to the management agreements that each landlord signed with the City when they entered the program.

Council Member Fowler requested an offline/small group discussion regarding the provision of educational materials to landlords about past unconstitutional restrictive covenants that may have been unintentionally included – instead offering more inclusive/equitable language

- American Rescue Plan Act (ARPA) eligible projects:

Council Members brought up issues and discussed the following:

- Issue of needing the Sorensen Phase II study to review before making decisions on the \$10 M allocated (Item 2-I)
- Wanting further discussion on items within the budget that were ARPA eligible – to fund one-time projects, infrastructure, etc.
- Increasing some City fees rather than all City fees (impacts to the community, small businesses, etc.)

Straw Poll: Not to support the Fisher Mansion Carriage House Coordinator position – with an amendment to support approving only one position requested by the Parks & Public Lands Department – allowing for the Public Lands Department to determine where the greatest need was). All Council Members were in favor.

Straw Poll: Support for all Public Services requested positions as proposed. All Council

Council Member Puy expressed the importance of reviewing the Sorensen Phase II Study and determining the best financing options (pay for success, performance based contracting, or a hybrid of both) and requested more information on the topic.

Council Member Fowler proposed an additional legislative intent to add for future discussion: suggested to look at the grants/grant programming (policy and/or system) – practice of hiring/creating programs that ultimately fall to the General Fund for funding when the grants expired.
