

The Town Council of Snowville Town held its regular monthly meeting at the Snowville Town Hall on **Wednesday 14th December 2022.**

Council Present

Mayor Gwen Wilson

Scott O'Hare, Council Member

Rod McGary, Council Member

James Beagley, Council Member

LuAnn Johnson, Council Member

Tammie Morgan, Clerk

Stacey Hill, Treasurer/Recorder

Others Present

Colleen Hansen, Steven Thomas

Barbara Beagley, Klane Hill

Heather O'Hare, Jed Pugsley

Ray Wilson, AJ Morgan

Eric Dustler

Mayor Wilson started the meeting at 6:00 p.m. She welcomed everyone that was in attendance. Stacey Hill leads everyone in the pledge of alliance. Jed Pugsley said the opening prayer.

Mayor Wilson asked for an acceptance of the agenda. Rod McGary made a motion to accept the agenda. Scott O'Hare 2nd. All council members that were present voted. Yes.

Mayor Wilson asked for an acceptance of the minutes from the previous meeting. Rod McGary made a motion to accept the minutes from the last meeting. Jim Beagley 2nd. All council members that were present voted. Yes.

Deputy Martinez

Mayor Wilson stated that Deputy Martinez called her and told her that there were a lot of traffic stops and tickets given for the month of November he was out of town and when he had the chance to get to a computer he would email the information from November. He missed last month's meeting in October and sent an email. The email stated that there were 45 calls for the month of October, with 5 traffic stops, on the email he said that the speed trailers were being fixed and when one was available that he would bring it out and figure out where the best spot for it to be placed. The council members were given a copy of the information from October. Deputy Martinez stated that he will try to be at the next month's meeting.

Eric Dustler

Mayor Wilson turned the time over to Eric. Eric stated that he got a hold of the contractor that was putting in the stop light. The controller can in last week. Eric told the contractor to get it done. They are going to bring out the pole for the light and put it up. Eric stated that they are looking at January 2023 to have it done. Mayor Wilson stated that it was supposed to have been done in November 2022, Eric said that it was but they were waiting for the control box. Scott O'Hare stated why can't they have it finished sooner? It seems that Snowville is always being blown off, we were supposed to have internet five months ago and still don't have that yet. Eric said that he will call the contractor again and tell them that the council wants this done. Mayor Wilson told Eric that we want a date when it will be here and finished. Eric said that he would take care of it. Eric asked the council if they still want a curb and gutter. The council said yes that they still want it on the corners. Scott O'Hare stated that he was going to talk to Pheonix Stephens about the parking in front of Mollies Cafe, but he didn't get the chance to get a hold of him yet. Then we can put a curb and gutter in front of Mollies Cafe. So all 4 corners will have a curb and gutter. Scott suggested that we maybe could have some crosswalks put up. Then it will look more informal when people came into town, then hopefully they will be able to see the stop sign with the flashing light on top of the pole, then maybe we could turn it into a 4-way stop. Eric suggested waiting until the Spring for the curb and gutter maybe the costs will go down. Scott asked Eric if I went and talked to Pheonix about how long would it take to get the new curb and gutter in. Eric said we will have to wait until it dries out maybe we could start in April. Eric said that someone will have to come out and survey the property. Eric stated on the CDBG grant. Tammie stated that we will have to have a public hearing on the first of January. Eric asked if we could have one at the end of December instead. Tammie stated that we have to put it in the newspaper the Leader and on the Public Website. Eric said that there have to be two Public Hearings. Tammie said that we don't have to hold the second Public Hearing unless we actually get the money. Scott suggested that we should have the Public Hearing on the 29th of December at 6:00 p.m. at the town hall. Eric talked about the USDA Grant application, Mayor Wilson and Stacey meet with Collett about this in October. Eric said that it needs to be done by February 1st. Stacey said she would get it done. Eric talked about witching for water on the north end of town. Eric said that there is a larger vein of water on the north end of town. Eric said that there is a larger vein by the fire station, but it is too close to the main well. Mayor Wilson stated that they found water by the Cemetery but it wasn't enough. Eric stated about the crosswalks by Exit 7, that he hasn't received anything back on that yet. Marianne asked Eric to ask us if we have done an income survey for the town, Scott stated that we had last year. Mayor Wilson asked if that was the one where the council had to go door to door. Stacey yes said that is the one. Rebecca Nix called Scott O'Hare about the bridge, he will have a phone meeting with her tomorrow at 9:00 a.m. Scott has the notes that Mayor Wilson took when she talked to her in October. Scott told LuAnn Johnson that he would give her the notes after he talks to Rebecca tomorrow. Mayor Wilson said she is calling because the town will have to put \$40,000.00 down on the bridge. Mayor Wilson said the State will not need the money until February 2023. Eric stated that in the CBDG grant that we put down that we have to put \$40,000.00 down for the bridge for earnest money. Rebecca said that she doesn't know the balance yet on the bridge. Mayor Wilson told her to let us know as so as

possible, so we can lock in the amount because it still keeps going up. Scott O'Hare stated that the inspection of the bridge came back poor.

EMS

Scott asked Tammie if she was going to report on the EMT Conference. She said no. Everyone was called out on a call for the ambulance, so no one reported on it. Mayor Wilson excused them.

Ordinances Update

Mayor Wilson stated that she made everyone a folder, All the council members were given a book with all of the violations in them. Mayor Wilson stated that on the first page, it states that she has done 10 violations this year. Mayor Wilson stated that we aren't going to talk about the name of the person that received the violation, the violation has been given a number and that is the number that they will talk about. Mayor Wilson stated that case #5 is going to court on the 20th of December. Mayor Wilson stated that she doesn't know if it will be both of them combined because the summons that she received was only for the trailer. Mayor Wilson stated that #6 and #7 will be going to court in January she doesn't know when the date is yet. Mayor Wilson stated that when she sent #8 and #9 out, she sent them by certified mail but we haven't received the green papers back with their signatures on them stating that they received the papers from the town. Mayor Wilson stated that we aren't legally obligated to send out the papers with the violations on them. We are doing it as a courtesy. We can get a summons and go to court and that will be it. Mayor Wilson stated that these are public documents and we have them online. They have been told many times to do it, or they will go to court. Mayor Wilson stated that we have given them 30 days to clean it up or go to court. Mayor Wilson stated that if we don't get the green paper back from certified mail it doesn't matter we will still go to court. Mayor Wilson stated that the last one is Spanish and he has a translator to tell him what is happening with the violation. The gentleman was a little confused because it was his property and he could do whatever he want to, but he was told that he can't. Mayor Wilson stated that she tried to explain to him that he had 30 days to clean it up or go to court. He told Mayor Wilson that he would try to get it done. Mayor Wilson stated that # 1 and # 2 are finished, #1 still has a mess on the property, but he is not obligated to clean up the property, that will be the owners of the property, #2 violations the owners have cleaned up the property really well. Mayor Wilson stated that #3 sent us a 4-page letter with details of what he wanted to do with the property and to put a fence around it. Scott O'Hare stated that when you were gone last month that we weren't going to make any decisions on that one until after the court date. Mayor Wilson stated that it was the same person and Scott O'Hare said that we weren't going to make any decision on anything. Mayor Wilson stated that maybe you can have Blair do them both at the same time. Mayor Wilson stated that she wasn't going to work with him

because he wasn't working with her. That is why she wrote up #5 and gave it to him. Mayor Wilson stated that she doesn't know how will do these violations from now on. She will be willing to show the person how to do them. Mayor Wilson stated that she has the templates on her computer, She stated that she has given them to Scott O'Hare. Mayor Wilson asked the council if they had any questions. Rod McGary told her Thank you for doing those violations that she had already done. Scott O'Hare stated that the mobile home that was parked in front of the home on East Main is not over on the side of the road in front of Buckingham's property. Scott O'Hare also thanked Mayor Wilson for doing the violations.

Animal Control Updates

Mayor Wilson turned the time over to Scott O'Hare the animal control officer. We have had the incident of the shooting of the dog, it was killed in city limits. The sheriff's deputies wouldn't allow Jim Beagley or Mayor Wilson to do the investigation for the town. Because of the firing of a weapon in city limits. LuAnn Johnson asked so someone shot someone else dog. Scott said that was correct, and killed it. The sheriff's deputies were a little hostile, and wouldn't really cooperate with Jim and Mayor Wilson. Scott stated that he has a written statement from the victims, they were the owners of the dog that was killed. Scott has a statement from a witness, Scott has contacted the shooter for a statement, and they don't want to cooperate with Scott or the town. They told Scott that it was a civil matter, and why was the town investigation a civil matter. Scott told them that he wasn't investigating a civil matter, Scott told that he was investigating because it was a town ordinance and they told him that the federal stomps town ordinances. Scott said that they don't want to cooperate, so Scott gave them our attorney's information so they can contact Molgard, and that Molgard will probably be contacting them. Scott stated that they didn't give him any information. Scott told them that we will go with what we had. Scott stated that she is still waiting on the Sheriff's department to see if we can get their report, on the finding of what they found. Jim Beagley stated that the whole Sheriff's department is fed up with that whole family, Scott said that he was aware. LuAnn Johnson asked if there was a civil suit then. Scott said that he wasn't sure that is what the shooter said, Scott stated that you have to take what this person says with a grain of salt because half the time it is not true. Scott asked them why they always fight with us every time we ask them something you fight about it. Scott stated when you fire a weapon in the town limits it is against the ordinances, second, you firing towards a dwell, third was that dog going to actually attack you, because in the videos that he has sent Scott the dogs are barking at him. Jim Beagley stated that he was trying to tell the officer that. Mayor Wilson made a formal complaint against the officers. Jim stated that he received a phone call from the officers. Scott stated that is why he wants to get the sheriff's report because why did they think that they could do that to the dog, and it is justified. Scott stated do they have a video of it? Scott stated that both parties are in the wrong, right now, because one party has a violation against the animals and the other party has a violation against their thing so. Mayor Wilson stated that one of the parties called and wanted a kennel license and she told them no. Scott stated that the dog that was in the car accident is still missing. Scott stated that there was a sighting of it today, they have been five people out since five o'clock today looking for the dog. They did find some fresh tracks of a dog. They went underneath the freeway by Cemetery road, they found

fresh tracks. Maybe she is coming back around to the crash sight. Scott stated that they have had the tracker out here they tracked it all the way to Stacey Hill's house they lost the scent and then they pick it back up, they think that the dog is doing a big circle right now, doing a circle coming back to the crash site. See if the owners are there at the crash site and then taken off again. Scott stated that he has the dog on his video cameras that he has outside. Jim said that she must be getting food somewhere. Scott said yes, that someone was watching the dog for an hour and it was mousing, which is jumping in the field getting mice, so hopefully she is. Scott stated that there are still signs up all over town if you see the dog please call him or Heather, day or night they will go out and see if they can find her if you do see the dog don't chase the dog. Just call Scott or Heather they will get the tracker out here and they have a live trap set up to see if they can catch her. Steven Thomas had something to say he had three feral cats die this week, he stated that God might have put a plague on the feral cats or someone is poisoning them, they were found on his back porch, and he had fed them for years, Scott stated can we wait for a minute when we get down to public comments, Steven said sorry since we were talking about animals that is why I talked. Scott said that we have changed the format. Mayor Wilson asked if that was all for animal control, and Scott stated that it was.

Replacing the Office Window

Mayor Wilson stated so most of you know that we were broken into. They broke the office window out on the west side of the building. They ransacked the office. They opened something that they shouldn't have opened. Mayor Wilson called the window place that does a window that is a window, laminate, and then a window. Mayor Wilson wants to keep the office safe because we have residents' information in there and we don't want it to get out. Mayor Wilson called a place in Ogden and they gave us a quote. Our insurance had a \$1,000.00 deductible, which is really high, Mayor Wilson stated that she doesn't know if we have ever used it. Tammie stated that we have just paid it out because our insurance will go up, we all know that right, insurance will go up. So we have never used it. Scott stated that the insurance gave us \$1,231.00 and then held the \$1,000.00 out for the deductible so we only received \$231.00. Scott stated that the window is \$1,895.00 all put in with the frame and everything. Mayor Wilson stated that you will not be able to break into it unless you shoot at it. LuAnn Johnson suggested that we should put bars on the windows. Camie Pugsley stated that you need your fire escapes too. Scott stated that we will still be paying \$1,600.00 for the window. Mayor Wilson stated that the claim has already been made. Mayor Wilson asked can you find another insurance with lower deductibles. Tammie stated that it is through the Trust and they insure everything for the town. Mayor Wilson asked if we have ever used the insurance. Stacey she on the trees when we had to clean up after the wind storm, Scott stated that was May 30th of 2020. Mayor Wilson stated that we need to get it fixed. She thanked Jim for putting up the board.

Scott made a motion to get the window fixed in the office, and use the \$231.00 that we received from the insurance company, Moyles from Ogden will be replacing the window for a total of \$1,895.00.

Rod McGary 2nd. All council members present voted. Yes

Rod McGary asked if had thought any more about security cameras. Scott said that was coming up on old and new business. Mayor Wilson stated that she has bid on a new door and new windows.

Park Fence

Mayor Wilson stated that Hadley the guy that was doing the fence called on Monday and said that they will be putting up the fence next week and the materials are at Stacey Hills's house so no one walks away with it. Stacey said that he only brought out the black iron rods that went in front and the poles for the chain link fence. Mayor Wilson stated that the old fence will be removed and it will be replaced by some black ornamental fence. The fence was paid for by Ocean Star Internation, and the chain link fence will be replaced by chain link only because the truckers will hit it with their trucks that is why we are replacing it with chain link fence. Scott stated that we need to talk to Pheonix about having the K-Rail placed 5 feet in front of the chain link fence so it will not get damaged. Scott stated that Pheonix agree if we bought the K-Rail that we could place 5 feet in front of the chain-linked fence all the way down. Scott stated that the K-Rail costs about \$130 for 10 feet so we could be into it for about \$1,000.00 for K-Rail which would cost us to protect that fence. Rod McGary asked if you were placing the K-Rail together or placing them out. Scott said that we could probably do either. Just so we don't put them 8 feet apart because that is a length of a semi-trailer, maybe we could do it 4 feet and space them out that way. LuAnn Johnson asked so Pheonix is giving us the front property and some of his back property. Scott stated that he agreed to do that, so the fence wouldn't get damaged, and if you wanted to get technical the fence belongs to the town and Mollies so if it gets damaged, both the town and Mollie's should replace the fence, because it is a property divider. Scott stated that Pheonix would think about giving us the 5 feet. Mayor Wilson stated that when Hadley takes the oriental fence down that some people would like to have some to put in their yard, so he will ask him to cut it up into 4 feet sections. Everyone will be welcome to have some. Scott said that he will talk to him and tell him to put it over by the fire station. Keith Thompson stated that there is already some fence on the town's property if they want to put it there.

Food Truck

Mayor Wilson stated that the food trucks that come out here already have their food handler, and business licenses to do business. Jim Beagley talked to the guy that has the food truck that comes out here to Snowville and he told Jim that he had to have a business license for every city that he operates in. Mayor Wilson stated that she didn't know that. Tammie stated that in the book that there is a cost for a business license. Tammie stated that the taxes that he charges for

here that it comes back to Snowville Town. Jim thought that it went straight to the county, no it comes back to the town Tammie said. Scott stated that a Snowville business license it is at one percent that will come back to the town. Tammie stated that the one percent opinion that the business charge comes back to the town for the ambulance. Tammie also stated that the sales tax comes back for the town. Camie Pugsley asked so if the food trucks have all of their permits they just need to come to the town and apply for a business license, we don't have to have a meeting every time a food truck comes in right? Scott stated that we have to vote on a business license. Camie said that this is the first time that she has heard that the council has to vote on a business license. The business needs to come to the town council and request a business license. Tammie stated that the business can come to Stacey and she will give them an application for a business license, the Mayor can look over the application to see if it meets the guidelines and then Stacey can give them a business license. Scott stated that some businesses can't have a business license for their business, he thought that they had to be voted on by the town council, so what about those businesses that are mad at other businesses that are coming in and taking away their business? Tammie stated that if a business is not violating any ordinances for the town, you have to have really good reasons not to give them one or you will have a lawsuit. Scott had a misunderstanding that the town council had to vote on the business licenses, he has already received phone calls about the food trucks coming into Snowville and taking business away for other businesses. Scott stated that if people want business licenses they need to come in during business hours when Stacey is here and fill out an application and if it meets standards the Mayor will award a license for a year from Snowville Town. LuAnn Johnson asked so what businesses aren't allowed in Snowville Town. Scott stated adult bookstores, Salvage yards, there is a whole list of businesses that can't come in. Mayor Wilson stated that we should put this on the agenda for next month and vote on what we will charge the food trucks that will be coming in. Tammie stated that she will look in the book and see what they would charge them for each month. Stacey said that she will call Tremonton City and see would they do for the food trucks.

Christmas Party recap

Mayor Wilson stated that we have a Christmas party for the kids, and Scott stated that they had a fun time decorating for the party. Jim stated that he thought that everyone had a fun time and that it went really well. There was a lot of support from the town's residents a lot of kids and grown-ups were here they were packed in the town hall. Jim stated that he handed out hot chocolate and it kept him busy. Steven Thomas said that it was very nice. People had pictures with Santa. Heather O'Hare is planning for next year. Scott stated that Santa is reserved for next year also.

Old and New Business

Mayor Wilson asked if anyone had any old or new business. Scott stated that he had some old business security cameras for the town hall. Scott stated that he looked up cameras, and we can go several different ways. We can go with Amazon Blink which is a wifi camera, the camera will only come on when there is actually movement. The other one is Cami you pay a monthly or a yearly fee for that, you can set it up to stay on all the time or come on when there is movement, it plugs into the wall. The other is Vivint Smart home cameras which you pay a monthly fee, they are hardwired in they will come out and install them, they also have the same wireless cameras that is a \$54.00 a month service fee but all of your videos are backed up on a hard drive in Provo, Utah. The only reason that Scott put the last one in is that they just put it in their home. Scott stated that he has all three systems at his home. Those are the ones that Scott stated that he knows personally, they all work really well. It is up to the council what they would like to do or go with. Scott stated that with Vivint it is professionally installed it is hardwired. It runs off of the internet, Scott stated that we should have the new wifi here shortly, so it will work better. Scott stated that it is \$54.00 a month but has great security, you can look at your cameras anytime and view what went on, and you can physically go back on your phone and view what happen on your phone. LuAnn Johnson stated that is not a bad price, how many cameras come with it? Scott stated that you can have as many cameras as you want. Scott stated that they have a three-camera system that his house. It gets really good views of the driveway, we have a doorbell camera. Luann Johnson asked are the cameras outside were recognizable. Scott stated that the cameras will talk to you if you set them up to do so. Scott stated that the camera on the garage they have set up for if someone is lingering around it set off an alarm and says attention recording starts, and the doorbell camera does something. Scott stated it will warn the person that they are being recorded, and if you want to also talk to them you can push the button and talk to them also. Jim Beagley asked what about if the power goes out does it have a backup? Scott stated that it doesn't have a battery backup, if the power goes out it is out. The wireless cameras run off of cellular. Scott stated that they have 4 Blink cameras, they only come on when there is a movement they are set that way. Scott stated that once the movement or sound hits it starts to record. Jim Beagley stated that when he was at Scott's house the doorbell spoke and said that he was being recorded. Tammie said that it was similar to the Ring cameras. Scott couldn't remember how much the cameras were but he would find out. Mayor Wilson asked does anyone have any updates on the floors. Scott stated that he is working on that. he apologized for that, he hasn't received any bids but he will have someone come out and give him bids for the floors. Mayor Wilson stated that she knows that it is not going to happen for a while, but we need to remember to have not done. Mayor Wilson stated that in the Spring we will get chemicals to kill weeds for free. Rod Arbon had the information so if wants to be the go he can. Ray Wilson asked Scott on the cameras do any of them have a second power supply. Scott said no they don't, the Blink cameras are strictly battery powered, you can get some that can be pulled in. But the ones that Scott has at his house are strictly battery-powered, for the last two years. Scott stated that is why I have three security systems going in my house because if you lose power, I have any least one working.

Mayor Wilson asked if there were any more old and new businesses. There was no response. Scott stated that we have started a new thing we have public comment we will do now will we do for 15 minutes, three people will have three minutes to make a public comment. The members of the council will not answer you it will be just a comment. If you want to talk to the council members from now you will have to be put on the agenda, then they can discuss it. Scott stated that we are going to control the times of the meetings, better than the past meetings. Camie Pugsley stated that they have a new mechanic coming into their shop. They will be here in January, they will be able to fix cars, trucks, semi trucks, and tractors, fix tires, oil changes, and anything else that they can fix. Camie also said that there will be some jobs that will open up. Rod McGary stated that will be great. They are coming out of Ogden, they are friends of Jed and Camie's. They will put up signs so everyone can see that it is a shop. Camie just wants to get the work out to everyone. Rod McGary stated that will be awesome. Mayor Wilson asked Steven Thomas if he wanted to talk about the cats. Steven said that the council knows that God put a plague on the cats or someone is poisoning them. He has three feral cats that died in the last three days. Steven stated that poison doesn't discriminate against feral cats or house cats. He doesn't know if anyone is missing some but they have been found on his property. Jim Bagley stated that is a shame, Utah passed a law to shoot feral cats. Steven Thomas just want the council to know what was going on with the feral cats. Mayor Wilson asked if anyone else would like to say something. Colleen Hansen said yes, She had a public comment the gun was discharged in the city limits twice, when they shot the dog, this dog was the dog that the other person ravished a weapon on, two weeks prior to that. Colleen stated that this same person did the same thing with her dog, they called the sheriff and the deputies came to her house about her dog attacking them, when they can over to the church they couldn't prove that her dog attacked them. They were setting her up. That is all that Colleen Hansen had to say. Steven Thomas stated that two weeks before that dog was shot, he and his wife witnessed Kenneth Snow pointing a gun at the dog. He didn't discharge the gun. The little kids were standing there also, his wife had to look away because she thought he was going to kill it. Scott stated that he is going to break his own rule. Scott asked Steven if that was on their property or off of their property. Steven said that he couldn't tell if it was. Scott asked were you over to their house? Steven said that they were on the property line. Scott asked if this was at the church. Steven said no in the driveway of the property lines. Mayor Wilson asked Colleen Hansen if she has had a survey done on her property yet. Colleen Hanse stated that her surveyor is tied up with the mine and other things, but he will be down by the first of the year. Colleen stated that the dog was laying on her property by GPS. Colleen stated that she has to prove that it was her property. Mayor Wilson asked Keith Thompson if he had something, and Keith stated that he did, Willam Thomas got ruin of his turkeys because they were pests, and now Keith has goats in how yard tonight, so far he has been able to chase them away from his house, his takes his paintball gun and gives them a shot when the goats are on his property. LuAnn Johnson asked Keith want does Will say about it. Keith said that he has tried to call him and give him a message that the goats are in his yard, but his voicemail is full. Scott said that he would text Will instead of calling. Just text him Will your goats are out again? Scott said that is what he did the other day because two of his goats were on the road. LuAnn Johnson asked if they aren't dogs can the town confiscate them also? Scott stated that you can, the only thing that we do not chase is feral cats. LuAnn suggested giving him a fine for the goats being out.

Keith just wants them to stay home. Jed Pugsley stated that there is an EMT that has been paid by the EMTs, and Jed would like him to be paid from the firefighter's funds instead. Scott asked Jed to say that again, Jed said that there has been some question about one of our responders getting paid, because of his certification status, Jed would like the council when they sign the expenses to move the money from the fire department to the EMTS so this person can get paid. LuAnn Johnson asked what is the deal with the certification. Jed stated that he is currently working on it. Jed stated that he is a big asset to the department and Jed would like to be compensated for his time. Scott said that he was kind of lost, so their certification wasn't up to date. Jed stated that he currently doesn't have a current EMS certification, but they drive the ambulance, and they don't provide patient care. Scott has so they are upset about what? Jed said they aren't upset, The way the EMS operates if you are not certificated you don't get paid. LuAnn Johnson stated that they shouldn't be. Scott stated if they are not providing patient care and driving the ambulance as a firefighter, that is all they are doing in driving the ambulance. Mayor Wilson stated that Jed wants the council to move money from the fire department to pay this EMT. Scott said that they were supposed to be paid by the firefighters anyway. Tammie stated that if they were on the crash truck then they would get paid as a firefighter this person if they drive the ambulance to town they are written down as EMTs. Scott stated that in the EMS report, we need to state that firefighter so and so drove the ambulance, then EMS can pay that person. Scott stated either way it needs to be paid as a firefighter so we don't have conflict. Tammie printed off the expense papers. Scott stated that when there is a wreck on the road he will not drive the crash truck and block lanes and secure the area for the firefighters and EMS so they don't get hit by someone. Stacey stated that we paid Firefighters and EMS. Tammie stated that EMS is paid from October 31st, 2021 to November 1st, 2022. Stacey said yes that the firefighters were paid for the last two years. Scott asked if there were any additions to this Stacey said that there was, my check, Town water. Tammie stated that there is a fee set for a temporary merchant, the fee is 5 dollars a day. Scott stated that it is \$35.00 for seven days. Tammie stated that you get more revenue from the food truck. Scott said that we need to look at that, it will be on the next month's agenda. Scott asked Tammie what is the ordinance number. Tammie said 4-11-2007.

Mayor Wilson asked for a motion to expense, with the addition of Stacey Hill, Town Water, and Firefighter #1.

Scott O'Hare made the motion that we pay the expense with the addition of Stacey Hill, Town Water, and Firefighter #1. LuAnn Johnson 2nd. All Council Members present. Voted. Yes

Transferring Mayor

Mayor Wilson stated that she wrote this down and was going to give it in November but Shayne was in the hospital. Mayor Wilson wanted to talk about some of the accomplishments for this year. We now have a town website, Stacey is working with a company so you can pay your bills online, everything is online. We had three abandoned trailers moved. There were #14 new

water meters put in so AJ could read them quickly. Increased the town's wages from \$13.00 to \$15.00 an hour. The Cemetery Map has been updated. The streetlights have been fixed. The corner stop light was rebid and construction has been started. The new ordinances were approved in January 2022 with 407 pages. Upgraded the water board to notify if the pump is down. Upgraded the water billing software. Welcomed new ambulance and equipment. Beehive kicked off August 4th, with excavation for fiber optics. Remove the legal salvage yard that is going to court. Made our base Commerical License \$55.00. We received free chemicals from the USU Extention office for weed control. We received \$11,000.00 from Ocean Star International for our park fence. The stoplight will replace the stop signs on Stone Road. Moving all traveler trailers that people are living in legally. Enforcing dog violations to remove 8 dogs from one owner. Stop the contract between Tremonton because they are a kill shelter. Trying to create our own shelter. Approved selling Beer on Sundays. Wrote and enforced #10 violations. Mayor Wilson is resigning from her Mayor post. Her family and she will be leaving the beautiful town of Snowville. Mayor Wilson appreciates the kind word and love that was repressed with she was here. With memories that will last a lifetime. Mayor Wilson thanked everyone for this opportunity it was the greatest job. Mayor Wilson leaves the Treasury role for the BEC Mayor's Association, the board member for the Utah League and Cities and Towns. She is very thankful. Mayor Wilson presented Scott O'Hare as the new Mayor of Snowville Town. The council will need to vote on that.

Mayor Wilson asked for a motion for Scott O'Hare to be the new Mayor. All Council members present voted Yes.

Mayor Wilson stated that Scott O'Hare is the new Mayor of Snowville Town. Scott thanked everyone. On behalf of the town and the council that seats here now, we thank you for your time and service. Scott stated that a lot was accomplished this year. Mayor Wilson said thank you. Scott stated that he hopes that he can continue to keep the accomplishment going in the year coming up. Scott stated that he hopes that he is worthy of everyone's support, to continue with the Journey for Snowville Town so it will be a better place to live for everyone. Scott thanked everyone again. Then there was a round of applause.

LuAnn Johnson made a motion to Adjourn. Rod McGary 2nd. All that were present voted Yes.
