Legacy Events Center

Mission Statement

The mission of the Legacy Events Center is to enhance the image of Davis County as a sports tourism destination, provide economic development through sports tourism activities, enhance the quality of life for the citizens of Davis County, and provide quality recreational events and opportunities.

Prior Year Inputs/Outputs

FTE (2021):

6 Full Time Employees
6 Part time Employees
1 Seasonal Employee

Total Revenue for 2021 was $769,471. An all-time high.

The Legacy Events Center continued to be a great community asset as it served as the only drive-through vaccination location for Davis County.

Following COVID guidelines, the Legacy Center resumed hosting events and by fall, all of the buildings and grounds were being used again.

Core Functions & Services

Group events/tourism. Host large events, sports teams and individual sporting events to come to Davis County for their events. Promote spending inside the county which leads to economic growth. This would also include retail events with on-site spending like expos, boutiques and gun shows.

Local citizen use and quality of life. Many local citizens use the Events Center. Uses include; attend organized events (youth sports, expos, boutiques, etc.) weddings, baptisms, graduation parties, office parties, family parties, etc.

Community Services – the Legacy Center served as the only site for drive through vaccinations.

Legacy Events Center

Davis COUNTY

Current Year Projected Outcomes

The 2022 budget was requested assuming the Legacy Events Center would be partially closed for construction beginning in March of 2022. Delays in the construction process allowed us to be open throughout 2022, however many events were lost due to the unpredictable construction timeline and lack of air conditioning in the Legacy Center.

The revenue budget for 2022 was $95,000. The actual revenue is projected to be closer to $316,000.

Our expenses have remained under budget even with being open and operating longer than anticipated.

The economic impact for 2022 through August is calculated to be $24,335,007.

Next Year Budget Initiatives

In 2023, our budget initiative will be to construct a new multi-use building focused on youth sports. The new structure will be approximately 118,000 square feet with 2,600 fixed seats. The floor will be striped for 9 basketball and 9 volleyball courts. It will be large enough to hold 20 wrestling mats. It will be able to accommodate a wide variety of sports events as well as non-sport events.

Marketing of the new facilities will also be a significant budget item with the intent to market now so it opens in 2024 with business waiting to come to Davis County.

Other significant budget initiatives are the regular care and maintenance of the playing fields. There is also a request for a lightning alarm system needed for patron safety.

These improvements will make the Legacy Center better able to attract large events that produce a high economic impact for the local economy.
