Dr. Dunford stated she will work with Ms. Martin to draft the letter, and then forward to the DEA for feedback.

EMERGENCY STOCKPILE (Audio 01:33:55)

Dr. Gunning discussed safety concerns relating to certain weight loss medication shortages with pharmacies compounding from the GLP1 list.

Dr. Dunford stated there was nothing in the rules, stating a pharmacy could not compound in an emergency shortage situation. Dr. Dunford stated the FDA allows pharmacies to compound in a state of emergency shortage.

Dr. Gunning recommended an emergency shortage GLP1 discussion, patient questions and an opportunity to remind pharmacies of patient safety. Dr. Gunning stated Poison Control would be the best resource to obtain information from, in regards to GLP1 medications, reporting and complaints.

Mr. Davis stated he had contacted Representative Dunnigan regarding online prescribing and will provide feedback to the Board.

METHADONE DISPENSING- 3 DAY SUPPLY (Audio 01:54:39)

Dr. Dunford stated there was recent clarification from the DEA that allows a hospital to dispense up to a three days' supply of methadone for substance use disorder patients. Dr. Dunford stated the Board has had enquires for clarification from retail pharmacies.

Mr. Peterson stated the DEA in March 2022 changed the law that now allows hospitals upon discharge to dispense up to a three day supply instead of one day at a time for up to the three days; not to be extended or renewed. Mr. Peterson stated the DEA did not seem to clarify how this should happen. Mr. Peterson stated he has been in contact with the DEA who had informed

him that a hospital can allow a medication order to go out with the patient upon discharge, the pharmacy then acts an agent to be able to dispense. Mr. Peterson stated pharmacies are unsure of following the DEA ruling, as Utah statutes do not match the updated DEA ruling.

Dr. Dunford asked Ms. Martin to work with Ms. Blackburn to review and draft new rule language to be more in line with the DEA. Dr. Dunford asked if methadone facilities need to report to the CSD.

Dr. Dunford stated there has been some confusion, surrounding intern license extensions. Dr. Dunford stated the ruling is, that once the schooling is finished interns have 60 days to obtain a temporary pharmacist license. Dr. Dunford stated the intern license is valid for five years, however if they have graduated before the end of the five years, the individual should not be continuing to work as an intern. Dr. Dunford stated the rule was written that particular way to assist graduating interns to keep on track of becoming a pharmacist. Dr. Dunford recommended the intern license expiration date be adjusted to sixty days past the graduation date, instead of the current five years.

Dr. Gunning stated that the expiration date is important for students, to assist them to stay on track with their careers.

Dr. Dunford asked Ms. Martin if the Division could adjust the expiration date.

Ms. Martin stated the statement of intern eligibility application page, currently asks for a start date and graduation date. Ms. Martin stated she would need to research the state statutes for authorization to make changes to the expiration date.
