APPENDIX C: PROJECT NARRATIVE

General Project Information

1. Project name: Platform 1500
2. Project site address: 1512 S. 300 W., Salt Lake City, UT 84115
3. Applicant/Organization: Western Region Nonprofit Housing Corporation
4. Applicant's address (include city, state, and ZIP): 223 W. 700 S., Salt Lake City, UT 84101
5. Federal Employee Identification Number (EIN): 20-0330858
6. Do you agree to get a Unique Entity ID through sam.gov if project is awarded RFA funding? ☒ Yes ☐ No
7. Name of contact person: Arlie Green
8. Phone number: 801-828-2836
9. Email: aj@wrnphc.org
10. Project start date: 5/1/2023
11. Anticipated completion date: 8/1/2024
12. Total square feet of the project: 76,566 sq. ft.
13. Total number of units: 60
14. Total number of affordable units in project: 60
15. Percent of affordable units in the project: 100%
16. Provide a breakdown of the number of units and monthly rents that will be provided at various AMI levels:

Unit Type	Total Number of Units in Project	Number of Affordable Units (sum for all AMI %)	Detail on AMI Level(s) Served by the Affordable Units		
			AMI %	Number of Units at the AMI %	Maximum Rent

17. How does the project support the local jurisdiction's Moderate Income Housing Plan?

    Objective 1: Prioritize the development of new affordable housing with an emphasis on households earning 40 percent AMI and below.

    This project will provide 60 affodable housing units all below 50% AMI. 12 of which are below 40% AMI and 5 units at 25% AMI.

    Objective 2: Pursue funding for affordable housing opportunities.

    This would aid in the funding of this fully affordable project enabling us to provide safer, nicer, affordable housing.

    Objective 3: Stabilize very low-income renters.

    With 12 units below 40% AMI, this will give a significant opportunity to provide stability to families and individuals of very low-income renters in this neighborhood.

    Objective 4: Secure and preserve long-term affordability.

    This funding will allow the city to secure new 60 units of affordable housing that will be rent restricted for 50 years.

    Objective 5: Work with landlords to improve their housing stock and rent to very low-income households earning 40 percent AMI and below.

    This will again provide 60 affordable units below 50% AMI with 12 being below 40% AMI.

18. If the project is targeting one or more priority populations (65 and older, people with mental and/or physical disabilities, veterans), please provide that information.

    This project will maintain 5 units for Persons with Disabilities and 7 additional units for Handicapped Accessible

19. Which approval permits have been secured to date? Which approval permits are still needed?

    No permits have been currently pulled. Builiding and demo permits are in the process of being pulled.

Project Summary

20. Project site address: 1512 S. 300 W., SLC, UT 84115
21. Current Property Owner: Lima Ech Echo, LLC
22. Status of Site Control: Under Contract; current owner is partner in final ownership
23. SLCo County Council District: 1

24. Parcel number(s): 15-13-206-005 & 15-13-206-008
25. Acreage: 0.49 acres
26. Zoning: CG
27. Is a zoning change required? ☐ Yes ☒ No

    If a zoning change is required, describe where you are in the process of changing zoning.

    N/A
28. Provide a detailed description of the project, including information on exterior materials, unit finishes, and common spaces and amenities. Include how your project will be accessible.

    This project will utilize sturdy but attractive exterior materials including metal paneling, wood paneling, stucco, glass storefront along ½ of 300 West, architectural aluminum slatting, nice aluminum fencing, and murals on ground floor concrete. The units will have SPC planking throughout, high efficiency HVAC minisplits, stainless steel applicances, and low flow water systems. The unit mix is also very important with 25 units being larger bedroom sizes for families. The ground floor will have a lobby and leasing office, the second floor will have a common laundry, a gym that opens onto our 2,500 square foot patio space with seating and plantings. The fifth floor will have a large common room and a connected game room with large glass windows facing east toward a spectacular view of the mountains. There will also be a a
29. Explain why you believe the project meets the allowable uses of SLFRF (ARPA) funds a described in the Treasury's Final Rule.

    Under the Treasury's Final Rule, This request would be applicable to several sections of the Final Rule. There are two main avenues through which this application meets the Rule. The first is that in the "Rule Structure" section on page 20, final paragraph of the Final Rule, pertaining to negative economic impacts of the public health emergency, the proposed grant of this application would be received by a nonprofit as applies to the third type of beneficiary "assistance to nonprofits" on this page. Further to this point and beginning into the second, is that within the section "Standards: Designating a Negative Economic Impact" on page 24 speaks to permitted recipients to include low- or moderate-income housebholds as defined in "Populations Presumed Eligible" pages 29 through 34 which states that households residing in a QCT, americans below 185 percent of the poverty threshold and housebholds at or below 40 percent AMI. This specific project meets all of these criteria being located in a QCT, having 12 households below 40% AMI and several more under the 185% poverty threshold for the county. Regardless, if the grant is awarded to the nonprofit, our entire business structure and 30 property portfolio provides this level of housing with several properties within the Salt Lake County. This request and these funds as requested meet several applicable uses as defined within the Treasury's Final Rule.
30. Add any additional relevant project details.

Click or tap here to enter text.

Project Financial Information

31. Total amount requested as a grant: $1,000,000
32. Total amount requested as a loan: Click or tap here to enter text.

Unit Type	Number of units	Grant amount requested	Loan amount requested	Max allowed per affordable unit
Micro Unit	Click or tap here to enter text.	Click or tap here to enter text.	Click or tap here to enter text.	**$4,200.00**
Studio	6	Click or tap here to enter text.	Click or tap here to enter text.	**$6,780.00**
1-Bedroom	29	$244,720	Click or tap here to enter text.	**$15,072.00**
2-Bedroom	19	$533,520	Click or tap here to enter text.	**$28,080.00**
3+ Bedroom	6	$221,760	Click or tap here to enter text.	**$36,960.00**
Total	60	$1,000,000	Click or tap here to enter text.	

33. If applying for a loan, describe the payment terms requested to accommodate the project's financing needs.
    Click or tap here to enter text.
34. What percentage of funding is being sought in relation to the total project cost?
    Total Project cost is $19,000,000 and $1,000,000 is being requested. That is 5.26% of total costs.
35. How do you intend to use funds provided by the SLCo Housing Trust Fund?
    Our intention is to have the funds awarded directly to the nonprofit as a grant, which the nonprofit will then loan to the project as a deferred note at 0% interest due in 30 years with no payments.
36. What alternative funding sources does the project have access to if rental income, grants, or loan funding are reduced or lost?
    Project has already been awarded 9% tax credits and $1,800,000 in HOME funds from Olene Walker Housing Loan Fund. Other sources are currently not available.

37. How will the project be accomplished if the SLCo Housing Trust Fund is unable to fund this request?
    The project will try to pursue any available SL county or SL city funds if any become available.
38. Identify uncertainties that could impact your ability to obligate and/or spend funds, if awarded, by the ARPA deadlines.

If a grant is awarded to the nonprofit to utilize as a surplus cash loan to the property as requested, we do not forsee any issue in utilizing these funds.

39. What will the value of the project be at the time of completion?

    $19,500,000

40. List any projects where your organization has previously received Salt Lake County funding.

    Western Region Nonprofit Housing Corporation is a sister nonprofit to Utah Non-Profit Housing Corporation. WRNPHC has not had projects receive SL County funding but UNPHC has had serveal projects of decades receive funding from Salt Lake City and County.

APPENDIX D: PROJECT BUDGET

Property Acquisition			
Purchase Price	$2,500,000.00		
Closing Costs	$85,500.00

Other:		

Are all units charged the same fees? If not, please provide an explanation.

Yes

APPENDIX E: MARKETING, OUTREACH, AND/OR SERVICE PLAN

Marketing and Outreach

1. What marketing strategies and techniques will be used to attract income-eligible tenants?

   We manage properties in the same area and can actively market to individuals on those lists. We also have several established relationships with community partners that we plan to use as well as conventional advertising.

2. What marketing strategies and techniques will be used to attract priority populations (if applicable)?

   The community partner relationships will be most valuable to market to any target populations. We have active working relationships with local housing authorities and TURN Communities.

3. Describe your policies and practices for tenant selection, including screening criteria, the application process, and waitlist management.

   We use established Tenant Selection Plans to help screen residents. This screening includes income, criminal, credit, prior rental history, etc. Applicants that are approved are placed on a waitlist and managed according to placement on the list based on unit size and other factors (e.g., disability status for ADA units, etc.).

Management of affordable units

4. Who will manage the property once it has been acquired/developed?

   Key Property Management Company with onsite management and maintenance.

5. Describe how restrictive covenants related to tenant income eligibility and maximum rent limitations will be verified throughout the affordability period.

   The management company reviews applicants for qualification. At move-in and throughout tenancy, income is reviewed by the compliance department of the management company as well as reviews by Utah Housing Corp.

Service Plan

6. Provide information on proposed resident services.

   a. What services will be provided?

Tenant referals, advocacy, and services will be provided by TURN Community Services and the Housing Authoirty of Salt Lake City. Our nonprofit will also provide aid and services as needed.

b. Who will provide the proposed services?

Turn Community Services, The Housing Authority of SLC, and WRNPHC

c. What is the source of funding for resident services?

TURN and SLC HA have their own programs and funds. WRNPHC has setaside funds for services.

Relocation Plan

7. Is the proposed project currently occupied? ☐ Yes ☒ No

8. Will relocation services be used? ☐ Yes ☒ No

9. Who will provide relocation services? Provide a relocation plan, if applicable.

N/A

APPENDIX F: COMPLETED AFFORDABLE HOUSING PROJECTS

Use this form as a template to list your references. Include all affordable housing projects completed within the last seven (7) years. Submit 1 reference form per project (i.e., use multiple copies of this form if you have multiple projects).

Project information

1. Completed project name: Community Gardens Apartments
2. Project address: 2330 Wedekind Road, Reno, NV 89512
3. Project owner (of record). Community Gardens Reno LLC
4. Were there additional partners? ☐ Yes ☒ No

   If yes, provide contact information:

   a. Contact person name: Click or tap here to enter text.

   b. Phone: Click or tap here to enter text.

   c. Email: Click or tap here to enter text.
5. Total number of units: 181
6. Total number of affordable units in the project: 181
7. Percent of affordable units in the project: 100%
8. Provide a breakdown of the number of units provided for the various AMI percentages:

Unit Type	Total Number of Units in Project	Number of Affordable Units (sum for all AMI %)	Detail on AMI Level(s) Served by the Affordable Units		
			AMI %	Number of Units at the AMI %	Maximum Rent

APPENDIX G: ENVIRONMENTAL COMPLIANCE PRACTICES VENDOR COMPLIANCE STATEMENT AND NON-DEBARMENT CERTIFICATION

Environmental Compliance Practices
Vendor Compliance Statement and Non-Debarment Certification

1. Salt Lake County has implemented environmentally responsible procurement practices. The County requires all persons, businesses, corporations and other entities doing business or entering into a contract with the County to comply with all federal, state and local environmental laws, rules and regulations. Compliance with environmental laws, rules and regulations is a relevant factor in evaluating the integrity and responsibility of a business. The county, in its sole discretion, may not solicit proposals from, award contracts to, procure, or otherwise enter into business arrangements with any person, business, corporation or other organization that is noncompliant. If a vendor is suspended, proposed for debarment, debarred, ineligible or excluded from contracting with another government entity due to environmental non-compliance, the County in its sole discretion, may deem the vendor non-responsible and decline to award a contract.

2. Based on the foregoing, the vendor certifies, to the best of its knowledge, that neither the vendor nor any owner, officer or agent of the vendor:

2.1 is presently debarred, suspended, proposed for debarment, declared ineligible, or excluded from the award of a contract or purchase by any federal, state or local agency based on a finding, determination, notice of violation or order of environmental non-compliance;

2.2 is presently indicted or charged by a government entity in a criminal, civil or administrative proceeding with the commission of any offense, violation, or failure to comply with any federal, state, or local environmental law, rule or regulation, indicating a lack of business integrity or business honesty affecting its responsibility as a county vendor;

2.3 has, within the last three (3) years, been convicted, or had a civil judgment or administrative order rendered against it for any offense or violation, including but not limited to environmental non-compliance, indicating a lack of business integrity or business honesty affecting its responsibility as a county vendor;

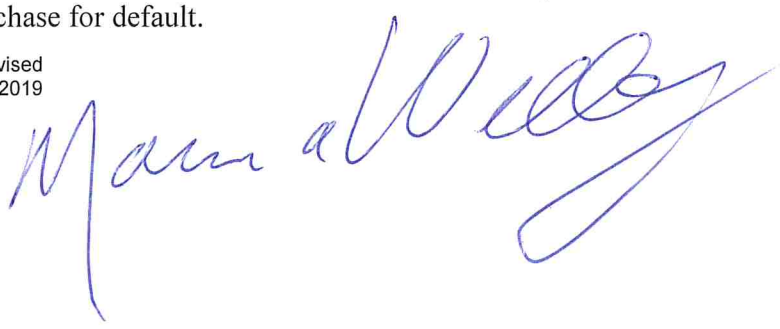
2.4 has, within the last three (3) years, had a contract/purchase terminated due to an act or omission, including but not limited to environmental non-compliance, demonstrating a lack of business integrity or business honesty affecting its responsibility as a county vendor.

3. Vendor shall require any sub-vendor to disclose in writing, whether at the time of the award of the subcontract, the sub-vendor complies with the certification requirements in subparagraphs 2.1, 2.2, 2.3 and 2.4 above.

4. Vendor shall immediately notify the county in writing if, at any time before the award, the vendor learns that its certification was erroneous when submitted or has since become erroneous because of changed circumstances.

5. If it is later determined that vendor knowingly rendered an erroneous certification under this provision, in addition to other available remedies, the county in its sole discretion, may terminate the contract/purchase for default.

Revised
Sept 2019



Land Acquisition Agreement

This LANDACQUISITION AGREEMENT, dated as of June 2, 2022, summarizes a mutual understanding between Western Region Nonprofit Housing Corporation, hereafter referred to as Sponsor, and Lima Echo Echo, LLC, hereafter referred to as LEE, to purchase land and pursue development of a multi-family project located at 1512 South 300 West in Salt Lake City, Utah.

While additional terms may be added hereafter to address in more detail how this transaction will be completed, it is the parties' intention that the following terms represent the material provisions of the Buyer's and Seller's agreement and are intended to bind the parties as follows:

- LEE or its related entities will be a member, along with the Sponsor, of the intermediary management member of the multi-family project's final ownership. As part of the intermediary membership, Lee agrees to sell two parcels of land, identified as15-13-206-005 and 15-13-206-008 in Salt Lake County records, located at 1512 South 300 West in Salt Lake City, Utah. Sale will include all associated entitlements and approvals for multi-family development. Cost will be the lesser of appraised value or $2,500,000. Sponsor will in turn assign the property to the final owner at no additional cost. This agreement, upon a successful allocation of Low Income Housing Tax Credits.

- As a co-member of the development team, LEE or its related entities will provide services and support to Sponsor for the development of multi-family housing at the property location. Those services may include, as examples, support for the Low Income Housing Tax Credit Application, loan commitment applications, initial closing package, final endorsement, and any other support services deemed appropriate by Sponsor.

This Letter of Agreement, including the sales price, is valid for three years from the date of signing.

A non-profit organization TURNing dreams into reality. We are dedicated to choice, quality and respect for people with disabilities and those who support them

May 19, 2022

Claudia O'Grady
V.P. Multifamily Finance
Utah Housing Corporation
2479 S. Lake Park Boulevard
West Valley City, UT 84120

RE: Exhibit 6E
SERVICE PROVIDER LETTER OF UNDERSTANDING
1512 S Apartments, 1512 S 300 W, Salt Lake City, UT, 84101

Dear Ms. O'Grady,

Project TURN was founded in 1973 by a group of parents who wanted to better services for their children with intellectual disabilities. TURN began by opening residential programs in Ogden and Bountiful where people could live in regular homes and take part in typical community activities. More than forty years later, TURN (now TURN Community Services) provides services to more than 800 individuals from Brigham City to St. George, Utah, in day, residential, and employment settings.

TURN supports people in residential settings that are customized to provide the exact level of services that the individual needs or desires. In all settings, supports can include activities of daily living, self-care, community participation, and socialization and leisure skills.

From the beginning, TURN was committed to creating a vibrant life for the clients they serve. TURN gained a reputation as innovative and dependable, making us one of the primary providers as people moved out of institutions and the state looked to develop and fund new, individualized services for people in the community.

As a community organization, we know that this project will provide disabled/developmentally disabled individuals affordable housing opportunities through the IRC Section 42 Low-Income Housing Tax Credit Program.

The 1512 S Apartments will be an affordable housing project, located at 1512 S 300 W, Salt Lake City, Utah. TURN supports the construction of the property and the AMI and special needs set-aside units as set forth below:

Canyon Ridge Apartments Unit Mix		
Number of Units	Number of Bedrooms	AMI%
3	3	50%
6	2	50%
3	1	50%
3	3	45%
13	2	45%
20	1	45%
4	1	39%
3	0	39%
2	1	25%
3	0	25%

Canyon Ridge Apartments Unit Set-Asides
• 5 units for Homelessness (25% AMI units) • 8 units for Persons with Long-Term Mobility Impairment • 6 units for Persons with Disabilities (Physical or Mental Disabilities)

At any time, TURN is typically working with 60-70 people in residential service settings in Salt Lake City and surrounding areas. As such, there is a high demand for housing options for those being served by our organization and our community partners. To facilitate the housing needs of our existing clients, we will work with and make referrals to 1512 S Apartments. Many of those served through our organization will fit the tenancy criteria of this project and its set-asides.

Once placed, Turn Community Services' case management team will either start or continue to provide participants with tailored case management aimed at housing stabilization. We typically offer individualized support services for the duration of the relationship with each client or as required for successful independent living.

As a provider of services at the 1512 S Apartments, TURN will offer to residents the following services, as appropriate to their circumstances:

- Provide client support to those living in a residential setting at 1512 S by providing customized services that are needed or desired by the individual;
- In all settings, support can include activities of daily living, community participation, socialization and leisure skills; and
- Provide employment opportunities through supported employment programming.

We look forward to working with the 1512 S partnership on this worthy project. If you have any questions please call me at 801-376-6844.

Sincerely,

David H. Hennessey, Ph.D.
CEO / Executive Director

Exhibit 8D **MEMORANDUM OF UNDERSTANDING**

(Regarding acceptance of qualified Section 8 vouchers or certificate holders)

This Memorandum of Understanding is by and between the Housing Authority of Salt Lake City (the "Housing Authority") and Western Region Nonprofit Housing Corporation, (the "Owner") (both parties are sometimes collectively referred to herein as the "Parties"), regarding Owner's renovation or construction development and operation of the 1512 S (the "Project") located at 1512 S 300 W, Salt Lake City, Utah.

Owner desires to enter into an agreement with Housing Authority to accept qualified Section 8 voucher holders and Housing Authority desires to enter into such an agreement with Owner.

Therefore, in the event Owner receives federal Housing Credits through Utah Housing Corporation for the construction or renovation of the Project, the Parties agree as follows:

1. Owner shall accept referrals from Housing Authority on an ongoing basis, subject only to the availability of rental units.
2. It is understood that applicants referred by Housing Authority must meet, without exception, all requirements for tenancy as established by management for the above-referenced Project and that such requirements may be changed by management from time-to-time.
3. Resident referred by Housing Authority shall be required to sign the standard lease agreement or the applicable standard Housing Choice Voucher lease agreement and abide by the rules and regulations of the Project as well as meet all income requirements of project
4. Owner and Project management reserve the right, from time-to-time, to alter, amend or change, without notice to Housing Authority, any portion of its procedures and criteria for tenancy.
5. Owner and/or Project management shall have the final and absolute right, at its sole discretion, to accept or reject for tenancy, an applicant referred by Housing Authority, according to the same criteria used to accept or reject all other applicants.
6. Owner shall have the right to assign this Memorandum of Understanding at any time and without the comment of Housing Authority.
7. This Memorandum of Understanding is subject to modification as agreed to in writing by the Parties in a form acceptable to UHC.

The undersigned hereby attest to their agreement of the aforementioned terms.

1512 S APARTMENTS

2022 Low Income Housing Tax Credit Application

SERVICE PROVIDER AND MARKETING NARRATIVE

A Supportive Services Program assists in providing ongoing services that meet the residents' needs, enables residents to maintain stable residency in the community, maximize their capacity for independent living and promotes the development of support systems for residents. Additional goals for the program will be to facilitate the needs of our residents to ease the burden of remaining independent, self-sufficient, and maintaining a high quality of life. Through our Supportive Services efforts we hope to alleviate the stress of navigating through the various systems and deciphering the available information.

1512 S Apartments, as a low income housing Tax Creidt Property, will engage local service providers and referral agencies that are willing to help fill vacancies and provide services to the targeted population that will be set aside in the application. The project will be setting aside six (6) units for Persons with Disabilities, eight (8) units for Persons with Long-Term Mobility Impairment and five (5) units for those with incomes at or below 25% of the Area Median Income (AMI). The following agencies will provide support and referral services for the targeted set aside units:

- Turn Community Services supports people in residential settings that are customized to provide the exact level of services that the individual needs or desires. In all settings, supports can include activities of daily living, self-care, community participation, and socialization and leisure skills. TURN Community Services provides services to more than 800 individuals from Brigham City to St. Gerorge, Utah, in day, residential, and employment settings. TURN serves approximately 2,000 persons each year.

- Housing Authority of Salt Lake City is a community based, non-denominational organization providing direct assistance to residents in Salt Lake City. The Housing Authority helps a broad group of locals with emergency assistance including emergency shelter, utilities, rent, emergency food and other unexpected needs.

Following the completion of the property, and as set-aside unit vacancies arise in the future, property management will first evaluate the wait-list for individual(s) in need of the units and all of the wait-lists of other properties managed by the management company. Management will then work with additional entities in surrounding geographies who participate with the local non-profit housing and service organizations and other agencies that would be aware of those earning less than 25% of the area median income, are at risk of, or are referred from homeless housing resource centers and referral providers as well as those who are low-income and have mental disabilities which call out for housing accommodation.

Salt Lake City, UT 84101

Re: Rev Motoring Apartments
Salt Lake City, UT
60 Units

Dear Mr. Willey:

The purpose of this letter is to confirm The Richman Group Affordable Housing Corporation's interest in providing equity for Rev Motoring Apartments located in Salt Lake City, UT (the "Project"). This proposal is based on information you have provided including estimated project costs, debt financing, and project income and expenses.

The Richman Group Affordable Housing Corporation (together with its affiliates, "TRGAHC") is a multi-faceted real estate organization specializing in affordable housing, with expertise in investment banking, development, asset management and property management. TRGAHC has been a program sponsor, property manager, asset manager, and developer in the affordable housing industry since 1979.

TRGAHC is one of the nation's leading sponsors of low income credit ("Housing Tax Credit") programs. Since the creation of the Housing Tax Credit in 1986, TRGAHC has sponsored both public and institutional Housing Tax Credit funds, which have raised in excess of $7 billion in equity capital and have invested in approximately 1,100 Housing Tax Credit properties.

A summary of the terms and conditions under which TRGAHC will acquire the limited partnership (or equivalent) interest in the Project:

1. TRGAHC as limited partner (the "Investor") will have an interest equal to 99.99% and will be allocated 99.99% of the available tax credits.
2. It is assumed the limited partnership will receive annually $1,500,000 in Federal Low-Income Housing Tax Credits.
3. The investment of the Investor will be equal approximately $14,398,560 or $0.96 cents per dollar of credits going to the Project.
4. Pay-in schedule of the equity will be based on the needs of the Project, while maintaining the investor's yield requirements. The pay-n schedule is anticipated as follows.

Federal Equity Schedule		
%	Date	$
10%	Closing	$ 1,439,856
85%	Stabilization/ Breakeven	$ 12,238,776
5%	8609	$ 719,928
100%		**$ 14,398,560**

5.

6. There will be an operating reserve of $177,271 and a capitalized replacement reserve in the amount of $60,000.

Please note TRGAHC's equity participation is subject to the terms and conditions hereof and also subject to (i) investment committee approval (ii) negotiation and execution of documentation acceptable to both parties and (iii) receipt of opinions of counsel (including corporate, tax and real estate) acceptable to the Investor.

Upon notification that you have received the appropriate tax credit allocation, TRGAHC will send a more detailed letter of interest at which time TRGAHC will proceed with its final underwriting. Upon the execution of this letter TRGAHC will commence its due diligence review and will designate an investor to acquire the limited partnership interest.

The investment of the Investor set forth in paragraph 3 of the summary of terms and conditions above may be recalculated or changed prior to the Closing to reflect rising interest rates or other changing market conditions and the Investor's then – current yield requirements. This letter shall be governed by and construed in accordance with the internal laws of the State of Connecticut. This agreement shall not create any liability on the part of TRG or the Investor. All rights and obligation of the Investor shall be set forth in the Partnership Agreement and shall not be binding on the Investor until the Investor delivers a fully executed copy of the Partnership Agreement to the General Partner.

We look forward to working with you on this project as you move forward with your tax credit and financing commitment. Please let us know if you need any additional information.

Sincerely,

Terry A. Gentry

Salt Lake City, UT 84101

SUBJECT: **OWHLF Loan Application – Platform 1500, LLC** (Salt Lake City, UT)
OWHLF Loan – **Platform 1500 Apartments** (Federal HOME Funds)

Dear Mr. Willey and Mr. Johnson:

The Olene Walker Housing Loan Fund Board (the "Board") met at the quarterly board meeting held on Thursday, January 23, 2023, and approved funding in the amount of $1,800,000 for the construction of the **Platform 1500 Apartments** as represented by **Platform 1500, LLC**. The Board approved the loan funds from Federal HOME program funds within the provisions of the Federal HOME Investment Partnerships ("HOME") Program in accordance with 24 CFR Section 92 as amended. The provision of OWHLF funds is conditional upon all other funding sources as listed in the submitted *OWHLF Multifamily Application* (the "Application") being obtained. The loan amount of $1,800,000 will be provided at a simple interest rate of 1.50% as a fully amortizing permanent financing/construction financing loan over a term of thirty (30) years in second lien position.

Other conditions of the loan approval by the Board are as follows:

- Construction to Energy Star 3.0 standards or minimum HERS standards as represented in the Application;
- All other funding sources as listed in the Application.

All other funding sources as identified in the Application must be secured before OWHLF funds are issued and acquisition and/or construction begins. Funds for construction are contingent upon securing materials and outside labor costs in a competitive open bidding process, or demonstrating competitive pricing using an industry-accepted cost estimating standard such as RSMeans. Please be aware that an OWHLF staff member must participate in the pre-construction conference (either in person or by teleconference) with the developer, contractor, and/or other local officials, as well as completing on-site construction inspections at approximately 20% and 50% of project completion, and a final construction inspection prior to final closeout and final payout of OWHLF funds. Our office will need two weeks' notice for the date of the pre-construction conference.

The Olene Walker Housing Loan Fund has a policy as described in the *2022 Program Guidance and Rules* that requires all multifamily projects receiving OWHLF assistance to be either Energy Star 3.0 certified or obtain a HERS score at least 15% better than required by current building codes. In some unusual situations such as acquisition-only, a waiver can be granted. Please work with the independent Energy Star/HERS Certifier as design drawings and specifications are developed. Your project may qualify for an Energy Star rebate from

Rocky Mountain Power and/or Dominion Energy if your project is located in their service area(s). Other regional and/or rural utility companies outside of Rocky Mountain Power's/Dominion Energy's service areas may also offer Energy Star rebates – please check with them for information.

Since Federal HOME funds have been awarded to your project, there are other specific Federal requirements that apply as noted below:

1. Environmental Release - Specific environmental review procedures must be followed in accordance with 24 CFR Part 58. **Please note that a Phase I/II environmental study is not sufficient by itself for projects receiving HUD HOME funds.** Please contact Sarah Moore by phone at 801-834-4609 or by email at smmoore@utah.gov for further information and specific details. This review must be completed and submitted electronically through HCDD's WebGrants system. **This review process must be completed and approved by HUD by the issuance of an *Authority to Use Grant Funds* (AUGF) HUD 7015.16 form letter or the equivalent prior to HCDD completing contract execution, closing the loan, and committing and drawing Federal funds for your project**. New housing construction projects also require a public comment period, so project managers must allow at least 60 days to complete the environmental review process prior to HCDD's commitment and disbursement of HUD funds to an awarded project. **No construction or rehabilitation activity should take place prior to obtaining the *AUGF* letter regardless of other sources of funding. Failure to comply with this requirement will lead to in forfeiture of previously-awarded OWHLF HOME funds**.
2. Contract Execution - HCDD contract review and execution must be completed prior to the commitment of Federal funds in HUD's IDIS system, with all required signatures from both the developer and the HCDD director. Provided with this letter is a checklist listing the additional documentation required for the contract execution process. The final step will be the assignation of a contract number by the Department of Workforce Services, after which the executed contract will be returned to HCDD staff.
3. HOME Agreement - Provided with this letter is an *Owner HOME Agreement* template draft and OWHLF loan document drafts for review by you and your legal counsel to review prior to the actual loan closing. The *Owner HOME Agreement* will need to be completed and signed by you and the HCDD Director **prior to the release of any Federal funds to your project.**
4. Section 3 – In accordance with the Final Rule found at 24 CFR Part 75, all HOME projects receiving more than $200,000 of HUD funding for new construction or rehabilitation require implementation of Section 3 requirements, **to the greatest extent feasible**, to provide economic opportunities for employment and contracting directed toward low- and very low-income persons.

If any relocation is required of existing residents (residential and/or commercial), please follow the Relocation Plan submitted with your application, and review the *State of Utah - DWS-HCDD URA-104(d) Relocation Guidelines* attached with this letter. Any of the eight relocation forms as listed in the *Relocation Guidelines* can be either accessed online at www.housing.utah.gov or can be sent to you via email. Specific relocation questions can be answered by HCDD's Relocation Specialist Daniel-Herbert-Voss by phone at 435-522-0645 or by email at dhvoss@utah.gov. If you have other relocation questions, you may contact Jade Santoro, HUD's Region 8 Relocation Specialist, by phone at 303-672-5414 or by email at Jade.A.Santoro@hud.gov for further information and specific details.

The DWS/HCD contract must be fully executed prior to closing on OWHLF loan funds. A checklist is provided with the attachments, and should be completed and returned to either myself or Lisa Medina of our office. When you have completed these steps and are ready to close on the OWHLF funding, please contact Lisa Medina of our

office at lahowell@utah.gov or by phone at 385-310-1474 at least two weeks in advance of your proposed closing date to allow sufficient time for project-specific loan documents to be prepared.

The attachments, listed below, to this letter are all items that must be submitted before the contract can be fully executed and the loan closed, except for reporting for HUD Minority Business Enterprises/Women Business Enterprises and HUD Section 3, which must be completed and submitted at project closeout even if no qualified businesses and/or individuals were served. These items should be submitted electronically by scanning and emailing to dhvoss@utah.gov, by the use of the state MoveIT file transfer system, or a dropbox.com account that can be set up for your project.

Finally, let us remind you of the Board's charge to developing agencies to create new housing capacity. With the high demand for low-income affordable housing throughout Utah, OWHLF staff and the Board will continue to target future applications that meet this need over the acquisition/rehabilitation of existing affordable-housing projects, which is also reflected in the scoring process as listed in the *2022 Program Guidance and Rules*.

If you have any questions, or need assistance with any of the forms, please contact me by phone at (385) 522-0645 or by e-mail at dhvoss@utah.gov.

Thank you,

Daniel Herbert-Voss

Re: Commitment for Interim Construction Loan financing for 1512 S Apartments, Salt Lake City, Utah

Western Region Nonprofit Housing Corporation, a Utah limited liability company, recently submitted an application for an Interim Construction Loan to the Western Region Nonprofit Construction Loan Fund, in an amount not to exceed $14,500,000.00. The funds will be used as interim financing to assist in the new construction of 1512 S Apartments.

This letter confirms the Lender's willingness to extend construction loan funds subject to all of the terms and conditions stated below. This letter sets forth below the loan parameters and other critical matters relevant to the loan:

Loan Parameters. The general terms of the Loan are as follows:

Borrower: Western Region Nonprofit Housing Corporation, a Utah limited liability company as Sponsor and initial Borrower, to be assigned to a related entity as final Borrower.

Guarantor: Western Region Nonprofit Housing Corporation, a Utah nonprofit corporation

Developer: Western Region Nonprofit Housing Corporation, a Utah nonprofit corporation

Managing Member: A "to be formed" LLC to act as intermediary with Western Region Nonprofit Housing Corporation as the nonprofit parent entity.

Loan Amount: The principal amount of the construction loan shall not exceed $14,500,000.00

Loan Fee: 1% of Loan Amount - $145,000.00.

Use of Proceeds: The Loan proceeds are to be used solely for the construction of a 60 unit multifamily rental housing development to be known as 1512 S Apartments, located at 1512 South 300 West, Salt Lake City, Salt Lake County, Utah (the "Project") and to pay such other related expenses and costs as shall be approved by Lender.

Equity/Subordinated Debt Requirement: Lender understands that the Construction Loan will be closed in conjunction with HOME funding from the Olene Walker Housing Loan Fund. Lender will work with Olene Walker staff to determine subordination order. It is anticipated that upon completion of construction, the construction loan will be replaced by an FHA 223(f) mortgage from Greystone & Co., Inc. Borrower may or may not also issue a deferred developer fee note payable to Developer from surplus cash. As long as a balance remains on the Construction Loan, no other financing shall be permitted on the Project without the express written approval of the Lender.

Completion Date: The term of the Construction Loan shall not exceed 18 months from the date of closing.

Interest Rate: 6.00% per annum, of the existing loan balance, calculated monthly. Unpaid interest will accrue, and be added to the loan balance, until the entire principal and interest is paid.

In the event of any default by Borrower, the interest rate shall convert to 12% of the balance, commencing from the time of default.

Payment Terms: The Lender agrees to defer interest and principal payments until Borrower receives the construction completion equity payment from the Borrower's tax credit investor member. Repayment of funds will be made from tax credit equity payments when received. The entire principal balance outstanding, together with all unpaid interest and fees thereon, shall be due and payable in full on the earlier of the receipt by Borrower of the completion equity payment, or the last day of the 18th consecutive calendar month following the Closing.

Prepayment Penalty: None

Loan/Collateral Documents: The Loan shall be evidenced by a promissory note (the "Note"), a Deed of Trust / Security Agreement and a Loan Agreement. A subordination document may also be included in the loan documents as needed. , but as an unsecured subordinate loan, it will not be secured by a Deed of Trust, Assignment of Rents or Security Agreement.

Disbursement Procedures: All funds disbursed under the Loan shall be subject to the Loan Agreement, which shall contain such terms, covenants, and conditions as shall be satisfactory to Lender, including without limitation, the review by Lender of the contractor's draw request, appropriate invoices, lien waivers from the general contractor and periodic inspection reports. The Borrower shall submit monthly draw requests to the Lender, accompanied by evidence of costs expended in the form of invoices and draw requests on AIA G702 or similar forms and detailed schedules supporting the site work and construction costs shown on AIA G703 or similar forms, approved by the Borrower. All draw requests shall be submitted in a manner acceptable to Lender.

Additional Documents Required: Prior to closing, Borrower shall deliver the following to Lender, which shall be acceptable to the Lender in its sole discretion:

Evidence acceptable to the Lender showing the Project is in compliance with applicable land use restrictions, zoning laws, ordinances, and regulations.

A Site Plan, Scope of Work of the renovation, cost breakdown and itemization and other written materials related to the renovation of the Project, including evidence of compliance with the Americans with Disabilities Act.

A cost breakdown and itemization of all hard and soft costs for the Project.

Evidence of all building permits, governmental approvals and third party consents necessary for the Project;

Borrower agrees to indemnify and hold Lender and its officers, directors, agents, and employees harmless from and against any loss, claims, or expenses, including, but not limited to, (a) reasonable attorney fees, arising out of or relating to the Loan, (b) any brokerage commissions or finder's fees claimed by any broker or other party in connection with the transactions contemplated hereby, and (c) any loss, costs, damages or expenses that Lender may incur, directly or indirectly, as a result of or in connection with the assertion against Lender of any claims relating to the presence or removal of any environmental contamination on the Premises or any adjacent property.

If Borrower wishes to pursue a lending relationship with Lender under the terms and conditions set forth above, please sign below where indicated.

Sincerely,

Marion A. Willey
President

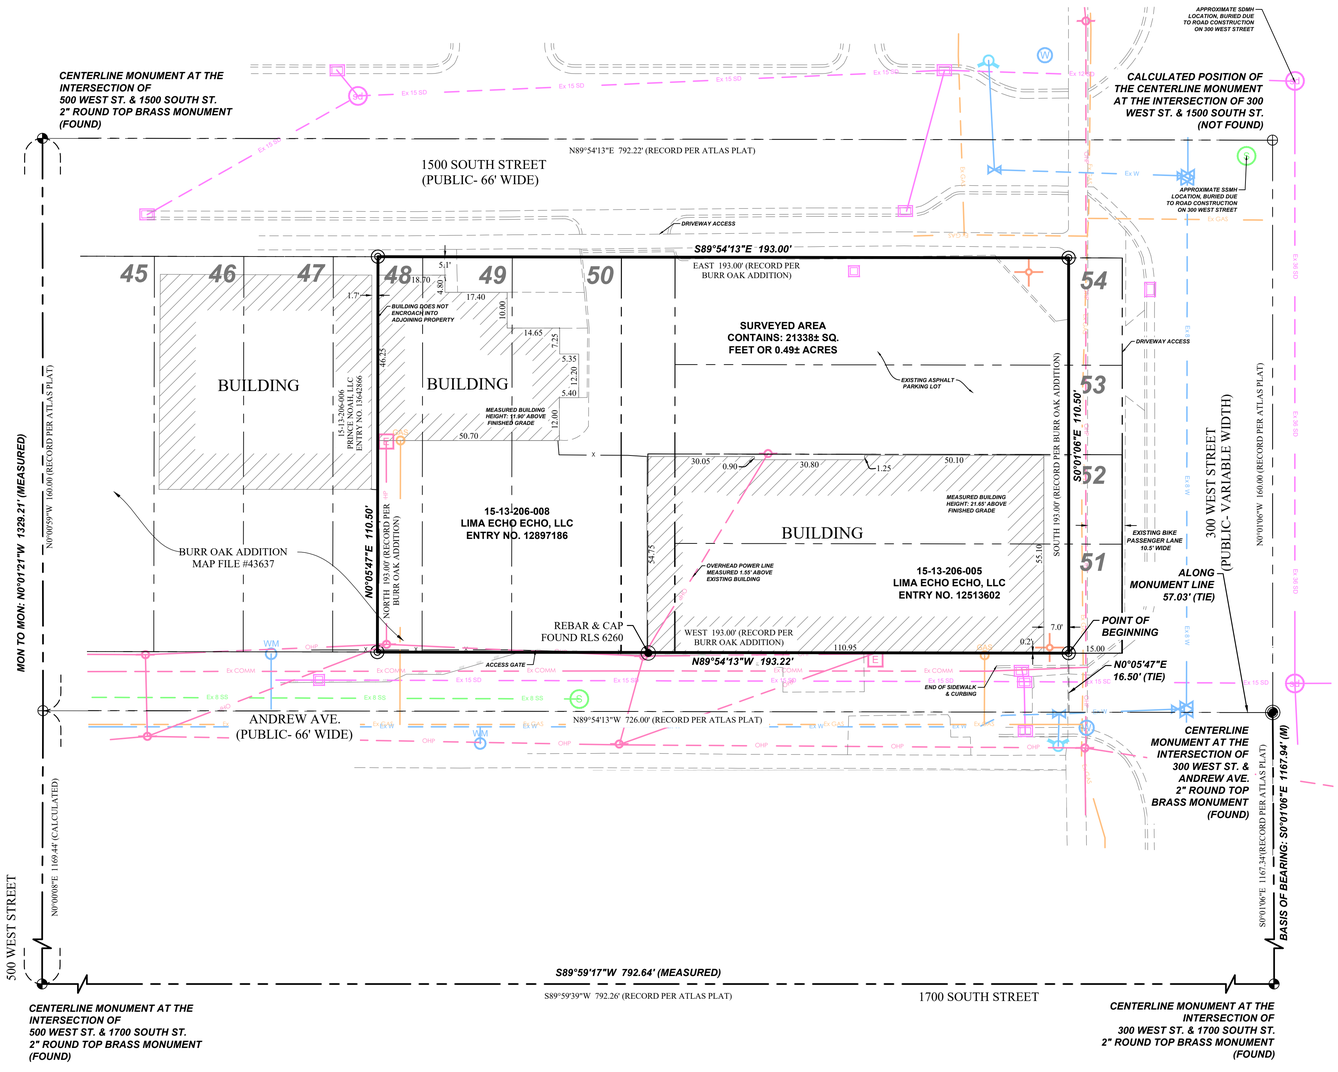
AS-SURVEYED DESCRIPTION

A part of the BURR OAK ADDITION, A Subdivision of Lot 17, Block 9, 5 Acre Plat "A" Big Field Survey, recorded on September 22, 1891 as Map File No. 43637 in the office of the Salt Lake County Recorder, located in Salt Lake City, Salt Lake County, Utah, being more particularly described as follows:

Beginning at a point located on the westerly right-of-way of 300 West Street, the Basis of Bearing being S0°01'06"E along the Monument line of said 300 West Street between two found monuments at the intersections of Andrew Avenue and 1700 South Street, said point also being located on the Northerly right-of-way of said Andrew Avenue, said point also being located West 15.00 feet from the southeast corner of Lot 51 of said BURR OAK ADDITION, A Subdivision of Lot 17, Block 9, 5 Acre Plat "A" Big Field Survey, recorded on September 22, 1891 as Map File No. 43637 in the office of the Salt Lake County Recorder, said point also being N89°54'13"W 57.03 feet along the Monument line and N0°05'47"E 16.50 feet from the centerline monument located at the intersection of Andrew Avenue & 300 West Street; running thence westerly along said Subdivision line N89°54'13"W 193.22 feet to the westerly line of the easterly 1/2 of Lot 48 of said Subdivision; thence northerly along said westerly line N0°05'47"E 110.50 feet to a point located on the southerly right-of-way of 1500 South Street; thence easterly along said right-of-way S89°54'13"E 193.00 feet to a point on said westerly right-of-way of said 300 West Street; thence southerly along said right-of-way S0°01'06"E 110.50 feet to the point of beginning.

Contains: 21338± Sq. Feet or 0.49± Acres



RECORD DESCRIPTIONS
(FROM TITLE REPORT FILE NO. 159275-TOF)

Lots 51 and 52, BURR OAK ADDITION, according to the official plat thereof as recorded in the office of the Salt Lake County Recorder.

TOGETHER WITH one-half of the vacated alley abutting on the West, recorded May 29, 1950 as Entry No. 1201749 in Book 768 at Page 604 of official records.

LESS AND EXCEPTING THEREFROM that portion of subject property conveyed to Salt Lake City, a municipal corporation of the State of Utah by that certain Quit-Claim Deed recorded March 1, 1971 as Entry No. 2373217 in Book 2939 at Page 496, and being more particularly described as follows:

Beginning at the Northeast corner of Lot 52, Burr Oak Addition, a subdivision of part of Block 9, Five Acre Plat "A", Big Field Survey, and running thence South 00°01'06" East 55.5 feet; thence West 15.0 feet; thence North 00°01'06" West 55.5 feet; thence East 15.0 feet to the point of beginning.

(FROM TITLE REPORT FILE NO. 159275-TOF)

The East 1/2 of Lot 48 and all of Lots 49 and 50, BURR OAK ADDITION, according to the official plat thereof as recorded in the office of the Salt Lake County Recorder.

TOGETHER WITH 1/2 of the vacated alley abutting on the East.

ALSO:
The West 110 feet of Lots 53 and 54, Burr Oak Addition, according to the official plat thereof as recorded in the office of the Salt Lake County Recorder.

TOGETHER WITH 1/2 of the vacated alley abutting on the West.

RECORD MATTERS
(PER TITLE REPORT #159275-TOF)

The search of public records conducted by Cottonwood for this Report did not include a search of the State Construction Registry or any other non-public record sources. Cottonwood makes no representations, and disclaims any liability, concerning the existence or absence of any filings or other information on the State Construction Registry.

Record Matter #1-2
Contain no plottable descriptions.
Record Matter #3
A Deed of Trust to secure an indebtedness in the amount shown below, and any other obligations secured thereby:
Trustor: Process, L.L.C.; Trustee: Aspen Title Company; Beneficiary: First National Bank of Layton; Amount: $260,085.00; Dated: June 13, 2016; Recorded: June 15, 2016 as Entry No. 12300283 in Book 10441 at Page 9615.
Survey Findings: Area described in record document matches surveyed area.
Record Matter #4
Assignment of Rents recorded June 15, 2016 as Entry No. 12300284 in Book 10441, at Page 9634, as additional security for the payment of the indebtedness secured by said Deed of Trust.
Survey Findings: Area described in record document matches surveyed area.
Record Matter #5
UCC Financing Statement by Process, L.L.C., as Debtor, in favor of First National Bank of Layton, as Secured Party, recorded June 15, 2016 as Entry No. 12300285 in Book 10441 at Page 9645.
Survey Findings: Area described in record document matches surveyed area.

RECORD MATTERS
(PER TITLE REPORT #159276-TOF)

The search of public records conducted by Cottonwood for this Report did not include a search of the State Construction Registry or any other non-public record sources. Cottonwood makes no representations, and disclaims any liability, concerning the existence or absence of any filings or other information on the State Construction Registry.

Record Matter #1-2
Contain no plottable descriptions.
Record Matter #3
A Deed of Trust to secure an indebtedness in the amount shown below, and any other obligations secured thereby: Trustor: Process, L.L.C.; Trustee: First American Title Insurance Company National Commercial Services; Beneficiary: First National Bank of Layton; Amount: $247,500.00; Dated: November 15, 2016; Recorded: November 22, 2016 as Entry No. 12418770 in Book 10503 at Page 1088.
Survey Findings: Area described in record document matches surveyed area.
Record Matter #4
Assignment of Rents recorded November 22, 2016 as Entry No. 12418771 in Book 10503, at Page 1107, as additional security for the payment of the indebtedness secured by said Deed of Trust.
Survey Findings: Area described in record document matches surveyed area.
Record Matter #5
Certificate of Noncompliance recorded December 4, 2018 as Entry No. 12897186 in Book 10735 at Page 7144.
Survey Findings: Area described in record document matches surveyed area.

NOTES

1. The purpose of this Survey is to provide an ALTA/NSPS Land Title Survey and Certification for the parcels described and shown hereon, located in Salt Lake City, Salt Lake County, Utah & identified as Parcel No. 15-13-206-005 & Parcel No. 15-13-206-008. While conducting the fieldwork for this survey, street repair & road construction were observed throughout 300 West Street. The centerline monument located at the intersection of said 300 West Street & 1500 South Street appears to have been covered, removed, or destroyed. The calculated position (shown hereon) of said monument was determined by using the record location displayed on Block 9, 5 Acre Plat "A" Atlas Plat on file in the office of the Salt Lake County Surveyor's Office. Several improvements were covered or buried in said 300 West Street. The approximate location of a Sanitary Sewer Manhole & a Storm Drain Manhole are labeled and displayed on this Survey by utilizing the record utility locations provided by Salt Lake City Public Utilities (shown hereon). All other utilities displayed on this survey were determined using measurements taken in the field. Except as shown, no existing improvements violate applicable set back lines and front, side, and rear yard requirements.
2. Two (2) Limited Real Property Title Reports prepared by Cottonwood Title Company, Salt Lake City, Utah, (1) File No.159275-TOF, Effective Date: May 16, 2022 & (2) File No. 159276-TOF, Effective Date: May 16, 2022 were utilized in the preparation of this Survey. Focus Engineering & Surveying, LLC is entitled to rely on the accuracy of these documents, and is not liable for errors and omissions based on their reliance thereof. Unless noted otherwise, all record parcels and title exceptions noted on this Survey are referenced from said documents.
3. The Basis of Bearing for this Survey is S0°01'06"E along the Monument line between the Centerline Monuments located along 300 West Street at the intersections of Andrew Avenue & 1700 South Street. All deeds and plats of record have been rotated to match the aforementioned basis of bearing, or to other Sectional/monument lines relative to said basis of bearing per measured lines as shown hereon.
4. #5 rebar & cap (FOCUS ENG) to be set at all boundary corners unless noted otherwise.
5. This drawing, its design and invention thereof, either electronic or hard copy, is the property of Focus Engineering & Surveying, LLC, and is submitted to, and is for the exclusive use of the parties listed in the Surveyor's Certificate shown hereon. Only signed and sealed copies authorized by the Surveyor and sent from Focus Engineering & Surveying, LLC, or certified copies obtained from the office of the County Surveyor may be used as the official work of the Surveyor.
6. Except as specifically stated or shown on this drawing, this Survey does not purport to reflect any of the following which may be applicable to the properties shown hereon: easements, encumbrances, building setback lines, restrictive covenants, subdivision restriction, zoning, or other land use restrictions.
7. With regard to locations of utilities on or serving the surveyed property, information from sources will be combined with observed evidence of utilities pursuant to Section 5.E.iv. to develop a view of the underground utilities. However, lacking excavation, the exact location of underground features cannot be accurately, completely, and reliably depicted. In addition, in some jurisdictions, 811 or other similar utility locate requests from surveyors may be ignored or result in an incomplete response. Where additional or more detailed information is required, the client is advised that excavation may be necessary.
8. Survey responses to Table A (Optional Survey Responsibilities and Specifications):
   a. Item 1: Survey monuments found or set shown hereon.
   b. Item 2: Address of surveyed properties: (Per Title Report # 159275-TOF) 1512 South 300 West Street, Salt Lake City, UT 84115 & (Per Title Report # 159276-TOF) 1500 S 309 West Street, Salt Lake City, UT 84115
   c. Item 3: Surveyed property lies within the unshaded area of Zone "X" according to FEMA (Federal Emergency Management Agency) FIRM (Flood Insurance Rate Map) # 49035C0282H, Effective Date: August 2, 2012. There are no wetlands located on any part of the surveyed property
   d. Item 4: Gross land area shown hereon.
   e. Item 6(a): Zoning requirements and restrictions per two (2) zoning reports prepared by Salt Lake City Planning Division, (1) Petition No. PLNZAD2022-00439, Date of Report: May 17, 2022 & (2) Petition No. PLNZAD2022-00438, Date of Report: May 11, 2022.
      - Zoning Classification: CG General Commercial District.
      - Setback Requirements: Minimum Lot Area: Ten Thousand (10,000) square feet; Minimum Lot Width: Sixty feet (60'); Existing Lots: Lots legally existing prior to April 12, 1995, shall be considered legal conforming lots. Minimum Yard Requirements: Front Yard: Ten feet (10'); Corner Side Yard: Ten Feet (10'); Interior Side Yard: None required; Rear Yard: Ten Feet (10'): Buffer Yard: All Lots abutting residential property shall conform to the buffer yard requirements of chapter 21A.48 of this title; Accessory Buildings And Structures In Yards: Accessory buildings and structures may be located in a required yard subject to section 21A.36.020, table 21A.36.020B of this title.
      - Height and Floor Space Area Restrictions: No building shall exceed sixty feet (60'). Buildings higher than sixty feet (60') may be allowed in accordance with the provisions of subsections F! and F# of this section.
      - Parking Requirements: Per 21A.33.030 Table of Permitted and Conditional Uses For Commercial Districts, Zone CG permits Commercial, Off-Site, Park and Ride Lot, & Park and Ride Lot Shared with Existing Use parking.
   f. Item 6(b): Building setback requirements per provided zoning report or letter shown hereon.
   g. Item 7(a): Exterior dimensions of all buildings at ground level shown hereon.
   h. Item 7(b)(1): Square footage of exterior footprint of all buildings at ground level shown hereon.
   i. Item 7(c): Measured height of all buildings above grade shown hereon.
   j. Item 8: Substantial features observed are shown hereon.
   k. Item 9: No parking stalls or painted park-striping was observed while conducting this survey. However, the paved asphalt parking lot located in Parcel No. 15-13-206-008 was observed as being actively used as an unmarked parking lot. The following parking tabulations is in reference to the number of uncovered, unmarked parking stalls:

Parking Tabulations:	
Uncovered Spaces	21
ADA Accessible Spaces	0
Total Parking Spaces	21

   l. Item 10: No party walls were observed.
   m. Item 11(a): Utility providers serving on or around the surveyed area, as determined by the Blue Stakes of Utah 811 (bluestakes.org) Utility Contact Lookup, were requested at the time of this Survey. Observed existing utilities, as well as those utilities disclosed on plans requested by the following utility providers shown hereon (See Note #8)
      - Received: Pacificorp, Telecon, Mountain LTD, Salt Lake City.
      - Pending: Dominion.
   n. Item 13: Names of adjoining owners shown hereon.
   o. Item 16: No evidence of recent earth moving work, building construction, or building additions were observed.
   p. Item 17: Evidence of street repair and road construction were observed along 300 West Street.
   q. Item 18:Plottable offsite easements shown hereon.
   r. Item 19: No professional liability insurance policy was provided to the surveyor by the client.
10. The following documents were reviewed and/or utilized in the preparation of this Survey:
   a. BURR OAK ADDITION, A Subdivision of Lot 17, Block 9, 5 Acre Plat "A" Big Field Survey, recorded on September 22, 1891 as Map File No. 43637 in the office of the Salt Lake County Recorder.
   b. Quit-Claim Deed, recorded as Entry No. 2373217 in Book: 2939 at Page: 497 recording date: March 1, 1971 of official records.
   c. Warranty Deed, recorded as Entry No. 12300282 in Book: 10441 at Page: 9613-9614 recording date: June 15, 2016 of official records.
   d. Warranty Deed, recorded as Entry No. 12418631 in Book 10503 at Page: 211-212 recording date: November 22, 2016 of official records.
   e. Quit-Claim Deed, recorded as Entry No. 12513602 in Book: 10546 in Page: 7853 recording date: April 12, 2017 of official records.
   f. Quit-Claim Deed, recorded as Entry No. 12525858 in Book: 10553 at Page 622 recording date: May 1, 2017 of official records.
   g. S2020-01-2021 prepared by Benchmark Engineering & Land Surveying, signed date: October 19, 2019.
   h. S89-04-0171 prepared by Ensign Engineering & Land Surveying, signed date: September 19, 1988.
   i. Block 9, 5 Acre Plat "A" Atlas Plat, revised September 1976 in the office of the Salt Lake County Surveyor's Office

SURVEYOR'S CERTIFICATE

To Lima Echo Echo, LLC, a Utah limited liability company, Cottonwood Title Insurance Company
This is to certify that this map or plat and the survey on which it is based were made in accordance with the 2021 Minimum Standard Detail Requirements for ALTA/NSPS Land Title Surveys, jointly established and adopted by ALTA and NSPS, and includes Items 1, 2, 3, 4, 6, 7(a), 7(b)(1), 7(c), 8, 9, 10, 11, 13, 16, 17, 18, and 19 of Table A thereof. The fieldwork was completed on December 3, 2022.

PLANT SCHEDULE

TREES	BOTANICAL NAME	COMMON NAME	SIZE	QTY
ZC	Zelkova serrata 'JFS-KW1'	City Spnte® Japanese Zelkova	2" Cal.	8
ORNAMENTAL GRASSES	**BOTANICAL NAME**	**COMMON NAME**	**SIZE**	**QTY**
CAK	Calamagrostis x acutiflora `Karl Foerster`	Karl Foerster Feather Reed Grass	2 gal.	39
FB	Festuca glauca 'Boulder Blue'	Boulder Blue Fescue	1 gal.	15
PAH	Pennisetum alopecuroides `Little Bunny`	Little Bunny Fountain Grass	1 gal.	140
PR	Pennisetum alopecuroides 'Red Head'	Red Head Fountain Grass	3 gal.	16

REFERENCE NOTES SCHEDULE

SYMBOL	DESCRIPTION	QTY
1	CRUSHED ROCK, TYPE: WASATCH GREY, SIZE: 1", FROM STAKER PARSON MATERIALS OR APPROVED EQUAL.	2,323 sf
2	RAISED PLANTER, MATERIAL T.B.D, SIZE: 18" WIDTH, HEIGHT VARIES.	2 SECTIONS
3	BOULDER, SIZE: 3'-5', TYPE: ROYAL BOULDER FROM ROCK UTAH PROGRESSIVE PLANTS OR APPROVED EQUAL	12
4	LANDSCAPE LIGHTING, LED LANDSCAPE ACCENT LIGHT, MODEL #1377 BY W.A.C. LIGHTING FROM 5011 COLLECTION. 2 ACCENT LIGHTS TO BE PLACED AT EACH TREE WITHIN PARK STRIPS.	16
5	SCULPTURE ELEMENT, TO BE DETERMINED	3

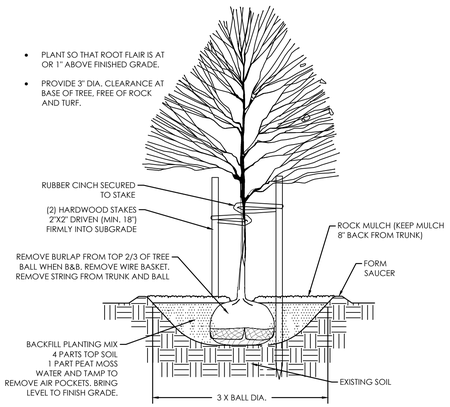
LANDSCAPE NOTES

1. TOP DRESS ALL PLANT BED AREAS WITH A 4" DEPTH OF ROCK MULCH. ROCK TYPE SPECIFIED IN THE REFERENCE NOTE SCHEDULE. PLACE ROCK OVER DEWITT PRO-5 WEED BARRIER FABRIC. FABRIC SHALL BE INSTALLED AFTER PRE-EMERGENT HAS BEEN APPLIED.
2. CONTRACTOR TO CONDUCT THEIR OWN QUANTITY TAKE-OFFS IN THE PLAN AND VERIFY ANY DISCREPANCIES WITH THE LANDSCAPE ARCHITECT.
3. AS PER SECTION 21.A.48.060.D.1, NO TREE SHALL BE PLANTED IN A PARK STRIP WITHOUT FIRST OBTAINING A PERMIT FROM THE URBAN FORESTRY DIVISION OF THE SALT LAKE CITY PUBLIC SERVICES DEPARTMENT. TREE SPECIES AND LOCATION SHALL BE APPROVED BY THE CITY FORESTER. PLEASE CONTACT URBAN FORESTRY BY CALLING (801)535-7818.

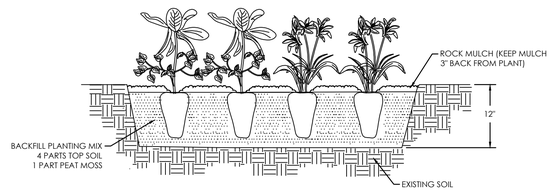
Landscape Tabulations- Salt Lake City- General Commercial District

Mandatory Provisions	
Landscape Buffer	Where residential adjacency occurs, a 7' wde buffer required. One shade tree for every 30 feet of landscape buffer & shrubs 4' height min. placed along full length of buffer.
Street Trees	1 street tree required at the rate of 1 for every 30 feet of street frontage.
Internal Parking Lot Landscape	Total square feet area of interior parking lot landscaping required. To be based on 5% of the parking lot.
Park Strip Planting	2" cal. trees required. At least (1/3) or more of the park strip must be covered by vegetation (80% water-wise planting required). Mulch shall be 3"-4" depth min.
Landscape Yard	At least (1/3) or more of the yard area must be covered with turf, perennial or low growng shrub vegetation. (80% water-wise planting required).

Landscape Buffer	Required	Provided	Comments
Buffer for residential adjaceny	N/A	N/A	No residential adjacendy
Street Trees	**Required**	**Provided**	Comments
300 West (110 LF)	3	3	
1500 South (145 LF)	6	5	5 trees provided at 25' on center. Tree not added in park-strip at garage entry for visibility purposes.
Internal Parking Landscape	**Required**	**Provided**	**Comments**
5% landscape area from overall parking area	N/A	N/A	No above ground parking proposed
Park Strip Planting	**Required**	**Provided**	**Comments**
Min. 33% live plant material & 3"-4" depth mulch	Yes	Yes	
Landscape Yard	**Required**	**Provided**	**Comments**
Min. 33% live plant material & 3"-4" depth mulch	Yes	Yes	

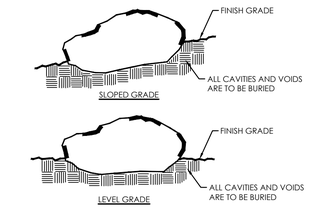


A TREE PLANTING & STAKING
NOT TO SCALE



B ORNAMENTAL GRASS & PERENNIAL PLANTING
NOT TO SCALE

BOULDER NOTES:
1. INSTALLER IS TO BE RESPONSIBLE TO PREVENT ANY SEVERE CHIPPING OR DAMAGE TO BOULDERS DURING THE PLACEMENT PROCESS.
2. BOULDERS ARE TO BE PLACED USING CABLES FROM A LOADER BOOM OR A BOULDER PLACEMENT BOOM.
3. BOULDER IS TO ULTIMATELY BE SET TO A MINIMUM OF 1/3 BURIED (SEE DETAIL).
4. ALL CAVITIES AND VOIDS NEAR THE BOTTOM OF THE BOULDER ARE TO BE SET BELOW FINISH GRADE.



NOTE: BOULDERS IN CLUSTERS ARE TO BE SET AT VARIED HEIGHTS

RE: CG Zoned Land
1512 South 300 West
Salt Lake City, Utah 84115

Colliers File #: SLC220222

Ms. Green:

This appraisal report satisfies the scope of work and requirements agreed upon by Western Region Nonprofit Housing Corporation (WRNPHC) and Colliers International Valuation & Advisory Services. The date of this report is June 11, 2022. At the request of the client, this appraisal is presented in an Appraisal Report format as defined by *USPAP* Standards Rule 2-2(a). My appraisal format provides a summary description of the appraisal process, subject and market data and valuation analyses.

The purpose of this appraisal is to develop an opinion of the Market Land Value of the subject property's fee simple interest. The following table conveys the final opinion of market value of the subject property that is developed within this appraisal report:

VALUE TYPE	INTEREST APPRAISED	DATE OF VALUE	VALUE
Market Land Value	Fee Simple	May 24, 2022	$2,500,000

The subject is a 0.51-acre CG zoned site at 1512 South 300 West in Salt Lake City, Utah.

At the request of the client, we have provided a land only value for the underlying real estate based on the anticipated unit mix of 91 total units (see extraordinary assumptions). The appraiser has not taken into account the existing improvements and no deductions were made for the demolition and disposal costs of the existing improvements (see Hypothetical Condition statement below).

COVID-19 **-** It is prudent to note that the COVID-19 virus (aka coronavirus) is a serious illness that has been spread throughout the world and more specifically the United States. The effects have included volatility in the

Colliers International Valuation & Advisory Services, and certain of its subsidiaries, is an independently owned and operated business and a member firm of Colliers International Property Consultants, an affiliation of independent companies with over 500+ offices throughout more than 68 countries worldwide.

stock market, capital markets, Federal Reserve interest rate cuts, and a federal stimulus package. The impact to demand and ultimately values for real estate were felt. Real estate is an investment type that historically takes a longer time period to be impacted in relation to alternative investment types. Colliers Valuation professionals have consulted with market participants in preparation of this assignment to understand and monitor how the subject property may be impacted. Our opinions and conclusions are based on information available and accounts for market perception as of the date of this appraisal.

The analyses, opinions and conclusions communicated within this appraisal report were developed based upon the requirements and guidelines of the current Uniform Standards of Professional Appraisal Practice (USPAP), the requirements of the Code of Professional Ethics and the Standards of Professional Appraisal Practice of the Appraisal Institute.

The report, in its entirety, including all assumptions and limiting conditions, is an integral part of, and inseparable from, this letter. *USPAP* defines an Extraordinary Assumption as, “an assignment specific-assumption as of the effective date regarding uncertain information used in an analysis which, if found to be false, could alter the appraiser’s opinions or conclusions”. *USPAP* defines a Hypothetical Condition as, “that which is contrary to what is known by the appraiser to exist on the effective date of the assignment results, but is used for the purpose of analysis”.

The Extraordinary Assumptions and/or Hypothetical Conditions that were made during the appraisal process to arrive at my opinion of value are fully discussed below. I advise the client to consider these issues carefully given the intended use of this appraisal, as their use might have affected the assignment results.

EXTRAORDINARY ASSUMPTIONS

It is an Extraordinary Assumptions of this assignment that the subject will be approved by the city planning department for a 91-unit multi-family development.

HYPOTHETICAL CONDITIONS

At the request of the client, we have provided a land only value for the underlying real estate. It is a Hypothetical Conditions of this assignment that the existing improvements on the subject site are non-existent, resulting in a vacant and developable site.

RELIANCE LANGUAGE

The Appraisal is for the sole use of the Client; however, Client may provide only complete, final copies of the Appraisal report in its entirety (but not component parts) to third parties who shall review such reports in connection with loan underwriting or securitization efforts. Colliers International Valuation & Advisory Services is not required to explain or testify as to appraisal results other than to respond to the Client for routine and customary questions. Please note that our consent to allow the Appraisal prepared by Colliers International Valuation & Advisory Services or portions of such Appraisal, to become part of or be referenced in any public offering, the granting of such consent will be at our sole and absolute discretion and, if given, will be on condition that Colliers International Valuation & Advisory Services will be provided with an Indemnification Agreement and/or Non-Reliance letter, in a form and content satisfactory to Colliers International Valuation & Advisory Services, by a party satisfactory to Colliers International Valuation & Advisory Services. Colliers International Valuation & Advisory Services does consent to your submission of the reports to rating agencies, loan participants or your auditors in its entirety (but not component parts) without the need to provide Colliers International Valuation & Advisory Services with an Indemnification Agreement and/or Non-Reliance letter.

Colliers International Valuation & Advisory Services hereby expressly grants to Client the right to copy the Appraisal and distribute it to other parties in the transaction for which the Appraisal has been prepared, including employees of Client, other lenders in the transaction, and the borrower, if any.

© 2022 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

My opinion of value reflects current conditions and the likely actions of market participants as of the date of value. It is based on the available information gathered and provided to us, as presented in this report, and does not predict future performance. Changing market or property conditions can and likely will have an effect on the subject's value.

The signature below indicates my assurance to the client that the development process and extent of analysis for this assignment adhere to the scope requirements and intended use of the appraisal. If you have any specific questions or concerns regarding the attached appraisal report, or if Colliers International Valuation & Advisory Services can be of additional assistance, please contact the individuals listed below.

Sincerely,

COLLIERS INTERNATIONAL

CLIENT IDENTIFICATION

The client of this specific assignment is Western Region Nonprofit Housing Corporation (WRNPHC).

PURPOSE

The purpose of this appraisal is to develop an opinion of the Market Land Value of the subject property's fee simple interest.

INTENDED USE

The intended use of this appraisal is to assist the client in making internal business decisions related to this asset.

INTENDED USERS

Western Region Nonprofit Housing Corporation (WRNPHC) is the only intended user of this report. Use of this report by third parties and other unintended users is not permitted. This report must be used in its entirety. Reliance on any portion of the report independent of others, may lead the reader to erroneous conclusions regarding the property values. Unless approval is provided by the authors no portion of the report stands alone.

ASSIGNMENT DATES

Date of Report	June 11, 2022
Date of Inspection	May 24, 2022
Land Valuation Date	May 24, 2022

PERSONAL INTANGIBLE PROPERTY

No personal property or intangible items are included in this valuation.

PROPERTY AND SALES HISTORY

Current Owner

The subject title is currently recorded in the name of LIMA ECHO ECHO LLC who acquired title to the property on 4/12/2017, as recorded in the Salt Lake County Deed Records.

Three-Year Sales History

Research of the applicable public records, private data services and an interview of the current owner and/or broker revealed that the subject property has not transferred during the past three years of the effective date of value stated in this report.

© 2022 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

Subject Sale Status

Research of the applicable public records, private data services and an interview of the current owner and/or broker revealed that the subject property is not under a current agreement of sale or option and is not currently offered for sale on the open market.

DEFINITIONS

This section summarizes the definitions of value, property rights appraised, and value scenarios that are applicable for this appraisal assignment. All other applicable definitions for this assignment are located in the Valuation Glossary section of the Addenda.

DEFINITIONS OF VALUE

Given the scope and intended use of this assignment, the definition of Market Value is applicable. The definition of Market Value, along with all other applicable definitions for this assignment, is located in the Valuation Glossary section of the Addenda (see Interagency Guidelines definition).

PROPERTY RIGHTS APPRAISED

The property rights appraised constitute the fee simple interest.

VALUE SCENARIOS

The valuation scenarios developed in this appraisal report include the Market Land Value of the subject property's fee simple interest.

© 2022 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

INTRODUCTION

The appraisal development and reporting processes requires gathering and analyzing information about those assignment elements necessary to properly identify the appraisal problem to be solved. The scope of work decision must include the research and analyses that are necessary to develop credible assignment results given the intended use of the appraisal. Sufficient information includes disclosure of research and analyses performed and might also include disclosure of research and analyses not performed. The scope of work for this appraisal assignment is outlined below:

- The appraiser analyzed the regional and local area economic profiles including employment, population, household income, and real estate trends. The local area was further studied to assess the general quality and condition, and emerging development trends for the real estate market. The immediate market area was inspected and examined to consider external influences on the subject.
- The appraiser confirmed and analyzed legal and physical features of the subject property including sizes of the site, flood plain data, seismic zone, zoning, easements and encumbrances, access and exposure of the site.
- The appraiser completed a land market analysis that included market and sub-market overviews. The Salt Lake City/Ogden/Clearfield market and South Salt Lake/Murray sub-market overviews analyzed supply/demand conditions using vacancy, absorption, supply change and rent change statistics. Conclusions were drawn regarding the subject property's competitive position given its physical and locational characteristics, the prevailing economic conditions and external influences.
- The appraiser conducted Highest and Best Use analysis and conclusions were drawn for the highest and best use of the subject property As-Vacant. The analysis considered legal, locational, physical and financial feasibility characteristics of the subject site.
- The appraiser confirmed and analyzed financial features of the subject property including potential entitlement issues, and tax and assessment records. This information as well as trends established by confirmed market indicators was used to forecast performance of the subject property.
- Selection of the valuation methods was based on the identifications required in USPAP relating to the intended use, intended users, definition and date of value, relevant property characteristics and assignment conditions. This appraisal developed the Sales Comparison Approach to value, which was adjusted and reconciled as appropriate. The appraisal develops an opinion of the Market Land Value of the subject property's fee simple interest.
- Reporting of this appraisal is in an Appraisal Report format as required in USPAP Standard 2. The appraiser's analysis and conclusions are summarized within this document.
- I understand the Competency Rule of USPAP and the author of this report meets the standards.
- Brady D. Hagblom provided significant real property appraisal assistance to the appraiser signing this certification. Assistance included gathering regional, neighborhood, zoning, and tax information, highest & best use analysis, inspecting the subject site, confirming the comparable data and assisting in the valuation analysis and reconciliation analysis under guidance and review of the appraiser.

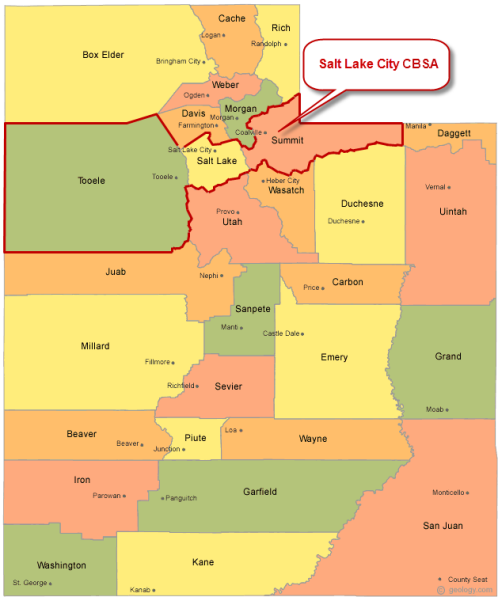
INTRODUCTION

The subject property is located in the Salt Lake City, Utah Metropolitan Statistical Area (MSA) or Core Based Statistical Area (CBSA). Salt Lake City is the capital and the most populous city of the state of Utah. The Salt Lake City CBSA is comprised of three counties: Salt Lake, Summit, and Tooele. Nine counties as well as the States of Nevada and Wyoming border the Salt Lake City CBSA. The Salt Lake City CBSA is located in north central Utah, anchored by Salt Lake City.



The geography of the Salt Lake City CBSA includes arid desert, lakes, and high-mountain peaks. Elevations within the area range from around 4,300 feet at the valley floor to nearly 11,000 feet above sea level in the Wasatch Mountains. Salt Lake City lies at the valley floor between the Wasatch Mountains on the east, the Oquirrh Mountains on the west, the much smaller Traverse Mountains to the south, and the Great Salt Lake on the northwest. The major river that flows through the area is the Jordan River, a 60-mile river that flows from Utah Lake to the Great Salt Lake. The river receives the water of many streams flowing down from the Wasatch Range.

The Salt Lake City CBSA lies at the convergence of two cross-country freeways; I-15, which runs north-to-south just west of downtown, and I-80, which generally runs east-to-west through the area. Interstate 215 forms a 270° loop around Salt Lake City. These freeways provide access to Arizona to the south, Idaho to the north, Wyoming to the east, and Nevada to the west. The Salt Lake City International Airport and several other smaller airports serve the Salt Lake City CBSA. Salt Lake City's mass transit service is operated by the Utah Transit Authority (UTA) and includes an extensive bus system, light rail, and a commuter rail line. The light rail system is called TRAX. Today, TRAX features three lines: the Blue Line from Draper to Salt Lake City, the Red Line from South Jordan to the University of Utah and the Green Line from West Valley to the Salt Lake International Airport, for a total 42.5 miles of line and 50 stations. The commuter rail system, FrontRunner, opened on April 26, 2008 and extends from the Intermodal Hub north to Pleasant View. In December 2012, FrontRunner South, a commuter rail from Salt Lake to Provo opened to the public, improving regional access.

Salt Lake City is the economic and demographic center of the Salt Lake City CBSA. It is the county seat of Salt Lake County and the capital of the state of Utah. Salt Lake City was founded by Mormon settlers in 1847. Salt Lake City was incorporated in 1851 and was designated the capital when Utah later became a state in 1896.

© 2022 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

The population soared with a steady influx of Mormon converts. The city's economy was strengthened with the completion of the first transcontinental railroad in 1869 and a railroad connection from Salt Lake City to the transcontinental railroad in 1870. Increased demand for metals during World War II (1939-1945) created a new mining boom, and a period of industrial expansion followed the war. Steel, mining, and railroad operations provided a strong source of income with Silver King Coalition Mines, Geneva Steel, Bingham Canyon Mine, and oil refineries. Today the areas major industries are government, trade, transportation, utilities, and professional and business services. Other economic activities include tourism, conventions, and major suburban call centers. Tourism has increased since the 2002 Olympic Winter Games, and many hotels and restaurants were built for the events.

DEMOGRAPHIC ANALYSIS

The following is a demographic study of the region sourced by *Pitney Bowes/Gadberry Group - GroundView®*, an on-line resource center that provides information used to analyze and compare the past, present, and future trends of geographical areas. Demographic changes are often highly correlated to changes in the underlying economic climate. Periods of economic uncertainty necessarily make demographic projections somewhat less reliable than projections in more stable periods. These projections are used as a starting point, but we also consider current and localized market knowledge in interpreting them within this analysis. Please note that our demographics provider sets forth income projections in constant dollars which, by definition, reflect projections after adjustment for inflation. We are aware of other prominent demographic data providers that project income in current dollars, which do not account for inflation. A simple comparison of projections for a similar market area made under the constant and current dollar methodologies can and likely will produce data points that vary, in some cases, widely. Further, all forecasts, regardless of demographer methodology(ies), are subjective in the sense that the reliability of the forecast is subject to modeling and definitional assumptions and procedures.

Population

According to Pitney Bowes/Gadberry Group - GroundView®, a Geographic Information System (GIS) Company, the Salt Lake City metropolitan area had a 2021 total population of 1,255,326 and experienced an annual growth rate of 1.3%, which was lower than the Utah annual growth rate of 1.6%. The metropolitan area accounted for 38.1% of the total Utah population (3,298,465). Within the metropolitan area the population density was 155 people per square mile compared to the lower Utah population density of 39 people per square mile and the lower United States population density of 92 people per square mile.

POPULATION

YEAR	US	UT	CBSA
2010 Total Population	308,745,538	2,763,885	1,087,873

Education

The Salt Lake City, UT MSA is home to the University of Utah, Westminster College, and to several campuses of other institutions of higher education, including a regional campus of Utah State University. The University of Utah (U of U) is a research university with its flagship campus in Salt Lake City. The public university is a space-grant university with an endowment of $1.077 billion, and an annual enrollment of approximately 31,000 students. Westminster College is a private liberal arts institution and the only accredited liberal arts college in Utah. With the main campus in the neighborhood of Sugar House in Salt Lake City, the college has an endowment of $46.1 million and an enrollment of 2,168 students annually. Utah State University-Tooele is a regional campus for the Utah State University education system. The university offers associate, bachelor's and master's degrees in several fields. And has an enrollment of approximately 800 students.

Household Trends

The 2021 number of households in the metropolitan area was 417,151. The number of households in the metropolitan area is projected to grow by 1.2% annually, increasing the number of households to 443,037 by 2026. The 2021 average household size for the metropolitan area was 2.97, which was 15.70% larger than the United States average household size of 2.57 for 2021. The average household size in the metropolitan area is anticipated to retract by 0.01% annually, reducing the average household size to 2.97 by 2026.

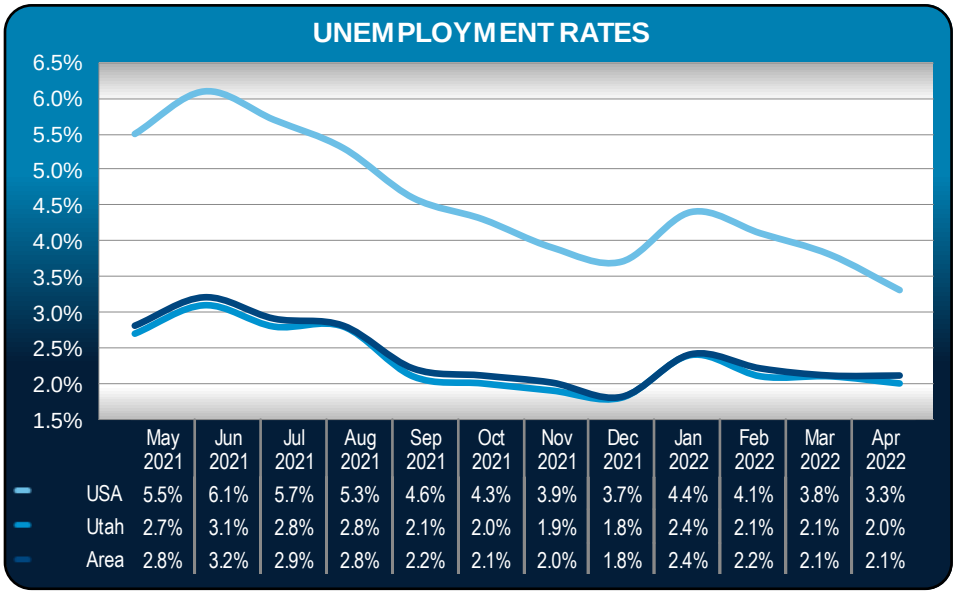
Source: U.S. Bureau of Labor Statistics *Unadjusted Non-Seasonal Rate



It is noted that the recent spike in unemployment is largely attributable to the COVID-19 pandemic and the related stay-at-home orders that occurred in March 2020. As these restrictions have been lifted, unemployment has begun to return to normal as evidenced by the decline in the Salt Lake City MSA unemployment rate from 11.2% in April 2020 to 2.1% in April 2022, which is below the pre-pandemic unemployment rate at 2.7%.

Largest Employers

The following table summarizes the top 20 largest employers in Salt Lake County, according to the Utah Department of Work Force Services. The information is based on average annual employment in 2014, the most recent year for which data is available.

Three of the top 15 employers are government related, and four of the top 15 employers are education related. The largest public employer is the University of Utah with over 24,000 employees. The largest private business is Intermountain Health Care with 15,000-19,999 employees. The next largest private employer is Wal-Mart with 4,000-4,999 employees.

TOP EMPLOYERS		
EMPLOYER NAME	EMPLOYEES	INDUSTRY

2019	12,840,841	5.0%
2020	5,981,032	(53.4%)

Source: U.S. Department of Transportation

It should be noted that the 2020 figures are a direct correlation to the stay-at-home orders associated with the pandemic and are not necessarily indicative of the market.

SUMMARY

Twelve years ago, the Salt Lake City MSA, along with the rest of the country, experienced a decline in the economy; however, in 2011 the economy began to show signs of improvement as the nation recovered from the Great Recession. This improvement continued into 2020 as the Salt Lake City economy expanded significantly and proved itself to be one of the most vibrant economies in the nation. Due to the relative strength of the Salt Lake City economy, the COVID-19 pandemic has had minimal to no negative pressures on the market growth. Over the longer run, Salt Lake City's strong demographics, low wages, high-tech industries, and young and educated workforce will again attract businesses to the area. It is s anticipated that economic growth in Salt Lake City will continue to outpace the national average over the forecast horizon in the near-term future.

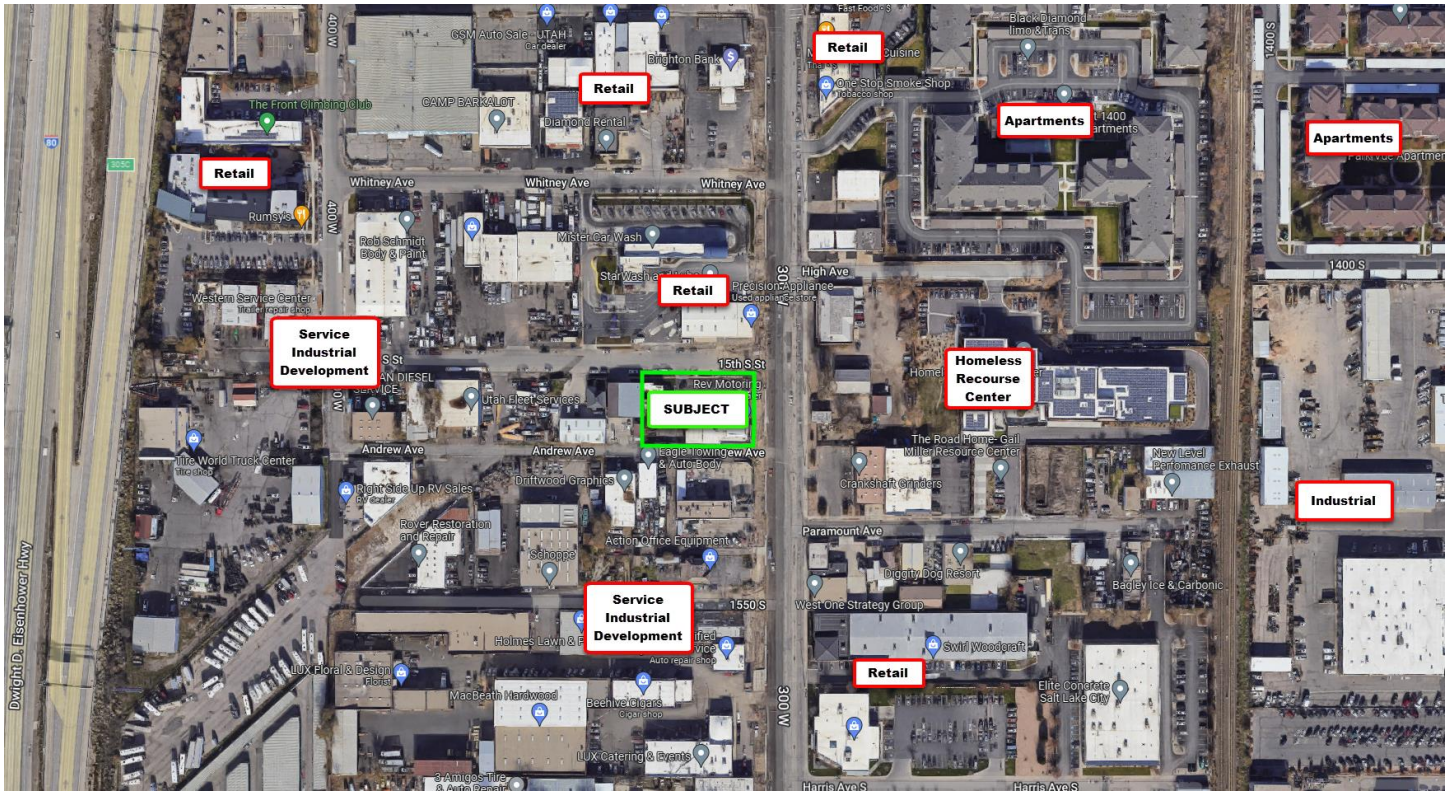
LOCAL AREA ANALYSIS

In this section of the report, I provide details about the local area and describe the influences that bear on the real estate market as well as the subject property. A map of the local area is presented on the prior page. Below are insights into the local area based on fieldwork, interviews, demographic data and experience working in this market.

LOCAL AREA PROFILE

The subject property is located in Salt Lake City, Utah, within Salt Lake County. Salt Lake City is the major metropolitan center in the state of Utah. Two major interstate highways converge in the Salt Lake Valley, I-15 and I-80. The intersection of these two highways has created a burgeoning economic center that is home to many dynamic industries. Three of the city's boundaries aren't manmade. Salt Lake City is bordered on the east by the Wasatch Mountain Range, to the west by the Great Salt Lake, and to the north by the Ensign Peak area. The city is bordered to the southwest by West Valley City and to the south by Murray. Salt Lake City's surface street system is laid out on a simple grid pattern. Road names are numbered with a north, south, east, or west designation, with the grid originating at the southeast corner of Temple Square downtown. US-89 enters the city from the northwest and travels the length of the valley as State Street (with the exception of northern Salt Lake City). The aerial photo below provides a general overview of the subject's immediate area and surrounding uses.



The uses adjacent to the property are noted below:

- **North -** 1500 South Followed By A Freestanding Retail Building And A Tunnel Car Wash Facility
- **South -** Andrew Ave. Followed By A Service Industrial Building
- **East -** 300 West Followed By Industrial And Commercial Development
- **West -** Service Industrial Development

DEMOGRAPHIC PROFILE

Below is a demographic study of the area, sourced by *Pitney Bowes/Gadberry Group - GroundView®*, an on-line resource center that provides information used to analyze and compare the past, present, and future trends of properties and geographical areas. Please note that our demographics provider sets forth income projections in constant dollars which, by definition, reflect projections after adjustment for inflation. We are aware of other prominent demographic data providers that project income in current dollars, which do not account for inflation. A simple comparison of projections for a similar market area made under the constant and current dollar methodologies can and likely will produce data points that vary, in some cases, widely. Further, all forecasts, regardless of demographer methodology(ies), are subjective in the sense that the reliability of the forecast is subject to modeling and definitional assumptions and procedures.

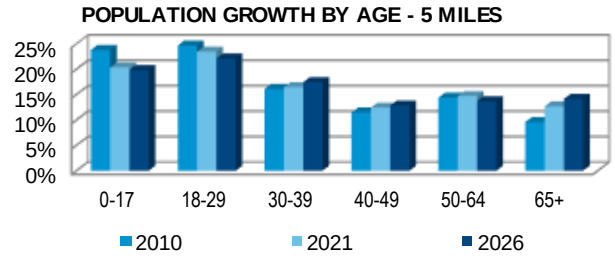
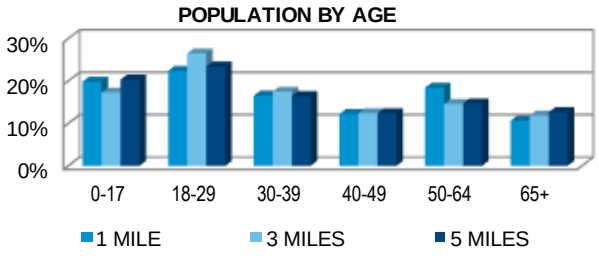
Source: Pitney Bowes/Gadberry Group - GroundView®

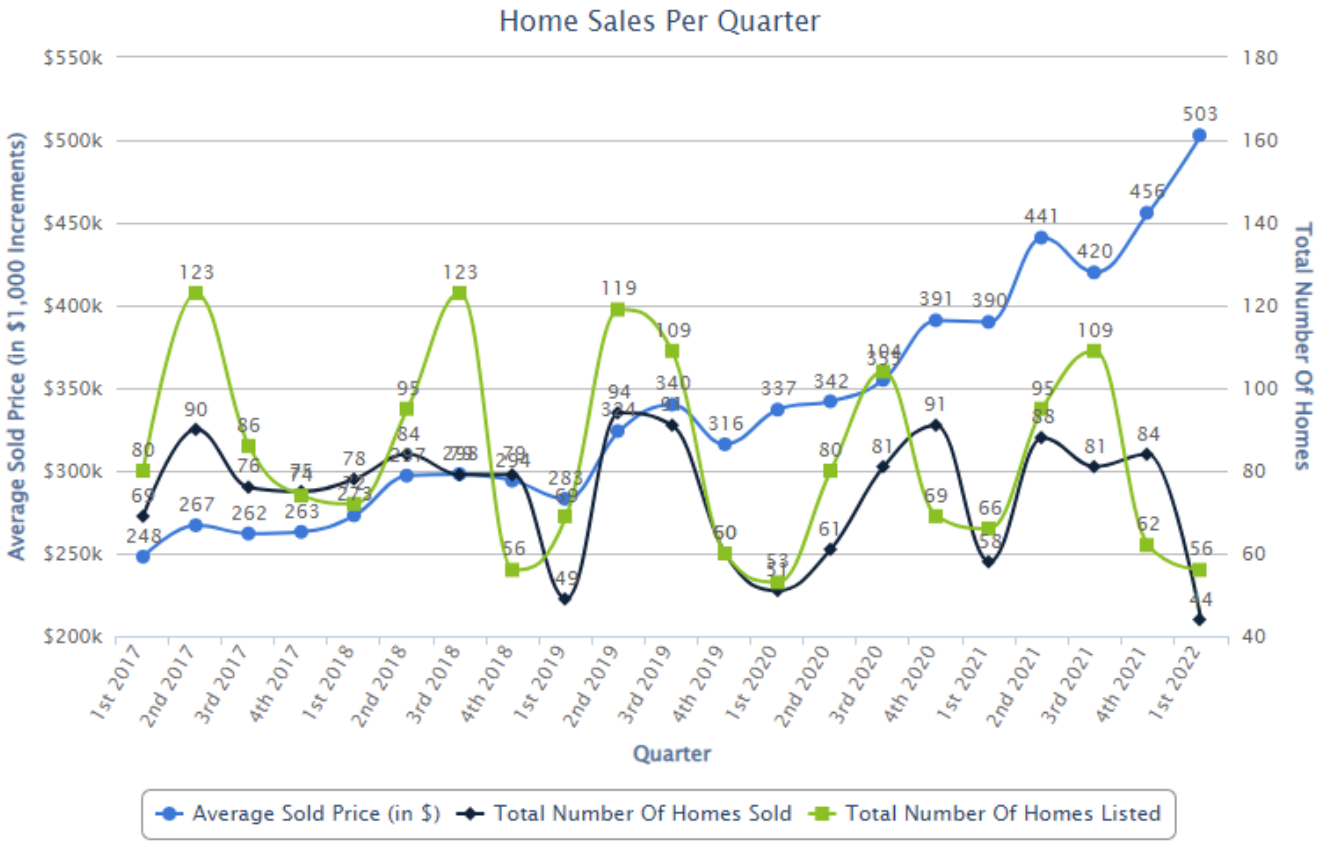




As noted in the previous table, population growth of 3.47% is anticipated to occur in the subject's neighborhood (three-mile radius) between 2021 and 2026. The average and median household income levels within the subject's 3-mile radius are $81,060 and $56,971 respectively. Of the 61,150 households within the subject's 3-mile radius, 30.3% have an income base between $50,000 and $100,000, and 24.8% are above $100,000.

Residential Development

Residential users in the immediate area are primarily single family residential. According to the MLS, the average home price within the subject's zip code during the 1st quarter of 2022 was $503,000 which is up $47,000 or 10.3% from the previous quarter. Home prices have generally increased over the past 5 years and are currently an all-time high. The following graph provided by the local MLS displays the value trends over the past 5-years.



Transportation Routes

Major traffic arteries are shown in the chart below:

MAJOR ROADWAYS & THOROUGHFARES			
HIGHWAY	**DIRECTION**	**FUNCTION**	**DISTANCE FROM SUBJECT**
I-15	north-south	Interstate Highway	This is within a half mile of the subject property.
I-80	east-west	Interstate Highway	This is within 2 miles of the subject property.
SURFACE STREETS	**DIRECTION**	**FUNCTION**	**DISTANCE FROM SUBJECT**
300 West	north-south	Primary Arterial	The subject property fronts this street.
1300 South	east-west	Commercial Corridor	This is within a quarter mile of the subject property.
1700 South	east-west	Commercial Corridor	This is within a quarter mile of the subject property.
State Street	north-south	Commercial Corridor	This is within a mile of the subject property.

Public Transportation is available near the subject property. It is located 300 West.

Economic Factors

Public administration, transportation, healthcare, education and tourism are among the city's economic engines. Salt Lake City is the center for industrial and commercial development in the Salt Lake Valley region. Federal, state and local governments have a large presence in the city. Salt Lake City is home to a number of large employers within the industrial sector that provide stability to the local economy. Trade, transportation and utilities make up for an important portion of employment opportunities. The largest employer is Delta at the Salt Lake City International Airport.

The subject property is in close proximity to the Downtown Salt Lake City area, which is home to some of the largest financial institutions in the state including Goldman Sachs, Zions Bank, and Wells Fargo Bank. There are many high-rises that are home to professional services such as law offices and banking firms, and general office users spanning many industries. Additionally, the area is one of the main retail centers in Utah and is home to the Gateway and City Creek. Downtown Salt Lake City is also home to the Salt Palace Convention Center. The Convention Center is host to some of the largest events in Utah including major company conventions (including USANA, doTERRA, and NuSkin) and Salt Lake Comic Con.

Salt Lake City is the world headquarters of the Church of Jesus Christ of Latter-day Saints, which, along with Sinclair Corporation and the University of Utah, is one of the state's largest employers. Intermountain Healthcare, the largest healthcare provider in the area, is located in Salt Lake City. The city has one Fortune 500 company, Huntsman Corporation, and two Fortune 100 companies, Zions Bancorporation and Questar Corporation. Tourism and convention industries are also economic engines in the area. The Salt Palace convention center hosts trade shows and conventions on a year-round basis, attracting numerous visitors to the city.

Community Services

Community services and facilities are readily available in the surrounding area. These include public services such as fire stations, hospitals, police stations, and schools (all ages). The subject property is located in the Granite School District.

IMMEDIATE AREA PROFILE

This section discusses uses and development trends in the immediate area that directly impact the performance and appeal of the subject property.

Predominant Land Uses

Significant development in the immediate area consists of office, retail, industrial, mixed-use and auto dealership uses along major arterials that are interspersed with multi-family complexes and single-family residential development removed from arterials. The local area has a mix of commercial uses nearby. The composition of retail, office, and industrial is shown in the following graph.

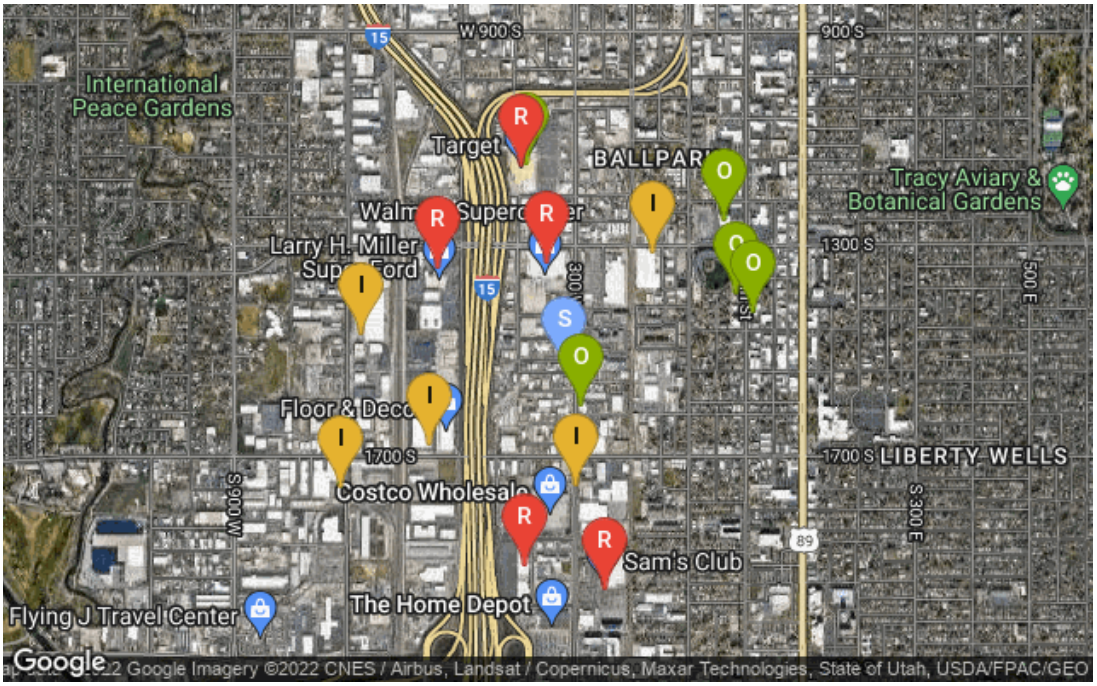
The following map shows the subject property and the five largest retail, office, and industrial properties in the immediate area from CoStar.



SUMMARY

The property is located in an area that is projected to experience significant growth across all analysis areas. The primary demand drivers in the local area are the University of Utah and Downtown Salt Lake City. However, there are a number of hospitals, retail and commercial uses located in the immediate area that generate additional demand for housing. There has been some redevelopment of existing assets in the immediate area, usually related to multi-family properties. Property values are expected to appreciate, albeit at a stable rate in the local area. Prior to the COVID-19 pandemic, the local economy demonstrated considerable growth in recent years. The area is anticipated to continue to have near-term negative effects due to the COVID-19 situation along with the Salt Lake market and national economies. However, like the Salt Lake City, UT MSA, due to the strong demographic trends and the overall fundamentals of the economy, it is anticipated that the local area will recover faster than the national economy.

Site Rating

Overall, the subject site is considered an average/ good land site in terms of its location, exposure, and access to employment, education and shopping centers, recognizing its location along a primary arterial.

Easements

A preliminary title report was not available for review. During the on-site inspection, no adverse easements or encumbrances were noted. This appraisal assumes that there is no negative value impact on the subject improvements. If questions arise regarding easements, encroachments, or other encumbrances, further research is advised.

Soils

A detailed soils analysis was not available for review. Based on the development of the subject, it appears the soils are stable and suitable for the existing improvements.

Hazardous Waste

We have not conducted an independent investigation to determine the presence or absence of toxins on the subject property. If questions arise, the reader is strongly cautioned to seek qualified professional assistance in this matter. Please see the Assumptions and Limiting Conditions for a full disclaimer.

Improvement Description

As previously discussed, at the request of the client, we have provided a land only value for the underlying real estate. The appraiser has not taken into account the exiting improvements and no deductions were made for the demolition and disposal costs of the existing improvements (see Hypothetical Condition statement below).

INTRODUCTION

Assessment of real property is established by an assessor that is an appointed or elected official charged with determining the value of each property. The assessment is used to determine the necessary rate of taxation required to support the municipal budget. A property tax is a levy on the value of property that the owner is required to pay to the municipality in which it is situated. Multiple jurisdictions may tax the same property.

The subject property is located within Salt Lake County. The assessed value and property tax for the current year are summarized in the following table.

ASSESSMENT & TAXES

Tax Year	2021				Tax Rate	1.1638%

Source: Salt Lake County Assessment & Taxation

SUBJECT PROPERTY ANALYSIS

The total taxable value for the subject property is $776,000 or $34.93/SF. There are no exemptions in place. Total taxes for the property are $9,031 or $0.41/SF.

In Utah, taxes are calculated by multiplying the tax rate by the taxable value. The taxable value is calculated at 100% of the final value or market value for commercial properties and 55% for residential properties. All property is reappraised annually, and Utah law requires a review of property characteristics once every five years. The final value is the reported market value of the property, as reported by the assessor's offices. Tax rates are set by procedures established in the Utah Constitution. There are many different rates in Salt Lake County, and they vary across the county depending on which school district, city, special service districts, and etc. the property is located.

According to the Salt Lake County Assessor's website, real estate taxes for the subject property are current as of the date of this report.

INTRODUCTION

Zoning requirements typically establish permitted and prohibited uses, building height, lot coverage, setbacks, parking and other factors that control the size and location of improvements on a site. The zoning characteristics for the subject property are summarized below:

ZONING SUMMARY	
Municipality Governing Zoning	City of Salt Lake City Planning & Zoning Department
Current Zoning	General Commercial (CG)
Purpose	The purpose of the CG General Commercial District is to provide an environment for a variety of commercial uses, some of which involve the outdoor display/storage of merchandise or materials. This district provides economic development opportunities through a mix of land uses, including retail sales and services, entertainment, office, residential, heavy commercial and low intensities of manufacturing and warehouse uses. This district is appropriate in locations where supported by applicable master plans and along major arterials. Safe, convenient and inviting connections that provide access to businesses from public sidewalks, bike paths and streets are necessary. Access should follow a hierarchy that places the pedestrian first, bicycle second and automobile third. The standards are intended to create a safe and aesthetically pleasing commercial environment for all users.
Permitted Uses	Accessory use; Adaptive reuse of a landmark site; Alcohol: Bar establishment (2,500 square feet or less in floor area), Bar establishment (more than 2,500 square feet in floor area), Brewpub (2,500 square feet or less in floor area), Brewpub (more than 2,500 square feet in floor area), Distillery, Tavern (2,500 square feet or less in floor area), Tavern (more than 2,500 square feet in floor area); Ambulance service (indoor); Ambulance service (outdoor); Amusement park; Animal: Cremation service, Kennel, Pet cemetery, Veterinary office; Antenna, communication tower; Art gallery; Artisan food production; Auction (outdoor); Auditorium; Bakery, commercial; Bed and breakfast; Bed and breakfast inn; Bed and breakfast manor; Bio-medical facility; Blacksmith shop; Blood donation center; Brewery; Bus line station/terminal; Bus line yard and repair facility; Car wash; Car wash as accessory use to gas station or convenience store that sells gas; Check cashing/payday loan business; Clinic (medical, dental); Commercial food preparation; Community garden; Contractor's yard/office; Daycare center, adult; Daycare center, child; Daycare, nonregistered home daycare or preschool; Daycare, registered home daycare or preschool; Dwelling: Assisted living facility (large), Assisted living facility (small), Group home (small) when located above or below first story office, retail, or commercial use, or on the first story where the unit is not located adjacent to street frontage, Living quarter for caretaker or security guard, Multi-family, Rooming (boarding) house; Equipment rental (indoor and/or outdoor); Farmers' market; Financial institution; Financial institution with drive-through facility; Flea market (indoor); Flea market (outdoor); Funeral home; Gas station; Government facility requiring special design features for security purposes; Home occupation; Hotel/motel; Industrial assembly; Intermodal transit passenger hub; Laboratory, medical related; Large wind energy system; Laundry, commercial; Library; Limousine service (large); Limousine service (small); Manufactured/mobile home sales and service; Mixed use development; Mobile food business (operation on private property); Museum; Nursing care facility; Office; Open space; Parking: Commercial, Park and ride lot, Park and ride lot shared with existing use; Place of worship on lot less than 4 acres in size; Radio, television station; Reception center; Recreation (indoor); Recreation (outdoor); Recycling collection station; Research and development facility; Restaurant; Restaurant with drive-through facility; Retail goods establishment; Plant and garden shop with outdoor retail sales area; With drive-through facility; Retail service establishment; Furniture repair shop; With drive-through facility; Reverse vending machine; Sales and display (outdoor); School: College or university; Music conservatory, Professional and vocational, Seminary and religious institute; Seasonal farm stand, Sexually oriented business; Sign painting/fabrication; Small brewery; Solar array; Storage (outdoor); Storage, public (outdoor); Storage, self; Mass merchandising; Pawnshop; Specialty; Superstore and hypermarket; Warehouse club; Studio, art; Studio, motion picture; Taxicab facility; Technology facility; Theater, live performance; Theater, movie; Urban farm; Utility, building or structure; Utility, transmission wire, line, pipe, or pole; Vehicle: Auction, Automobile repair (major), Automobile repair (minor), Automobile sales/rental and service, Automobile salvage and recycling (indoor), Boat/recreational vehicle sales and service, Truck repair (large), Truck sales and rental (large); Warehouse; Welding shop; Wholesale distribution; Woodworking mill.
Zoning Change	Not Likely

ZONING CONCLUSIONS

Based on the interpretation of the zoning ordinance, the subject property has a wide range of permitted use that could be built if the subject site were vacant.

Detailed zoning studies are typically performed by a zoning or land use expert, including attorneys, land use planners, or architects. The depth of my analysis correlates directly with the scope of this assignment, and it considers all pertinent issues that have been discovered through my due diligence. Please note that this appraisal is not intended to be a detailed determination of compliance, as that determination is beyond the scope of this real estate appraisal assignment.

INTRODUCTION

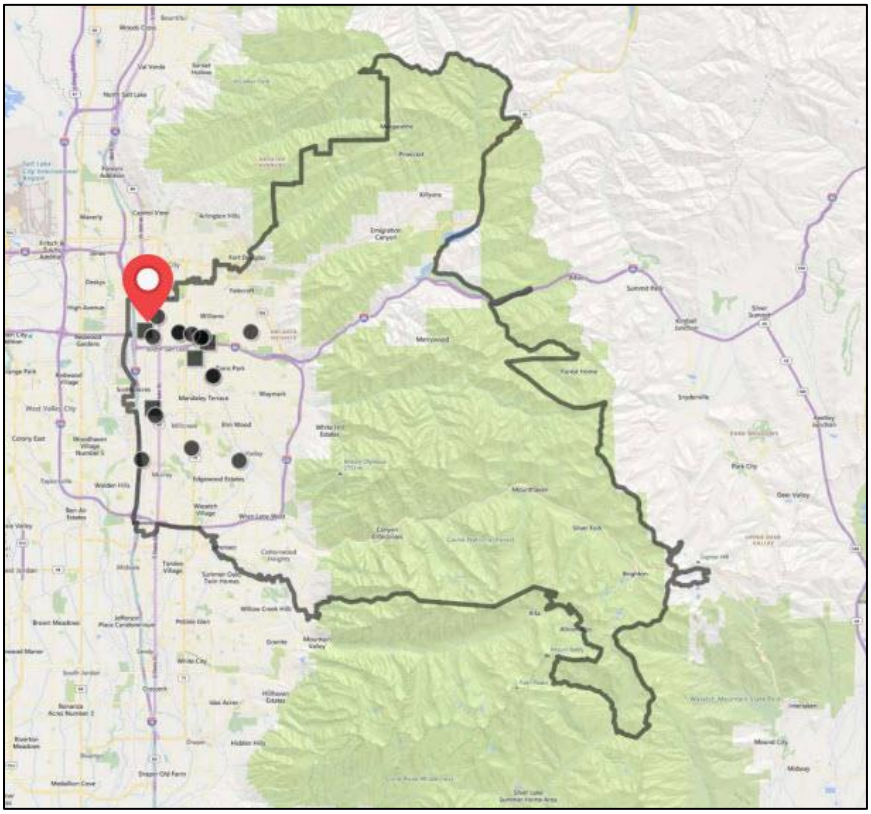
The market analysis section provides a comprehensive study of supply/demand conditions, examines transaction trends, and interprets ground level information conveyed by market participants. Based on these findings and an analysis of the subject property, conclusions are drawn with regard to the subject's competitive position within the marketplace. Below is a list of the various sections covered in the following apartment market analysis:

- Salt Lake City/Ogden/Clearfield Apartment Market
- South Salt Lake/Murray Apartment Submarket
- Competitive Dataset Analysis
- Broker / Market Participant Interviews
- COVID-19 Impact
- Transaction Trends
- Subject Property Analysis

SALT LAKE CITY/OGDEN/CLEARFIELD METRO APARTMENT MARKET ANALYSIS

The following is an analysis of supply/demand trends in the Salt Lake City/Ogden/Clearfield Apartment Market using information provided by MPF Research, widely recognized as a market leader in Apartment data and statistics. Through their coverage of the MPF-100, a collection of the 100 largest primary and secondary markets in the US, data is primarily sourced at the floor-plan, transaction level. This is made possible through MPF's sister company relationship with RealPage, the developers of YieldStar and OneSite revenue and property management software suites, resulting in access to access individual lease transactions for roughly 3.7 million units.

We will first analyze the metro market, followed by the submarket. The following map highlights MPF's coverage of the Salt Lake City/Ogden/Clearfield Metro Market and the individual submarkets tracked. The subject is located within the South Salt Lake/Murray submarket by the red pin below.



Current Market Snapshot

The table below presents a current quarter snapshot of key indicators for the Salt Lake City/Ogden/Clearfield Metro Market.

Source: MPF Research® [1] Delivering within next four quarters. [2] Annual Revenue Change = Annual Occ. Change + Annual Rent Change

Occupancy

As presented, the Salt Lake City/Ogden/Clearfield market maintains a current inventory of 116,322 units, up approximately 0.50% (545 units) from the previous quarter. The current market-wide occupancy rate of 97.9% is indicated through a range extending from 96.8% to 98.4% across all property styles and vintages. When compared to the previous quarter, the market-wide average occupancy rate has increased 0.2%. On a current-quarter annualized basis, occupancy rates have increased 1.8%.

Rental Rates / Revenue

On a per unit basis, rental rates by vintage range from a low of $1,318 per month to a high of $1,638 per month. When analyzed on the basis of style, rental rates range from $1,444 (low-rise) to $1,851 (high-rise). In total, the market-wide inventory-weighted average rental rate is $1,510 per unit per month. On a per square foot basis, rental rates range from a low of $1.51 to a high of $1.71 when analyzing property vintage and $1.58 to $2.11 when analyzed by property style. In aggregate, the market-wide average rental rate is $1.66 per square foot. Annual revenue change, defined as annual occupancy change plus annual rent change represents an increase of 22.7% versus the previous same-quarter annual period.

Concessions

Analyzed by vintage, the percentage of properties currently offering concessions range from 5.4% (pre-1970s) to 10.6% (1970s). When singularly analyzing property style, this range shifts to a low of 6.7% (low-rise) to a high of 14.6% (high-rise). An aggregate, market-wide average of 7.9% is indicated.

The average concession given ranges from 0.9% to 5.1% (vintage) and 1.3% to 8.4% (style) of potential gross income. An inventory-weighted average across all vintages and styles of 2.9% of potential gross income is indicated.

Trailing Metro Performance

Key supply/demand, occupancy, rental rate, and concession statistics for available trailing annual and quarterly periods are summarized below.

Historical Supply/Demand

The following table highlights the trailing annual and quarterly supply, construction, and absorption metrics.

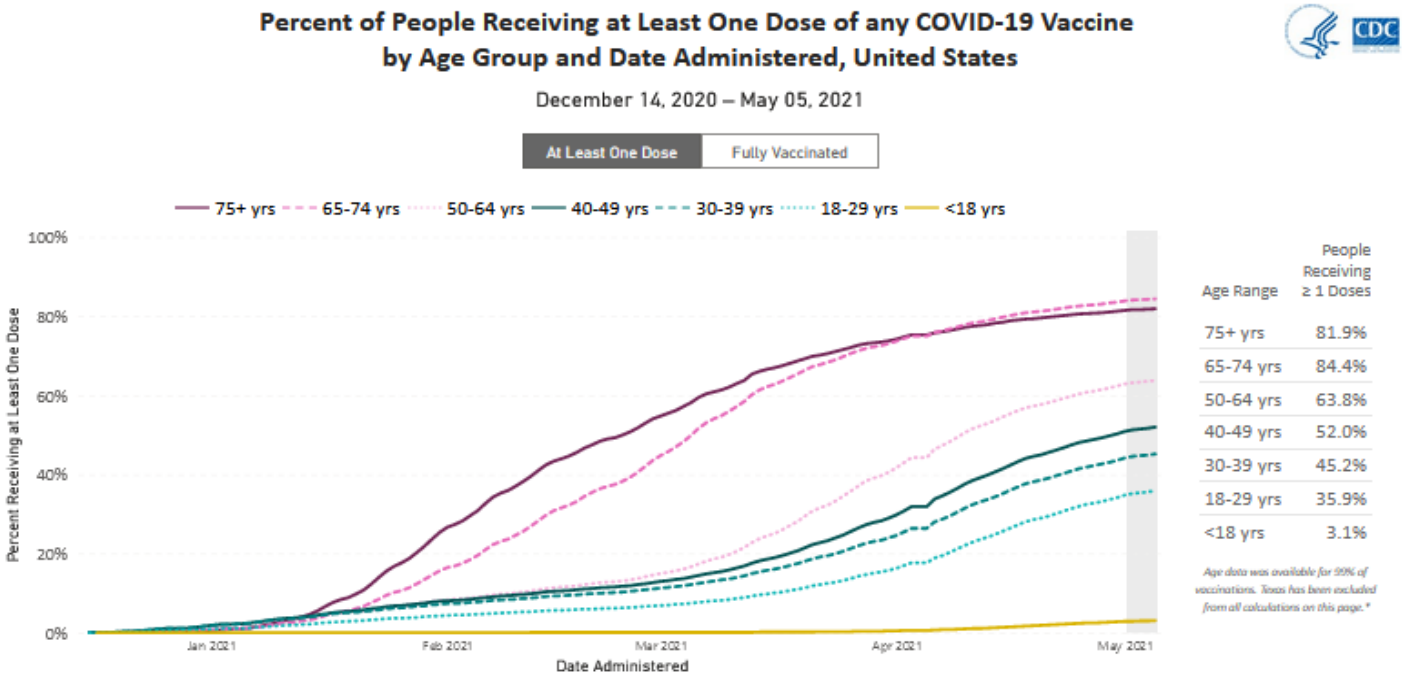
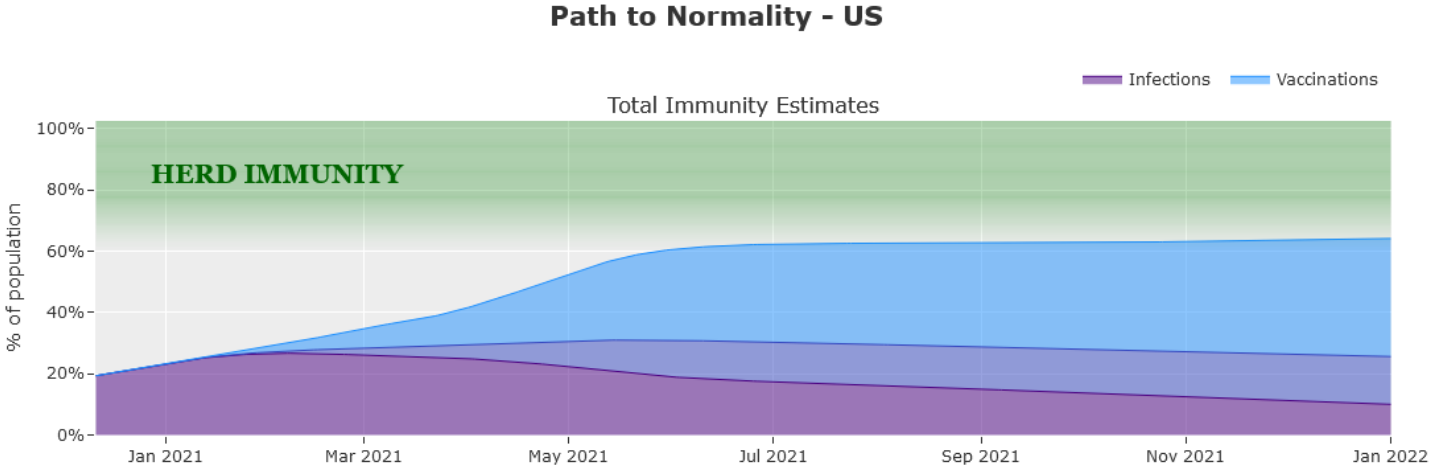
COVID-19 IMPACT

Recent optimism coinciding with roll out of vaccinations in the US has yielded improved economic activity, resulting in employment growth throughout the US, indicating recovery toward pre-COVID era economic activity in select markets. The Centers for Disease Control and Prevention provides daily updates on the vaccine delivery. The most recent available statistic as of the date of this research is reflected in the below chart.



There are numerous projections which vary substantially regarding how quickly much of the population will be vaccinated or have immunity. Modeling indicates that it is increasingly unlikely that the US will reach theoretical herd immunity in 2021; instead, focus has shifted from “immunity” toward “normality.” The chart below reflects one of many estimates on projected “normality” during 2021.



COVID-19 Impact Conclusion

Thus far, considering the changing economic factors and market participant feedback, we recognize near-term the market is broadly experiencing improving supply-demand fundamentals, absent of pockets where recovery is lagging the broader market due to location specific factors. By and large, near-term rent growth is the predominant market theme on a broad basis.

TRANSACTION TRENDS

In the open market, the subject property type would command most interest from regional and local buyers that are actively pursuing development land. There is currently strong buyer demand for substitute properties of the subject based on the volume of sale transactions and reports by buyers, sellers and other market participants during confirmation of market transactions. The most probable buyer is a developer.

Based on the preceding analysis, there is an established sales market for the subject property. As previously discussed, the velocity of sale transactions has been low over the past six months. Currently there is strong buyer demand, while there is scarce availability for this property type on the supply side. Based on these factors, conditions favor sellers in regard to negotiating sale terms.

SUBJECT PROPERTY ANALYSIS

Based on my analysis of the subject property and investigation of substitute properties in the marketplace, the subject is considered to have Average overall buyer appeal with an Average competitive position if the asset was exposed to the open market.

EXPOSURE TIME & MARKETING PERIOD

Exposure time is defined as "An opinion, based on supporting market data, of the length of time that the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal." (The Dictionary of Real Estate Appraisal, Appraisal Institute, 2022). Reasonable exposure time is impacted by the aggressiveness and effectiveness of a property's exposure to market participants, availability and cost of financing, and demand for similar investments. Exposure time is best established based the recent history of marketing periods for comparable sales, discussions with market participants and information from published surveys.

The availability of acquisition financing factors into exposure time. In recent quarters, financing has been available for well-positioned commercial real estate, particularly for stabilized assets within core MSAs and owner/user deals. For second tier or marginal properties, financing has been available but subject to more stringent requirements. Based on review of the local capital market, I conclude that adequate financing options would have been available to consummate a sale of the property on the date of value.

Market Exposure Time Conclusion

The preceding information generally supports an exposure time range from 0 to 4 months for sites similar to the subject. Based on its overall physical and locational characteristics, the subject site has average overall appeal to developers. Considering these factors, a reasonable estimate of exposure time for the subject property is six months or less.

Marketing Period Conclusion

Marketing period is very similar to exposure time, but reflects a projected time period to sell the property, rather than a retrospective estimate. Having reviewed open listings and discussed the market with local participants, and given the nature of this site, I feel that a time period of six months or less is supported for the subject's marketing period.

INTRODUCTION

The highest and best use of an improved property is defined as that reasonable and most probable use that will support its highest present value. The highest and best use, or most probable use, must be legally permissible, physically possible, financially feasible, and maximally productive. This section develops the highest and best use of the subject property As-Vacant.

AS-VACANT ANALYSIS

Legal Factors

The legal factors that possibly influence the highest and best use of the subject site are discussed in this section. Private restrictions, zoning, building codes, historic district controls, and environmental regulations are considered, if applicable to the subject site. Permitted uses of the subject's General Commercial (CG) zoning were listed in the Zoning Analysis section. Overall, legal factors support a broad range of office, retail, industrial, and residential uses for the subject site.

Physical & Locational Factors

Regarding physical characteristics, the subject site is rectangular in shape and has level topography with average/good access and average/good exposure. The subject site has frontage on an arterial and two connector streets. The immediate area is developed with office, retail, mixed-use and auto dealership development along major arterials that is interspersed with multi-family complexes and single-family residential development removed from arterials. Of the outright permitted uses, physical and locational features best support multi-family development for the site's highest and best use as-vacant.

Feasibility Factors

Regarding financial feasibility of multi-family properties in the region, construction delivery trends were previously discussed in the Market Analysis section. In general, the Salt Lake City/Ogden/Clearfield Market and South Salt Lake/Murray Submarket are experiencing a increased level of multi-family construction activity compared to historical norms. Based on this factor, as well as my analysis of other supply/demand factors that impact the feasibility of retail development, it is likely that a developer would undertake a speculative project over the next year or two. Financial feasibility factors generally support near-term development of the subject site.

As-Vacant Conclusion

Based on the previous discussion, the subject's highest and best use as-vacant is concluded to be multi-family development.

INTRODUCTION

The following presentation of the appraisal process deals directly with the valuation of the subject property. The Market Land Value of the subject's fee simple interest is estimated using the Sales Comparison Approach, which is recognized as the standard appraisal technique for commercial land. The Cost and Income Capitalization Approaches are not applicable when valuing unimproved commercial land and are therefore excluded. Their exclusion is not detrimental to the reliability or credibility of the final value conclusion.

SALES COMPARISON APPROACH

The Sales Comparison Approach is based on the principle of substitution, which asserts that no one would pay more for a property than the value of similar properties in the market. This approach analyzes comparable sales by applying transactional and property adjustments in order to bracket the subject property on an appropriate unit value comparison. The sales comparison approach is applicable when sufficient data on recent market transactions is available. Alternatively, this approach may offer limited reliability because many properties have unique characteristics that cannot be accounted for in the adjustment process.

LAND VALUATION

As previously discussed within the Valuation Methods section, the subject is valued as one marketable economic site in this appraisal. Land value is influenced by a number of factors; most prominent of which is development and use potential. These factors, as well as others, are considered in the following analysis.

UNIT OF COMPARISON

With the extraordinary assumption of 91 approved units, the most relevant unit of comparison is the price per unit. This indicator best reflects the analysis used by buyers and sellers in this market for land with similar utility and zoning in this marketplace.

COMPARABLE SELECTION

A thorough search was made for similar land sales in terms of proximity to the subject, size, location, development potential, and date of sale. In selecting comparables, emphasis was placed on confirming recent sales of commercial sites that are similar to the subject property in terms of location and physical characteristics. Overall, the sales selected represent the best comparables available for this analysis.

ADJUSTMENT PROCESS

Quantitative adjustments are made to the comparable sales. The following adjustments or general market trends were considered for the basis of valuation.

Transactional Adjustments

Dollar adjustments to the comparable sales were considered and made when warranted for transactional adjustments in the sequence shown below:

Property Rights Transferred	The valuation of the subject site was completed on a fee simple basis. If warranted, leased fee, leasehold and/or partial interest land sales were adjusted accordingly.
Financing Terms	The subject site was valued on a cash equivalent basis. Adjustments were made to the comparables involving financing terms atypical of the marketplace.
Conditions of Sale	This adjustment accounts for extraordinary motivation on the part of the buyer or seller often associated with distressed sales and/or assemblages.
Expenditures After Purchase	Adjustments were applied if site conditions warranted expenditures on the part of the buyer to create a buildable site. Examples include costs for razing pre-

© 2022 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

existing structures, general site clearing and/or mitigation of environmental issues.

Market Conditions

Market conditions adjustments were based on a review of historical sale data, market participant interviews and review of current versus historical pricing. Based on my research, the following table summarizes the market conditions adjustment applied in this analysis.

MARKET CONDITIONS ADJUSTMENT			
Per Year As Of	May 2022	(As-Is)	5%

The analysis applies an upward market conditions adjustment of 5% annually reflecting the conditions between the oldest comparable sale date up through the effective valuation date.

Property Adjustments

Quantitative percentage adjustments are also made for location and physical characteristics such as size, shape, access, exposure, topography, zoning and overall utility. Where possible the adjustments applied are based on paired data or other statistical analysis. For example, location adjustments are based primarily on review of land values in the market areas for the comparables relative to the subject. It should be stressed that the adjustments are subjective in nature and are meant to illustrate my logic in deriving a value opinion for the subject site.

LAND VALUATION PRESENTATION

The following Land Sales Summation Table, Location Map and datasheets summarize the sales data used in this analysis. Following these items, the comparable land sales are adjusted for applicable elements of comparison and the opinion of site value is concluded.

LAND SALES ANALYSIS AND CONCLUSION OF VALUE

The comparable land sales indicate an adjusted value range from $22,223 to $61,880/Unit, with a median of $38,069/Unit and an average of $37,883/Unit. The range of total gross adjustment applied to the comparables was from 17% to 52%, with an average gross adjustment across all comparables of 38%. The level of total adjustment applied to the comparables is considered to be moderate. Overall, the availability of market data and extent of analysis was adequate to develop a reasonably credible opinion of land value. Based on the results of the preceding analysis, Comparable 2 ($27,550/Unit adjusted) is given primary consideration for the subject's opinion of land value as it required a relatively identical density to the subject and also required the low lowest level of gross adjustments, indicating its overall similarity to the subject.

The following table summarizes the analysis of the comparables, reports the reconciled price per unit value conclusion, and presents the concluded value of the subject site.

CALCULATION OF LAND VALUE

	ANALYSIS	ADJUSTMENT				GROSS	OVERALL
COMP	PRICE	TRANSACTIONAL[1]	ADJUSTED	PROPERTY[2]	FINAL	ADJ %	COMPARISON
1	$59,872	2%	$61,069	-35%	**$39,695**	47%	SECONDARY

LAND VALUE CONCLUSION

The Sales Comparison Approach was utilized for valuation of the subject site, as it best reflects the decision-making of buyers and sellers of development land in the local marketplace. The purpose of this appraisal is to develop an opinion of the Market Land Value of the subject property's fee simple interest. The following table conveys the final opinion of market value of the subject property that is developed within this appraisal report:

My opinion of value reflects current conditions and the likely actions of market participants as of the date of value. It is based on the available information gathered and provided to us, as presented in this report, and does not predict future performance. Changing market or property conditions can and likely will have an effect on the subject's value.

ANALYSIS OF VALUE CONCLUSIONS	
VALUATION INDICES	**MARKET LAND VALUE**
INTEREST APPRAISED	**FEE SIMPLE**
DATE OF VALUE	**MAY 24, 2022**
FINAL VALUE CONCLUSION	**$2,500,000**
$/SF	$113/SF
Exposure Time	Six Months or Less
Marketing Period	Six Months or Less

I certify that, to the best of my knowledge and belief:

- The statements of fact contained in this report are true and correct.
- The reported analyses, opinions, and conclusions of the signer are limited only by the reported assumptions and limiting conditions, and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
- The signer of this report has no present or prospective interest in the property that is the subject of this report, and no personal interest with respect to the parties involved.
- Kelly Tate, MAI has performed no services, as an appraiser or in any other capacity regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- The signer is not biased with respect to the property that is the subject of this report or to the parties involved with this assignment.
- The engagement in this assignment was not contingent upon developing or reporting predetermined results.
- The compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
- The reported analysis, opinions, and conclusions were developed, and this report has been prepared, in conformity with the *Uniform Standards of Professional Appraisal Practice* and the *Code of Professional Ethics and Standards of Professional Appraisal* Practice of the Appraisal Institute.
- Kelly Tate, MAI did not inspect the property that is the subject of this report. Brady D. Hagblom did inspect the property that is the subject of this report.
- Brady D. Hagblom provided significant real property appraisal assistance to the appraiser signing this certification. Assistance included gathering regional, neighborhood, zoning, and tax information, highest & best use analysis, inspecting the subject site, confirming the comparable data and assisting in the valuation analysis and reconciliation analysis under guidance and review of the appraiser.

The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.

As of the date of this report Kelly Tate, MAI completed the continuing education program for Designated Members of the Appraisal Institute.

This appraisal is subject to the following assumptions and limiting conditions:

- The appraiser may or may not have been provided with a survey of the subject property. If further verification is required, a survey by a registered surveyor is advised.
- We assume no responsibility for matters legal in character, nor do we render any opinion as to title, which is assumed to be marketable. All existing liens, encumbrances, and assessments have been disregarded, unless otherwise noted, and the property is appraised as though free and clear, under responsible ownership, and competent management.
- The exhibits in this report are included to assist the reader in visualizing the property. We have made no survey of the property and assume no responsibility in connection with such matters.
- Unless otherwise noted herein, it is assumed that there are no encroachments, zoning, or restrictive violations existing in the subject property.
- The appraiser assumes no responsibility for determining if the property requires environmental approval by the appropriate governing agencies, nor if it is in violation thereof, unless otherwise noted herein.
- Information presented in this report has been obtained from reliable sources, and it is assumed that the information is accurate.
- This report shall be used for its intended purpose only, and by the party to whom it is addressed. Possession of this report does not include the right of publication.
- The appraiser may not be required to give testimony or to appear in court by reason of this appraisal, with reference to the property in question, unless prior arrangements have been made therefore.
- The statements of value and all conclusions shall apply as of the dates shown herein.
- There is no present or contemplated future interest in the property by the appraiser which is not specifically disclosed in this report.
- Without the written consent or approval of the author neither all, nor any part of, the contents of this report shall be conveyed to the public through advertising, public relations, news, sales, or other media. This applies particularly to value conclusions and to the identity of the appraiser and the firm with which the appraiser is connected.
- This report must be used in its entirety. Reliance on any portion of the report independent of others, may lead the reader to erroneous conclusions regarding the property values. Unless approval is provided by the author no portion of the report stands alone.
- The valuation stated herein assumes professional management and operation of the buildings throughout the lifetime of the improvements, with an adequate maintenance and repair program.
- The liability of Colliers International Valuation & Advisory Services, its principals, agents, and employees is limited to the client. Further, there is no accountability, obligation, or liability to any third party. If this report is placed in the hands of anyone other than the client, the client shall make such party aware of all limiting conditions and assumptions of the assignment and related discussions. The appraiser is in no way responsible for any costs incurred to discover or correct any deficiency in the property.
- The appraiser is not qualified to detect the presence of toxic or hazardous substances or materials which may influence or be associated with the property or any adjacent properties, has made no investigation or analysis as to the presence of such materials, and expressly disclaims any duty to note the degree of fault. Colliers International Valuation & Advisory Services and its principals, agents, employees, shall not be liable for any costs, expenses, assessments, or penalties, or diminution in value, property damage, or personal

© 2022 COLLIERS INTERNATIONAL VALUATION & ADVISORY SERVICES

injury (including death) resulting from or otherwise attributable to toxic or hazardous substances or materials, including without limitation hazardous waste, asbestos material, formaldehyde, or any smoke, vapors, soot, fumes, acids, alkalis, toxic chemicals, liquids, solids or gasses, waste materials or other irritants, contaminants or pollutants.

- The appraiser assumes no responsibility for determining if the subject property complies with the *Americans with Disabilities Act* (*ADA*). Colliers International Valuation & Advisory Services, its principals, agents, and employees, shall not be liable for any costs, expenses, assessments, penalties or diminution in value resulting from non-compliance. This appraisal assumes that the subject meets an acceptable level of compliance with *ADA* standards; if the subject is not in compliance, the eventual renovation costs and/or penalties would negatively impact the present value of the subject. If the magnitude and time of the cost were known today, they would be reduced from the reported value conclusion.
- An on-site inspection of the subject property was conducted. No evidence of asbestos materials on-site was noted. A Phase 1 Environmental Assessment was not provided for this analysis. This analysis assumes that no asbestos or other hazardous materials are stored or found in or on the subject property. If evidence of hazardous materials of any kind occurs, the reader should seek qualified professional assistance. If hazardous materials are discovered and if future market conditions indicate an impact on value and increased perceived risk, a revision of the concluded values may be necessary.
- A detailed soils study was not provided for this analysis. The subject's soils and sub-soil conditions are assumed to be suitable based upon a visual inspection, which did not indicate evidence of excessive settling or unstable soils. No certification is made regarding the stability or suitability of the soil or sub-soil conditions.
- This analysis assumes that the financial information provided for this appraisal, including rent rolls and historical income and expense statements; accurately reflect the current and historical operations of the subject property.

The Bank of Commerce
1730 West Broadway
Idaho Falls, ID 83402

May 18, 2022

Kelly Tate
6440 S Millrock Dr
Salt Lake City, UT 8411

RE: 3900 S Pioneer Rd, Idaho Falls, ID 83402 (See Task Order, Plans, Specs, Cost Breakdown, Lease Agreement, Geotech Study, Environmental Study, Plat Maps, Master Plan for Business Park, Pro Forma for Snake River Business Park BLGD #1, LLC)

Dear Mr. Tate,

This letter confirms we have engaged your services for an appraisal of the referenced property as indicated in the attached Task Order to this letter. Your engagement is as an independent contractor and not as an employee or agent of The Bank of Commerce. The appraisal assignment is to be prepared in accordance with the requirements of FIRREA and the current edition of Uniform Standards of Professional Appraisal Practice (USPAP). If this property is in a flood zone, an individual value for each structure is requested.

The appraisal is to be prepared, at the minimum, in the standard Appraisal Report type with a narrative style. Any deviations from this type and format (such as a Restricted Report) must be approved in writing by The Bank of Commerce. The only exception to this requirement is regarding an engagement upon a single-family residence. These may be prepared in a form style as opposed to narrative.

By accepting this appraisal assignment, you and any staff member associated with this assignment certify that you have no direct or indirect interest, financial or otherwise, in the property or transaction, or relationship with the ownership or borrower. Moreover, you agree not to accept or pursue the appraisal, or related assignments, of the subject property for a minimum of one year from the delivery date of the final appraisal report without written consent from The Bank of Commerce.

A qualified, appropriately licensed/certified staff appraiser may perform the appraisal and a qualified appropriately registered appraisal assistant may assist in the preparation of the

appraisal. Unless previously agreed to otherwise, **you must review and sign the report.** Also, this appraisal assignment may not be subcontracted to an outside individual or firm without my prior written consent.

Timing and Fee of Appraisal Assignment:
It is our understanding that the fee for this assignment includes all expenses and an allowance for any technical assistance you feel necessary or appropriate and will not exceed $5,300.00. Original, signed appraisals should be delivered to The Bank of Commerce Appraisal Department, 1730 West Broadway, Idaho Falls, Idaho 83402 on or before June 10, 2022. **If delays are anticipated or occur, you must immediately request an extension of the due date in writing from the undersigned in order to avoid late fees or penalties.**

If the appraisal is not received on or before this date, The Bank of Commerce reserves the right, at its sole discretion, to either cancel the assignment for cause without payment of the fee or deduct a late fee penalty. Additionally, The Bank of Commerce reserves the right to cancel this assignment without cause. Upon such cancellation, payment of the fee will be limited to actual time spent and any out-of-pocket expenses incurred up to the date of termination.

We understand that you and all personnel associated with the assignment will be available to discuss concerns we might have regarding the analysis and the value conclusions. The Bank of Commerce reserves the right to withhold payment if, at our sole discretion, the appraiser fails to address our concerns with the appraisal within five working days of such notice.

Property Contact/Information:
Please arrange an inspection of the property and make your initial request for information with the property contact listed in the Task Order. **Your initial request for information should be made in writing within two business days of receipt of this letter and a copy of the request should be sent to the undersigned. Any questions regarding this assignment should be e-mailed to** appraisals@bofc.bank

At no time during this appraisal assignment (either prior to or following delivery of the report) are you to engage in discussions with individuals, other than The Bank of Commerce Appraisal Department staff regarding your value conclusion(s) or the direction of your value conclusion(s) without prior authorization from The Bank of Commerce Appraisal Department.

Confidentiality: The Bank of Commerce is your client and unless authorized by the undersigned, you may not disclose confidential data, including the value conclusion, to anyone other than the undersigned, including the owner of the property, our borrower, or any other individual connected directly or indirectly to this transaction.

To enable you to complete this assignment, the Bank will provide to you information, some of which the Bank regards as highly confidential. Your acceptance of the

assignment includes your agreement to keep **confidential any and all information** provided to you by the Bank, regardless of whether any information provided is marked or otherwise designated as "Confidential Information."
Specifically, any and all information about customers of the Bank, of any nature whatsoever, including but not limited to customer financial information, and the fact of the existence of a relationship, or potential relationship, between the Bank and customers, is confidential. Some of the information provided to you by the Bank may not be confidential if:

- it was known to you before the Bank or the customer provided it to you; or
- it was public knowledge before the Bank or the customer provided it to you; or
- it becomes available from a third party, not subject to any restrictions, after the Bank or customer provided it to you.

You must protect the Confidential Information provided to you using at least a reasonable degree of care, to prevent the unauthorized disclosure of such Confidential Information. You can disclose the Confidential Information to your employees, but you must tell them that the information is confidential and must be maintained that way. You may use the Bank's Confidential Information only:

- for the purpose of completing your assignment, and
- for the purpose of meeting your professional obligations

Your obligation to maintain the confidentiality of the Bank's Confidential Information continues even after the completion of your assignment, except that you have the right to use the Confidential Information to fulfill your professional obligations with respect to mandated file retention and disclosure for purposes of peer review.

If you are, or may be, required by a court or a governmental agency to disclose any Confidential Information, you agree to notify the Bank before you make any disclosure.

If a representative of the Bank inquires as to what provision you have made to keep the Bank's information confidential, you agree to disclose in detail what steps you have taken and are taking to ensure confidentiality.

If you have any questions about your obligations as set forth above, or about how to meet your obligations set forth above, please call The Bank of Commerce Appraisal Department immediately. The Bank will assist you in meeting your obligations if at all possible. It is essential that the Bank's Confidential Information be maintained as confidential.

Appraisal Requirements:
The appraisal assignment is to be prepared in accordance with the requirements of FIRREA and the current edition of Uniform Standards of Professional Appraisal Practice (USPAP). Additional assignment conditions, if any, will be described in the Task Order attached to this engagement letter.
If your appraisal report contains wording or disclaimers which limit your professional liability to The Bank of Commerce, we reserve the right to reject your appraisal and will not be responsible for any expenses incurred in the completion of the assignment.

A copy of the following items must be included in the addenda of each copy of the final appraisal report:

1. **Valid Certification/License**
2. **Qualifications**

During the course of this assignment, if you determine or are requested by anyone other than The Bank of Commerce Appraisal Department to make changes to the terms of this agreement or requested scope of work necessary, please contact the undersigned in writing. Any changes to this engagement must be authorized by The Bank of Commerce Appraisal Department.

Delivery Instructions:
Please upload the final appraisal report including all addenda to appraisals@bofc.bank

Sincerely,

Robin Jergins
AVP/Administrative Officer
208.542.7440
appraisals@bofc.bank
PO Box 1887 Idaho Falls, ID 83403

Acceptance of this engagement requires your signature on the attached Task Order. Please sign the order and email robin.jergins@bofcbank or fax back to The Bank of Commerce Appraisal Department at: 208-523-3269.

Valuation Glossary 2022

Unless specified otherwise, these definitions were extracted from the following sources or publications:

The Dictionary of Real Estate Appraisal, Seventh Edition, Appraisal Institute, Chicago, Illinois, 2022 (Dictionary).

Uniform Standards of Professional Appraisal Practice, 2020-2022 Edition (USPAP).

The Appraisal of Real Estate, Fifteenth Edition, Appraisal Institute, Chicago, Illinois, 2020 (15th Edition).

Absolute Net Lease

A lease in which the tenant pays all expenses including structural maintenance, building reserves, and management; often a long-term lease to a credit tenant. *(Dictionary)*

Ad Valorem Tax

A real estate tax based on the assessed value of the property, which is not necessarily equivalent to its market value. *(15th Edition)*

Arm's-length Transaction

A transaction between unrelated parties who are each acting in his or her own best interest. *(Dictionary)*

As-Is Market Value

The estimate of the market value of real property in its current physical condition, use, and zoning as of the appraisal date. *(Dictionary)*

Assessed Value

The value of a property according to the tax rolls in ad valorem taxation; may be higher or lower than market value, or based on an assessment ratio that is a percentage of market value. *(Dictionary)*

Average Daily Room Rate (ADR)

In the lodging industry, the net rooms revenue derived from the sale of guest rooms divided by the number of paid occupied rooms. *(Dictionary)*

Band of Investment

A technique in which the capitalization rates attributable to components of an investment are weighted and combined to derive a weighted-average rate attributable to the total investment. *(Dictionary)*

Cash-Equivalent Price

The sale price of a property that is equivalent to what a cash buyer would pay. *(Dictionary)*

Common Area

The total area within a property that is not designed for sale or rental but is available for common use by all owners, tenants, or their invitees, e.g., parking and its appurtenances, malls, sidewalks, landscaped areas, recreation areas, public toilets, truck and service facilities. *(Dictionary)*

Contract Rent

The actual rental income specified in a lease. *(15th Edition)*

Cost Approach

A set of procedures through which a value indication is derived for the fee simple estate by estimating the cost new as of the effective date of the appraisal to construct a reproduction of (or replacement for) the existing structure, including an entrepreneurial incentive; deducting depreciation from the total cost; and adding the estimated land value. The contributory value of any site improvements that have not already been considered in the total cost can be added on a depreciated-cost basis. Adjustments may then be made to the indicated value of the fee simple estate in the subject property to reflect the value of the property rights being appraised. *(Dictionary)*

Curable Functional Obsolescence

An element of depreciation; a curable defect caused by a flaw involving the structure, materials, or design, which can be practically and economically corrected. *(Dictionary)*

Debt Coverage Ratio (DCR)

The ratio of net operating income to annual debt service, which measures the relative ability of a property to meet its debt service out of net operating income; also called *debt service coverage ratio (DSCR).* (*Dictionary)*

Deferred Maintenance

Items of wear and tear on a property that should be fixed now to protect the value or income-producing ability of a property. *(Dictionary)*

Depreciation

In appraisal, a loss in the value of improvements from any cause; the difference between the cost of an improvement on the effective date of the appraisal and the value of the improvement on the same date. *(Dictionary)*

Direct Costs

Expenditures for the labor and materials used in the construction of improvements; also called *hard costs. (Dictionary)*

Discounted Cash Flow (DCF) Analysis

The procedure in which a discount rate is applied to a set of projected income streams and a reversion. The analyst specifies the quantity, variability, timing, and duration of the income streams and the quantity and timing of the reversion, and discounts each to its present value at a specified yield rate. *(Dictionary)*

Discount Rate

A rate of return on capital used to convert future payments or receipts into present value. *(Dictionary)*

Disposition Value

The most probable price that a specified interest in property should bring under the following conditions:

1. Consummation of a sale within a specified time, which is shorter than the typical exposure time for such a property in that market.
2. The property is subjected to market conditions prevailing as of the date of valuation.
3. Both the buyer and seller are acting prudently and knowledgeably.
4. The seller is under compulsion to sell.
5. The buyer is typically motivated.
6. Both parties are acting in what they consider their best interests.
7. An adequate marketing effort will be made during the exposure time.
8. Payment will be made in cash in U.S. dollars (or the local currency) or in terms of financial arrangements comparable thereto.
9. The price represents the normal consideration for the property sold, unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

This definition can also be modified to provide for valuation with specified financing terms. *(Dictionary)*

Easement

The right to use another's land for a stated purpose. Access or right-of-way easements may be acquired by private parties or public utilities. Governments may be the beneficiaries of easements placed on privately owned land that is dedicated to conservation, open space, or preservation. *(15th Edition)*

Economic Life

The period over which improvements to real estate contribute to property value. *(Dictionary)*

Effective Age

The age of property that is based on the amount of observed deterioration and obsolescence it has sustained, which may be different from its chronological age. *(Dictionary)*

Effective Date

The date on which the appraisal or review opinion applies (SVP) *(Dictionary)*

Effective Gross Income (EGI)

The anticipated income from all operations of the real estate after an allowance is made for vacancy and collection losses and an addition is made for any other income. *(Dictionary)*

Effective Gross Income Multiplier (EGIM)

The ratio between the sale price (or value) of a property and its effective gross income. *(Dictionary)*

Effective Rent

The total base rent, or minimum rent stipulated in a lease, over the specified lease term minus rent concessions - e.g. free rent, excessive tenant improvements, moving allowances, lease buyouts, cash allowances, and other lease incentives. *(15th Edition)*

Eminent Domain

The right of government to take private property for public use upon the payment of just compensation. The Fifth Amendment of the U.S. Constitution, also known as the *takings clause*, guarantees payment of just compensation upon appropriation of private property. *(Dictionary)*

Entrepreneurial Incentive

The amount an entrepreneur expects or wants to receive as compensation for providing coordination and expertise and assuming the risks associated with the development of a project. Entrepreneurial incentive is the expectation of future reward as opposed to the profit actually earned on the project. *(Dictionary)*

Entrepreneurial Profit

A market-derived figure that represents the amount an entrepreneur received for his or her contribution to a past project to compensate for his or her time, effort, knowledge, and risk; the difference between the total cost of a property (cost of development) and its market value (property value after completion), which represents the entrepreneur's compensation for the risk and expertise associated with development. An entrepreneur is motivated by the prospect of future value enhancement (i.e., the entrepreneurial incentive). An entrepreneur who successfully creates value through new development, expansion, renovation, or an innovative change of use is rewarded by entrepreneurial profit. Entrepreneurs may also fail and suffer losses. *(Dictionary)*

Excess Land

Land that is not needed to serve or support the existing use. The highest and best use of the excess land may or may not be the same as the highest and best use of the improved parcel. Excess land has the potential to be sold separately and is valued separately. *(Dictionary)*

Excess Rent

The amount by which contract rent exceeds market rent at the time of the appraisal; created by a lease favorable to the lessor and may reflect superior management, a lease execution in an earlier, stronger rental market, or an agreement of the parties. Due to the higher risk inherent in the receipt of excess rent, it may be calculated separately and capitalized or discounted at a higher rate in the income capitalization approach. *(15th Edition)*

Expense Stop

A clause in a lease that limits the landlord's expense obligation, which results in the lessee paying any operating expenses above a stated level or amount. *(Dictionary)*

Exposure Time

An opinion, based on supporting market data, of the length of time that the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal. *(USPAP)*

Extraordinary Assumption

An assignment-specific assumption as of the effective date regarding uncertain information used in an analysis which, if found to be false, could alter the appraiser's opinions or conclusions. Uncertain information might include physical, legal, or economic characteristics of the subject property; or conditions external to the property, such as market conditions or trends; or the integrity of data used in an analysis. An extraordinary assumption may be used in an assignment only if:

- It is required to properly develop credible opinions and conclusions;
- The appraiser has a reasonable basis for the extraordinary assumption;
- Use of the extraordinary assumption results in a credible analysis; and
- The appraiser complies with the disclosure requirements set forth in USPAP for extraordinary assumptions. *(USPAP)*

External Obsolescence

A type of depreciation; a diminution in value caused by negative external influences and generally incurable on the part of the owner, landlord, or tenant. The external influence may be either temporary or permanent. There are two forms of external obsolescence: economic and locational. *(Dictionary)*

Fair Market Value

In nontechnical usage, a term that is equivalent to the contemporary usage of *market value*.

As used in condemnation, litigation, income tax, and property tax situations, a term that is similar in concept to market value but may be defined explicitly by the relevant agency or interpreted differently by court precedent. *(Dictionary)*

Feasibility Analysis

A study of the cost-benefit relationship of an economic endeavor. *(USPAP)*

Fee Simple Estate

Absolute ownership unencumbered by any other interest or estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power and escheat. *(Dictionary)*

Floor Area Ratio (FAR)

The relationship between the above-ground floor area of a building, as described by the zoning or building code, and the area of the plot on which it stands; in planning and zoning, often expressed as a decimal, e.g., a ratio of 2.0 indicates that the permissible floor area of a building is twice the total land area. *(Dictionary)*

Functional Obsolescence

The impairment of functional capacity of improvements according to market tastes and standards. *(Dictionary)*

Functional Utility

The ability of a property or building to be useful and to perform the function for which it is intended according to current market tastes and standards; the efficiency of a building's use in terms of architectural style, design and layout, traffic patterns, and the size and type of rooms. *(Dictionary)*

Furniture, Fixtures, and Equipment (FF&E)

Business trade fixtures and personal property, exclusive of inventory. (Dictionary)

Going-concern

An established and operating business having an indefinite future life. *(Dictionary)*

Going-concern Value

An outdated label for the market value of all the tangible and intangible assets of an established and operating business with an indefinite life, as if sold in aggregate; more accurately termed the *market value of the going concern or market value of the total assets of the business*. *(Dictionary)*

Gross Building Area (GBA)

Total floor area of a building, excluding unenclosed areas, measured from the exterior of the walls of the above-grade area. This includes mezzanines and basements if and when typically included in the market area of the type of property involved. *(Dictionary)*

Gross Leasable Area (GLA)

Total floor area designed for the occupancy and exclusive use of tenants, including basements and mezzanines; measured from the center of joint partitioning to the outside wall surfaces. *(Dictionary)*

Gross Living Area (GLA)

Total area of finished, above-grade residential space area; calculated by measuring the outside perimeter of the structure and includes only finished, habitable, above-grade living space. (Finished basements and attic areas are not generally included in total gross living area. Local practices, however, may differ.) *(Dictionary)*

Highest & Best Use

The reasonably probable use of property that results in the highest value. The four criteria that the highest and best use must meet are legal permissibility, physical possibility, financial feasibility, and maximum productivity. The use of an asset that maximizes its potential and that is possible, legally permissible, and financially feasible. The highest and best use may be for continuation of an asset's existing use or for some alternative use. This is determined by the use that a market participant would have in mind for the asset when formulating the price that it would be willing to bid (IVS). *(Dictionary)*

Hypothetical Condition

A condition, directly related to a specific assignment, which is contrary to what is known by the appraiser to exist on the effective date of the assignment results, but is used for the purpose of analysis. Hypothetical conditions are contrary to known facts about physical, legal, or economic characteristics of the subject property; or about conditions external to the property, such as market conditions or trends; or about the integrity of data used in an analysis. *(USPAP)*

Income Capitalization Approach

In the income capitalization approach, an appraiser analyzes a property's capacity to generate future benefits and capitalizes the income into an indication of present value. The principle of anticipation is fundamental to this approach. Techniques and procedures from this approach are used to analyze comparable sales data and to measure obsolescence in the cost approach. *(15th Edition)*

Incurable Functional Obsolescence

An element of depreciation; a defect caused by a deficiency or superadequacy involving the structure, materials, or design that cannot be practically or economically corrected as of the effective date of the appraisal. *(Dictionary)*

Indirect Costs

Expenditures or allowances for items other than labor and materials that are necessary for construction, but are not typically part of the construction contract. Indirect costs may include administrative costs, professional fees, financing costs and the interest paid on construction loans, taxes and the builder's or developer's all-risk insurance during construction, and marketing, sales, and lease-up costs incurred to achieve occupancy or sale. Also called *soft costs*. *(Dictionary)*

Interim Use

The use contemplated by the market participants that the subject real estate can be put to while waiting for certain subsequent factors to occur. *(Dictionary)*

Investment Value

The value of a property to a particular investor or class of investors based on the investor's specific requirements. Investment value may be different from market value because it depends on a set of investment criteria that are not necessarily typical of the market. *(Dictionary)*

Leased Fee Interest

The ownership interest held by the lessor, which includes the right to receive the contract rent specified in the lease plus the reversion right when the lease expires. *(Dictionary)*

Leasehold Estate

The right held by the lessee to use and occupy real estate for a stated term and under the conditions specified in the lease. *(Dictionary)*

Legal Nonconforming Use

A use that was lawfully established and maintained, but no longer conforms to the use regulations of its current zoning; sometimes known as a legally nonconforming use. *(Dictionary)*

Liquidation Value

The most probable price that a specified interest in property should bring under the following conditions:

1. Consummation of a sale within a short time period.
2. The property is subjected to market conditions prevailing as of the date of valuation.
3. Both the buyer and seller are acting prudently and knowledgeably.
4. The seller is under extreme compulsion to sell.
5. The buyer is typically motivated.
6. Both parties are acting in what they consider to be their best interests.
7. A normal marketing effort is not possible due to the brief exposure time.
8. Payment will be made in cash in U.S. dollars (or the local currency) or in terms of financial arrangements comparable thereto.
9. The price represents the normal consideration for the property sold, unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

This definition can also be modified to provide for valuation with specified financing terms. *(Dictionary)*

Market Area

The geographic region from which a majority of demand comes and in which the majority of competition is located. Depending on the market, a market area may be further subdivided into components such as primary, secondary, and tertiary market areas, or the competitive market area may be distinguished from the general market area. *(Dictionary)*

Market Rent

The most probable rent that a property should bring in a competitive and open market under all conditions requisite to a fair lease transaction, the lessee and lessor each acting prudently and knowledgeably, and assuming the rent is not affected by undue stimulus. *(Dictionary)*

Market Study

An analysis of the market conditions of supply, demand, and pricing for a specific property type in a specific area. *(Dictionary)*

Market Value (Most Common Non-FRT)

The most probable price, as of a specific date, in cash, or in terms equivalent to cash, or in other precisely revealed terms, for which the specified property rights should sell after reasonable exposure in a competitive market under all conditions requisite to a fair sale, with the buyer and seller each acting prudently, knowledgeably, and for self-interest, and assuming that neither is under undue distress. *(Dictionary)*

Market Value (Interagency Guidelines)

The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

1. buyer and seller are typically motivated;
2. both parties are well informed or well advised, and acting in what they consider their own best interests;
3. a reasonable time is allowed for exposure in the open market;
4. payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
5. the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale. (Interagency Appraisal and Evaluation Guidelines, December 10, 2010, Federal Register, Volume 75 Number 237, Page 77472)

Marketability Analysis

The study of how a specific property is expected to perform in a specific market. A marketability analysis expands on a market analysis by addressing a specific property. *(Dictionary)*

Neighborhood Analysis

The objective analysis of observable or quantifiable data indicating discernible patterns of urban growth, structure, and change that may detract from or enhance property values; focuses on four sets of considerations that influence value: social, economic, governmental, and environmental factors. *(Dictionary)*

Net Net Net Lease

An alternative term for a type of net lease. In some markets, a net net net lease is defined as a lease in which the tenant assumes all expenses (fixed and variable) of operating a property except that the landlord is responsible for structural maintenance, building reserves, and management. Also called *NNN lease, triple net lease*, or *fully net lease. (Dictionary)*

Net Operating Income (NOI)

The actual or anticipated net income that remains after all operating expenses are deducted from effective gross income but before mortgage debt service and book depreciation are deducted. Note: This definition mirrors the convention used in corporate finance and business valuation for EBITDA (earnings before interest, taxes, depreciation, and amortization). *(15th Edition)*

Obsolescence

One cause of depreciation; an impairment of desirability and usefulness caused by new inventions, changes in design, improved processes for production, or external factors that make a property less desirable and valuable for a continued use; may be either functional or external. *(Dictionary)*

Off-site Costs

Costs incurred in the development of a project excluding on-site costs such as grading and construction of the building and other improvements; also called *common costs* or *off-site improvement costs. (Dictionary)*

On-site Costs

Costs incurred for the actual construction of buildings and improvements on a particular site. *(Dictionary)*

Overage Rent

The percentage rent paid over and above the guaranteed minimum rent or base rent; calculated as a percentage of sales in excess of a specified breakeven sales volume. *(15th Edition)*

Overall Capitalization Rate (OAR)

The relationship between a single year's net operating income expectancy and the total property price or value. *(Dictionary)*

Parking Ratio

The ratio of parking area or parking spaces to an economic or physical unit of comparison. Minimum required parking ratios for various land uses are often stated in zoning ordinances. *(Dictionary)*

Potential Gross Income (PGI)

The total income attributable to property at full occupancy before vacancy and operating expenses are deducted. *(Dictionary)*

Potential Gross Income Multiplier (PGIM)

The ratio between the sale price (or value) of a property and its annual potential gross income. *(Dictionary)*

Present Value (PV)

The value of a future payment or series of future payments discounted to the current date or to time period zero. *(Dictionary)*

Prospective Opinion of Value

A value opinion effective as of a specified future date. The term does not define a type of value. Instead, it identifies a value opinion as effective at some specific future date. An opinion of value as of a prospective date is frequently sought in connection with projects that are proposed, under construction, or under conversion to a new use, or those that have not achieved sellout or a stabilized level of long-term occupancy. *(Dictionary)*

Qualitative Adjustment

An indication that one property is superior, inferior, or similar to another property. Note that the common usage of the term is a misnomer in that an adjustment to the sale price of a comparable property is not made. Rather, the indication of a property's superiority or inferiority to another is used in relative comparison analysis, bracketing, and other forms of qualitative analysis. *(Dictionary)*

Quantitative Adjustment

In the application of the sales comparison and income capitalization approaches, a numerical (dollar or percentage) adjustment to the sale price, rent, or expense amount of a comparable property to account for the effect on value of a difference between each comparable property and the subject property. *(Dictionary)*

Rentable Area

The amount of space on which the rent is based; calculated according to local practice. *(Dictionary)*

Replacement Cost

The estimated cost to construct, at current prices as of a specific date, a substitute for a building or other improvements, using modern materials and current standards, design, and layout. *(Dictionary)*

Replacement Cost for Insurance Purposes

The estimated cost, at current prices as of the effective date of valuation, of a substitute for the building being valued, using modern materials and current standards, design and layout for insurance coverage purposes guaranteeing that damaged property is replaced with a new property (i.e., depreciation is not deducted). *(Dictionary)*

Reproduction Cost

The estimated cost to construct, at current prices as of the effective date of the appraisal, an exact duplicate or replica of the building being appraised, using the same or similar materials, construction standards, design, layout, and quality of workmanship and embodying all the deficiencies, superadequacies, and obsolescence of the subject building. *(Dictionary)*

Retrospective Value Opinion

A value opinion effective as of a specified historical date. The term *retrospective* does not define a type of value. Instead, it identifies a value opinion as being effective at some specific prior date. Value as of a historical date is frequently sought in connection with property tax appeals, damage models, lease renegotiation, deficiency judgments, estate tax, and condemnation. Inclusion of the type of value with this term is appropriate, e.g., "retrospective market value opinion." *(Dictionary)*

Sales Comparison Approach

The process of deriving a value indication for the subject property by comparing sales of similar properties to the property being appraised, identifying appropriate units of comparison, and making adjustments to the sale prices (or unit prices, as appropriate) of the comparable properties based on relevant, market-derived elements of comparison. The sales comparison approach may be used to value improved properties, vacant land, or land being considered vacant when an adequate supply of comparable sales is available. *(Dictionary)*

Scope of Work

The type and extent of research and analysis in an appraisal or appraisal review assignment. Scope of work includes, but is not limited to:

The extent to which the property is identified;

The extent to which tangible property is inspected;

The type and extent of data researched; and

The type and extent of analysis applied to arrive at opinions or conclusions. *(USPAP)*

Shopping Center Types

Neighborhood Shopping Center: The smallest type of shopping center, generally with a gross leasable area of between 30,000 and 100,000 square feet. Typical anchors include supermarkets. Neighborhood shopping centers offer convenience goods and personal services and usually depend on a market population support of 3,000 to 40,000 people.

Community Shopping Center: A shopping center of 100,000 to 400,000 square feet that usually contains one junior department store, a variety store, discount or department store. A community shopping center generally has between 20 and 70 retail tenants and a market population support of 40,000 to 150,000 people.

Regional Shopping Center: A shopping center of 300,000 to 900,000 square feet that is built around one or two full-line department stores of approximately 200,000 square feet each plus small tenant spaces. This type of center is typically supported by a minimum population of 150,000 people.

Super-Regional Center: A large center of 600,000 to 2.0 million square feet anchored by three or more full-line department stores. This type of center is typically supported by a population area of 300,000 people. *(15th Edition)*

Sum of the Retail Values

The sum of the separate and distinct market value opinions for each of the units in a condominium; subdivision development, or portfolio of properties, as of the date of valuation. The aggregate of retail values does not represent the value of all the units as sold together in a single transaction; it is simply the total of the individual market value conclusions. An appraisal has an effective date, but summing the sales prices of multiple units over an extended period of time will not be the value on that one day unless the prices are discounted to make the value equivalent to what another developer or investor would pay for the bulk purchase of the units. Also called the *aggregate of the retail values* or *aggregate retail selling price*. *(Dictionary)*

Superadequacy

An excess in the capacity or quality of a structure or structural component; determined by market standards. *(Dictionary)*

Surplus Land

Land that is not currently needed to support the existing use but cannot be separated from the property and sold off for another use. Surplus land does not have an independent highest and best use and may or may not contribute value to the improved parcel. *(Dictionary)*

Tenant Improvements (TIs)

1. Fixed improvements to the land or structures installed for use by a lessee.
2. The original installation of finished tenant space in a construction project; subject to periodic change for succeeding tenants. *(Dictionary)*

Usable Area

The area that is actually used by the tenants measured from the inside of the exterior walls to the inside of walls separating the space from hallways and common areas. *(Dictionary)*

Useful Life

The period of time over which a structure or a component of a property may reasonably be expected to perform the function for which it was designed. *(Dictionary)*

Vacancy and Collection Loss

A deduction from potential gross income *(PGI)* made to reflect income deductions due to vacancies, tenant turnover, and nonpayment of rent; also called *vacancy and credit loss* or *vacancy and contingency loss. (Dictionary)*

Yield Capitalization

A method used to convert future benefits into present value by (1) discounting each future benefit at an appropriate yield rate, or (2) developing an overall rate that explicitly reflects the investment's income pattern, holding period, value change, and yield rate. *(Dictionary)*

Kelly Tate, MAI

Area of Expertise

Kelly Tate joined Colliers International Valuation & Advisory Services in 2014. After working as a loan officer, Kelly began his career as a commercial real estate appraiser in 2008 working in the Las Vegas market. In 2012, Kelly returned to Salt Lake City to further his career in the industry. He has experience appraising many different property types including retail, office, industrial, apartments, senior housing, residential subdivisions, and condominiums.

Kelly received his MAI designation in 2013.

Real estate valuations play a pivotal role in today's business climate. An accurate and well supported opinion of property value can mean the difference between reaching a critical goal—securing a loan, closing a sale, reporting to investors, choosing the best asset—or failing to achieve it altogether.

Colliers Valuation & Advisory Services' reports are designed to deliver insight into a property's fundamentals, its competition and the overall market dynamics affecting value. A solid valuation report can be a strategic asset for investors, lenders and owners, provided that it addresses both a property's unique characteristics and the most current market conditions.

Commitment to high-end client service, coupled with Colliers' unparalleled market intelligence and resources, differentiates us as the firm of choice in the real estate industry.

Professionals

Our professionals share a commitment to deliver the highest level of service and consistent results. We go the extra mile for our clients, whether this means meeting a tight deadline or working with a complex and challenging property.

Technology

Our unmatched report creation technology speeds appraisals through the pipeline. This secure, centralized production system generates a wide range of reports and high volume portfolio orders without delays.

Information

Today's business climate places valuation in a more pivotal position than ever before. All our appraisals are evaluated and approved by an experienced review team to ensure our clients receive concise and timely appraisals. With clear, prompt reporting and a comprehensive, big picture approach, Colliers International's Valuation and Advisory reports give our clients the information they need to make better business decisions.

1. Summary

Gabriel Environmental Group (GEG) conducted a Phase I ESA for the subject site located at 309 West 1500 South and 1512 South 300 West, Salt Lake City, Salt Lake County, Utah in accordance with the generally accepted ESA industry standard ASTM E1527-21, Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process.

The scope of work included: an inspection of the site for environmental concerns, a review of environmental databases and other governmental records, a review of available historical documents (including aerial photographs, fire insurance maps, and topographic maps), interviews with the owner, and the preparation of this report.

Site Description/Site Reconnaissance:

Gabriel Environmental Group (GEG) was retained to perform a Phase I Environmental Site Assessment (ESA) on two improved tracts of land located along the southerly right-of-way line of West 1500 South, northerly right-of-way line of Andrew Avenue, at the intersections of the said roadways and 300 West, in the City of Salt Lake City, Salt Lake County, Utah. The subject site is geographically located at latitude 40.7369520 and longitude 111.9002920. Its APNs are 15-13-206-005 and 15-13-206-008. The subject site consists of 0.51 of an acre of land that is legally described as: Lots 49, 50, 51, and 52, and the east half of Lot 48, Burr Oak Subdivision, Salt Lake County, Utah. Its physical addresses are 309 West 1500 South and 1512 South 300 West, Salt Lake City, Utah. According to Assessor records, the subject site is currently owned by Lima Echo Echo, LLC.

GEG was authorized to conduct the ESA by Marion A. Wiley at Western Region Nonprofit Housing Corporation. The property was inspected on November 10, 2022, by GEG subconsultant, Nate Long.

The site under consideration in this project, or the designated property in review, consist of approximately 0.51 of an acre of land that is improved with a commercial building and a residential building and concrete and asphalt paved parking areas and driveways.

As of the date of the site inspection, the commercial building was occupied by an auto dealership; Rev Motoring, and a residential facility.

According to Salt Lake County Appraisal records, the current improvement at the address 309 West 1500 South was developed in 1982 and consists of 2,087 SF of space. The current improvement at the address 1512 South 300 West was developed in 1946. The buildings on site consist of masonry/steel frame structures with brick and concrete exterior walls. They sit on reinforced concrete slab foundations. Interior dividing walls are constructed of sheetrock/metal. The floors consist of either concrete and/or are covered with floor tiles.

Minor auto servicing activities are conducted at the commercial building at the subject site. On the property in review, inside the automobile service shop workshop areas, containers containing automotive service related fluids, air compressors, mechanical and testing equipment and gauges, solvents, tires and rims, were noted. The containers containing the automotive fluids and spent automotive parts are all stored in publicly non-accessible areas and their contents appeared to be dispensed in a controlled fashion, thus reducing the risk for spills or leak incidents. None of the containers appeared to have piping or other components that made penetrations through the concrete slabs on which they sit. Therefore, a subsurface release was not suspected. No staining was noted in the floors inside the facility and open paved areas at the exterior of the facility. No cracks were visible. No subsurface impacts were suspected. The presence and use of the automotive repair related fluids at the subject site was not deemed likely to constitute a significant environmental concern at this time. Any staining would be considered a *de minimis* condition.

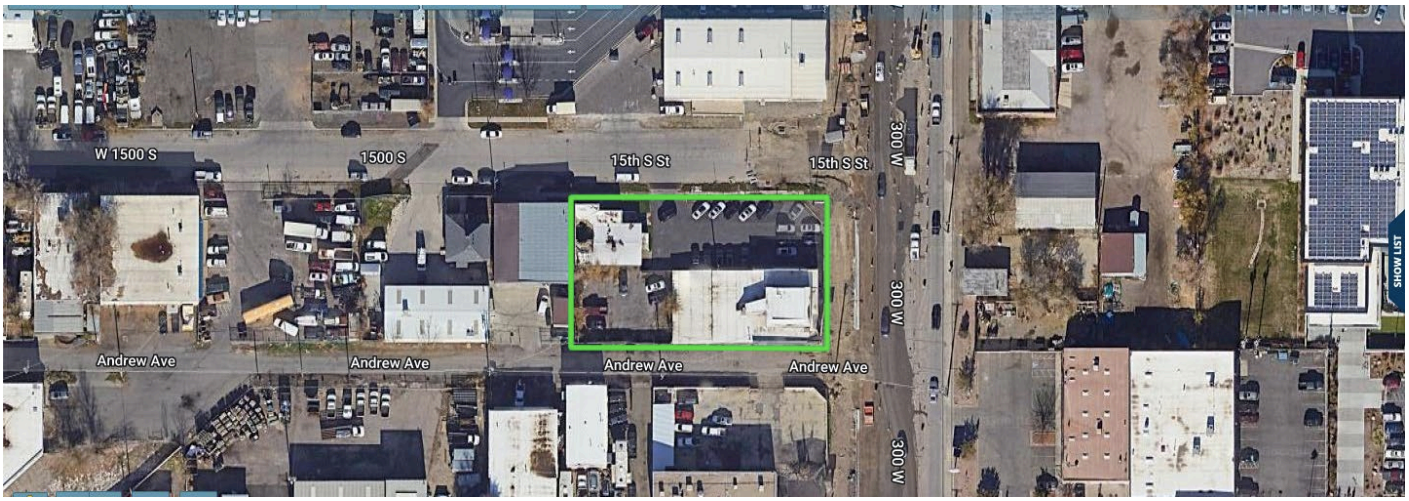
An aboveground lift was noted inside the auto dealership facility. No subsurface impacts are suspected from these types of lifts. The subject site may have had an inground hydraulic lift in the past. A hydraulic fluids tank is usually associated with this type of lift. NES recommends that, in the case of the redevelopment of the subject site, if any inground hydraulic lift or auto service repair component or system is found in the subsurface, it should be removed from the subject site and the subsurface conditions around it be evaluated. If any impacts are found, it should be addressed in accordance with all industry standards and regulatory requirements for such.

All exterior areas surrounding the structure on the property in review are paved.

The subject property lies in an area improved with roads and storm drainage ditches. All utilities are available in the area. On the subject site and along the streets surrounding it are storm drainage collection inlets and underground storm sewers. No bodies of water or drainage or erosion pathways were observed on site. Drainage from the site flows into storm drainage inlets located within the surrounding improvements.

No recognized environmental conditions were discovered. No evidence of acutely hazardous chemical storage problems, waste disposal concerns, leaking transformers, deteriorating lead based paint, sumps, pits, catch basins, surface impoundments, landfill activities, bodies of water, unusual odors, oil or gas wells, or other environmental conditions was observed on the property in review. There was no physical or visual evidence of stressed vegetation, soil discoloration, odors, or other indicators of environmental exposure to the surface areas or soils on the subject property.

Site Layout:



Surrounding Uses:

To the north of the subject is West 1500 South, across from which are a used appliance store; Precision Appliance, and a car wash facility; Mister Car Wash. To the east is 300 West, across from which are a barber shop; Christina's Barber Shop, an auto machine shop; Crankshaft Grinders, an ammunition supplier; Alpha Munitions, and a homeless resource center. To the south is Andrew Avenue, across from which are an auto repair shop; Eagle Towing and Auto Body, and general commercial uses. To the southwest is Andrew Avenue, across from which is a sheet metal machine shop; Schoppe. To the west are a plumbing facility; Ed Gardner Plumping, a repair service; Gardner Service, a coffee wholesale facility; Beverage Solutions and Distribution, and a car dealership; Ignite Motors. Further to the west are auto repair shops and general commercial uses.

The subject site is essentially surrounded by industrial/light industrial and general commercial uses. The operations on the surrounding properties will by their very location and nature involve some level of activity relating to hazardous or regulated materials. That is the business of the area. It is not within the scope of this survey to determine if the surrounding properties utilized or deposited any acutely hazardous substances in the area. The determination of that event is within the purview of the regulatory data included in this report.

Standard Historical Records Review:

The "standard" historical records review included aerial photographs, fire insurance maps (Sanborn maps), local street directories (city directory search), topographic maps, building department records, interviews, property tax files, and zoning/land use records, if available or obtainable by the environmental professional.

The standard historical records review includes an evaluation of the past and current uses of adjoining properties.

GEG reviewed historical Sanborn Fire Insurance maps on the subject property to evaluate present and past land uses, structures, improvements, and historical development of the subject site and surrounding properties. EDR was contacted and asked to obtain the maps. Coverage was found at the subject site in 1986. In the map from 1986, the west section at the subject site consisted of the current building (at the address of 325 West 1500 South) and a designation of a commercial use and the east section at the subject site consisted of the current commercial building (at the addresses of 1506-1512 South 300 West).

A historical aerial photograph search was conducted on the subject property. The aerial photographs obtained are from 1937, 1946, 1952, 1958, 1962, 1965, 1971, 1977, 1981, 1993, 1997, 2006, 2011, and 2016. The aerial photographs were reviewed for visual evidence of past land usage that could have adversely impacted the subject site or properties surrounding the site. The aerial photograph review is primarily applicable for general site use chronology. Most of the aerials reviewed are not of large enough scale or of sufficient clarity to depict site-specific conditions. In the historical aerial photograph from 1937, the subject site consisted of wooded unimproved land. In the photos from 1946 to 1981, the east parcel at the subject site consisted of the current commercial building and the west parcel at the subject site consisted of several buildings. In the photos from 1993 to 2016, some of the previous improvements at the west parcel at the subject site had been removed and the subject site consisted of its current configuration. No significant changes were noted at the subject site.

A historical topographic map search was conducted on the subject property to evaluate potential liability on the target property and its surrounding area, resulting from past activities. A topographic map is a color-coded line-and-symbol representation of natural and selected artificial features plotted to a scale. Topographic maps show the shape, elevation, and development of the terrain in precise detail by using contour lines and color-coded symbols. The historical topographic maps obtained for the subject site are from 1925, 1928, 1950, 1969, 1975, 2014, 2017, and 2020. No environmental issues such as pits, landfills, pipeline easements or oil/gas wells were noted at the subject site.

A city directory search was conducted for the subject site. During the search, business directories including city, cross-reference, and telephone directories were reviewed, if available. The following tenants were listed as occupants at the subject site (including previous street and address ranges for the subject site):

1512 South 300 West:

1994-2017:	The Tool Center Hardware
1990:	Vacant
1981-1985:	Grumaco Woodwork Machinery
1976:	Elmer Leon J., Penman Clothes Line Post, Penman Manufacturing Picnic Tables and Benches, Penman Playground Equipment, Elmer Leon J.

1502 South 2nd West Street:
1931: Mc Farland Geo

1512 South 2nd West Street:
1971: Penman Manufacturing Picnic Tables and Benches, Penman Playground Equipment, Penman Clothes Line Post, Upper Elmer Leon
1965: Penman Manufacturing and Supply Playground Equipment
1951-1961: Penman Carl E. Penman Manufacturing and Supply Steel Fabricators

309 West 1500 South:
2004-2009: El Chalan Restaurant
1999: Pitcher's Mound

309 West 15th South Street:
1990: Kimi's Café Restaurant
1971-1985: Bordeaux Café Restaurant

325 West 15th South Street:
1941-1976: Smith Esther
1931-1941: Smith Jos B poultry brooders

Based on the review of available directories, general commercial and heavy commercial uses were listed as occupants at the subject site from 1951 to 2017, none of which are deemed to constitute an environmental concern given that all operations (including machine shop operations) would have been conducted inside the subject facilities.

Previous Reports:

No previous Phase I ESA was provided to GEG for its review.

Environmental Database Review:

EDR, a third party database company, provided information from State and Federal governmental agencies (directly or through secondary sources). A review of the EDR Report was conducted to identify past and present land use activities that could impact the subject site. A summary of pertinent information on the subject property and its surrounding area (provided by EDR) is given below. GEG requested that EDR provide information using the approximate minimum search distance set forth in ASTM E1527-21.

The date of the environmental database report is October 27, 2022.

The subject site was not listed in any of the databases searched by EDR.

Several of the surrounding sites are listed in the EDR Historical Auto, LUST and UST databases, none of which are deemed to constitute offsite recognized environmental conditions to the subject site.

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that based upon available information, the location is not judged to be potential NPL site. Two SEMS-ARCHIVE sites were found within a half a mile radius from the subject property. Based on its topographical elevations, reported status and/or its distances from the site, it was not deemed likely to constitute a significant environmental risk to the subject site.

The National Priority List (NPL) identifies those sites that are currently involved in CERCLA or Superfund actions related to abandoned or inactive hazardous wastes. It is compiled from the designated CERCLIS list. NPL sites are prioritized as to their significant risk to human health and the environment. This list targets those sites to receive remedial funding under CERCLA. The NPL lists the nation's highest priority sites for remedial action. Only NPL sites can receive CERCLA funding. According to the environmental database search, one NPL site was found within a mile radius from the subject site. Based on its topographical elevation, reported status and/or its distance from the site, it was not deemed likely to constitute a significant environmental risk to the subject site.

CORRACTS is a list of handlers with RCRA Corrective Action Activity. This report shows which nationally-defined corrective action core events have occurred for every handler that has had corrective action activity. Based on the environmental database review, one CORRACTS site was found within a mile radius from the subject site. Based on its topographical elevation, reported status and/or its distance from the site, it was not deemed likely to constitute a significant environmental risk to the subject site.

Based on the environmental database review, one RCRA-SQG, six RCRA-VSQG, and 12 RCRA-NLR registered facilities were found within a quarter of a mile radius from the subject site. Based on its topographical elevations, reported status and/or its distances from the site, it was not deemed likely to constitute a significant environmental risk to the subject site.

According to the database review, 18 UST (Underground Storage Tank) sites were found within a quarter of a mile radius from the subject property. Based on its topographical elevations, reported status and/or its distances from the site, it was not deemed likely to constitute a significant environmental risk to the subject site.

According to the database review, one AST (Aboveground Storage Tank) site was found within a quarter of a mile radius from the subject property. Based on its topographical elevation, reported status and/or its distance from the site, it was not deemed likely to constitute a significant environmental risk to the subject site.

The Leaking Underground Storage Tank Incident Reports contain an inventory of reported leaking underground storage tank incidents. The data comes from the State Water Resources Control Board Leaking Underground Storage Tank Information System. According to the environmental database review, 38 registered UT LUST (Leaking Underground Storage Tank) and 38 LUST (Leaking Underground Storage Tank) facilities were found within a half of a mile radius from the subject property. Based on its topographical elevations, reported status and/or its distances from the site, it was not deemed likely to constitute a significant environmental risk to the subject site.

The Utah Voluntary Cleanup Program was established to provide administrative, technical, and legal incentives to encourage the cleanup of contaminated sites in Utah. A review of the VCP list provided by EDR revealed two VCP sites within approximately half a mile from the target property. Based on its topographical elevations, reported status and/or its distances from the site, it was not deemed likely to constitute a significant environmental risk to the subject site.

AUL sites are sites that have institutional controls. According to the environmental database review, one US Institutional Control site was located within half a mile from the subject property. Based on its topographical elevation, reported status and/or its distance from the site, it was not deemed likely to constitute a significant environmental risk to the subject site.

The following were also found in the databases within the ASTM recommended radii from the subject site: LAST; three site, US Brownfields; one site, ROD; one site, MN Manifest; one site, and EDR Historical Auto; 15 sites. The listings are not deemed to constitute an environmental concern to the subject site.

GEG has reviewed the unmapped sites in the database (nine sites) and none of the sites or uses listed appear to have been located at the subject site or within the recommended search distance from the subject site.

Vapor Intrusion:

GEG has performed a Vapor Intrusion Assessment in conformance with the scope and limitations of the Standard Practice E 2600-10 on the property located at 309 West 1500 South and 1512 South 300 West, Salt Lake City, Salt Lake County, Utah. In the professional opinion of GEG, an appropriate level of assessment has been conducted consistent with good commercial and customary practice in an effort to minimize liability, and no significant evidence or indication of potential vapor intrusion conditions (pVIC) or vapor intrusion conditions (VIC) has been revealed and vapor intrusion is unlikely to be an issue of concern in connection with existing or planned structures on the target property.

File Review:

Per the ASTM E1527-21 standards, if a subject site is listed on any database as having a violation, spill, leak incident, leaking underground storage tank system or is listed as a voluntary cleanup site, the Environmental Professional shall conduct research directly with the regulatory agency regarding such and report the findings in the Phase I ESA report. Given that the subject site was not listed as such in any of the regulatory databases listed in the EDR database report, no further research was deemed necessary.

Interviews/Questionnaires:

The user questionnaire was completed by Arlie J. Green with Platform 1500 LLC. It is dated October 21, 2022. No items of environmental significance or concern were reported in the questionnaire.

Findings, Discussion, and Opinion:

As of the date of the site inspection, the commercial building was occupied by an auto dealership; Rev Motoring, and a residential facility.

Minor auto servicing activities are conducted at the commercial building at the subject site. On the property in review, inside the automobile service shop workshop areas, containers containing automotive service related fluids, air compressors, mechanical and testing equipment and gauges, solvents, tires and rims, were noted. The containers containing the automotive fluids and spent automotive parts are all stored in publicly non-accessible areas and their contents appeared to be dispensed in a controlled fashion, thus reducing the risk for spills or leak incidents. None of the containers appeared to have piping or other components that made penetrations through the concrete slabs on which they sit. Therefore, a subsurface release was not suspected. No staining was noted in the floors inside the facility and open paved areas at the exterior of the facility. No cracks were visible. No subsurface impacts were suspected. The presence and use of the automotive repair related fluids at the subject site was not deemed likely to constitute a significant environmental concern at this time. Any staining would be considered a *de minimis* condition.

An aboveground lift was noted inside the auto dealership facility. No subsurface impacts are suspected from these types of lifts. The subject site may have had an inground hydraulic lift in the past. A hydraulic fluids tank is usually associated with this type of lift. NES recommends that, in the case of the redevelopment of the subject site, if any inground hydraulic lift or auto service repair component or system is found in the subsurface, it should be removed from the subject site and the subsurface conditions around it be evaluated. If any impacts are found, it should be addressed in accordance with all industry standards and regulatory requirements for such.

Based on the review of available directories, general commercial and heavy commercial uses were listed as occupants at the subject site from 1951 to 2017, none of which are deemed to constitute an environmental concern given that all operations (including machine shop operations) would have been conducted inside the subject facilities.

The subject site was not listed in any of the databases searched by EDR.

Several of the surrounding sites are listed in the EDR Historical Auto, LUST and UST databases, none of which are deemed to constitute offsite recognized environmental conditions to the subject site.

Based on the regulatory file search, no violations or spills were recorded at the subject site. Based on the absence of evidence of any documentation relating to violations or spills or leaks at the subject site and the absence of any visible evidence of the misuse or mismanagement of the subject facilities, the previous and present uses of the subject site were not deemed to constitute an environmental concern at this time.

No on-site recognized environmental conditions were identified during the course of this Phase I ESA.

No controlled recognized environmental conditions were identified during the course of this Phase I ESA.

No historical recognized environmental conditions were identified during the course of this Phase I ESA.

It is unlikely that listed surrounding sites could have adversely impacted the subject site due to their proximity to the site, status, or to the nature of the event that had transpired. No off-site recognized environmental conditions were identified that were likely to impact the subject property.

Data Gaps:

A data failure is a failure to achieve historical research objectives even after reviewing the standard historical sources that are reasonably ascertainable and likely to be useful. A data gap is a lack or inability to obtain information required by this practice despite good faith efforts by the environmental professional to gather such information. A significant data gap is one that "affects the ability of the environmental professional to identify a recognized environmental condition." No data gaps were encountered that affected the ability of the EP to identify recognized environmental conditions.

Conclusions/Recommendations:

GEG has performed a Phase I ESA in conformance with the scope and limitations of the Standard Practice E1527-21 on the property located at 309 West 1500 South and 1512 South 300 West, Salt Lake City, Salt Lake County, Utah. In the professional opinion of GEG, an appropriate level of inquiry has been made into the previous ownership and use of the property consistent with good commercial and customary practice in an effort to minimize liability, and no evidence or indication of recognized environmental conditions, historical recognized environmental conditions or controlled recognized environmental conditions has been revealed. No data gaps were encountered that affected the ability of the EP to identify recognized environmental conditions. No further environmental assessments or investigations are deemed necessary at this time.

2. Introduction

2.1 Project Authorization

Marion A. Wiley at Western Region Nonprofit Housing Corporation, requested that GEG perform a Phase I ESA for a site located at 309 West 1500 South and 1512 South 300 West, Salt Lake City, Salt Lake County, Utah. This report was prepared by Brecken Palmer, Environmental Consultant, and reviewed by Salamat Ullah and Hani Gabriel, Environmental Professionals. This report is prepared for the attention of: **Western Region Nonprofit Housing Corporation.**

2.2 Purpose

The purpose of this Phase I ESA was to gather information regarding recognized environmental conditions pertaining to the subject site. The investigation was conducted and the report was prepared within the scope and limitations of the guidelines in ASTM E1527-21, Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process.

The purpose of this standard is to define good commercial and customary practice in the United States for conducting an environmental site assessment of a parcel of commercial real estate with respect to the range of contaminants within the scope of Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) and petroleum products. This practice permits a user to satisfy one of the requirements to qualify the user for the innocent landowner, contiguous property owner, or prospective purchaser limitations on CERCLA liability. The practice constitutes all appropriate inquiry into the previous ownership and uses of the property consistent with good commercial or customary practice. The goal of the processes established by this practice is to identify recognized environmental conditions.

Recognized Environmental Condition (REC) definition: a REC means (1) the presence of hazardous substances or petroleum due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products due to a likely release to the environment; or (3) the presence of hazardous substances or petroleum products under conditions that pose a material threat of a future release to the environment.

Controlled Recognized Environmental Condition (CREC) definition: a REC resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority, with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls. The report includes the environmental professional's rationale for any CREC conclusion.

A release is defined as any spilling, leaking, pumping, pouring, emitting, emptying, discharging, injecting, escaping, leaching, dumping, or disposing into the environment (including the abandonment or discarding of barrels, containers, and other closed receptacles containing any hazardous substance, pollutant, or contaminant.

In conjunction with the subject site, a facility is defined as any building, structure, installation, equipment, pipe or pipeline, well, pit, pond, lagoon, impoundment, ditch, landfill, storage container, motor vehicle, rolling stock, or aircraft or any site or area where a hazardous substance has been deposited, stored, disposed of, or placed, or otherwise come to be located, but does not include any consumer product in consumer use or any vessel.

Owner or operator is defined as any person owning or operating a facility or the person who owned, operated, or otherwise controlled activities at a facility immediately prior to such facility's transfer to a unit of state or local government due to bankruptcy, foreclosure, tax delinquency, abandonment or similar means. Owner or operator does not include a person, who, without participating in the management of a facility, holds indicia of ownership primarily to protect his security interest in the facility (secured creditor exemption).

Certain elements must be established by a plaintiff before a defendant may be found liable under CERCLA for response costs at a site. Assuming all the elements of liability exist, a party may still avoid CERCLA liability by meeting one of the so-called affirmative defenses. They provide that a party shall not be liable if it can establish by a preponderance of the evidence that the release or threat of release of a hazardous substance and the damages resulting therefore were caused solely by: an act of God, an act of war, or the third party defense, which includes the innocent landowner defense. All appropriate inquiry must be undertaken by the defendant to establish that the defendant did not know and had no reason to know of hazardous substances in regard to the subject property.

It entails independent investigations by environmental professionals of key issues or facts related to potential environmental liabilities associated with the property transaction. It is an investigation of the real property conducted in order to determine or discover the obviousness of the presence or likely presence of a release or threatened release of hazardous substances on the real property and adjacent properties.

Emerging Contaminants: Substances that may pose a risk to human health or the environment but are not currently defined as hazardous substances under CERCLA (often referred to as “emerging contaminants”) are not covered under ASTM 1527-21 Standard for Phase I ESAs. Emerging contaminants will become subject to Phase I ESA review once they are classified as hazardous substances under CERCLA. Prior to that, it may be prudent that a purchaser discuss the risks and benefits of including certain emerging contaminants under the scope of the Phase I ESA (e.g., PFAS) with the environmental professional and/or environmental counsel.

2.3 Scope of Services

Gabriel Environmental Group’s (GEG) scope of services included the following: a review of reasonably ascertainable records (information that is publicly available, obtainable within reasonable time and cost constraints, and practically reviewable) from ASTM standard sources and written inquiries regarding the site, site reconnaissance, interviews (via telephone or in person), and preparation of this report detailing findings, opinions, and conclusions. The items listed below were not considered part of the scope of work for this Phase I ESA: subsurface exploration, air, soil or groundwater sampling, asbestos-containing building materials, lead-based paint, radon, lead in drinking water, wetlands, regulatory compliance, cultural and historic resources, ecological resources, endangered species, health and safety, industrial hygiene, indoor air quality, biological agents, mold, or controlled substances.

2.4 Significant Assumptions

This ESA is subject to the accuracy of information reviewed and to the limitations of the personal recollections of persons interviewed. GEG cannot and does not warrant or guarantee that information provided by other sources is accurate or complete. Per E1527-21, an environmental professional may rely on information provided unless he or she has actual knowledge that certain information is incorrect.

2.5 Limitations and Exceptions

The conclusions included in this report are intended to assist the user in evaluating potential environmental risks associated with real estate transactions.

The visual inspection was not limited due to weather concerns or dense vegetation.

GEG does not represent that the site referred to herein contains hazardous or toxic substances or other latent conditions beyond those observed during the site assessment. GEG does not assume responsibility for the discovery of any special resources, nor does it assume responsibility for the elimination of hazards or adverse conditions that may cause accidents, injuries, damage, client liabilities, or environmentally adverse conditions. GEG assumes no responsibility if hidden environmental conditions are discovered.

The conclusions in this report are based on the findings of the Phase I investigation described herein. Such an assessment can never absolutely conclude that a site does not contain hazardous materials inside structures, on its surface, or in its subsurface or that any such materials have not impacted the condition of the site. As long as the assessment is conducted properly and all due considerations are made, a degree of assurance can be achieved. The degree of assurance is determined by the amount of available information, scope of the assessment, and complexity of analyses performed. An absolute warranty can never be expressed or implied that no environmental liabilities exist on the site.

The professional opinions expressed herein do not represent scientific certainties. All recommendations, findings, and conclusions stated in the report are based upon conditions, operations, and practices (facts and circumstances) as observed at the time that this report was prepared (e.g. federal, state, local law, rules, regulations, and other matters that GEG deemed relevant). A change in any fact or circumstances upon which this report is based may adversely affect the recommendations, findings, and conclusions presented in it.

The information obtained in the preparation of this report is not all inclusive and should not be construed as such but provides reasonable ascertainable and practically reviewable information regarding this project. A normal standard of care has been taken in compiling this report. GEG is not responsible for any errors, omissions, or inaccuracies in reasonable ascertainable information or undisclosed environmental conditions.

The conclusions in this report are based on current environmental regulations as of the date of this report.

2.6 Special Terms and Conditions

A contract between the client and GEG is attached at the end of this report. Any special terms and conditions are set forth in this contract.

2.7 User Reliance

This report is prepared for the sole and exclusive use of GEG's clients and their representatives and may not be dispersed, disclosed to, or relied upon, in whole or in part, by any other persons or entities without the prior written consent of GEG.

2.8 Conflict Certification

Gabriel Environmental Group (GEG) has no present or contemplated future ownership interest or financial interest in the real estate that is the subject of this Environmental Assessment Report; and GEG has no personal interest with respect to the subject matter of the Environmental Assessment Report or the parties involved and GEG has no relationship with the property or the owners thereof which would prevent an independent analysis of the environmental or other conditions of the property.

3. Site Description

3.1 Location and Legal Description

Gabriel Environmental Group (GEG) was retained to perform a Phase I Environmental Site Assessment (ESA) on two improved tracts of land located along the southerly right-of-way line of West 1500 South, northerly right-of-way line of Andrew Avenue, at the intersections of the said roadways and 300 West, in the City of Salt Lake City, Salt Lake County, Utah. The subject site is geographically located at latitude 40.7369520 and longitude 111.9002920. Its APNs are 15-13-206-005 and 15-13-206-008. The subject site consists of 0.51 of an acre of land that is legally described as: Lots 49, 50, 51, and 52, and the east half of Lot 48, Burr Oak Subdivision, Salt Lake County, Utah. Its physical addresses are 309 West 1500 South and 1512 South 300 West, Salt Lake City, Utah. According to Assessor records, the subject site is currently owned by Lima Echo, LLC.

3.2 Site and Vicinity General Characteristics

The site under consideration in this project, or the designated property in review, consist of approximately 0.51 of an acre of land that is improved with a commercial building and a residential building and concrete and asphalt paved parking areas and driveways.

3.3 Current Use of the Property

As of the date of the site inspection, the commercial building was occupied by an auto dealership; Rev Motoring, and a residential facility.

3.4 Descriptions of Structures, Roads, and Other Improvements on the Site

According to Salt Lake County Appraisal records, the current improvement at the address 309 West 1500 South was developed in 1982 and consists of 2,087 SF of space. The current improvement at the address 1512 South 300 West was developed in 1946. The buildings on site consist of masonry/steel frame structures with brick and concrete exterior walls. They sit on reinforced concrete slab foundations. Interior dividing walls are constructed of sheetrock/metal. The floors consist of either concrete and/or are covered with floor tiles.

3.5 Site Utilities

The City of Salt Lake City supplies electricity, water, and sanitary sewage facilities for the general area where the subject site is located. Gas is supplied by a private utility company.

3.6 Current Uses of Adjoining Properties

To the north of the subject is West 1500 South, across from which are a used appliance store; Precision Appliance, and a car wash facility; Mister Car Wash. To the east is 300 West, across from which are a barber shop; Christina's Barber Shop, an auto machine shop; Crankshaft Grinders, an ammunition supplier; Alpha Munitions, and a homeless resource center. To the south is Andrew Avenue, across from which are an auto repair shop; Eagle Towing and Auto Body, and general commercial uses. To the southwest is Andrew Avenue, across from which is a sheet metal machine shop; Schoppe. To the west are a plumbing facility; Ed Gardner Plumping, a repair service; Gardner Service, a coffee wholesale facility; Beverage Solutions and Distribution, and a car dealership; Ignite Motors. Further to the west are auto repair shops and general commercial uses.

The subject site is essentially surrounded by industrial/light industrial and general commercial uses. The operations on the surrounding properties will by their very location and nature involve some level of activity relating to hazardous or regulated materials. That is the business of the area. It is not within the scope of this survey to determine if the surrounding properties utilized or deposited any acutely hazardous substances in the area. The determination of that event is within the purview of the regulatory data included in this report.

4. User Provided Information

4.1 Title Records

A historical chain-of-title search was not within the scope-of-work to be provided by GEG. A title search was not available and was not provided to GEG by the client before this report was completed.

4.2 Environmental Liens and Activity and Use Limitations

Activity and use limitations are legal or physical restrictions or limitations of the use of, or access to, a site or facility. They are used to reduce or eliminate potential exposure to hazardous substances or petroleum products in the soil or groundwater on the property or to prevent activities that could interfere with the effectiveness of a response action, in order to ensure maintenance of a condition of no significant risk to public health or the environment. These legal or physical restrictions are intended to prevent adverse impacts to individuals or populations that may be exposed to hazardous substances and petroleum products in the soil or groundwater on the property. AULs indicate that residual levels of hazardous substances or petroleum products may be present on a property. Environmental lien and AUL searches are not performed by the environmental professional (unless specifically contracted for in the engagement and when deemed necessary). The environmental professional's search of institutional and engineering control databases do not meet the intent of the rule, the environmental professional must review (1) transaction-related title insurance documentation such as preliminary title reports and title commitments; or (2) title search information reports from third party vendors provided that the reports meet certain specifications. No activity and use limitations were identified in the databases searched and listed in the EDR Report.

4.3 Reason for Performing the Phase I ESA

The Phase I is being prepared to identify any recognized environmental conditions, to identify any potential environmental conditions that could materially impact the operation of his future busies, and to satisfy one of the requirements to qualify for one of the landowner liability protections (a defense to CERCLA liability).

4.4 Prior Environmental Reports

No previous Phase I ESA was provided to GEG for its review.

5. Records Review

5.1 Standard Environmental Record Sources

EDR, a third party database company, provided information from State and Federal governmental agencies (directly or through secondary sources). A review of the EDR Report was conducted to identify past and present land use activities that could impact the subject site. A summary of pertinent information on the subject property and its surrounding area (provided by EDR) is given below. GEG requested that EDR provide information using the approximate minimum search distance set forth in ASTM E1527-21.

The date of the environmental database report is October 27, 2022.

The subject site was not listed in any of the databases searched by EDR.

Several of the surrounding sites are listed in the EDR Historical Auto, LUST and UST databases, none of which are deemed to constitute offsite recognized environmental conditions to the subject site.

GEG has reviewed the unmapped sites in the database (nine sites) and none of the sites or uses listed appear to have been located at the subject site or within the recommended search distance from the subject site.

5.1.1 SEMS (Superfund Enterprise Management System):

SEMS (Superfund Enterprise Management System): SEMS tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL. Based on the environmental database review, no SEMS registered facilities were found within a half of a mile radius from the subject site.

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that based upon available information, the location is not judged to be potential NPL site. Two SEMS-ARCHIVE sites were found within a half a mile radius from the subject property. Based on its topographical elevations, reported status and/or its distances from the site, it was not deemed likely to constitute a significant environmental risk to the subject site.

5.1.2 National Priorities List (NPL) Sites:

The National Priority List (NPL) identifies those sites that are currently involved in CERCLA or Superfund actions related to abandoned or inactive hazardous wastes. It is compiled from the designated CERCLIS list. NPL sites are prioritized as to their significant risk to human health and the environment. This list targets those sites to receive remedial funding under CERCLA. The NPL lists the nation's highest priority sites for remedial action. Only NPL sites can receive CERCLA funding. According to the environmental database search, one NPL site was found within a mile radius from the subject site. Based on its topographical elevation, reported status and/or its distance from the site, it was not deemed likely to constitute a significant environmental risk to the subject site.

5.1.3 Resource Conservation and Recovery Act (RCRA) Sites

The RCRA notifiers list identifies those facilities that indicate that they generate, transport, treat, store, or dispose of hazardous waste regulated under the Resource Conservation Recovery Act of 1976 (RCRA). RCRA is an amendment to the first piece of Federal Solid Waste legislation called the Solid Waste Disposal Act of 1965. RCRA was amended in 1980 and most recently in 1984 by HSWA (Hazardous and Solid Waste Amendments of 1984). This list is compiled by the EPA. All generators are required to have US EPA ID numbers on all waste manifest disposal records. The extent to which these facilities actually handle such wastes varies greatly from small-quantity generators to active treatment, storage, and disposal facilities. Based on the environmental database review, one RCRA-SQG, six RCRA-VSQG, and 12 RCRA-NLR registered facilities were found within a quarter of a mile radius from the subject site. Based on its topographical elevations, reported status and/or its distances from the site, it was not deemed likely to constitute a significant environmental risk to the subject site.

5.1.4 Corrective Action Report (CORRACTS) Sites:

CORRACTS is a list of handlers with RCRA Corrective Action Activity. This report shows which nationally-defined corrective action core events have occurred for every handler that has had corrective action activity. Based on the environmental database review, one CORRACTS site was found within a mile radius from the subject site. Based on its topographical elevation, reported status and/or its distance from the site, it was not deemed likely to constitute a significant environmental risk to the subject site.

5.1.5 Underground Storage Tanks (USTs)

According to the database review, 18 UST (Underground Storage Tank) sites were found within a quarter of a mile radius from the subject property. Based on its topographical elevations, reported status and/or its distances from the site, it was not deemed likely to constitute a significant environmental risk to the subject site.

According to the database review, one AST (Aboveground Storage Tank) site was found within a quarter of a mile radius from the subject property. Based on its topographical elevation, reported status and/or its distance from the site, it was not deemed likely to constitute a significant environmental risk to the subject site.

5.1.6 Leaking Petroleum Storage Tanks within the ASTM Search Area

The Leaking Underground Storage Tank Incident Reports contain an inventory of reported leaking underground storage tank incidents. The data comes from the State Water Resources Control Board Leaking Underground Storage Tank Information System. According to the environmental database review, 38 registered UT LUST (Leaking Underground Storage Tank) and 38 LUST (Leaking Underground Storage Tank) facilities were found within a half of a mile radius from the subject property. Based on its topographical elevations, reported status and/or its distances from the site, it was not deemed likely to constitute a significant environmental risk to the subject site.

5.1.7 Spill Incidents

The Emergency Response Notification System (ERNS) list and the state Spill Incident Report contain spill records and store information of reported releases of oil and hazardous substances. These databases derive information from spill reports made to federal and local authorities to include the EPA, Coast Guard, National Response Center, local Department of Health, and Department of Transportation. This list is updated quarterly. According to the EPA's Emergency Response Notification System (ERNS) and the state Spill Incident Report, no spills have been reported within a quarter of a mile of the subject property.

5.1.8 Utah Voluntary Cleanup Program Sites

The Utah Voluntary Cleanup Program was established to provide administrative, technical, and legal incentives to encourage the cleanup of contaminated sites in Utah. A review of the VCP list provided by EDR revealed two VCP sites within approximately half a mile from the target property. Based on its topographical elevations, reported status and/or its distances from the site, it was not deemed likely to constitute a significant environmental risk to the subject site.

5.1.9 Tribal Records

According to EDR, no Indian reservation was found within a mile radius of the subject site.

5.1.10 Activity and Use Limitations (AULs)

AUL sites are sites that have institutional controls. According to the environmental database review, one US Institutional Control site was located within half a mile from the subject property. Based on its topographical elevation, reported status and/or its distance from the site, it was not deemed likely to constitute a significant environmental risk to the subject site.

5.1.11 Other

The following were also found in the databases within the ASTM recommended radii from the subject site: LAST; three site, US Brownfields; one site, ROD; one site, MN Manifest; one site, and EDR Historical Auto; 15 sites. The listings are not deemed to constitute an environmental concern to the subject site.

5.1.12 Vapor Intrusion Assessment

GEG has performed a Vapor Intrusion Assessment in conformance with the scope and limitations of the Standard Practice E 2600-10 on the property located at 309 West 1500 South and 1512 South 300 West, Salt Lake City, Salt Lake County, Utah. In the professional opinion of GEG, an appropriate level of assessment has been conducted consistent with good commercial and customary practice in an effort to minimize liability, and no significant evidence or indication of potential vapor intrusion conditions (pVIC) or vapor intrusion conditions (VIC) has been revealed and vapor intrusion is unlikely to be an issue of concern in connection with existing or planned structures on the target property.

5.13 File Review:

Per the ASTM E1527-21 standards, if a subject site is listed on any database as having a violation, spill, leak incident, leaking underground storage tank system or is listed as a voluntary cleanup site, the Environmental Professional shall conduct research directly with the regulatory agency regarding such and report the findings in the Phase I ESA report. Given that the subject site was not listed as such in any of the regulatory databases listed in the EDR database report, no further research was deemed necessary.

5.2 Additional Environmental Record Sources

GEG inquired about emergency responses and other incidents that could have occurred at the subject site.

5.2.1 Property Tax

GEG was able to obtain parcel map information from the Salt Lake County Assessor’s website, which is attached in the appendix section of the report.

5.2.2 Utah UST and LPST databases

The State UST and LPST databases were searched to find out if the subject site was listed in either or both databases.

5.3 Physical Setting Sources

Potential receptors are surface or subsurface features present or adjacent to the site. These include storm sewer inlets, sanitary sewer manholes/subsurface piping, underground telephone utilities, and natural receptors that are in the vicinity of the property in review.

5.3.1 Topographical Maps

Under natural, undisturbed conditions, shallow groundwater flow generally follows the surface topography of the land. However, localized conditions may alter groundwater flow. According to the United States Geological Survey (USGS) 7.5 Minute Topographical Maps, Salt Lake City North and South Quadrangles, which cover the area in review, the subject property is located at an elevation of 4,231 feet above sea level.

5.3.2 Geology

A Custom Soil Resource Report is attached at the end of the report.

5.3.3 Flood Zone

Flood Insurance Rate Maps, published by FEMA, were reviewed. The subject property appears to be located in Flood Zone X, which is defined as areas outside the 500-year flood plain with less than 0.2% annual probability of flooding.

5.4 Historical Use Information on the Property

The "standard" historical records review included aerial photographs, fire insurance maps (Sanborn maps), local street directories (city directory search), topographic maps, building department records, interviews, property tax files, and zoning/land use records, if available or obtainable by the environmental professional.

The standard historical records review includes an evaluation of the past and current uses of adjoining properties.

5.4.1 Aerial Photographs:

A historical aerial photograph search was conducted on the subject property. The aerial photographs obtained are from 1937, 1946, 1952, 1958, 1962, 1965, 1971, 1977, 1981, 1993, 1997, 2006, 2011, and 2016. The aerial photographs were reviewed for visual evidence of past land usage that could have adversely impacted the subject site or properties surrounding the site. The aerial photograph review is primarily applicable for general site use chronology. Most of the aerials reviewed are not of large enough scale or of sufficient clarity to depict site-specific conditions. In the historical aerial photograph from 1937, the subject site consisted of wooded unimproved land. In the photos from 1946 to 1981, the east parcel at the subject site consisted of the current commercial building and the west parcel at the subject site consisted of several buildings. In the photos from 1993 to 2016, some of the previous improvements at the west parcel at the subject site had been removed and the subject site consisted of its current configuration. No significant changes were noted at the subject site.

5.4.2 Topographic Maps:

A historical topographic map search was conducted on the subject property to evaluate potential liability on the target property and its surrounding area, resulting from past activities. A topographic map is a color-coded line-and-symbol representation of natural and selected artificial features plotted to a scale. Topographic maps show the shape, elevation, and development of the terrain in precise detail by using contour lines and color-coded symbols. The historical topographic maps obtained for the subject site are from 1925, 1928, 1950, 1969, 1975, 2014, 2017, and 2020. No environmental issues such as pits, landfills, pipeline easements or oil/gas wells were noted at the subject site.

5.4.3 Sanborn Fire Insurance Maps:

GEG reviewed historical Sanborn Fire Insurance maps on the subject property to evaluate present and past land uses, structures, improvements, and historical development of the subject site and surrounding properties. EDR was contacted and asked to obtain the maps. Coverage was found at the subject site in 1986. In the map from 1986, the west section at the subject site consisted of the current building (at the address of 325 West 1500 South) and a designation of a commercial use and the east section at the subject site consisted of the current commercial building (at the addresses of 1506-1512 South 300 West).

5.4.4 City Directory Search:

A city directory search was conducted for the subject site. During the search, business directories including city, cross-reference, and telephone directories were reviewed, if available. The following tenants were listed as occupants at the subject site (including previous street and address ranges for the subject site):

1512 South 300 West:

1994-2017: The Tool Center Hardware
1990: Vacant
1981-1985: Grumaco Woodwork Machinery
1976: Elmer Leon J., Penman Clothes Line Post, Penman Manufacturing Picnic Tables and Benches, Penman Playground Equipment, Elmer Leon J.

1502 South 2nd West Street:
1931: Mc Farland Geo

1512 South 2nd West Street:
1971: Penman Manufacturing Picnic Tables and Benches, Penman Playground Equipment, Penman Clothes Line Post, Upper Elmer Leon
1965: Penman Manufacturing and Supply Playground Equipment
1951-1961: Penman Carl E. Penman Manufacturing and Supply Steel Fabricators

309 West 1500 South:
2004-2009: El Chalan Restaurant
1999: Pitcher's Mound

309 West 15th South Street:
1990: Kimi's Café Restaurant
1971-1985: Bordeaux Café Restaurant

325 West 15th South Street:
1941-1976: Smith Esther
1931-1941: Smith Jos B poultry brooders

Based on the review of available directories, general commercial and heavy commercial uses were listed as occupants at the subject site from 1951 to 2017, none of which are deemed to constitute an environmental concern given that all operations (including machine shop operations) would have been conducted inside the subject facilities.

5.4.5 Historical Chain-of-Title Records

A historical chain-of-title was not provided or requested for this study. The historical uses of the property were researched using other data sources.

5.4.7 Zoning/Land Use

GEG understands that there are zoning restrictions for the area where the subject property is situated.

5.4.8 Additional Records

No additional historical records were included in the preparation of this report.

5.4.8.1 Historical Assessments

No previous Phase I ESA was provided to GEG for its review.

6. Site Reconnaissance

6.1 Methodology and Limiting Conditions

A GEG representative conducted a walking survey of the subject property to visually observe the site and structures on the site to the extent that they were not obstructed by bodies of water, adjacent buildings, or other obstacles. The objective of the site reconnaissance was to obtain information indicating the likelihood of identifying recognized environmental conditions in connection with the property.

The adjoining properties were observed from the site to determine if there was potential for impact to the site by recognized environmental conditions in connection with the adjacent properties.

No physical obstructions such as dense vegetation or water were present to obscure the site during the site inspection.

6.2 General Site Setting

The site is located in the City of Salt Lake City, Utah, in an area that is developed with commercial and residential uses.

6.3.1 Water and Sewage Systems

No water wells or septic tanks were noted at the subject site.

6.3.2 Hazardous Substance and Petroleum Product Use, Storage, Treatment, and Disposal

Minor auto servicing activities are conducted at the commercial building at the subject site. On the property in review, inside the automobile service shop workshop areas, containers containing automotive service related fluids, air compressors, mechanical and testing equipment and gauges, solvents, tires and rims, were noted. The containers containing the automotive fluids and spent automotive parts are all stored in publicly non-accessible areas and their contents appeared to be dispensed in a controlled fashion, thus reducing the risk for spills or leak incidents. None of the containers appeared to have piping or other components that made penetrations through the concrete slabs on which they sit. Therefore, a subsurface release was not suspected. No staining was noted in the floors inside the facility and open paved areas at the exterior of the facility. No cracks were visible. No subsurface impacts were suspected. The presence and use of the automotive repair related fluids at the subject site was not deemed likely to constitute a significant environmental concern at this time. Any staining would be considered a *de minimis* condition.

An aboveground lift was noted inside the auto dealership facility. No subsurface impacts are suspected from these types of lifts. The subject site may have had an inground hydraulic lift in the past. A hydraulic fluids tank is usually associated with this type of lift. NES recommends that, in the case of the redevelopment of the subject site, if any inground hydraulic lift or auto service repair component or system is found in the subsurface, it should be removed from the subject site and the subsurface conditions around it be evaluated. If any impacts are found, it should be addressed in accordance with all industry standards and regulatory requirements for such.

6.3.3 Underground Storage Tanks/Above Ground Storage Tanks

No evidence of underground storage tanks was noted at the subject site at the present.

6.3.4 PCB Containing Power Equipment

Polychlorinated biphenyls (PCBs), a hazardous group of chlorinated aromatic hydrocarbons, were used in a wide range of products including hydraulic and electrical equipment. PCB-containing equipment has the potential to cause soil and groundwater contamination. During the site visit, the property was surveyed for the presence of power transformers and other potential PCB containing electrical equipment. In accordance with State regulations, PCB containing transformers have been banned from use in Utah. Therefore, the presence of such in the transformers was not deemed likely.

6.3.5 Landfill Activity

A landfill is a disposal facility or part of a facility where hazardous waste is placed in or on land and which is not a land treatment facility, a surface impoundment, or an injection well. According to the EPA, a landfill is defined as an engineered (by excavation or construction) or natural hole in the ground where wastes have been disposed and are covered by backfilling or by contemporaneous soil deposition with waste disposal, covering wastes from view. The problems that the agency deems to be associated with landfills are the migration of leachate and wastes from it into the ground and adjacent surface and subsurface waters, subsidence of the ground in and above it, methane gas generation, the formation of pockets within it, and erosion. During the site visit, the subject site and area surrounding the property was surveyed for the evidence of landfill activity. None was found.

6.3.6 Surface Impoundments

No surface impoundments were noted at the subject site at the present.

6.3.7 Oil/Gas Wells

No evidence of oil/gas wells, storage tanks, or associated piping was discovered on the site during the site inspection.

6.3.8 Pipeline Easements

No pipeline easements were noted on the subject property during the site inspection.

6.3.9 Municipal Solid Waste Disposal

Municipal or contracted solid waste pick-up is available for the subject site.

6.3.10 Surface Water Drainage

The subject property appeared to be well drained.

6.3.11 Industrial Wastewater/Wastewater Treatment

No industrial wastewater/wastewater treatment facilities were noted at the subject site.

6.3.12 Stressed Vegetation/Stained Soil/Odors/Fill material

There was no significant physical or visual evidence of stressed vegetation, soil discoloration, odors, or other indicators of environmental exposure to the surface areas or soils on the subject property.

6.3.13 Air Emissions

There is no evidence of significant air emissions on site.

6.4 Exterior Observations at Adjoining Properties

To the north of the subject is West 1500 South, across from which are a used appliance store; Precision Appliance, and a car wash facility; Mister Car Wash. To the east is 300 West, across from which are a barber shop; Christina's Barber Shop, an auto machine shop; Crankshaft Grinders, an ammunition supplier; Alpha Munitions, and a homeless resource center. To the south is Andrew Avenue, across from which are an auto repair shop; Eagle Towing and Auto Body, and general commercial uses. To the southwest is Andrew Avenue, across from which is a sheet metal machine shop; Schoppe. To the west are a plumbing facility; Ed Gardner Plumping, a repair service; Gardner Service, a coffee wholesale facility; Beverage Solutions and Distribution, and a car dealership; Ignite Motors. Further to the west are auto repair shops and general commercial uses.

The subject site is essentially surrounded by industrial/light industrial and general commercial uses. The operations on the surrounding properties will by their very location and nature involve some level of activity relating to hazardous or regulated materials. That is the business of the area. It is not within the scope of this survey to determine if the surrounding properties utilized or deposited any acutely hazardous substances in the area. The determination of that event is within the purview of the regulatory data included in this report.

7. Interviews/Questionnaires

The user questionnaire was completed by Arlie J. Green with Platform 1500 LLC. It is dated October 21, 2022. No items of environmental significance or concern were reported in the questionnaire.

8. Findings, Discussion, and Opinion

As of the date of the site inspection, the commercial building was occupied by an auto dealership; Rev Motoring, and a residential facility.

Minor auto servicing activities are conducted at the commercial building at the subject site. On the property in review, inside the automobile service shop workshop areas, containers containing automotive service related fluids, air compressors, mechanical and testing equipment and gauges, solvents, tires and rims, were noted. The containers containing the automotive fluids and spent automotive parts are all stored in publicly non-accessible areas and their contents appeared to be dispensed in a controlled fashion, thus reducing the risk for spills or leak incidents. None of the containers appeared to have piping or other components that made penetrations through the concrete slabs on which they sit. Therefore, a subsurface release was not suspected. No staining was noted in the floors inside the facility and open paved areas at the exterior of the facility. No cracks were visible. No subsurface impacts were suspected. The presence and use of the automotive repair related fluids at the subject site was not deemed likely to constitute a significant environmental concern at this time. Any staining would be considered a *de minimis* condition.

An aboveground lift was noted inside the auto dealership facility. No subsurface impacts are suspected from these types of lifts. The subject site may have had an inground hydraulic lift in the past. A hydraulic fluids tank is usually associated with this type of lift. NES recommends that, in the case of the redevelopment of the subject site, if any inground hydraulic lift or auto service repair component or system is found in the subsurface, it should be removed from the subject site and the subsurface conditions around it be evaluated. If any impacts are found, it should be addressed in accordance with all industry standards and regulatory requirements for such.

Based on the review of available directories, general commercial and heavy commercial uses were listed as occupants at the subject site from 1951 to 2017, none of which are deemed to constitute an environmental concern given that all operations (including machine shop operations) would have been conducted inside the subject facilities.

The subject site was not listed in any of the databases searched by EDR.

Several of the surrounding sites are listed in the EDR Historical Auto, LUST and UST databases, none of which are deemed to constitute offsite recognized environmental conditions to the subject site.

Based on the regulatory file search, no violations or spills were recorded at the subject site. Based on the absence of evidence of any documentation relating to violations or spills or leaks at the subject site and the absence of any visible evidence of the misuse or mismanagement of the subject facilities, the previous and present uses of the subject site were not deemed to constitute an environmental concern at this time.

No on-site recognized environmental conditions were identified during the course of this Phase I ESA.

No controlled recognized environmental conditions were identified during the course of this Phase I ESA.

No historical recognized environmental conditions were identified during the course of this Phase I ESA.

It is unlikely that listed surrounding sites could have adversely impacted the subject site due to their proximity to the site, status, or to the nature of the event that had transpired. No off-site recognized environmental conditions were identified that were likely to impact the subject property.

9. Data Gaps

A data failure is a failure to achieve historical research objectives even after reviewing the standard historical sources that are reasonably ascertainable and likely to be useful. A data gap is a lack or inability to obtain information required by this practice despite good faith efforts by the environmental professional to gather such information. A significant data gap is one that "affects the ability of the environmental professional to identify a recognized environmental condition." No data gaps were encountered that affected the ability of the EP to identify recognized environmental conditions.

10. Conclusions

GEG has performed a Phase I ESA in conformance with the scope and limitations of the Standard Practice E1527-21 on the property located at 309 West 1500 South and 1512 South 300 West, Salt Lake City, Salt Lake County, Utah. In the professional opinion of GEG, an appropriate level of inquiry has been made into the previous ownership and use of the property consistent with good commercial and customary practice in an effort to minimize liability, and no evidence or indication of recognized environmental conditions, historical recognized environmental conditions or controlled recognized environmental conditions has been revealed. No data gaps were encountered that affected the ability of the EP to identify recognized environmental conditions. No further environmental assessments or investigations are deemed necessary at this time.

11. Deviations

Other than listed above in this report, GEG did not deviate from ASTM E1527-21.

12. Additional Services

No additional services, such as asbestos or lead-based paint surveys, were conducted.

13. References

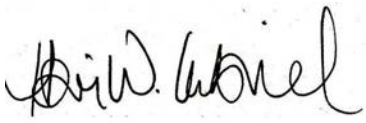
13.1 Regulatory Records and Public Documents:

The third party database company which provided the information presented in the report is EDR.

13.2 Published References:
13.2.1 American Society for Testing and Materials (ASTM) Standard Practice for Site Assessments: Phase I Environmental Site Assessment Process (E1527-21).
13.2.2 United States Department of the Interior Geological Survey; 7.5-Minute Series (Topographic) maps, Salt Lake City North and South Quadrangles, Utah.

14. Signatures of Environmental Professionals

Signatures of site investigators and/or environmental professionals who participated in the site investigation, report preparation, project management, or report review.



Hani Gabriel
Environmental Professional

Salamat Ullah
Project Manager
Environmental Professional

Brecken Palmer
Environmental Consultant

Chloe Gabriel
Environmental Consultant

15. Qualifications of Environmental Professionals

Resumes of key environmental professionals are attached at the end of this report. The Environmental professionals listed above are responsible for conducting this Phase I and preparation of this report. We declare that to the best of our professional judgment and belief, we meet the definition of Environmental professional as defined in 312.10 of 40 CFR 312 and we have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. We have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Gabriel Environmental Group were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1926 through 2017. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

EDR Historical Topo Map Report

10/27/22

Site Name:	Client Name:
309 W 1500 S & 1512 S 300 W	Gabriel Environmental Group
309 West 1500 South	P. O. Box 1161
Salt Lake City, UT 84115	Redlands, CA 92373
EDR Inquiry # 7161190.51	Contact: Hani Gabriel

EDR Topographic Map Library has been searched by EDR and maps covering the target property location as provided by Gabriel Environmental Group were identified for the years listed below. EDR's Historical Topo Map Report is designed to assist professionals in evaluating potential liability on a target property resulting from past activities. EDRs Historical Topo Map Report includes a search of a collection of public and private color historical topographic maps, dating back to the late 1800s.

Search Results:		*Coordinates:*	
P.O.#	NA	**Latitude:**	40.736952 40° 44' 13" North
Project:	GEG22182	**Longitude:**	-111.900292 -111° 54' 1" West
		UTM Zone:	Zone 12 North
		UTM X Meters:	423983.37
		UTM Y Meters:	4509946.67
		Elevation:	4231.00' above sea level

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527-21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

EXECUTIVE SUMMARY

TARGET PROPERTY SEARCH RESULTS

The target property was not listed in any of the databases searched by EDR.

DATABASES WITH NO MAPPED SITES

No mapped sites were found in EDR's search of available ("reasonably ascertainable ") government records either on the target property or within the search radius around the target property for the following databases:

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

Proposed NPL ---------- Proposed National Priority List Sites
NPL LIENS ---------- Federal Superfund Liens

Lists of Federal Delisted NPL sites

Delisted NPL ---------- National Priority List Deletions

Lists of Federal sites subject to CERCLA removals and CERCLA orders

FEDERAL FACILITY ---------- Federal Facility Site Information listing

Lists of Federal RCRA TSD facilities

RCRA-TSDF ---------- RCRA - Treatment, Storage and Disposal

Lists of Federal RCRA generators

RCRA-LQG ---------- RCRA - Large Quantity Generators

Federal institutional controls / engineering controls registries

LUCIS ---------- Land Use Control Information System

Federal ERNS list

ERNS ---------- Emergency Response Notification System

Lists of state- and tribal hazardous waste facilities

UT SHWS ---------- This state does not maintain a SHWS list. See the Federal CERCLIS list and Federal NPL list.

Lists of state and tribal landfills and solid waste disposal facilities

UT SWF/LF ---------- List of Landfills

Lists of state and tribal leaking storage tanks

INDIAN LUST ---- Leaking Underground Storage Tanks on Indian Land

Lists of state and tribal registered storage tanks

FEMA UST ---- Underground Storage Tank Listing
INDIAN UST ---- Underground Storage Tanks on Indian Land

Lists of state and tribal voluntary cleanup sites

INDIAN VCP ---- Voluntary Cleanup Priority Listing

Lists of state and tribal brownfield sites

UT BROWNFIELDS ---- Brownfields Assessment Sites Listing

ADDITIONAL ENVIRONMENTAL RECORDS

Local Lists of Landfill / Solid Waste Disposal Sites

INDIAN ODI ---- Report on the Status of Open Dumps on Indian Lands
ODI ---- Open Dump Inventory
DEBRIS REGION 9 ---- Torres Martinez Reservation Illegal Dump Site Locations
IHS OPEN DUMPS ---- Open Dumps on Indian Land

Local Lists of Hazardous waste / Contaminated Sites

US HIST CDL ---- Delisted National Clandestine Laboratory Register
UT CDL ---- Methamphetamine Contaminated Properties Listing
US CDL ---- National Clandestine Laboratory Register
UT PFAS ---- PFAS Site Information Listing

Local Land Records

LIENS 2 ---- CERCLA Lien Information

Records of Emergency Release Reports

HMIRS ---- Hazardous Materials Information Reporting System
UT SPILLS ---- Spills Data

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

EXECUTIVE SUMMARY

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: Also known as Superfund, the National Priority List database is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund program. The source of this database is the U.S. EPA.

A review of the NPL list, as provided by EDR, and dated 07/26/2022 has revealed that there is 1 NPL site within approximately 1 mile of the target property.

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 07/26/2022 has revealed that there are 2 SEMS-ARCHIVE sites within approximately 0.5 miles of the target property.

EXECUTIVE SUMMARY

Lists of Federal RCRA facilities undergoing Corrective Action

CORRACTS: CORRACTS is a list of handlers with RCRA Corrective Action Activity. This report shows which nationally-defined corrective action core events have occurred for every handler that has had corrective action activity.

A review of the CORRACTS list, as provided by EDR, and dated 06/20/2022 has revealed that there is 1 CORRACTS site within approximately 1 mile of the target property.

Lists of Federal RCRA generators

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 06/20/2022 has revealed that there is 1 RCRA-SQG site within approximately 0.25 miles of the target property.

RCRA-VSQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-VSQG list, as provided by EDR, and dated 06/20/2022 has revealed that there are 6 RCRA-VSQG sites within approximately 0.25 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 06/20/2022 has revealed that there are 12 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected

listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there are 15 EDR Hist Auto sites within approximately 0.125 miles of the target property.

Summary Details:

Conditions at proposal January 22, 1987): The Wasatch Chemical Co. Lot 6) Site covers 3.7 acres in Salt Lake City, Salt Lake County, Utah. Wasatch began formulating various organic chemical products, including pesticides, on 15 acres in the early 1960s. Subsequently, the site was subdivided into parcels of 6 and 9 acres, which are now owned by two separate entities. Lot 6 has not been used since before 1980. The Utah Department of Health estimates that approximately 2,300 cubic yards of wastes have been disposed in a concrete pond and in drums on Lot 6. During an inspection in June 1985, the State found 48 drums holding ignitable and reactive liquids and 13 pressuri ed gas cylinders in poor condition; severalof the drums were leaking. Residential and commercial industrial areas are within a few hundred yards of the drum storage area. Approximately 85,000 people live within 3 miles of the site. Additional wastes from the operation were dischargedinto the 700 West Stream, a ditch that drains into the Jordan River. Tests conducted by the State in June 1985 detected several chemicals, including pesticides and methyl isobutyl ketone, in ground water. 700 West Stream also has elevated levels of some of these compounds. About 60,000 people obtain drinking water from private wells within 3 miles of the site. The nearest well is within 2,000 feet. No alternative source of water is available in the area. The Jordan River/Surplus Canal is used primarily for industrial, irrigation 3 square miles), and recreational purposes. In January 1986, the State requested the owner of Lot 6 and a number of other parties potentially responsible for wastes associated withthe site to remove drums and other materials from Lot 6. When they refused, the State filed an action in Federal Court requiring the potentially responsible parties PRPs) to remove the drums and compensate the State for its costs. In February 1986,the State and EPA negotiated a Consent Order under CERCLA Section 106 for the drums. In April 1986, during a CERCLA emergency removal action, EPA detected dioxin in drums, standing water, and soil on the site. In the removal action, EPA 1) excavated contaminated soil, 2) transported nondioxin drums and soil and the cylinders to a ha ardous waste landfill regulated under the Resource Conservation and Recovery Act, and 3) placed dioxin-contaminated materials in a temporary storage unit adjacent to Lot 6. EPA has reached a partial agreement with several PRPs to pay for a portion of the emergency action. The PRPs have also agreed to provide and maintain a storage facility for the dioxin materials pending finaldisposal. Status February 11, 1991):
Under a partial Consent Decree issued by the State on September 30, 1988, the PRPs have conducted a remedial investigation/feasibility study to determine the type and extent of contamination at the site and identify alternatives for remedial action. The remedy planned will cover contaminated ground water, soils, sludges, and other wastes, as well as proper disposal of the dioxin materials stored on-site.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

UTAH AIR BRAKE EXCHANGE (Continued) **1001230069**

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.
The CIM (Utah - Common Identifier Mechanism) is Utah's Department of Environmental Quality (UDEQ) mechanism for compliance and permitting operations.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Hazardous Waste Summary:

Waste Code: D001
Waste Description: IGNITABLE WASTE

Waste Code: D035
Waste Description: METHYL ETHYL KETONE

Waste Code: F002
Waste Description: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code: F003
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code: F004
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: CRESOLS, CRESYLIC ACID, AND NITROBENZENE; AND THE STILL BOTTOMS FROM THE RECOVERY OF THESE SOLVENTS; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND

RICK WARNER TRUCKLAND (LTSO) (Continued) **1010335985**

SPENT SOLVENT MIXTURES.

Waste Code: F005
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.
The CIM (Utah - Common Identifier Mechanism) is Utah's Department of Environmental Quality (UDEQ) mechanism for compliance and permitting operations.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Waste Description: VINYL CHLORIDE

Waste Code: P001
Waste Description: 2H-1-BENZOPYRAN-2-ONE, 4-HYDROXY-3-(3-OXO-1-PHENYLBUTYL)-, & SALTS, WHEN PRESENT AT CONCENTRATIONS GREATER THAN 0.3% (OR) WARFARIN, & SALTS, WHEN PRESENT AT CONCENTRATIONS GREATER THAN 0.3%

Waste Code: P046
Waste Description: ALPHA,ALPHA-DIMETHYLPHENETHYLAMINE (OR) BENZENEETHANAMINE, ALPHA, ALPHA-DIMETHYL-

WALMART SUPERCENTER #3589 (Continued) **1007571993**

Waste Code: P075
Waste Description: NICOTINE, & SALTS (OR) PYRIDINE, 3-(1-METHYL-2-PYRROLIDINYL)-,(S)-, & SALTS

Waste Code: U002
Waste Description: 2-PROPANONE (I) (OR) ACETONE (I)

Waste Code: U034
Waste Description: ACETALDEHYDE, TRICHLORO- (OR) CHLORAL

Waste Code: U035
Waste Description: BENZENEBUTANOIC ACID, 4-[BIS(2-CHLOROETHYL)AMINO]- (OR) CHLORAMBUCIL

Waste Code: U058
Waste Description: 2H-1,3,2-OXAZAPHOSPHORIN-2-AMINE, N,N-BIS(2-CHLOROETHYL)TETRAHYDRO-, 2-OXIDE (OR) CYCLOPHOSPHAMIDE

Waste Code: U072
Waste Description: BENZENE, 1,4-DICHLORO- (OR) P-DICHLOROBENZENE

Waste Code: U080
Waste Description: METHANE, DICHLORO- (OR) METHYLENE CHLORIDE

Waste Code: U089
Waste Description: DIETHYLSTILBESTEROL (OR) PHENOL, 4,4'-(1,2-DIETHYL-1,2-ETHENEDIYL)BIS, (E)-

Waste Code: U122
Waste Description: FORMALDEHYDE

Waste Code: U129
Waste Description: CYCLOHEXANE, 1,2,3,4,5,6-HEXACHLORO-, (1ALPHA, 2ALPHA, 3BETA, 4ALPHA, 5ALPHA, 6BETA)- (OR) LINDANE

Waste Code: U132
Waste Description: HEXACHLOROPHENE (OR) PHENOL, 2,2'-METHYLENEBIS[3,4,6-TRICHLORO-

Waste Code: U134
Waste Description: HYDROFLUORIC ACID (C,T) (OR) HYDROGEN FLUORIDE (C,T)

Waste Code: U150
Waste Description: L-PHENYLALANINE, 4-[BIS(2-CHLOROETHYL)AMINO]- (OR) MELPHALAN

Waste Code: U154
Waste Description: METHANOL (I) (OR) METHYL ALCOHOL (I)

Waste Code: U159
Waste Description: 2-BUTANONE (I,T) (OR) METHYL ETHYL KETONE (MEK) (I,T)

Waste Code: U165
Waste Description: NAPHTHALENE

Waste Code: U182
Waste Description: 1,3,5-TRIOXANE, 2,4,6-TRIMETHYL- (OR) PARALDEHYDE

Waste Code: U188
Waste Description: PHENOL

WALMART SUPERCENTER #3589 (Continued) **1007571993**

Waste Code: U200
Waste Description: RESERPINE (OR) YOHIMBAN-16-CARBOXYLIC ACID, 11,17-DIMETHOXY-18-[(3,4,5-TRIMETHOXYBENZOYL)OXY]-, METHYL ESTER, (3BETA, 16BETA, 17ALPHA, 18BETA, 20ALPHA)-

Waste Code: U205
Waste Description: SELENIUM SULFIDE (OR) SELENIUM SULFIDE SES2 (R,T)

Waste Code: U210
Waste Description: ETHENE, TETRACHLORO- (OR) TETRACHLOROETHYLENE

Waste Code: U249
Waste Description: ZINC PHOSPHIDE ZN3P2, WHEN PRESENT AT CONCENTRATIONS OF 10% OR LESS

Waste Code: U279
Waste Description: U279

Waste Code: U409
Waste Description: CARBAMIC ACID, [1,2-PHENYLENEBIS (IMINOCARBONOTHIOYL)]BIS-, DIMETHYL ESTER (OR) THIOPHANATE-METHYL

Waste Code: U411
Waste Description: U411

Hazardous Waste Summary:

Waste Code: D000
Waste Description: Not Defined

Waste Code: D001
Waste Description: IGNITABLE WASTE

Waste Code: D035
Waste Description: METHYL ETHYL KETONE

Waste Code: F002
Waste Description: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code: F003
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code: F004
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: CRESOLS, CRESYLIC ACID, AND NITROBENZENE; AND THE STILL BOTTOMS FROM THE RECOVERY OF THESE SOLVENTS; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Waste Code: F005
Waste Description: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Grant Type:	Assessment
Property Number:	15-12-430032
Parcel size:	2.57
Latitude:	40.7468
Longitude:	-111.89256
HCM Label:	Global Positioning Method-Unspecified Parameters
Map Scale:	-
Point of Reference:	Other Point
Highlights:	The Housing Authority of Salt Lake City HASLC purchased the property to construct low-income housing apartments at the property. During excavation activities associated with the construction, a previously unknown 4,000-gallon underground storage tank UST was discovered. HASLC submitted a closure plan to the DERR and closed the UST by removal. Petroleum hydrcarbon contaminated soils and groundwater was evident within the UST excavation area and closure sample analytical results showed elevated levels of petroleum contamination in the soil and groundwater. The propetry owner and developer utilized their own excavation contractor and soil transportation company to remove petroleum-contaminated soils from the property. DERR personnel were on-site during excavation activities and field screened the excavated soils to assist with disposal options. Once the extent of impacted soil was removed, the DERR personnel collected soil and groundwater confirmation samples from the open excavation. The property assessment sample results indicated that all contaminants of concern were below state established cleanup standards. A property assessment report was prepared on March 18, 2005 and a No Further Action letter was issued to HASLC on April 15, 2005.Currently, the 84-unit housing complex is 90 leased. Former Use: Wholesale produce company

Highlights:	The Housing Authority of Salt Lake City HASLC purchased the property to construct low-income housing apartments at the property. During excavation activities associated with the construction, a previously unknown 4,000-gallon underground storage tank UST was discovered. HASLC submitted a closure plan to the DERR and closed the UST by removal. Petroleum hydrcarbon contaminated soils and groundwater was evident within the UST excavation area and closure sample analytical results showed elevated levels of petroleum contamination in the soil and groundwater. The propetry owner and developer utilized their own excavation contractor and soil transportation company to remove petroleum-contaminated soils from the property. DERR personnel were on-site during excavation activities and field screened the excavated soils to assist with disposal options. Once the extent of impacted soil was removed, the DERR personnel collected soil and groundwater confirmation samples from the open excavation. The property assessment sample results indicated that all contaminants of concern were below state established cleanup standards. A property assessment report was prepared on March 18, 2005 and a No Further Action letter was issued to HASLC on April 15, 2005.Currently, the 84-unit housing complex is 90 leased. Former Use: Wholesale produce company

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Lists of Federal RCRA generators

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators)

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Lists of state- and tribal hazardous waste facilities

SHWS: This state does not maintain a SHWS list. See the Federal CERCLIS list and Federal NPL list.

State Hazardous Waste Sites. State hazardous waste site records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. Available information varies by state.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Other Ascertainable Records

RCRA NonGen / NLR: RCRA - Non Generators / No Longer Regulated
RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

Date of Government Version: 08/30/2013

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations
EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

NY MANIFEST: Facility and Manifest Data

Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a TSD facility.

Date of Government Version: 01/01/2019

USGS TOPOGRAPHIC MAP

Target Property Map:	14655522 SALT LAKE CITY SOUTH, UT
Version Date:	2020
North Map:	14655520 SALT LAKE CITY NORTH, UT
Version Date:	2020

EDR’s GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

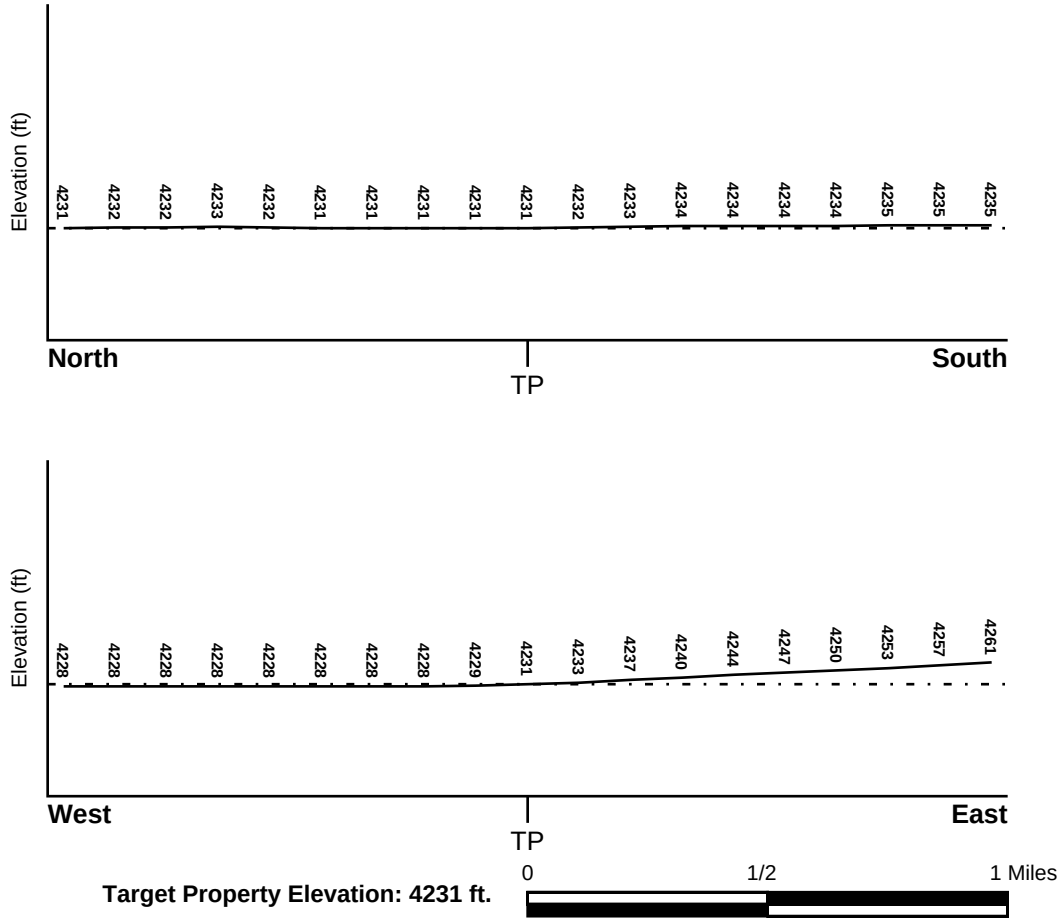
TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General WNW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES



Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Flood Plain Panel at Target Property	FEMA Source Type
49035C0282H	FEMA FIRM Flood data

Additional Panels in search area:	FEMA Source Type
49035C0143E	FEMA FIRM Flood data
49035C0144H	FEMA FIRM Flood data
49035C0281E	FEMA FIRM Flood data

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
SALT LAKE CITY SOUTH	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

MAP ID	LOCATION FROM TP	GENERAL DIRECTION GROUNDWATER FLOW
Not Reported		

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

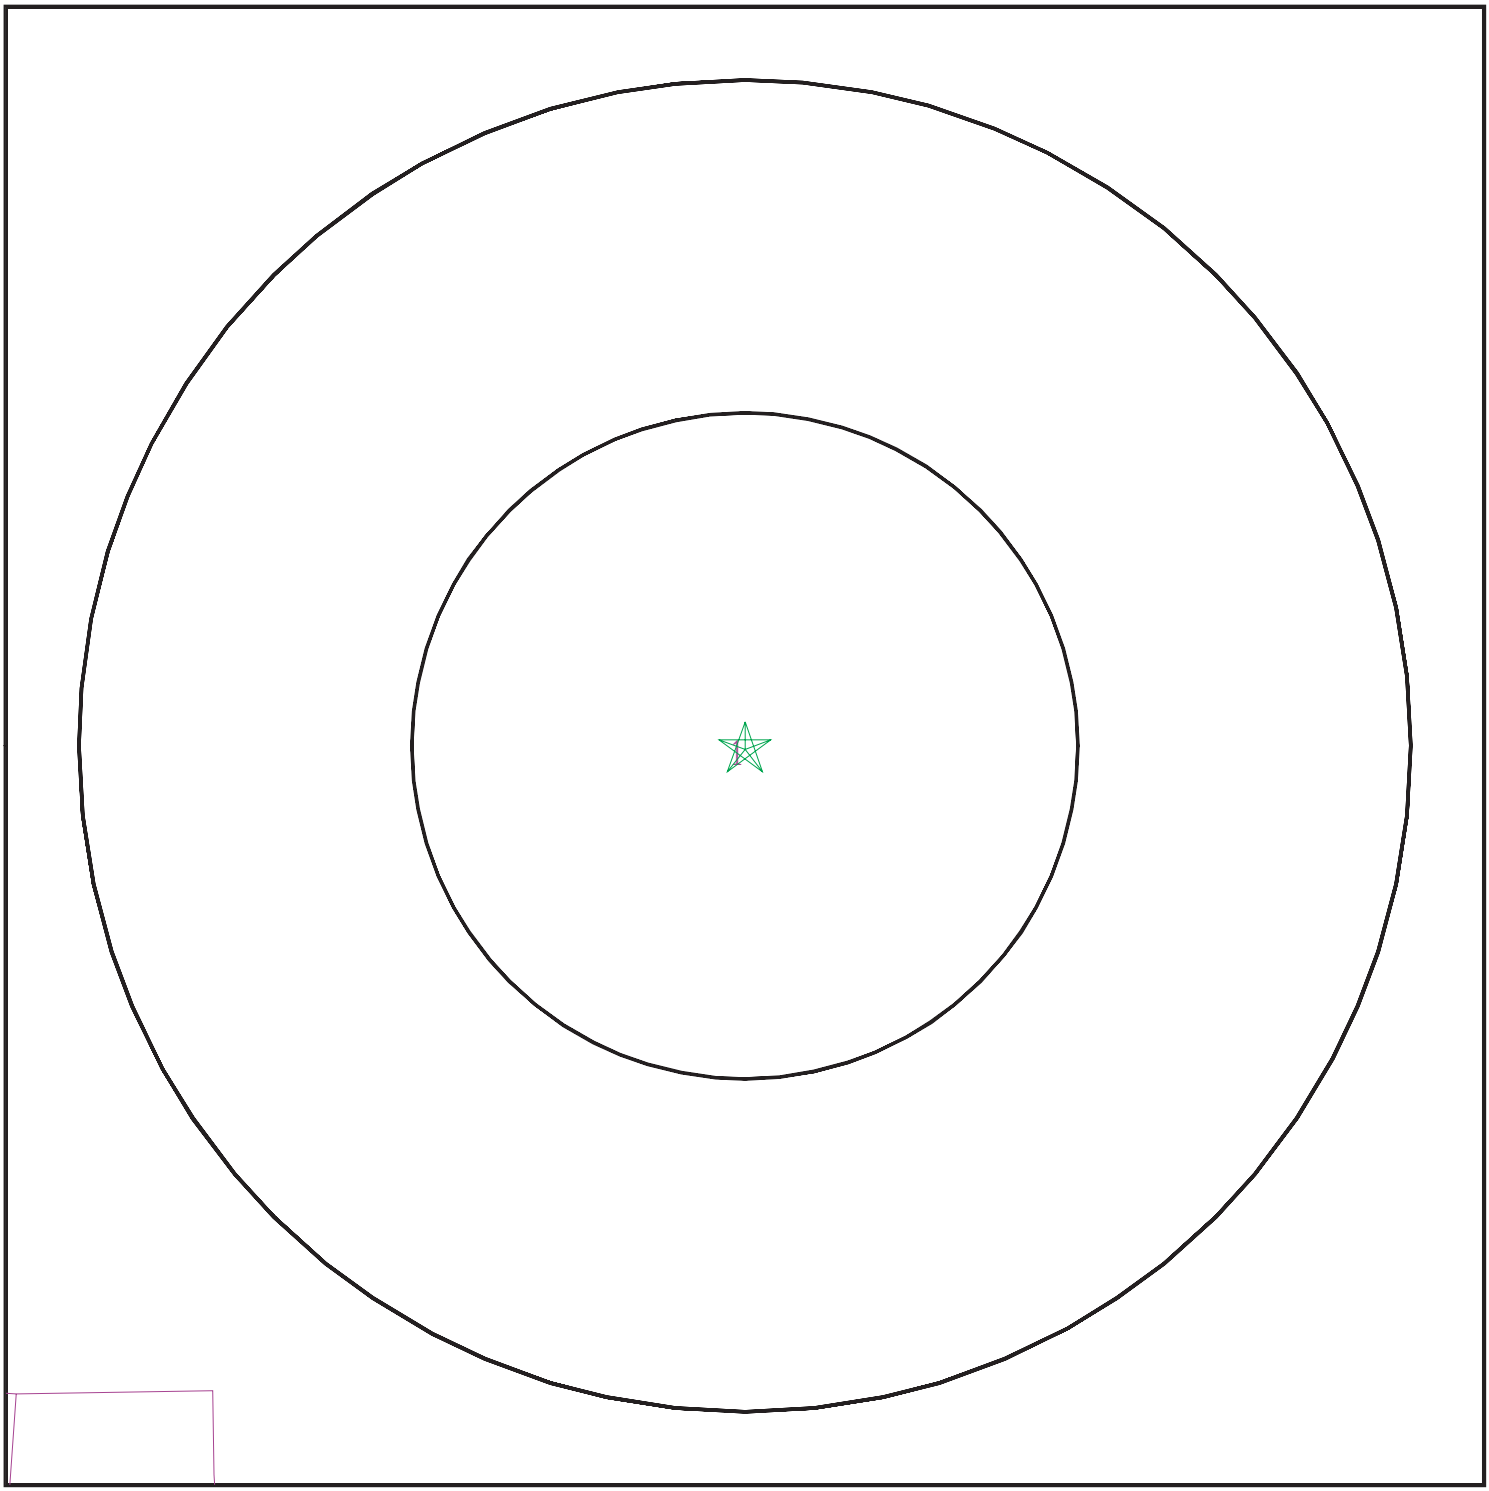
Era:	Cenozoic
System:	Quaternary
Series:	Quaternary
Code:	Q *(decoded above as Era, System & Series)*

GEOLOGIC AGE IDENTIFICATION

Category: Stratifed Sequence

Geologic Age and Rock Stratigraphic Unit Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - a digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

SSURGO SOIL MAP - 7161190.49s



SITE NAME:	309 W 1500 S & 1512 S 300 W, SLC, UT	CLIENT:	Gabriel Environmental Group

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: URBAN LAND

Soil Surface Texture:
Hydrologic Group: Not reported

Soil Drainage Class:
Hydric Status: Unknown

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

No Layer Information available.

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005, 2010 and 2015 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory
Source: Utah Geological Survey
Telephone: 801-537-3300

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

APPENDIX 16.6

SPECIAL CONTRACTUAL CONDITIONS

Gabriel
Environmental Group

CONTRACT FOR SERVICES
GABRIEL ENVIRONMENTAL GROUP

I hereby authorize Gabriel Environmental Group (GEG) to proceed with the project (Phase I - ASTM E1527-21) on property known as and addressed as follows: 309 West 1500 South & 1512 South 300 West, Salt Lake City, UT. The cost of the Phase I report is $1,850 with about a two week turnaround period.

I understand that the Scope of Work is based on a limited investigation(s) of conditions as they existed at the time of such investigation(s), and that the Scope of Work may change as new information is obtained before or during the investigative process. Further, the conclusions in an environmental consulting report are based on the findings of the investigation described in an industry accepted or specified scope. An assessment can not absolutely conclude that a site does not contain hazardous materials inside structures or on its surface, in cavities or in its subsurface or any such materials have not impacted the condition of the site. As long as the assessment is conducted properly and within standards and/or regulations, and all due considerations are made, a degree of assurance can be achieved. The degree of assurance is determined by the amount of available information, scope of the assessment and complexity of analyses performed. An absolute warranty can not be expressed or implied that no environmental liabilities exist on the site.

GEG does not represent that the site referred to herein contains hazardous or toxic substances or other latent conditions beyond those observed during the site assessment. GEG does not assume responsibility for the discovery of any special resources, nor does it assume responsibility for the elimination of hazards or adverse conditions that may cause accidents, injuries, damage, client liabilities, or environmentally adverse conditions.

During the survey, only materials readily accessible or requested to be analyzed by the client will be evaluated. Any materials not readily accessible and not assessed in this survey should be evaluated if and when they are located during building renovation and demolition.

The report will be prepared for the sole and exclusive use of the clients and their representatives, and may not be dispersed, disclosed to, or relied upon, in whole or in part, by any other persons or entities without the prior written consent of GEG.

Payment: I understand that Payment is due and payable 30 days upon receipt of Invoice from NES. Should my project entail work progress funds; these funds will be paid as Invoiced. I understand that late fees/penalties may be imposed if the payment is not made within 30 days, to the maximum extent permitted by law.

Delinquent Accounts: The customer agrees to pay all reasonable expenses incurred by GEG in collecting or attempting to collect the amounts that the customer owes GEG under this Authorization, including court costs and reasonable attorney's fees.

Warranty and Limitation on Consultant's Liability: Consultant's work will be performed, its findings obtained, and its reports prepared in accordance with this Agreement and with generally accepted procedures, standards, and industry practices. Client agrees that the maximum liability of Consultant, whether under contract or negligence, shall be limited to $1MM. This warranty is in lieu of all other warranties or presentations, either expressed or implied. Client and Consultant agree that the sum stipulated in the proposal reflects these warranties.

APPENDIX 16.7

INTERVIEWS/ QUESTIONNAIRES

Gabriel
Environmental Group

USER QUESTIONNAIRE

Project Location: 309 West 1500 South & 1512 South 300 West, Salt Lake City, UT

SITE ADDRESS: **309 West 1500 South** **&** **1512 South 300 West,** **Salt Lake City, UT**	**COMPLETED BY:** **SIGNATURE:** Arlie J. Green **NAME:** Arlie J. Green **COMPANY NAME:** Platform 1500 LLC **DATE:** 10/21/22

In order to qualify for one of the Landowner Liability Protections (LLPs) offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the "Brownfields Amendments"), the user must provide the following information (if available) to the environmental professional. Failure to provide this information could result in a determination that "all appropriate inquiry" is not complete.

(1.) Environmental cleanup liens that are filed or recorded against the site (40 CFR 312.25).
Are you aware of any environmental cleanup liens against the property that are filed or recorded under federal, tribal, state, or local law?

Not aware of any

(2.) Activity and land use limitations (AULs) that are in place on the site or that have been filed or recorded in a registry (40 CFR 312.26). Are you aware of any AULs, such as engineering controls, land use restrictions, or institutional controls that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state, or local law?

Not aware of any

(3.) Specialized knowledge or experience of the person seeking to qualify for the LLP (40 CRF 312.28). As the user of this ESA, do you have any specialized knowledge or experience related to the property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business?

No

Gabriel
Environmental Group

(4.) Relationship of the purchase price to the fair market value of the property if it were not contaminated (40 CRF 312.29). Does the purchase price being paid for this property reasonably reflect the fair market value or the property? If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the property?

Purchase price is set by valuation of a third party appraisal

(5.) Commonly known or reasonably ascertainable information about the property (40 CFR 312.30). Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example, as user,

(a.) Do you know the past uses of the property?

No

(b.) Do you know of specific chemicals that are present or once were present at the property?

No

(c.) Do you know of spills or other chemical releases that have taken place at the property?

No

(d.) Do you know of any environmental cleanups that have taken place at the property?

No

(6.) The degree of obviousness of the presence of likely presence of contamination at the property, and the ability to detect the contamination by appropriate investigation (40 CFR 312.31). As the user of this ESA, based on your knowledge and experience related to the property, are there any obvious indicators that point to the presence or likely presence of contamination at the property?

No

APPENDIX 16.8

RESUMES

Hani W. Gabriel
Environmental Professional
National Environmental Services/Gabriel Environmental Group
www.nationalenv.com/www.gabrielenv.com

Education:

M.S Mechanical Engineering, CSULB, Long Beach, California, November 1988

B.S Engineering, University of Redlands, Redlands, California, December 1985

Experience:

General Manager/Principal
National Environmental Services/Gabriel Environmental Group
March 1999- December 2011

- Responsible for running environmental consulting operation providing services nationwide
- Conducted Phase I and Phase II inspections, conducted corrective activities, prepared reports; conducted and prepared reports for mold surveys, asbestos surveys and lead surveys

Redevelopment/Housing Manager
City of Glendale, Arizona
December 1996-March 1999

- Responsible for all redevelopment activity in the third largest city in the Phoenix metro area
- Worked on the expansion of the redevelopment areas
- Worked on the implementation of redevelopment plans
- Attracted the first bed & breakfast to the downtown and a hotel to accommodate the needs of the City's Civic Center
- Relocated the world's largest Bead Museum to downtown
- Obtained a $425,000 state grant for the renovation of the City's landmark, a 100 year old sugar beet factory
- Worked on the attraction of a 16-20 screen Cineplex Assisted in the redevelopment of a 550,000 SF mall
- Managed all downtown development projects and programs (Downtown Facade)
- Formulated and implemented a residential infill program
- Prepared the city's first home ownership assistance program, the Dream Maker, and worked on additional home ownership incentive programs
- Prepared several development agreements with developers in the redevelopment area to provide for public improvements, sales tax sharing
- Developed the work program and prepared the budget for the redevelopment division

Economic Development/Redevelopment/Housing Director
City of Colton, California
May 1993-June 1996

- Responsible for all activities relating to redevelopment, economic development, business attraction and retention and the promotion of affordable housing
- Managed seven redevelopment project areas
- Responsible for the creation of the seventh redevelopment project area
- Organized, prepared, and implemented the redevelopment budget for the Agency
- Negotiated several owner participation, disposition and development and executive negotiating agreements
- Prepared agendas and staff reports and presented all reports to the Agency Board (City Council)
- Created and implemented the downtown facade program and downtown improvement program
- Attracted or retained over 750,000 square feet of commercial, office, and industrial uses

Principal Planner
City of Colton, California
September 1990-May 1993

- Responsible for all activities relating to the Planning, Code Enforcement and Business License Divisions

Certifications:

- Licensed California Real Estate Broker
- Registered Environmental Manager – National Registry of Environmental Professionals
- Environmental Assessor I – State of California Department of Toxic Substance Control
- Certified Mold Consultant/Remediation Contractor
- Certified Indoor Air Quality Consultant
- AICP Certification - American Institute of Certified Planners, June 1993
- EIT Certification – Engineer In Training, August 1985
- Previous Member of the California Redevelopment Association (also a Committee Member of the Redevelopment Institute for the CRA), American Economic Development Council, Urban Land Institute, International Downtown Association, International Council of Shopping Centers and National Association of Housing and Redevelopment Officials

Licenses:

Licensed Real Estate Broker, State of California
Licensed Funeral Director, State of California

EDUCATION

M.S. Computer Science, Lamar University, Beaumont, TX

B.S. Engineering (Mechanical Engineering), Bangladesh University of Engineering and Technology Dhaka, Bangladesh May 1995

SUMMARY OF EXPERIENCE:

Have 14 years experience working in the environmental field, which includes the performance of Phase I Environmental Site Assessments (ESAs), Phase II Environmental Site Assessments (ESAs)/Subsurface Investigations, Hazardous Waste Assessments, and Corrective Action Activities.

DESCRIPTION OF EXPERIENCE:

Phase I Environmental Site Assessments (ESAs):

Conducted more than 5,000 Phase I ESAs for various types of facilities over the past 6 years following both ASTM Standard E-1527-00 and E-1527-05 standards. Types of facilities included: raw land, apartment complexes, commercial retail facilities, office buildings, warehouse buildings, medical clinics, manufacturing facilities and light industrial facilities. Environmental nature of the facilities, based on potential or confirmed RECs, included: raw land with gas/oil wells and isolated/jurisdictional wetlands, UST sites, active and closed LPST sites, RCRA sites, drycleaners sites, and active and closed VCP sites.

Phase II ESAs/Subsurface Investigations:

Conducted more than 500 Phase II ESAs/Subsurface Investigations at raw land with gas/oil well heads and tank batteries, commercial facilities, UST/AST sites, drycleaners sites and manufacturing facilities following ASTM E1903 - 97(2002) regulation, respective TCEQ regulations and SOP, and Railroad Commission of Texas regulations over the past 6 years. Subsurface Investigation scope of work included drilling/installation of soil borings/monitoring wells, collection of soil/groundwater samples and preparation of reports.

Hazardous Waste Assessments:

Conducted Hazardous Waste Assessments for RCRA facilities, manufacturing and industrial facilities. The assessment included collection of samples and characterization of waste based on laboratory results. Conducted quality analysis of drinking water from municipal tap water and water wells.

Corrective Action Activities:

- UST Removal: Supervised UST removal activities following TCEQ's RG-411 and prepared RDRs and UST Closure Reports. Prepared Incident Reports for the TCEQ.
- Risk-Based Assessment (30 TAC 334)/ TRRP (30 TAC 350): Conducted Risk-Based Assessments for over the 6 years that included: (1) Preparation of Scope of Work (2) Supervision of installation of monitoring wells (3) Collection of soil and groundwater samples following TCEQ's SOP (4) Preparation of Drinking Water Survey Report following RG-428 (5) Preparation of 500-ft Receptor Survey and groundwater elevation survey (TOC survey) (6) Preparation of TCEQ's ARF Reports that included drafting of Site Maps, Soil/Groundwater Contaminant Concentration Maps and Groundwater Gradient Maps using AutoCAD software (7) Preparation of Annual Groundwater Monitoring Report for quarterly monitoring events for LPST sites and (8) Preparation of LPST Closure Reports.

Industrial/Chemical Process Plant Experience:

- Performed cooling and heating load calculation, plumbing head calculation, drew layout of plumbing and HVAC systems, made specification of pumps and HVAC equipment for office buildings, supervised procurement, installation and TBA works of HVAC systems
- Worked at 1700 MT/day capacity Urea Plant
- Maintained and repaired different process related equipment
- Maintained and repaired different pumps, compressors, heat exchangers, high pressure vessels and cooling tower
- Improved equipment utilization and reduced equipment downtime by providing basic know-how to the technicians and equipment operators through cross training
- Maintained a central database of more than 1000 equipment and vehicles with their status regularly updated

WORK HISTORY

Organization **:** National Environmental Services/Gabriel Environmental Group
Period **:** March 2011 to Present
Position **:** Environmental Professional

Organization **:** Unovate Environmental Services, Houston, Texas
Period **:** January 2003 to November 2008
Position **:** Environmental Professional

Organization **:** Chittagong Urea Fertilizer Ltd. (CUFL), Chittagong, Bangladesh
Period **:** August 1995-December 1996
Position **:** Assistant Engineer (Mechanical)

COMPUTER SKILLS

- Mapping & Analysis : GIS (ArcView, ArcInfo), ArcGIS, ArcMap
- Design: AutoCAD, MicroStation
- Database: Oracle, Access
- Language: C/C++, Java, SQL, PL/SQL
- Operating Systems: Windows, Unix, Linux
- Package: MS Office, Power Point etc.

Mary Foote, REM
Licensed Mold Consultant, Licensed Asbestos Consultant,
Environmental Professional

EDUCATION

B.S. Microbiology, the University of Washington, Seattle, WA 1976

- **Completed graduate courses in environmental regulations and in environmental assessments at the University of Hawaii**
- **Completed courses toward a Bachelor of Science Degree in Chemical Engineering, the University of Houston, Houston, TX.**
- **Completed short courses in risk assessment, air pollution control, advanced water pollution control, and GC and HPLC. Completed a geology training course on clastics, carbonates, and stratigraphy at Shell's training center in Houston.**

EXPERIENCE

Mold/Asbestos Project Manager, National Environmental Services December 2009-Present

- **Responsible for overseeing environmental surveys (asbestos, mold, lead)**
- **Responsibilities include reviewing environmental reports, preparing proposals and cost estimates, scoping projects, and interfacing with clients**

General Operations Manager, Unovate Environmental Services/Gabriel Environmental Services November 2003-November 2009

- **Responsible for overseeing all environmental services (asbestos, mold, Phase I and Phase II Environmental Site Assessments)**
- **Responsibilities included reviewing environmental reports, preparing proposals and cost estimates, scoping projects, and interfacing with clients**

Project Manager, Envirotest, Ltd., Houston, TX November 2000-November 2003

- **Performed hundreds of mold investigations for single and multi-family residential and commercial properties in TX, mostly in the Houston area**
- **Prepared proposals and cost estimates**
- **Provided expert witness consulting services for litigated structures**

Self-Employed 1992–2000

- **Bred, raised, showed, and groomed Irish Setter champions**

Brewer Environmental Industries, Inc. (BEI), Honolulu, Hawaii 1987 –1992

- **Responsible for the formulation of environmental policy, goals, and objectives for the largest chemical company in Hawaii**
- **Wrote an environmental compliance program for the company**
- **Responsible for identifying, prioritizing, and managing all in-house environmental projects and programs (including facility audits, facility modifications, site cleanups, permits, waste disposal, etc). Assessed the company's environmental risks and liabilities**
- **Responsible for emissions inventory reporting for manufacturing and storage facilities on five islands**
- **Oversaw the preparation of cost estimates for capital budgeting**

- **Provided technical support in emergency response situations**
- **Hired and worked with outside counsel, as needed, to negotiate consent orders and permit parameters**
- **Monitored and targeted key legislation affecting BEI. Lobbied legislators and wrote and presented testimony**
- **Represented C. Brewer (BEI's parent company) on the Environmental Standards Committee of the Hawaii Sugar Planters Association (HSPA).**
- **Established and managed the Brewer Environmental Services Division (BESD) to provide environmental consulting services to outside clients, including water quality studies; underground storage tank closures/investigations; site assessments for property transactions; facility audits; remedial investigations; feasibility studies; remedial design; environmental permit acquisitions; golf course assessments and monitoring plans; regulatory compliance; hazardous waste management; field sampling; groundwater monitoring; and pilot scale treatability studies**
- **For BESD, was responsible for: departmental policy and program development; overall coordination of all services; strategic and long and short range planning efforts; capital and operating budgets, business plan and marketing plan preparation; and revenue and profit projections. Directed marketing/sales activities**
- **Directed the Honolulu lab. This lab did new product research and development and reformulated proprietary BEI products. It also performed QA/QC testing oversight on many of the 5000 items that BEI manufactured, blended, or sold**
- **Formerly, managed the Papaikou lab, an environmental service and tissue and soil lab where inorganic, organic, and microbial analyses were performed on ground and surface water, wastewater, solid waste, hazardous waste, petroleum products, feed, food, other crop tissue, and many other matrices. Tripled revenue and quadrupled profit**

Brown & Root, Inc., Houston, TX **1980-1987**

- **Served as Industry Representative for the Civil Engineering Department, a 225 person industry group consisting of civil, structural, environmental, architectural, and HVAC/plumbing personnel. Was responsible for proposal preparation and for reporting of business development activity for this entity**
- **Responsibilities included: preparation of proposals, bids, SF's 254 and 255, and business development presentations for civil and environmental engineering; generation of short and long range strategic plans for department and corporate business development; and development of input for the Halliburton Annual Report**
- **As a scientist in the Environmental Department, designed the dust collection system for nine air pollution systems for a major lime plant expansion. Prepared vendor inquiry packages; reviewed drawings; prepared technical bid evaluations; and made equipment recommendations. Served as air pollution and health technical consultant to the Metropolitan Transit Authority (MTA) Community Relations Department. Analyzed the impact of a proposed bus maintenance facility on health and environment including wind dispersion data, types and quantities of emissions, and existing pollution levels at the site. Determined permit compliance requirements for hazardous and toxic materials identified under 40 CFR Part 261. Helped lay out the waste treatment facilities for a large cattle distribution center. Conducted a feasibility study for a pulp and paper mill incinerator.**

Mary Foote, REM
Licensed Mold Consultant, Licensed Asbestos Consultant,
Environmental Professional

Shell Development Company, Houston, TX **1976-1980**

- **Conducted source rock characterization studies using gas chromatography, liquid chromatography, and organic extraction techniques. Analyzed ocean bottom samples (for oil plays) using ultraviolet spectrometry for oil plays. Developed high pressure liquid chromatography separation techniques for aromatic hydrocarbon fractions**

The University of Washington, Seattle, WA **1972-1976**

- **Four years of medical and research laboratory experience in immunology and chemistry. Responsible for all aspects of various research projects, including the synthesis of a chemical compound using dialysis, column chromatography, spectrometry, and electrophoretic techniques. Developed a microculture method for growing blood cells from NZB mice. Performed RIA's on blood from patients with hypertension problems**

Children's Orthopedic Hospital, Seattle, WA **1972-1973**

- **Inoculated media. Isolated and identified pathogenic and nonpathogenic microorganisms. Performed antibiotic sensitivity testing. Prepared growth media**

Delta Airlines, Atlanta, GA **1970-1972**

- **Stewardess**

PUBLICATIONS

- **The Effect of Sludge Residence Time on Biotreater Activity; WRC-MRS; Shell Development Company; April 1980.**

OTHER

- **Secretary of the Irish Setter Club of TX, Inc. from 1999 to the present**
- **Director, Hawaii Irish Setter Club, 1991**
- **Secretary, Environmental Association of Hawaii, 1991.**
- **Secretary-Treasurer of the Hawaii Section of the Institute of Food Technologists, 1990 - 1991**
- **In 1987, was on the Harris County Municipal Utility District No. 107's Board of Directors. The Board oversaw financing, developing, and operating water and sanitary sewer systems for a 500 home community with commercial users**

Re: Letter of support for the Platform 1500 Project loan application

Attn: Salt Lake County Housing Trust Fund-ARPA Loan Application Review Committee

Please accept this letter of support for the proposed Platform 1500 affordable housing project located at 1512 South 300 West, in Salt Lake City.

It is our understanding that the developer, Western Region Nonprofit Housing Corporation, is proposing 60, new residential units for tenants in need of affordable housing, with a set-aside for those at 25% AMI and an average project AMI of 43%.

This project aligns with the goals of the City's Moderate Income Housing Plan, referred to as Growing SLC: A Five-Year Housing Plan 2018-2022 (current through fiscal year 2022-2023), to increase affordable housing in the city.

Overall, the Platform 1500 project would advance the housing affordability goals of Salt Lake City and provide increased housing options for residents in the Ballpark neighborhood.

Sincerely,

Blake Thomas
Department of Community and Neighborhoods

Platform 1500 Insurance

This property has not been constructed as of this application and there are currently no insurance certs available. The property agrees that during construction and upon completion of construction to carry all of the necessary insurance requirements that the Terms & Conditions outlines.

Please see attached a quote received as an example of the insurance for future reference.

Under GRAMA {63-2-201}, all registration information maintained by the Division is classified as public record. For confidentiality purposes, the business entity physical address may be provided rather than the residential or private address of any individual affiliated with the entity.

OPERATING AGREEMENT
OF
PLATFORM 1500 LLC

In accordance with the Certificate of Organization of PLATFORM 1500 LLC, the members hereby confirm, ratify and adopt the following Operating Agreement to govern the conduct and the business operations of the Company.

I. Law Governing

This organization is formed and will operate under the applicable laws of the State of Utah.

II. Members

The initial member of this organization shall be PLATFORM 1500 GP LLC, a Utah limited liability company. The respective interests of the members are set forth in Schedule "A". Additional members may be admitted upon the written consent of the members entitled to receive a majority of the profits of the Company. The terms of admission shall be determined at the time of such admission. The consenting members will give written consent at an annual or a special meeting of the organization.

III. Capital Accounts

The initial capital of the Company shall be as set forth in Schedule "A". A separate account will be kept for each member's capital contribution. This account will be adjusted for member's share in profits or losses and member's share of tax-exempt income, and member's share of any losses, costs, or expenses not allowed for tax deduction purposes. Member's accounts will also be adjusted for any other charge or credit affecting the Company's net worth or financial statements. All such charges or credits will be allocated pro rata among the members in proportion to their capital account at the time such charge or credit is received.

IV. Profits and Losses

The profits and losses shall be the income and/or loss determined for federal income tax purposes by the accountant preparing the Company's income tax return. Income and/or loss will be allocated to the members in proportion to their capital account balance as of the beginning of the Company's fiscal year, providing that, if there is a change in any members proportionate share during the year, an allocation will be made to reflect such change and such allocation shall be based on the number of days up to and including the day of such change. The allocation will be based on the entire current year's profit and/or loss without regard to the fact that the profit or loss for the current year did not occur evenly throughout such year.

V. Accounting and Fiscal Year

The Company shall keep its books on an accrual basis. The Company's fiscal year shall be a calendar year with the first year ending December 31, 2023.

VI. Manager

The members shall designate PLATFORM 1500 GP LLC, a Utah limited liability company, as Manager to conduct the day-to-day operations of the Company. The Manager shall serve until a successor Manager is duly elected by the members, providing that the members can terminate the Manager's employment at any time that those members entitled to receive a majority of the profits of the Company at such time sign a written notification of termination to the Manager. The Manager shall have authority to hire and fire employees, engage the services of an accounting firm, attorney at law, business and/or financial consultants; purchase equipment, supplies and inventory; establish bank accounts; borrow funds for working capital, or other corporate needs for and on behalf of the Company. Any act or omission of the Manager, the effect of which may cause or result in loss or damage to the Company or the members if done in good faith to promote the best interests of the of the Company, shall not subject the Manager to any liability to the members.

VII. Transfer Adjustment and Assignment of Members Interests

A member's interest may only be transferred or assigned with the written permission of the non-transferring members entitled to receive a majority of the non-transferred profits. If a member's interest is transferred by the operation of law, such as in the event of death or court decision, the transferee will be entitled to receive only the share of the profits or other compensation by way of income, and the return of contributions to which that member would otherwise be entitled, until such time as such member's share of profits up to the date of such event and such member's unreturned capital contributions as of such date has been fully paid to such transferee. The Company shall have no obligation to pay such transferee any amount for good will, going concern value or other intangible value.

VIII. Compensation of Manager

The Manager may be compensated for his or her services providing that the members entitled to a majority of the profits consent in writing to the payment of such compensation.

IX. Tax Matters Manager

PLATFORM 1500 GP LLC is hereby designated as the Tax Matters Manager (TMM). The TMM shall be responsible for all matters involving federal, state, local, or other taxes of any type. The TMM shall serve as such until a successor is duly elected by a Majority in Interest of the Members and qualified, or until the earlier withdrawal or retirement of the TMM, or removal by a Majority in Interest of the Members.

X. Meetings

The Company will have its annual meeting in December of each year at a time and place designated by the Manager. The Manager will notify each member of such time and date at least two weeks prior to such meeting. A member unable to attend such meeting may appoint a proxy to act and vote for such member at any meeting whether annual or special. Members may participate in an act at any meeting of members through the use of a conference telephone or other communications equipment by means of which all persons participating in the meeting can hear each other. Participation in such meeting

shall constitute attendance and presence in person at the meeting of the person or persons so participating.

A special meeting may be called at any time upon the written consent of those members having a majority interest in the profits of the Company, providing that all members are given at least two weeks notice of the time, place and purpose of such special meeting.

XI. Dissolution

The Company shall continue in perpetuity from the date of inception, unless sooner dissolved by its members. The Company may not be so continued unless there is at least one remaining member. The members may transfer their interest to their beneficiary upon their death. Upon the Company's dissolution assets will be allocated to the members in proportion to their capital account balance as of the beginning of the Company's fiscal year.

XII. Amendments

This Operating Agreement may be amended at any annual or special meeting upon the written consent of the members entitled to receive a majority of the profits of the Company.

XIII. Binding Effects

This Operating Agreement is binding upon all of the members and shall be binding and inure to the benefit of all future members admitted to the Company.

The members adopt the Operating Agreement, as organized herein, and agree to abide by the terms and conditions thereof.

Dated this 15th day of November, 2022.

OPERATING AGREEMENT
OF
PLATFORM 1500 GP LLC

In accordance with the Certificate of Organization of PLATFORM 1500 GP LLC, the members hereby confirm, ratify and adopt the following Operating Agreement to govern the conduct and the business operations of the Company.

I. Law Governing

This organization is formed and will operate under the applicable laws of the State of Utah.

II. Members

The initial member of this organization shall be WRNP Platform 1500 LLC, a Utah limited liability company. The respective interests of the members are set forth in Schedule "A". Additional members may be admitted upon the written consent of the members entitled to receive a majority of the profits of the Company. The terms of admission shall be determined at the time of such admission. The consenting members will give written consent at an annual or a special meeting of the organization.

III. Capital Accounts

The initial capital of the Company shall be as set forth in Schedule "A". A separate account will be kept for each member's capital contribution. This account will be adjusted for member's share in profits or losses and member's share of tax-exempt income, and member's share of any losses, costs, or expenses not allowed for tax deduction purposes. Member's accounts will also be adjusted for any other charge or credit affecting the Company's net worth or financial statements. All such charges or credits will be allocated pro rata among the members in proportion to their capital account at the time such charge or credit is received.

IV. Profits and Losses

The profits and losses shall be the income and/or loss determined for federal income tax purposes by the accountant preparing the Company's income tax return. Income and/or loss will be allocated to the members in proportion to their capital account balance as of the beginning of the Company's fiscal year, providing that, if there is a change in any members proportionate share during the year, an allocation will be made to reflect such change and such allocation shall be based on the number of days up to and including the day of such change. The allocation will be based on the entire current year's profit and/or loss without regard to the fact that the profit or loss for the current year did not occur evenly throughout such year.

V. Accounting and Fiscal Year

The Company shall keep its books on an accrual basis. The Company's fiscal year shall be a calendar year with the first year ending December 31, 2023.

VI. Manager

The members shall designate WRNP Platform 1500 LLC, a Utah limited liability company, as Manager to conduct the day-to-day operations of the Company. The Manager shall serve until a successor Manager is duly elected by the members, providing that the members can terminate the Manager's employment at any time that those members entitled to receive a majority of the profits of the Company at such time sign a written notification of termination to the Manager. The Manager shall have authority to hire and fire employees, engage the services of an accounting firm, attorney at law, business and/or financial consultants; purchase equipment, supplies and inventory; establish bank accounts; borrow funds for working capital, or other corporate needs for and on behalf of the Company. Any act or omission of the Manager, the effect of which may cause or result in loss or damage to the Company or the members if done in good faith to promote the best interests of the of the Company, shall not subject the Manager to any liability to the members.

VII. Transfer Adjustment and Assignment of Members Interests

A member's interest may only be transferred or assigned with the written permission of the non-transferring members entitled to receive a majority of the non-transferred profits. If a member's interest is transferred by the operation of law, such as in the event of death or court decision, the transferee will be entitled to receive only the share of the profits or other compensation by way of income, and the return of contributions to which that member would otherwise be entitled, until such time as such member's share of profits up to the date of such event and such member's unreturned capital contributions as of such date has been fully paid to such transferee. The Company shall have no obligation to pay such transferee any amount for good will, going concern value or other intangible value.

VIII. Compensation of Manager

The Manager may be compensated for his or her services providing that the members entitled to a majority of the profits consent in writing to the payment of such compensation.

IX. Tax Matters Manager

WRNP Platform 1500 LLC is hereby designated as the Tax Matters Manager (TMM). The TMM shall be responsible for all matters involving federal, state, local, or other taxes of any type. The TMM shall serve as such until a successor is duly elected by a Majority in Interest of the Members and qualified, or until the earlier withdrawal or retirement of the TMM, or removal by a Majority in Interest of the Members.

X. Meetings

The Company will have its annual meeting in December of each year at a time and place designated by the Manager. The Manager will notify each member of such time and date at least two weeks prior to such meeting. A member unable to attend such meeting may appoint a proxy to act and vote for such member at any meeting whether annual or special. Members may participate in an act at any meeting of members through the use of a conference telephone or other communications equipment by means of which all persons participating in the meeting can hear each other. Participation in such meeting

shall constitute attendance and presence in person at the meeting of the person or persons so participating.

A special meeting may be called at any time upon the written consent of those members having a majority interest in the profits of the Company, providing that all members are given at least two weeks notice of the time, place and purpose of such special meeting.

XI. Dissolution

The Company shall continue in perpetuity from the date of inception, unless sooner dissolved by its members. The Company may not be so continued unless there is at least one remaining member. The members may transfer their interest to their beneficiary upon their death. Upon the Company's dissolution assets will be allocated to the members in proportion to their capital account balance as of the beginning of the Company's fiscal year.

XII. Amendments

This Operating Agreement may be amended at any annual or special meeting upon the written consent of the members entitled to receive a majority of the profits of the Company.

XIII. Binding Effects

This Operating Agreement is binding upon all of the members and shall be binding and inure to the benefit of all future members admitted to the Company.

The members adopt the Operating Agreement, as organized herein, and agree to abide by the terms and conditions thereof.

OPERATING AGREEMENT
OF
WRNP PLATFORM 1500 LLC

In accordance with the Articles of Organization of WRNP PLATFORM 1500 LLC, the members hereby confirm, ratify and adopt the following Operating Agreement to govern the conduct and the business operations of the Company.

I. Law Governing

This organization is formed and will operate under the applicable laws of the State of Utah.

I. Members

The initial member of this organization shall be Western Region Nonprofit Housing Corporation. The respective interests of the members are set forth in Schedule "A". Additional members may be admitted upon the written consent of the members entitled to receive a majority of the profits of the Company. The terms of admission shall be determined at the time of such admission. The consenting members will give written consent at an annual or a special meeting of the organization.

II. Capital Accounts

The initial capital of the Company shall be as set forth in Schedule "A". A separate account will be kept for each member's capital contribution. This account will be adjusted for member's share in profits or losses and member's share of tax-exempt income, and member's share of any losses, costs, or expenses not allowed for tax deduction purposes. Member's accounts will also be adjusted for any other charge or credit affecting the Company's net worth or financial statements. All such charges or credits will be allocated pro rata among the members in proportion to their capital account at the time such charge or credit is received.

IV. Profits and Losses

The profits and losses shall be the income and/or loss determined for federal income tax purposes by the accountant preparing the Company's income tax return. Income and/or loss will be allocated to the members in proportion to their capital account balance as of the beginning of the Company's fiscal year, providing that, if there is a change in any members proportionate share during the year, an allocation will be made to reflect such change and such allocation shall be based on the number of days up to and including the day of such change. The allocation will be based on the entire current year's profit and/or loss without regard to the fact that the profit or loss for the current year did not occur evenly throughout such year.

V. Accounting and Fiscal Year

The Company shall keep its books on an accrual basis. The Company's fiscal year shall be a calendar year with the first year ending December 31, 2023.

VI. Manager

The members shall designate Western Region Nonprofit Housing Corporation, a Utah nonprofit corporation, as Manager to conduct the day-to-day operations of the Company. The Manager shall serve until a successor Manager is duly elected by the members, providing that the members can terminate the Manager's employment at any time that those members entitled to receive a majority of the profits of the Company at such time sign a written notification of termination to the Manager. The Manager shall have authority to hire and fire employees, engage the services of an accounting firm, attorney at law, business and/or financial consultants; purchase equipment, supplies and inventory; establish bank accounts; borrow funds for working capital, or other corporate needs for and on behalf of the Company. Any act or omission of the Manager, the effect of which may cause or result in loss or damage to the Company or the members if done in good faith to promote the best interests of the of the Company, shall not subject the Manager to any liability to the members.

VI. Transfer Adjustment and Assignment of Members Interests

A member's interest may only be transferred or assigned with the written permission of the non-transferring members entitled to receive a majority of the non-transferred profits. If a member's interest is transferred by the operation of law, such as in the event of death or court decision, the transferee will be entitled to receive only the share of the profits or other compensation by way of income, and the return of contributions to which that member would otherwise be entitled, until such time as such member's share of profits up to the date of such event and such member's unreturned capital contributions as of such date has been fully paid to such transferee. The Company shall have no obligation to pay such transferee any amount for good will, going concern value or other intangible value.

VII. Compensation of Manager

The Manager may be compensated for his or her services providing that the members entitled to a majority of the profits consent in writing to the payment of such compensation.

IX. Tax Matters Manager

Western Region Nonprofit Housing Corporation, a Utah nonprofit corporation is hereby designated as the Tax Matters Manager (TMM). The TMM shall be responsible for all matters involving federal, state, local, or other taxes of any type. The TMM shall serve as such until a successor is duly elected by a Majority in Interest of the Members and qualified, or until the earlier withdrawal or retirement of the TMM, or removal by a Majority in Interest of the Members.

X. Meetings

The Company will have its annual meeting in December of each year at a time and place designated by the Manager. The Manager will notify each member of such time and date at least two weeks prior to such meeting. A member unable to attend such meeting may appoint a proxy to act and vote for such member at any meeting whether annual or

special. Members may participate in an act at any meeting of members through the use of a conference telephone or other communications equipment by means of which all persons participating in the meeting can hear each other. Participation in such meeting shall constitute attendance and presence in person at the meeting of the person or persons so participating.

A special meeting may be called at any time upon the written consent of those members having a majority interest in the profits of the Company, providing that all members are given at least two weeks notice of the time, place and purpose of such special meeting.

XI. Dissolution

The Company shall continue in perpetuity from the date of inception, unless sooner dissolved by its members. The Company may not be so continued unless there is at least one remaining member. The members may transfer their interest to their beneficiary upon their death. Upon the Company's dissolution assets will be allocated to the members in proportion to their capital account balance as of the beginning of the Company's fiscal year.

XI. Amendments

This Operating Agreement may be amended at any annual or special meeting upon the written consent of the members entitled to receive a majority of the profits of the Company.

XII. Binding Effects

This Operating Agreement is binding upon all of the members and shall be binding and inure to the benefit of all future members admitted to the Company.

The members adopt the Operating Agreement, as organized herein, and agree to abide by the terms and conditions thereof.

Dated this 15th day of November, 2022.

Under GRAMA {63-2-201}, all registration information maintained by the Division is classified as public record. For confidentiality purposes, the business entity physical address may be provided rather than the residential or private address of any individual affiliated with the entity.

Joint Venture Memorandum of Understanding

1512 S Apartment Community

This Memorandum of Understanding is made and entered this 1st of June 2022 between WESTERN REGION NONPROFIT HOUSING CORPORATION, a Utah Nonprofit Corporation ("WRNPHC"), and Thomas Lee, an individual ("TL").

1. **Statement of purpose.** WRNPHC and TL are development companies and individuals that strive to building the following site to promote affordable housing.

WRNPHC desires to partner with TL to submit and develop the 1512 S Apartments. The project will be located at 1512 South 300 West, Salt Lake City, Utah. The project shall be called 1512 S Apartments for the purpose of this document ("1512S").

An application for Low Income Housing Tax Credits, and/or HOME, and/or Housing Trust Funds, and/or City or County Funds will be submitted to the Utah Housing Corporation ("UHC") or appropriate organization in conjunction with the financing of the project. Because the LIHTC application is a competitive process, WRNPHC and TL will seek to maximize scoring points through organizational structure and individual company strengths. The structure of the project will be shown as follows:

a. WRNPHC will own 51% of the Managing Member Entity for "Experience Points" and the "Nonprofit Status" of the 9% application and will act as the Applicant, Sponsor and Developer.
b. TL will own 49% of the Managing Member Entity and will participate as a development partner for the 9% application.
c. WRNPHC and TL will act jointly as Guarantors on Construction Loans and for Operating Deficits Guarantees to the Investor Member (the Syndicator Member).
d. The partnership will hire Key Property Management, Inc. to be the property manager for the development ("MANAGER"). MANAGER has experience with LIHTC compliance and the federal requirements that result from HOME and other Federal programs.

2. **Responsibilities.** WRNPHC and TL have development experience. The Development team will work together to work through the Tax Credit application. WRNPHC and TL will work through the application process. WRNPHC and TL will take on the following responsibilities:

WRNPHC	**TL**
Participate in and provide expertise to financial models for RFP and Tax Credit applications. Assist with City communication regarding zoning, entitlements and fees. Provide Guarantees to attract Investor Members and Bank Loan support for the project. Review and provide comment to Syndication and Loan documents. Property Management Company Selection (Syringa Property Management) Supervise Lease-up and permanent loan conversion. Submit cost certification and obtain 8609s.	Participate in and provide expertise to financial models for the RFP and Tax Credit applications. Assist with entitlements and zoning (provide feedback and strategy for City submissions and meetings). Provide Guarantees to attract Investor Members and Bank Loan support for the project. Review and provide comment to Syndication and Loan documents. Supervise Lease-up and permanent loan conversion. Review cost certification and obtain 8609s.

3. **Compensation.** The following schedule outlines the compensation of the development team.

a. *Development Fees* – The following is related to both cash and deferred development fees of the entire project:
   - 51% of the developer fee will go to WRNPHC
   - 49% of the developer fee will go to TL
   - Developer Fees will be paid at the end of the project's completion, and whether cash or deferred, will be paid simultaneously to each party.

b. *Surplus Cash Flow from Operations*
   - 51% of the surplus cash will be paid to WRNPHC and 49% will be paid to TL.

c. *Disposition of the project* - End of the 15-year compliance period
   - Prorated according to ownership interest.

d. *Property Management Fees*
   - MANAGER will receive a 6% (standard tax credit fee) property management fee for management services

4. **Expenses**. There will be several expenses during the pre-application phase of the project, most of which, if not all, may be reimbursed with the successful allocation and syndication of a LIHTC award. All parties should keep receipts for reimbursement for when the project moves forward and can provide reimbursement. However, it is anticipated that the expenses will be initially paid per the following schedule and will not be reimbursed by any of the other parties if a successful allocation is not achieved:

a. *Travel expenses* – Each party will be responsible for their own travel expenses, but will be reimbursed upon a successful award of tax credits.
b. *Application reports and Fees* – Costs associated with the application of tax credits (market studies, application fees, etc.) will be split 51-49.
c. *Pre-Development Costs* – Upon a successful award of LIHTCs, costs associated with development of the project, i.e. architectural, surveying, phase I environmental, engineering, etc. will be split 51-49 but will be reimbursed by the project funds.

5. **Counterparts.** This Memorandum of Understanding may be executed in one or more counterparts, each of which shall be deemed to be an original, but all of which shall together constitute one and the same document, with the same effect as if all parties had signed the same signature page. Any signature page may be detached from any counterpart and reattached to any other counterpart hereof.

{The remainder of this page intentionally left blank}

IN WITNESS WHEREOF, WRNPHC and TL have caused this Memorandum of Understanding to be executed as of the day and year first above written.

Advance Ruling Period Ends:
December 31, 2007
Addendum Applies:
Yes

Dear Applicant:

Based on information you supplied, and assuming your operations will be as stated in your application for recognition of exemption, we have determined you are exempt from federal income tax under section 501(a) of the Internal Revenue Code as an organization described in section 501(c)(3).

Because you are a newly created organization, we are not now making a final determination of your foundation status under section 509(a) of the Code. However, we have determined that you can reasonably expect to be a publicly supported organization described in sections 509(a)(1) and 170(b)(1)(A)(vi).

Accordingly, during an advance ruling period you will be treated as a publicly supported organization, and not as a private foundation. This advance ruling period begins and ends on the dates shown above.

Within 90 days after the end of your advance ruling period, you must send us the information needed to determine whether you have met the requirements of the applicable support test during the advance ruling period. If you establish that you have been a publicly supported organization, we will classify you as a section 509(a)(1) or 509(a)(2) organization as long as you continue to meet the requirements of the applicable support test. If you do not meet the public support requirements during the advance ruling period, we will classify you as a private foundation for future periods. Also, if we classify you as a private foundation, we will treat you as a private foundation from your beginning date for purposes of section 507(d) and 4940.

Grantors and contributors may rely on our determination that you are not a private foundation until 90 days after the end of your advance ruling period. If you send us the required information within the 90 days, grantors and contributors may continue to rely on the advance determination until we make

a final determination of your foundation status.

If we publish a notice in the Internal Revenue Bulletin stating that we will no longer treat you as a publicly supported organization, grantors and contributors may not rely on this determination after the date we publish the notice. In addition, if you lose your status as a publicly supported organization, and a grantor or contributor was responsible for, or was aware of, the act or failure to act, that resulted in your loss of such status, that person may not rely on this determination from the date of the act or failure to act. Also, if a grantor or contributor learned that we had given notice that you would be removed from classification as a publicly supported organization, then that person may not rely on this determination as of the date he or she acquired such knowledge.

If you change your sources of support, your purposes, character, or method of operation, please let us know so we can consider the effect of the change on your exempt status and foundation status. If you amend your organizational document or bylaws, please send us a copy of the amended document or bylaws. Also, let us know all changes in your name or address.

As of January 1, 1984, you are liable for social security taxes under the Federal Insurance Contributions Act on amounts of $100 or more you pay to each of your employees during a calendar year. You are not liable for the tax imposed under the Federal Unemployment Tax Act (FUTA).

Organizations that are not private foundations are not subject to the private foundation excise taxes under Chapter 42 of the Internal Revenue Code. However, you are not automatically exempt from other federal excise taxes. If you have any questions about excise, employment, or other federal taxes, please let us know.

Donors may deduct contributions to you as provided in section 170 of the Internal Revenue Code. Bequests, legacies, devises, transfers, or gifts to you or for your use are deductible for Federal estate and gift tax purposes if they meet the applicable provisions of sections 2055, 2106, and 2522 of the Code.

Donors may deduct contributions to you only to the extent that their contributions are gifts, with no consideration received. Ticket purchases and similar payments in conjunction with fundraising events may not necessarily qualify as deductible contributions, depending on the circumstances. Revenue Ruling 67-246, published in Cumulative Bulletin 1967-2, on page 104, gives guidelines regarding when taxpayers may deduct payments for admission to, or other participation in, fundraising activities for charity.

You are not required to file Form 990, Return of Organization Exempt From Income Tax, if your gross receipts each year are normally $25,000 or less. If you receive a Form 990 package in the mail, simply attach the label provided, check the box in the heading to indicate that your annual gross receipts are normally $25,000 or less, and sign the return. Because you will be treated as a public charity for return filing purposes during your entire advance ruling period, you should file Form 990 for each year in your advance ruling period

that you exceed the $25,000 filing threshold even if your sources of support do not satisfy the public support test specified in the heading of this letter.

If a return is required, it must be filed by the 15th day of the fifth month after the end of your annual accounting period. A penalty of $20 a day is charged when a return is filed late, unless there is reasonable cause for the delay. However, the maximum penalty charged cannot exceed $10,000 or 5 percent of your gross receipts for the year, whichever is less. For organizations with gross receipts exceeding $1,000,000 in any year, the penalty is $100 per day per return, unless there is reasonable cause for the delay. The maximum penalty for an organization with gross receipts exceeding $1,000,000 shall not exceed $50,000. This penalty may also be charged if a return is not complete. So, please be sure your return is complete before you file it.

You are not required to file federal income tax returns unless you are subject to the tax on unrelated business income under section 511 of the Code. If you are subject to this tax, you must file an income tax return on Form 990-T, Exempt Organization Business Income Tax Return. In this letter we are not determining whether any of your present or proposed activities are unrelated trade or business as defined in section 513 of the Code.

You are required to make your annual information return, Form 990 or Form 990-EZ, available for public inspection for three years after the later of the due date of the return or the date the return is filed. You are also required to make available for public inspection your exemption application, any supporting documents, and your exemption letter. Copies of these documents are also required to be provided to any individual upon written or in person request without charge other than reasonable fees for copying and postage. You may fulfill this requirement by placing these documents on the Internet. Penalties may be imposed for failure to comply with these requirements. Additional information is available in Publication 557, Tax-Exempt Status for Your Organization, or you may call our toll free number shown above.

You need an employer identification number even if you have no employees. If an employer identification number was not entered on your application, we will assign a number to you and advise you of it. Please use that number on all returns you file and in all correspondence with the Internal Revenue Service.

If we said in the heading of this letter that an addendum applies, the addendum enclosed is an integral part of this letter.

Because this letter could help us resolve any questions about your exempt status and foundation status, you should keep it in your permanent records.

We have sent a copy of this letter to your representative as indicated in your power of attorney.

If you have any questions, please contact the person whose name and telephone number are shown in the heading of this letter.

Sincerely yours,

Lois G. Lerner

Dear Applicant:

Our letter dated December 2003, stated you would be exempt from Federal income tax under section 501(c)(3) of the Internal Revenue Code, and you would be treated as a public charity, rather than as a private foundation, during an advance ruling period.

Based on the information you submitted, you are classified as a public charity under the Code section listed in the heading of this letter. Since your exempt status was not under consideration, you continue to be classified as an organization exempt from Federal income tax under section 501(c)(3) of the Code.

Publication 557, Tax-Exempt Status for Your Organization, provides detailed information about your rights and responsibilities as an exempt organization. You may request a copy by calling the toll-free number for forms, (800) 829-3676. Information is also available on our Internet Web Site at www.irs.gov.

If you have general questions about exempt organizations, please call our toll-free number shown in the heading.

Please keep this letter in your permanent records.

Sincerely yours,

Robert Choi
