APPENDIX C: PROJECT NARRATIVE

General Project Information

1. Project name: Project Open 3
2. Project site address: 529 W 400 N SLC, UT 84116
3. Applicant/Organization: Perpetual Housing Fund
4. Applicant's address (include city, state, and ZIP): 50 N 600 W STE D, Salt Lake City, Utah 84116
5. Federal Employee Identification Number (EIN): 92-1553413
6. Do you agree to get a Unique Entity ID through sam.gov if project is awarded RFA funding? ☒ Yes ☐ No
7. Name of contact person: Ashley Atkinson
8. Phone number: 435-659-1906
9. Email: ashley@perpetualhousing.org
10. Project start date: 12/1/2023
11. Anticipated completion date: 12/31/2024
12. Total square feet of the project: 22,883
13. Total number of units: 22
14. Total number of affordable units in project: 22
15. Percent of affordable units in the project: 100%
16. Provide a breakdown of the number of units and monthly rents that will be provided at various AMI levels:

Unit Type	Total Number of Units in Project	Number of Affordable Units (sum for all AMI %)	Detail on AMI Level(s) Served by the Affordable Units		
			AMI %	Number of Units at the AMI %	Maximum Rent

17. How does the project support the local jurisdiction's Moderate Income Housing Plan?

Salt Lake City's housing plan "seeks to address issues of affordability... expanding housing opportunities throughout the city". It also seeks to focus on innovative design and partnerships in housing. Project Open 3 addresses the issue of affordability and expands housing opportunities by creating housing that will provide ownership opportunities for a portion of the population that otherwise may never be able to afford a home in Salt Lake City. Its 3-bedroom units provide housing for Salt Lake City's families, which account for 52% of the City's households and is a target-population within the plan. The project is innovative with high-efficiency, all-electric systems, helping to further reduce the residents' monthly utility bills and contribute to clean air initiatives. The project and Perpetual Housing Fund support the City's housing plan by partnering directly with the City, allowing the City to allocate its resources toward projects geared toward finding long-term solutions to the housing crisis.

A partnership has been announced in which Salt Lake City plans to invest $10MM of ARPA Funds into Perpetual Housing Fund to continuously revolve into several affordable housing projects within the City over the next 20 years. We would welcome discussions on any additional funding above the requested grant amount to be used in a similar way and create a significant ROI for the County's dollars toward long-term housing stability. With a $5MM, 20-year investment (refundable to the county at year 20), a potential partnership could provide hundreds of affordable for sale and/or equity-sharing units to the County and put millions of impact dollars into the pockets of the growing number of County residents who are now unable to afford a home and share in the stability and wealth-generating benefits that traditional homeownership provides.

18. If the project is targeting one or more priority populations (65 and older, people with mental and/or physical disabilities, veterans), please provide that information.

Click or tap here to enter text.

19. Which approval permits have been secured to date? Which approval permits are still needed?

    Site Plan Approval, Condominium Plat Approval, and Building Permit need to be secured.

Project Summary

20. Project site address: 529 W 400 N, Salt Lake City, Utah 84116
21. Current Property Owner: Giv 529, LLC
22. Status of Site Control: Under Purchase and Sale Agreement
23. SLCo County Council District: Salt Lake City
24. Parcel number(s): 08361550350000
25. Acreage: .31
26. Zoning: TSA-UC-T
27. Is a zoning change required? ☐ Yes ☒ No

    If a zoning change is required, describe where you are in the process of changing zoning.

    N/A

28. Provide a detailed description of the project, including information on exterior materials, unit finishes, and common spaces and amenities. Include how your project will be accessible.

Project Open is a transit-oriented, carbon-neutral, mixed-income, and mixed-use development in Salt Lake City's rapidly gentrifying Guadalupe neighborhood. It serves as a diverse home to over 200 households that span across income, family size, and demographic spectrums. Phase 3 of the development looks to further this effort by developing homes for families at a price-point that is currently not available in Salt Lake City's market. According to Kem C. Gardner Policy Institute, the mortgage payment in October 2022 for the median price single-family home in the Wasatch Front Counties was $4,276/month. This is double the payment that is affordable to a family making 80% of AMI and double the payment amount that new three-bedroom condos in this proposal will provide.

This project will provide 22 new 3-bedroom condos that are affordable to families making 80% of AMI. This phase sits between 6-story apartments and a single-family neighborhood. The building will be designed as a transition between the two, combining modern architecture with brick and other residential materials. The building façade will look like traditional townhomes from the exterior, but internally, the units will be laid out as walk-up condos. The combination of this design and surface parking will enable us to reduce the construction costs per unit compared to townhomes and other options currently available in the market.

Project Open 3 will benefit greatly from being part of the overall Open effort. Residents will have access to the

substantial suite of amenities the preceding phases constructed that a small project could not have borne the cost of on its own. These features include multiple clubhouses and educational spaces, shared conference rooms, a large gym, a commercial tot-lot, ample outdoor picnic and garden spaces, and entrepreneurial support spaces. The interior of the units will feature modern finishes and follow in the high-quality design that are featured in earlier phases of the project.

The project's quick access to transit, food, employment, and schools is rare for family product in the area. The project is located less than three blocks from the North Temple Front Runner Station, two blocks from several bus routes, and just over three blocks from the North Temple Bridge/Guadalupe TRAX Station. The project is located in a high area of opportunity, scoring a 22 on SLCo's Access to Opportunity map. There are employment opportunities within a ¼ mile and West High School is just two blocks from the project. After completion of Phase 3 of the project, Project Open will provide a total of 229 mixed-income units that span from 25% of AMI to full-market, include rentals and for-sale condos, and building types from a 2-story adaptive reuse to a 6-story new-construction.

The project is being developed by Perpetual Housing Fund, a non-profit developer dedicated to removing the barriers to the benefits of homeownership for Utahns who currently can't afford a home. The development team has discounted the land value and eliminated its fees to bring this product to market. We plan on this project being a demonstration project, showing a path forward in the Salt Lake County for new construction, for-sale, unsubsidized housing product that is actually affordable to those who are currently unable to afford a home, furthering the goals of long-term housing stability for low- and moderate-income populations of the County.

On a broader scale, Perpetual Housing Fund will also develop multi-family projects that pair LIHTC with a shared-equity model. These projects will give back 75% of the project's profits, equity, and debt reduction to the residents living in them. Existing subsidies and grants for low- and moderate-income households are providing a temporary low-rent fix for these households, but not giving them an opportunity to help them escape an endless rent cycle. Our model exists to disrupt that trend and provide our residents a future of true housing stability. We see a future where residents from our LIHTC/shared-equity units can earn enough equity to move into homeownership, in a project like this one or otherwise, if they desire to own a home.

The project will meet all ADA laws and requirements.

29. Explain why you believe the project meets the allowable uses of SLFRF (ARPA) funds a described in the Treasury's Final Rule.

This project serves to promote long-term housing security. The project meets all ARPA requirements. The project will be affordable to those making 80% of AMI or below (which fits within ARPA's guidelines due to the County's current and persisting housing conditions) for at least a period of 20 years through a recorded land use restriction agreement. Funds will be used on direct hard construction costs of the housing units. The project will benefit the portion of Salt Lake County's population that was disproportionately impacted by the negative economic impacts of the pandemic. The project is creating high-quality, affordable housing units for a portion of the population that is not currently able to afford a home. This is amplifying the reach of the funds to directly benefit impacted populations, giving them an escape from the endless rent cycle and the ability to achieve long-term housing security.

30. Add any additional relevant project details.

The applicant, Perpetual Housing Fund, is a Utah nonprofit corporation, and serves as the managing member of Perpetual Housing Fund of Utah, LLC, which will be an owner and the developer of the project. Perpetual Housing Fund will lend the full grant amount to the project at 0.00% interest with a requirement that affordability be preserved through the duration of the compliance period.

Project Financial Information

31. Total amount requested as a grant: $813,120.00
32. Total amount requested as a loan: $0.00

Total	22	$813,120.00	Click or tap here to enter text.	

33. If applying for a loan, describe the payment terms requested to accommodate the project's financing needs.

N/A

34. What percentage of funding is being sought in relation to the total project cost?

11.9%

35. How do you intend to use funds provided by the SLCo Housing Trust Fund?

    The SLCo Housing Trust Fund grant will be used to pay for direct construction hard costs.

36. What alternative funding sources does the project have access to if rental income, grants, or loan funding are reduced or lost?

    The project is being self-financed and has a commitment for funding. Perpetual Housing Fund has the ability to provide some temporary gap financing to its internal projects, but not the ability to replace grant funding. There are currently no other sources committed to the project and, as is typical with affordable housing, the sources it could apply for are limited. On low-income, for-sale projects, the funding available is even further limited as there are no federal subsidies available for these projects.

37. How will the project be accomplished if the SLCo Housing Trust Fund is unable to fund this request?

    If the SLCo Housing Fund grant is not able to fund the project's request, the development team will need to find ways to reduce construction costs or determine what other funding sources may be available at that time. The development team is significantly discounting the land value and donating development fees in order to make these units affordable to lower-income households. Funding sources are limited. In this case, the most likely scenario involves working to find ways to reduce hard costs. Having to reduce hard costs further would impact the livability of the housing by limiting the amenities, finishes and other resources available to create an enjoyable living environment for our residents. The development team is keenly aware of the need to efficiently utilize the limited resources available to affordable housing projects. At the same time, all people deserve to live in a place that provides not just a roof over their heads, but also the opportunity to create a home where they live. Balancing these two needs is something that the development team strives for on each project. The County resources are important to ensuring that this project can make a positive impact on residents' lives, regardless of their current economic situation. In this specific project, the County's grant funds are enabling us to deepen our level of affordability and reach households that otherwise will probably never be able to afford owning their own home. This product is desperately needed in Salt Lake County.

38. Identify uncertainties that could impact your ability to obligate and/or spend funds, if awarded, by the ARPA deadlines.

    The project is being self-financed and funding to Perpetual Housing Fund is committed by IHC and other sources. The project does not require a rezone and preliminary designs and cost-estimates have been obtained. Although every project has moving targets and potential concerns, the greatest uncertainties on this project have been resolved by ensuring that the funding is in place. The development team is experienced in this type of project

and it is the third phase of a project that has been very successful. The biggest uncertainties that remain are mainly market-driven. Should interest rates take a sharper climb than currently expected, or should construction costs suddenly increase to a degree beyond what is anticipated, the development team would work to find solutions to bring the project to fruition. Perpetual Housing Fund is in partnership with Rocky Mountain Homes Fund on other projects. If interest rates or other market conditions made the project unaffordable to buyers with traditional financing, we will be able to utilize Rocky Mountain Homes Fund's financing structure to assist potential buyers. The County's funding of the project would provide even more assurance that any of those potential issues could be overcome to facilitate the creation of this much-needed affordable housing.

39. What will the value of the project be at the time of completion?
    $5,729,780.00
40. List any projects where your organization has previously received Salt Lake County funding.
    N/A

APPENDIX D: PROJECT BUDGET

Property Acquisition			
Purchase Price	$475,000.00		
Closing Costs	$6,000.00

Other:		

Are all units charged the same fees? If not, please provide an explanation.

N/A Units will be sold. Each buyer will be responsible for items outside of HOA. HOA will include insurance and common area maintenance.

APPENDIX E: MARKETING, OUTREACH, AND/OR SERVICE PLAN

Marketing and Outreach

1. What marketing strategies and techniques will be used to attract income-eligible tenants?

   Perpetual Housing Fund's website offers a subscriber option for potential tenants looking to rent from one of these properties. There is currently a subscriber list that exceeds the available units. Many of these subscribers have learned about PHF projects from word of mouth or from press about the organization. For-sale housing at this price point in the downtown area is so highly in-demand that we do not foresee significant marketing or outreach needed.

2. What marketing strategies and techniques will be used to attract priority populations (if applicable)?

N/A

3. Describe your policies and practices for tenant selection, including screening criteria, the application process, and waitlist management.

   At this time, units will be first come, first serve with a deposit and mortgage approval. Availability will be marketed to the subscriber list and publicly. If there are too many interested tenants, a lottery system for new project openings may be considered. Income restrictions will be thoroughly vetted by a preferred mortgage partner.

   Potential wait list procedures, including a lottery system, will be finalized as projects near completion.

Management of affordable units

4. Who will manage the property once it has been acquired/developed?

   EMG Property Managmenet will manage HOA in connection with the rest of Project Open.

5. Describe how restrictive covenants related to tenant income eligibility and maximum rent limitations will be verified throughout the affordability period.

Prior to obtaining funding sources for construction, a restrictive covenant will be recorded against the property specifying the income restrictions in accordance with application requirements and restricting the property to affordable use for a minimum of 20 years. Compliance will be assured upon initial home purchases.

Service Plan

6. Provide information on proposed resident services.

    a. What services will be provided?

    N/A

    b. Who will provide the proposed services?

    N/A

    c. What is the source of funding for resident services?

    N/A

Relocation Plan

7. Is the proposed project currently occupied? ☐ Yes ☒ No

8. Will relocation services be used? ☐ Yes ☒ No

9. Who will provide relocation services? Provide a relocation plan, if applicable.

    N/A

APPENDIX F: COMPLETED AFFORDABLE HOUSING PROJECTS

Use this form as a template to list your references. Include all affordable housing projects completed within the last seven (7) years. Submit 1 reference form per project (i.e., use multiple copies of this form if you have multiple projects).

Project information

1. Completed project name: Avia
2. Project address: 330 East 400 South Salt Lake City Utah
3. Project owner (of record). Downtown SLC A Owner LLC
4. Were there additional partners? ☒ Yes ☐ No

   If yes, provide contact information:

   a. Contact person name: Giv Development – Chris Parker; The Domain Companies- Christian Brierre

   b. Phone: Chris Parker 801-427-0844

   c. Email: chris@givgroup.org
5. Total number of units: 286
6. Total number of affordable units in the project: 57
7. Percent of affordable units in the project: 20%
8. Provide a breakdown of the number of units provided for the various AMI percentages:

Unit Type	Total Number of Units in Project	Number of Affordable Units (sum for all AMI %)	Detail on AMI Level(s) Served by the Affordable Units		
			AMI %	Number of Units at the AMI %	Maximum Rent
Micro	0	0	0	0	0
			0	0	0
			0	0	0
Studio	31	6	50%	6	$770
			0	0	0
			0	0	0
1-Bedroom	172	34	50%	34	$825
			0	0	0
			0	0	0
2-Bedroom	64	13	50%	13	$990
			0	0	0
			0	0	0

			50%	4	$1,143
3+ Bedroom	19	4	0	0	0
			0	0	0

9. What kind of municipal support did the project receive, if any?
   Salt Lake City Land Subsidy
10. When did the project start? 7/1/2019
11. When did the project end? (i.e., first occupants) 8/25/2021
12. What were the funding sources (LIHTC, HOME, Traditional, Equity)?
    LIHTC, SLC RDA, Seller Carryback, Owner loan
13. Total Project budget: $19,558,860 - Affordable housing units only
14. Construction costs: $ 13,373,280
15. Cost per unit: $343,138
16. Cost per square foot: $448
17. Any other relevant information you want to share:

    The Exchange, which includes the Avia and Mya properties, serves as an example of how projects can include affordable housing in a city's most sought-after locations without having to utilize the scarce 9% LIHTC resource. Without taking those resources from other projects, Avia was able to combine some of SLC's highest market luxury housing with a significant number of apartments capped at rents affordable to those making no more than 50% of the area's median income. This all started with the successful award of a competitive Salt Lake City RFP for the redevelopment of an RDA property, showcasing how cities can effectively utilize their resources to ensure that the same incredible housing opportunities, and locations, are available to those at the top of the income ladder as well as those with fewer resources. Avia is a mixed-use, mixed-income project featuring luxury amenities available to residents of all income levels. The community includes on-site structured parking, mountain views, an international food hall, accessibility to transit less than a block away, great downtown SLC amenities on all sides including the public library across the street, a large fully furnished gym, yoga room, clubhouse with full kitchen, media room for movies and other entertainment, outdoor workout area, large patio with grills and plenty of seating, and so much more. The Exchange is part of a new way to live and work in the heart of SLC. One that combines residences, shared workspace, and retailers to serve as a cornerstone of the area's ongoing growth. This convenient, comprehensive, energy-efficient, and exceptionally-designed community is capable of supporting a wide range of residents with new apartment communities and businesses.

APPENDIX F: COMPLETED AFFORDABLE HOUSING PROJECTS

Use this form as a template to list your references. Include all affordable housing projects completed within the last seven (7) years. Submit 1 reference form per project (i.e., use multiple copies of this form if you have multiple projects).

Project information

1. Completed project name: Citizens West Phase 1
2. Project address: 535 W 300 N, Salt Lake City Utah
3. Project owner (of record). Diamond Rail Apartments LLC DBA Citizens West
4. Were there additional partners? ☒ Yes ☐ No

   If yes, provide contact information:

   a. Contact person name: Giv Development LLC- Chris Parker, BAM Development LLC- Beau Ogzewalla, CIA Development LLC- Amanda Bearden, MLRE, LLC- Michael Lim

   b. Phone: Amanda- 801-520-8430

   c. Email: amanda@givgroup.org
5. Total number of units: 80
6. Total number of affordable units in the project: 55
7. Percent of affordable units in the project: 69%
8. Provide a breakdown of the number of units provided for the various AMI percentages:

Unit Type	Total Number of Units in Project	Number of Affordable Units (sum for all AMI %)	Detail on AMI Level(s) Served by the Affordable Units		
			AMI %	Number of Units at the AMI %	Maximum Rent
Micro	0	0	0	0	0
			0	0	0
			0	0	0
Studio	65	40	25%	5	$409
			39%	5	$660
			45-50%	30	$767-857
1-Bedroom	0	0	0	0	0
			0	0	0
			0	0	0
2-Bedroom	0	0	0	0	0
			0	0	0
			0	0	0

			45-50%	15	$975-1,268
3+ Bedroom	15	15	0	0	0
			0	0	0

9. What kind of municipal support did the project receive, if any?
   Salt Lake City Housing Trust Fund Loan
10. When did the project start? 4/1/2020
11. When did the project end? (i.e., first occupants) 5/27/2021
12. What were the funding sources (LIHTC, HOME, Traditional, Equity)?
    LIHTC, SLC RDA, owner equity, utility rebates
13. Total Project budget: $17,197,980
14. Construction costs: $13,132,942
15. Cost per unit: $214,975
16. Cost per square foot: $339
17. Any other relevant information you want to share:
    Citizens West is located in the center of what is rapidly becoming an unreachable housing destination for many of the county's residents. Anchoring this property with mixed-income housing, high quality and renewably-powered construction, and accessible commercial amenities at this point in time has been crucial to helping preserve the affordability of west downtown. The project is a continuation of the development team's focus on all-electric construction, with an emphasis on helping improve the surrounding air quality. It includes many energy efficient upgrades while costing less money than it would have to build a traditional gas/electric building. The property also boasts an underground water storage tank that collects rainwater to be used in the high-efficiency irrigation system. Combined with native and adaptive low-water landscaping, the property seeks to provide a beautiful place to live while preserving the limited water resource available in the area. An outdoor play area and basketball court provide a great amenity for the many families, including a significant number of refugee families, living in the large 3-bedroom apartments. The on-site clubhouse, EV charging, and other amenities provide an enjoyable place to live near downtown SLC. The affordability provided in the neighborhood helps tempert the gentrification that continues to move into the west side of SLC, leaving some who have lived in the area for many years no option but to move elsewhere.

9. What kind of municipal support did the project receive, if any?
   Salt Lake City Housing Trust Fund Loan
10. When did the project start? 4/1/2018
11. When did the project end? (i.e., first occupants) 11/1/2019
12. What were the funding sources (LIHTC, HOME, Traditional, Equity)?
    LIHTC, SLC RDA, Seller Carryback, Owner loan
13. Total Project budget: $3,901,809
14. Construction costs: $2,114,230
15. Cost per unit: $177,355
16. Cost per square foot: $418
17. Any other relevant information you want to share:
    Denver Apartments brought three of Utah's preeminent affordable housing and services non-profits together to work on some of the most desperately needed housing: affordable, permanent housing for individuals with severe and persistent mental illness. Working together, this team was able to obtain a special, off-cycle, allocation of 9% LIHTC as well as funding from Federal Home Loan Bank. The reuse of the existing property allowed an increase in density without impacting the livability of the surrounding single-family residences. Throughout design and construction, the unique needs of the population who would live at Denver Apartments was the guiding principle behind all decisions. The end product was one of the most impactful projects Salt Lake City has seen: a community of 22 apartments where some of our state's most special, yet underprivileged, individuals have their own homes, can access on-site services, and enjoy a sense of belonging. The work and sacrifice required to accomplish this goal can not be overstated, and neither can the gratification of seeing this community fulfill the mission that was its driving force.

APPENDIX F: COMPLETED AFFORDABLE HOUSING PROJECTS

Use this form as a template to list your references. Include all affordable housing projects completed within the last seven (7) years. Submit 1 reference form per project (i.e., use multiple copies of this form if you have multiple projects).

15. Cost per unit: $139,098
16. Cost per square foot: $201
17. Any other relevant information you want to share:

    Phase 2 of Imagine Jefferson was a continuation of the development team's effort to breathe new life into one of the most amazing areas of one of Utah's most amazing cities. Ogden had struggled to bring new housing, especially new affordable housing, to this part of the city. The revitalization of such a core area has allowed other properties around it to come back to life since that time. This project included 113 new apartments between a brand-new building and the preservation and conversion of a historic building from Weber State's original campus. Imagine Jefferson 2 is Energy Star and Enterprise Green Communities certified. A number of the apartments are set aside for those with physical disabilities and maturing foster children.

9. What kind of municipal support did the project receive, if any?
   Salt Lake City Land Subsidy as well as an low-interest RDA loan
10. When did the project start? 7/1/2019
11. When did the project end? (i.e., first occupants) 2/28/2021
12. What were the funding sources (LIHTC, HOME, Traditional, Equity)?
    LIHTC, SLC RDA loan, Olene Walker Housing Loan Fund, Deferred Developer Fee
13. Total Project budget: $21,176,773
14. Construction costs: $ 14,902,165
15. Cost per unit: $168,070
16. Cost per square foot: $436
17. Any other relevant information you want to share:
    The Exchange, which includes the Avia and Mya properties, serves as an example of how projects can include affordable housing in a city's most sought-after locations without having to utilize the scarce 9% LIHTC resource. In particular, Mya shows how even units at a very low 40% AMI can be combined with luxury housing and amenities and still make financial sense for developers. This all started with the successful award of a competitive Salt Lake City RFP for the redevelopment of an RDA property, showcasing how cities can effectively utilize their resources to ensure that the same incredible housing opportunities, and locations, are available to those at the top of the income ladder as well as those with fewer resources. Mya is a mixed-use, mixed-income project featuring luxury amenities available to residents of all income levels. The community includes on-site structured parking, mountain views, an international food hall next door, accessibility to transit less than a block away, great downtown SLC amenities on all sides including the public library across the street, a large fully furnished gym, clubhouse with full kitchen, and so much more. The Exchange is part of a new way to live and work in the heart of SLC. One that combines residences, shared workspace, and retailers to serve as a cornerstone of the area's ongoing growth. This convenient, comprehensive, energy-efficient, and exceptionally-designed community is capable of supporting a wide range of residents with new apartment communities and businesses.

    Pamela's Place Apartments blends 100 studio apartment units with over 10,000 square feet of supportive amenity and administrative space. The entirety of the project is reserved for those facing homelessness and needing permanent supportive services, making it one of the largest projecsts of its kind in Utah. Housing Assistance Management Enterprise (HAME), the owner, administers this special collaboration of city funds, public housing authority, and nonprofit (Giv Commuities) to create a home for over 100 of the county's most vulnerable people. All units were designed in a trauma-informed manner and are accessible for those with mobility impairements. The project is also all-electric, helping to provide efficient operations and reduce the impacts to air quality. Residents have on-site access to 24-hour staff, a medical clinic, a fully-furnished gym, a large clubhouse and meeting area with a kitchen, an outdoor garden area, and more.

15. Cost per unit: $152,698
16. Cost per square foot: $241
17. Any other relevant information you want to share:
    Project Open proves that renewable energy can power even the densest properties in a city that desperately needs to clean its air. This was the development team's first attempt at all-electric construction, proving that it is more cost effective than traditional gas/electric construction while providing the same, or better, operational efficiency and comfort. The property goes further by being connected to Rocky Mountain Power's off-site solar program, Subscriber Solar. The goal is to have 100% of the building's operations powered by solar, with well over 70% currently so. Project Open is Energy Star and Enterprise Green Communities certified and has received numerous awards for both green building design and affordable housing. The project included new construction housing combined with the preservation of a historic building into a community clubhouse, fully-furnished gym, conference room, and affordable art studios.

			0	0	0

9. What kind of municipal support did the project receive, if any?
   Salt Lake City Housing Trust Fund Loan (which has since been paid back in full)
10. When did the project start? 4/1/2019
11. When did the project end? (i.e., first occupants) 2/28/2020
12. What were the funding sources (LIHTC, HOME, Traditional, Equity)?
    LIHTC, OWHLF, utility rebates
13. Total Project budget: $17,135,190
14. Construction costs: $12,926,237
15. Cost per unit: $180,370
16. Cost per square foot: $239
17. Any other relevant information you want to share:
    Project Open 2 is a continuation of the development team's proof of concept, showing that all-electric construction is more cost effective than traditional gas/electric construction while providing the same, or better, operational efficiency and comfort. The savings on phase 2, compared to traditional construction, were about $250,000. That is five times more than what was seen in savings for phase 1, thanks to newer technology and improved engineering. The property goes further by being connected to Rocky Mountain Power's off-site solar program, Subscriber Solar. The goal is to have 100% of the building's operations powered by solar. Project Open 2 is Energy Star and Enterprise Green Communities certified and has received numerous awards for both green building design and affordable housing. The project includes two buildings with units ranging from studios to 3- and 4-bedroom apartments. There are live-work units on the main street face, allowing residents to live and work from one place, reducing travel and air pollution further. An on-site clubhouse and conference room, as well as access to all of phase 1's amenities, make for a comfortable, enjoyable place to call home.

The project understands and will comply with all environmentally responsible procurement practices and non-debarment certification requirements as implemented by Salt Lake County and discussed in Appendix G of RFA #HTF2023FRF1

APPENDIX G: ENVIRONMENTAL COMPLIANCE PRACTICES VENDOR COMPLIANCE STATEMENT AND NON-DEBARMENT CERTIFICATION

Environmental Compliance Practices
Vendor Compliance Statement and Non-Debarment Certification

1. Salt Lake County has implemented environmentally responsible procurement practices. The County requires all persons, businesses, corporations and other entities doing business or entering into a contract with the County to comply with all federal, state and local environmental laws, rules and regulations. Compliance with environmental laws, rules and regulations is a relevant factor in evaluating the integrity and responsibility of a business. The county, in its sole discretion, may not solicit proposals from, award contracts to, procure, or otherwise enter into business arrangements with any person, business, corporation or other organization that is noncompliant. If a vendor is suspended, proposed for debarment, debarred, ineligible or excluded from contracting with another government entity due to environmental non-compliance, the County in its sole discretion, may deem the vendor non-responsible and decline to award a contract.

2. Based on the foregoing, the vendor certifies, to the best of its knowledge, that neither the vendor nor any owner, officer or agent of the vendor:

2.1 is presently debarred, suspended, proposed for debarment, declared ineligible, or excluded from the award of a contract or purchase by any federal, state or local agency based on a finding, determination, notice of violation or order of environmental non-compliance;

2.2 is presently indicted or charged by a government entity in a criminal, civil or administrative proceeding with the commission of any offense, violation, or failure to comply with any federal, state, or local environmental law, rule or regulation, indicating a lack of business integrity or business honesty affecting its responsibility as a county vendor;

2.3 has, within the last three (3) years, been convicted, or had a civil judgment or administrative order rendered against it for any offense or violation, including but not limited to environmental non-compliance, indicating a lack of business integrity or business honesty affecting its responsibility as a county vendor;

2.4 has, within the last three (3) years, had a contract/purchase terminated due to an act or omission, including but not limited to environmental non-compliance, demonstrating a lack of business integrity or business honesty affecting its responsibility as a county vendor.

3. Vendor shall require any sub-vendor to disclose in writing, whether at the time of the award of the subcontract, the sub-vendor complies with the certification requirements in subparagraphs 2.1, 2.2, 2.3 and 2.4 above.

4. Vendor shall immediately notify the county in writing if, at any time before the award, the vendor learns that its certification was erroneous when submitted or has since become erroneous because of changed circumstances.

5. If it is later determined that vendor knowingly rendered an erroneous certification under this provision, in addition to other available remedies, the county in its sole discretion, may terminate the contract/purchase for default.

Revised
Sept 2019

APPENDIX H: REQUEST FOR PROTECTED RECORD

(Business Confidentiality Claim)

I request that the attached/enclosed information (record) provided to Salt Lake County, or any of its agencies (divisions or programs), be considered confidential and given protected status as defined in Utah's Government Records Access and Management Act ("GRAMA").

Name and Address of business and representative making this confidentiality claim:

Perpetual Housing Fund (for Project Open (Phase 3)), 50 North 600 West, Unit D, Salt Lake City, UT 84116

Description of the information (record) which is to be covered by this confidentiality claim and which you believe qualifies for protected status:

Documents contained in the this application as referenced on the attached sheet.

The following reasons support this claim of business confidentiality and protected status under Utah Code Ann. § 63G-2-305 (please check all of the following that apply):

☐ 1. The record provided is a trade secret as defined in Utah Code Ann. § 13-24-2 (*See* Utah Code Ann. §§ 63G-2-305(1) and 63G-2-309).

☒ 2. The record is commercial or non-individual financial information and: (a) disclosure of the information could reasonably be expected to result in unfair competitive injury to the person submitting the information or would impair the ability of Salt Lake County, or its agencies, to obtain necessary information in the future; and (b) the interest of the provider in prohibiting access to the information is greater than the interest of the public in obtaining access. (*See* Utah Code Ann. §§ 63G-2-305(2) and 63G-2-309).

REQUIRED: A concise written statement supporting a business confidentiality claim, as required by Utah Code Ann. § 63G-2-309(1). Attach additional sheets if necessary.

See attached sheet.

NOTE: Claimant shall be notified if a record claimed to be protected is classified public or if the determination is made that the record should be disclosed because the interests favoring access outweigh the interests favoring restriction of access. Records claimed to be protected under this business confidentiality claim may not be disclosed until the period in which to bring an appeal expires or the end of the appeals process, including judicial appeal, **unless the claimant, after notice, has waived the claim by not appealing within thirty (30) calendar days**. *See* Utah Code Ann § 63G-2-309(2). The procedure to appeal a GRAMA classification within thirty (30) calendar days is described in Countywide Policy 2040, which can be found on the County's website www.slco.org or by typing the following link into your address bar: https://slco.org/globalassets/1-site-files/policies/countywide/2040.pdf?v=03282022114310737.

Signature of Claimant Representative: _____ Date: 3/14/23

Claimant Representative Name and Title: CHRIS PARKER, DIRECTOR

CLAIM OF BUSINESS CONFIDENTIALITY REQUEST

Business Name:	Perpetual Housing Fund
Street Address:	50 North 600 West, Unit D
City, State, Zip Code:	Salt Lake City, Utah 84116
Representative Making Request:	Christopher Alden Parker
Title:	Project Owner
Telephone Number:	(801) 427-0844
Email Address:	chris@givgroup.org
Name of Record:	515 Tower (Phase 2) SLCO ARPA Application
Description of Record:	Application for SLCO SLFRF ARPA Affordable Housing ARPA Funds

Pursuant to Utah Code Ann. §§ 63G-2-305 and in accordance with Utah Code Ann. §§ 63G-2-309, the undersigned asserts a claim of business confidentiality to protect the attached information submitted.

The following Reasons support this claim for business confidentiality as it includes:

> **Reason 1**: Trade secrets as defined in Utah Code Ann. §§ 13-24-2 and referenced in Utah Code Ann. §§ 63G-2-305(1).
>
> **Reason 2**: Commercial information or non-individual financial information as defined in Utah Code Ann. §§ 63G-2-305(2) and (4).

Complete the following information listing the individual document(s) name, tab, page, and paragraph numbers. The document must be identified as specifically as possible. Provide the reason (1 or 2) and an explanation that supports the claim of business confidentiality as it applies to the above-named record.

Description of Document:	**Reason for Protection (1 or 2 above, with explanation):**
Certificate of Organization of Perpetual Housing Fund of Utah LLC, Entire Document	**Reason 2.** The disclosure of the Certificate of Organization of Perpetual Housing Fund of Utah LLC would result unfair competitive injury to Perpetual Housing Fund of Utah LLC and its members. Specifically, making Perpetual Housing Fund of Utah LLC's Certificate of Organization public could provide an unfair competitive advantage to individuals and business transacting business with and/or competing against Perpetual Housing Fund of Utah LLC by revealing non-public details regarding its membership and management structure.

Articles of Incorporation of Perpetual Housing Fund, Entire Document	**Reason 2.** The disclosure of the Articles of Incorporation of Perpetual Housing Fund would result unfair competitive injury to Perpetual Housing Fund and its board members/officers. Specifically, making Perpetual Housing Fund's articles public could provide an unfair competitive advantage to individuals and business transacting business with and/or competing against Perpetual Housing Fund, by revealing non-public details regarding its membership and management structure.
Real Estate Purchase Contract, Entire Document	**Reason 2.** The disclosure of the Real Estate Purchase Contract between Perpetual Housing Fund of Utah LLC, on the one hand, and 515 East Salt Lake LLC, on the other hand, would result in unfair competitive injury to Perpetual Housing Fund of Utah LLC (and all sub-entities and persons associated with this application). Specifically, making the REPC public would provide an unfair competitive advance to individuals and business transacting business with Perpetual Housing Fund of Utah LLC (and all sub-entities and persons associated with this application) in competitive bidding and contractual negotiations.
Letter of Intent from Intermountain Health, Entire Letter	**Reason 2.** The disclosure of the letter of intent contained in the application would cause unfair competitive injury to both Perpetual Housing Fund of Utah LLC and the investor/lender identified therein. Specifically, making the terms of such letter of intent available for public review would result in other lenders, investors, or developers, as the case may be, gaining an unfair competitive advantage in negotiations with either Perpetual Housing Fund of Utah LLC or the investor/lender identified in the letter of intent.

OTHER PROVISIONS

1. PROPERTY: Giv 529, LLC
also described as: _____
City of Salt Lake City, County of Salt Lake State of Utah, Zip 84116 (the "Property"). Any reference below to the term "Property" shall include the Property described above, together with the Included Items and water rights/water shares, if any, referenced in Sections 1.1, and 1.3.

1.1 Included Items. (specify) Property is being sold in as-is condition
1.2 Excluded Items. (specify) N/A
1.3 Water Service. The Purchase Price for the Property shall include all water rights/water shares, if any, that are the legal source for Seller's current culinary water service and irrigation water service, if any, to the Property. The water rights/water shares will be conveyed or otherwise transferred to Buyer at Closing by applicable deed or legal instruments. The following water rights/water shares, if applicable, are specifically excluded from this sale: N / A

2. PURCHASE PRICE. The Purchase Price for the Property is $475,000.00. Except as provided in this Section, the Purchase Price shall be paid as provided in Sections 2(a) through 2(d) below. Any amounts shown in 2(b) and 2(d) may be adjusted as deemed necessary by Buyer and the Lender.

$10,000.00 **(a) Earnest Money Deposit.** Under certain conditions described in the REPC, this deposit may become totally non-refundable.

$_____ **(b) New Loan.** Buyer may apply for mortgage loan financing (the "Loan") on terms acceptable to Buyer.

$_____ **(c) Seller Financing.** (see attached Seller Financing Addendum)

$465,000.00 **(d) Balance of Purchase Price in Cash at Settlement**

$475,000.00 **PURCHASE PRICE. Total of lines (a) through (d)**

3. SETTLEMENT AND CLOSING.

3.1 Settlement. Settlement shall take place no later than the Settlement Deadline referenced in Section 24(d), or as otherwise mutually agreed by Buyer and Seller in writing. "Settlement" shall occur only when all of the following have been completed: (a) Buyer and Seller have signed and delivered to each other or to the escrow/closing office all documents required by the REPC, by the Lender, by the title insurance and escrow/closing offices, by written escrow instructions (including any split closing instructions, if applicable), or by applicable law; (b) any monies required to be paid by Buyer or Seller under these documents (except for the proceeds of any new loan) have been delivered by Buyer or Seller to the other party, or to the escrow/closing office, in the form of cash, wire transfer, cashier's check, or other form acceptable to the escrow/closing office.

3.2 Prorations. All prorations, including, but not limited to, homeowner's association dues, property taxes for the current year, rents, and interest on assumed obligations, if any, shall be made as of the Settlement Deadline referenced in Section

24(d), unless otherwise agreed to in writing by the parties. Such writing could include the settlement statement. The provisions of this Section 3.2 shall survive Closing.

3.3 Greenbelt. If any portion of the Property is presently assessed as "Greenbelt" the payment of any roll-back taxes assessed against the Property shall be paid for by: **[X]** Seller **[ ]** Buyer **[ ]** Split Equally Between Buyer and Seller **[ ]** Other (explain)

_____

3.4 Special Assessments. Any assessments for capital improvements as approved by the HOA (pursuant to HOA governing documents) or as assessed by a municipality or special improvement district, prior to the Settlement Deadline shall be paid for by: **[X]** Seller **[ ]** Buyer **[ ]** Split Equally Between Buyer and Seller **[ ]** Other (explain) _____

_____

The provisions of this Section 3.4 shall survive Closing.

3.5 Fees/Costs/Payment Obligations. Unless otherwise agreed to in writing, Seller and Buyer shall each pay one-half (1/2) of the fee charged by the escrow/closing office for its services in the settlement/closing process. Tenant deposits (including any prepaid rents) shall be paid or credited by Seller to Buyer at Settlement. Buyer agrees to be responsible for homeowners' association and private and public utility service transfer fees, if any, and all utilities and other services provided to the Property after the Settlement Deadline. The escrow/closing office is authorized and directed to withhold from Seller's proceeds at Closing, sufficient funds to pay off on Seller's behalf all mortgages, trust deeds, judgments, mechanic's liens, tax liens and warrants. The provisions of this Section 3.5 shall survive Closing.

3.6 Closing. For purposes of the REPC, "Closing" means that: (a) Settlement has been completed; (b) the proceeds of any new loan have been delivered by the Lender to Seller or to the escrow/closing office; and (c) the applicable Closing documents have been recorded in the office of the county recorder. The actions described in 3.6 (b) and (c) shall be completed within four calendar days after Settlement.

4. POSSESSION. Seller shall deliver physical possession of the Property to Buyer as follows: **[X] Upon Closing; [ ] ____ Hours after Closing; [ ] ____ Calendar Days after Closing; [ ] Other (explain)**

_____

_____

Any contracted rental of the Property prior to or after Closing, between Buyer and Seller, shall be by separate written agreement. Seller and Buyer shall each be responsible for any insurance coverage each party deems necessary for the Property. Seller agrees to deliver the Property to Buyer free of debris and personal belongings. The provisions of this Section 4 shall survive Closing.

5. CONFIRMATION OF AGENCY DISCLOSURE. Buyer and Seller acknowledge prior written receipt of agency disclosure provided by their respective agent that has disclosed the agency relationships confirmed below. At the signing of the REPC:

Seller's Agent	_____, represents	**[ ] Seller [ ] both Buyer and Seller as a Limited Agent;**
Seller's Brokerage	_____, represents	**[ ] Seller [ ] both Buyer and Seller as a Limited Agent;**
Buyer's Agent	_____, represents	**[ ] Buyer [ ] both Buyer and Seller as a Limited Agent;**
Buyer's Brokerage	_____, represents	**[ ] Buyer [ ] both Buyer and Seller as a Limited Agent.**

6. TITLE & TITLE INSURANCE.

6.1 Title to Property. Seller represents that Seller has fee title to the Property and will convey marketable title to the Property to Buyer at Closing by general warranty deed. Buyer does agree to accept title to the Property subject to the contents of the Commitment for Title Insurance (the "Commitment") provided by Seller under Section 7, and as reviewed and approved by Buyer under Section 8. Buyer also agrees to accept title to the Property subject to any existing leases rental and property management agreements affecting the Property not expiring prior to Closing which were provided to Buyer pursuant to Section 7(e). The provisions of this Section 6.1 shall survive Closing.

6.2 Title Insurance. At Settlement, Seller agrees to pay for and cause to be issued in favor of Buyer, through the title insurance agency that issued the Commitment, the most current version of an ALTA standard coverage owner's policy of title insurance. Any additional title insurance coverage desired by Buyer shall be at Buyer's expense.

7. SELLER DISCLOSURES. No later than the Seller Disclosure Deadline referenced in Section 24(a), Seller shall provide to Buyer the following documents in hard copy or electronic format which are collectively referred to as the "Seller Disclosures":

(a) a written Seller Property Condition Disclosure (Land) for the Property, completed, signed and dated by Seller as provided in Section10.2;

(b) a Commitment for Title Insurance as referenced in Section 6.1;

(c) a copy of any restrictive covenants (CC&R's), rules and regulations affecting the Property;

(d) a copy of the most recent minutes, budget and financial statement for the homeowners' association, if any;

(e) a copy of any lease, rental, and property management agreements affecting the Property not expiring prior to Closing;

Buyer's Initials _____ Date 3/13/23 Seller's Initials _____ Date 3/13/23

(f) evidence of any water rights and/or water shares referenced in Section 1.3;

(g) written notice of any claims and/or conditions known to Seller relating to environmental problems; and violation of any CC&R's, federal, state or local laws, and building or zoning code violations; and

(h) Other (specify) _____

8. BUYER'S CONDITIONS OF PURCHASE.

8.1 DUE DILIGENCE CONDITION. Buyer's obligation to purchase the Property: **[X] IS [ ] IS NOT** conditioned upon Buyer's Due Diligence as defined in this Section 8.1(a) below. This condition is referred to as the "Due Diligence Condition." If checked in the affirmative, Sections 8.1(a) through 8.1(c) apply; otherwise they do not.

(a) Due Diligence Items. Buyer's Due Diligence shall consist of Buyer's review and approval of the contents of the Seller Disclosures referenced in Section 7, and any other tests, evaluations and verifications of the Property deemed necessary or appropriate by Buyer, such as: the physical condition of the Property; the existence of any hazardous substances, environmental issues or geologic conditions; the square footage or acreage of the Property; the costs and availability of flood insurance, if applicable; water source, availability and quality; the location of property lines; regulatory use restrictions or violations; fees for services such as HOA dues, municipal services, and utility costs; convicted sex offenders residing in proximity to the Property; and any other matters deemed material to Buyer in making a decision to purchase the Property. Unless otherwise provided in the REPC, all of Buyer's Due Diligence shall be paid for by Buyer and shall be conducted by individuals or entities of Buyer's choice. Seller agrees to cooperate with Buyer's Due Diligence. Buyer agrees to pay for any damage to the Property resulting from any such inspections or tests during the Due Diligence.

(b) Buyer's Right to Cancel or Resolve Objections. If Buyer determines, in Buyer's sole discretion, that the results of the Due Diligence are unacceptable, Buyer may either: (i) no later than the Due Diligence Deadline referenced in Section 24(b), cancel the REPC by providing written notice to Seller, whereupon the Earnest Money Deposit shall be released to Buyer without the requirement of further written authorization from Seller; or (ii) no later than the Due Diligence Deadline referenced in Section 24(b), resolve in writing with Seller any objections Buyer has arising from Buyer's Due Diligence.

(c) Failure to Cancel or Resolve Objections. If Buyer fails to cancel the REPC or fails to resolve in writing any objections Buyer has arising from Buyer's Due Diligence, as provided in Section 8.1(b), Buyer shall be deemed to have waived the Due Diligence Condition.

8.2 APPRAISAL CONDITION. Buyer's obligation to purchase the Property: **[ ] IS [X] IS NOT** conditioned upon the Property appraising for not less than the Purchase Price. This condition is referred to as the "Appraisal Condition." If checked in the affirmative, Sections 8.2(a) and 8.2(b) apply; otherwise they do not.

(a) Buyer's Right to Cancel. If after completion of an appraisal by a licensed appraiser, Buyer receives written notice from the Lender or the appraiser that the Property has appraised for less than the Purchase Price (a "Notice of Appraised Value"), Buyer may cancel the REPC by providing written notice to Seller (with a copy of the Notice of Appraised Value) no later than the Financing & Appraisal Deadline referenced in Section 24(c); whereupon the Earnest Money Deposit shall be released to Buyer without the requirement of further written authorization from Seller.

(b) Failure to Cancel. If the REPC is not cancelled as provided in this section 8.2(a), Buyer shall be deemed to have waived the Appraisal Condition.

8.3 FINANCING CONDITION. Buyer's obligation to purchase the property: **[ ] IS [X] IS NOT** conditioned upon Buyer obtaining the Loan referenced in Section 2(b). This condition is referred to as the "Financing Condition." If checked in the affirmative, Sections 8.3(a) and 8.3(b) apply; otherwise they do not. If the Financing Condition applies, Buyer agrees to work diligently and in good faith to obtain the Loan.

(a) Buyer's Right to Cancel Before the Financing & Appraisal Deadline. If Buyer, in Buyer's sole discretion, is not satisfied with the terms and conditions of the Loan, Buyer may cancel the REPC by providing written notice to Seller no later than the Financing & Appraisal Deadline referenced in Section 24(c); whereupon the Earnest Money Deposit shall be released to Buyer without the requirement of further written authorization from Seller.

(b) Buyer's Right to Cancel After the Financing & Appraisal Deadline. If after expiration of the Financing & Appraisal Deadline referenced in Section 24(c), Buyer fails to obtain the Loan, meaning that the proceeds of the Loan have not been delivered by the Lender to Seller or to the escrow/closing office as required under Section 3.6 of the REPC, then Buyer or Seller may cancel the REPC by providing written notice to the other party; whereupon the Earnest Money Deposit, or Deposits, if applicable (see Section 8.4 below), shall be released to Seller without the requirement of further written authorization from Buyer. In the event of such cancellation, Seller agrees to accept as Seller's exclusive remedy, the Earnest Money Deposit, or Deposits, if applicable, as liquidated damages. Buyer and Seller agree that liquidated damages would be difficult and impractical to calculate, and the Earnest Money Deposit, or Deposits, if applicable, is a fair and reasonable estimate of Seller's damages in the event Buyer fails to obtain the Loan.

8.4 ADDITIONAL EARNEST MONEY DEPOSIT. If the REPC has not been previously cancelled by Buyer as provided in Sections 8.1, 8.2 or 8.3(a), then no later than the Due Diligence Deadline referenced in Section 24(b), or the Financing & Appraisal Deadline referenced in Section 24(c), whichever is later, Buyer: **[ ] WILL [X] WILL NOT** deliver to the Buyer's Brokerage, an Additional Earnest Money Deposit in the amount of $0.00. The Earnest Money Deposit and the Additional Earnest Money Deposit, if applicable, are sometimes referred to herein as the "Deposits". The Earnest Money Deposit, or Deposits, if applicable, shall be credited toward the Purchase Price at Closing.

Buyer's Initials _____ Date 3/13/23 Seller's Initials _____ Date 3/13/23

9. ADDENDA. There **[ ] ARE [X] ARE NOT** addenda to the REPC containing additional terms. If there are, the terms of the following addenda are incorporated into the REPC by this reference: **[ ] Addendum No. _____ [ ] Seller Financing Addendum [ ] Other (specify)** _____

_____

10. AS-IS CONDITION OF PROPERTY.

10.1 Condition of Property/Buyer Acknowledgements. Buyer acknowledges and agrees that in reference to the physical condition of the Property: (a) Buyer is purchasing the Property in its "As-Is" condition without expressed or implied warranties of any kind; (b) Buyer shall have, during Buyer's Due Diligence as referenced in Section 8.1, an opportunity to completely inspect and evaluate the condition of the Property; and (c) if based on the Buyer's Due Diligence, Buyer elects to proceed with the purchase of the Property, Buyer is relying wholly on Buyer's own judgment and that of any contractors or inspectors engaged by Buyer to review, evaluate and inspect the Property.

10.2 Condition of Property/Seller Acknowledgements. Seller acknowledges and agrees that in reference to the physical condition of the Property, Seller agrees to: (a) disclose in writing to Buyer defects in the Property known to Seller that materially affect the value of the Property that cannot be discovered by a reasonable inspection by an ordinary prudent Buyer; (b) carefully review, complete, and provide to Buyer a written Seller Property Condition Disclosure (Land) as stated in Section 7(a); and (c) deliver the Property to Buyer in substantially the same general condition as it was on the date of Acceptance, as defined in Section 23. The provisions of Sections 10.1 and 10.2 shall survive Closing.

11. FINAL PRE-SETTLEMENT INSPECTION.

11.1 Pre-Settlement Inspection. At any time prior to Settlement, Buyer may conduct a final pre-Settlement inspection of the Property to determine only that the Property is "as represented", meaning that the items referenced in Sections 1.1, 1.3 and 8.1(b)(ii) ("the items") are respectively present, repaired or corrected as agreed. The failure to conduct a pre-Settlement inspection or to claim that an item is not as represented shall not constitute a waiver by Buyer of the right to receive, on the date of possession, the items as represented. If the items are not as represented, Seller agrees to cause all applicable items to be corrected, repaired or replaced (the "Work") prior to the Settlement Deadline referenced in Section 24(d).

11.2 Escrow to Complete the Work. If, as of Settlement, the Work has not been completed, then Buyer and Seller agree to withhold in escrow at Settlement a reasonable amount agreed to by Seller, Buyer (and Lender, if applicable), sufficient to pay for completion of the Work. If the Work is not completed within thirty (30) calendar days after the Settlement Deadline, the amount so escrowed may, subject to Lender's approval, be released to Buyer as liquidated damages for failure to complete the Work. The provisions of this Section 11.2 shall survive Closing.

12. CHANGES DURING TRANSACTION. Seller agrees that from the date of Acceptance until the date of Closing, none of the following shall occur without the prior written consent of Buyer: (a) no changes in any leases, rental or property management agreements shall be made; (b) no new lease, rental or property management agreements shall be entered into; (c) no substantial alterations or improvements to the Property shall be made or undertaken; (d) no further financial encumbrances to the Property shall be made, and (e) no changes in the legal title to the Property shall be made.

13. AUTHORITY OF SIGNERS. If Buyer or Seller is a corporation, partnership, trust, estate, limited liability company or other entity, the person signing the REPC on its behalf warrants his or her authority to do so and to bind Buyer and Seller.

14. COMPLETE CONTRACT. The REPC together with its addenda, any attached exhibits, and Seller Disclosures (collectively referred to as the "REPC"), constitutes the entire contract between the parties and supersedes and replaces any and all prior negotiations, representations, warranties, understandings or contracts between the parties whether verbal or otherwise. The REPC cannot be changed except by written agreement of the parties.

15. MEDIATION. Any dispute relating to the REPC arising prior to or after Closing: **[ ] SHALL [X] MAY AT THE OPTION OF THE PARTIES** first be submitted to mediation. Mediation is a process in which the parties meet with an impartial person who helps to resolve the dispute informally and confidentially. Mediators cannot impose binding decisions. The parties to the dispute must agree before any settlement is binding. The parties will jointly appoint an acceptable mediator and share equally in the cost of such mediation. If mediation fails, the other procedures and remedies available under the REPC shall apply. Nothing in this Section 15 prohibits any party from seeking emergency legal or equitable relief, pending mediation. The provisions of this Section 15 shall survive Closing.

16. DEFAULT.

16.1 Buyer Default. If Buyer defaults, Seller may elect one of the following remedies: (a) cancel the REPC and retain the Earnest Money Deposit, or Deposits, if applicable, as liquidated damages; (b) maintain the Earnest Money Deposit, or Deposits, if applicable, in trust and sue Buyer to specifically enforce the REPC; or (c) return the Earnest Money Deposit, or Deposits, if applicable, to Buyer and pursue any other remedies available at law.

16.2 Seller Default. If Seller defaults, Buyer may elect one of the following remedies: (a) cancel the REPC, and in addition to the return of the Earnest Money Deposit, or Deposits, if applicable, Buyer may elect to accept from Seller, as liquidated damages, a sum equal to the Earnest Money Deposit, or Deposits, if applicable; or (b) maintain the Earnest Money Deposit, or Deposits, if applicable, in trust and sue Seller to specifically enforce the REPC; or (c) accept a return of the Earnest Money Deposit, or Deposits, if applicable, and pursue any other remedies available at law. If Buyer elects to accept liquidated damages, Seller agrees to pay the liquidated damages to Buyer upon demand.

Buyer's Initials _____ Date 3/13/23 Seller's Initials _____ Date 3/13/23

17. ATTORNEY FEES AND COSTS/GOVERNING LAW. In the event of litigation or binding arbitration to enforce the REPC, the prevailing party shall be entitled to costs and reasonable attorney fees. However, attorney fees shall not be awarded for participation in mediation under Section 15. This contract shall be governed by and construed in accordance with the laws of the State of Utah. The provisions of this Section 17 shall survive Closing.

18. NOTICES. Except as provided in Section 23, all notices required under the REPC must be: (a) in writing; (b) signed by the Buyer or Seller giving notice; and (c) received by the Buyer or the Seller, or their respective agent, or by the brokerage firm representing the Buyer or Seller, no later than the applicable date referenced in the REPC.

19. NO ASSIGNMENT. The REPC and the rights and obligations of Buyer hereunder, are personal to Buyer. The REPC may not be assigned by Buyer without the prior written consent of Seller. Provided, however, the transfer of Buyer's interest in the REPC to any business entity in which Buyer holds a legal interest, including, but not limited to, a family partnership, family trust, limited liability company, partnership, or corporation (collectively referred to as a "Permissible Transfer"), shall not be treated as an assignment by Buyer that requires Seller's prior written consent. Furthermore, the inclusion of "and/or assigns" or similar language on the line identifying Buyer on the first page of the REPC shall constitute Seller's written consent only to a Permissible Transfer.

20. INSURANCE & RISK OF LOSS.

20.1 Insurance Coverage. As of Closing, Buyer shall be responsible to obtain such casualty and liability insurance coverage on the Property in amounts acceptable to Buyer and Buyer's Lender, if applicable.

20.2 Risk of Loss. If prior to Closing, any part of the Property is damaged or destroyed by fire, vandalism, flood, earthquake, or act of God, the risk of such loss or damage shall be borne by Seller; provided however, that if the cost of repairing such loss or damage would exceed ten percent (10%) of the Purchase Price referenced in Section 2, Buyer may elect to either: (i) cancel the REPC by providing written notice to the other party, in which instance the Earnest Money, or Deposits, if applicable, shall be returned to Buyer; or (ii) proceed to Closing, and accept the Property in its "As-Is" condition.

21. TIME IS OF THE ESSENCE. Time is of the essence regarding the dates set forth in the REPC. Extensions must be agreed to in writing by all parties. Unless otherwise explicitly stated in the REPC: (a) performance under each Section of the REPC which references a date shall absolutely be required by 5:00 PM Mountain Time on the stated date; and (b) the term "days" and "calendar days" shall mean calendar days and shall be counted beginning on the day following the event which triggers the timing requirement (e.g. Acceptance). Performance dates and times referenced herein shall not be binding upon title companies, lenders, appraisers and others not parties to the REPC, except as otherwise agreed to in writing by such non-party.

22. ELECTRONIC TRANSMISSION AND COUNTERPARTS. Electronic transmission (including email and fax) of a signed copy of the REPC, any addenda and counteroffers, and the retransmission of any signed electronic transmission shall be the same as delivery of an original. The REPC and any addenda and counteroffers may be executed in counterparts.

23. ACCEPTANCE. "Acceptance" occurs **only** when **all** of the following have occurred: (a) Seller or Buyer has signed the offer or counteroffer where noted to indicate acceptance; and (b) Seller or Buyer or their agent has communicated to the other party or to the other party's agent that the offer or counteroffer has been signed as required.

24. CONTRACT DEADLINES. Buyer and Seller agree that the following deadlines shall apply to the REPC:

(a) Seller Disclosure Deadline March 21, 2023 (Date)

(b) Due Diligence Deadline October 31, 2023 (Date)

(c) Financing & Appraisal Deadline _____ (Date)

(d) Settlement Deadline December 01, 2023 (Date)

Buyer's Initials _____ Date 3/13/23 Seller's Initials _____ Date 3/13/23

25. OFFER AND TIME FOR ACCEPTANCE. Buyer offers to purchase the Property on the above terms and conditions. If Seller does not accept this offer by: 5 : 00 **[ ] AM [X] PM** Mountain Time on March 14, 2023 (Date), this offer shall lapse; and the Brokerage shall return any Earnest Money Deposit to Buyer.

Attn: Chris Parker

RE: Letter of Intent to invest in Perpetual Housing Fund for purpose of developing shared equity affordable multifamily housing

Dear Mr. Parker,

IHC Health Services, Inc. ("Intermountain") submits this letter of intent to Perpetual Housing Fund, a Utah limited liability corporation ("Partner") setting forth the terms and conditions for the potential investment in support of Perpetual Housing Fund ("Project"). For your review, Intermountain has outlined the terms and conditions of the proposed transaction below:

1.	Principal Amount:	$5,000,000
2.	Interest Rate:	2.000% per annum
3.	Preferred Return:	6.000% cap
4.	Management Fee:	2.000%
5.	Term:	Ten-year hold
6.	Due Diligence Period:	Intermountain will have 30 days after the date of this Letter of Intent to complete normal and customary due diligence of the proposed loan or investment referenced here.
7.	Closing Date:	10 business days following the end of the Due Diligence Period, as extended.
8.	Confidentiality:	All aspects of this letter and any subsequent negotiations between Intermountain and Partner will be held in the strictest of confidence by the parties.
9.	Non-Binding:	This letter is not an offer but is only an expression of some aspects of the proposed transaction relating to the Project. Any or all of this letter's terms may be reversed, modified or clarified by Intermountain and Partner through the negotiation of an Operating Agreement and supporting documents for the Project.
10.	Term of Letter:	The terms expressed in this letter will become null and void if not accepted by Partner by 5:00pm MST on March 17, 2023.

If the terms set forth above are acceptable, please sign below and we will begin working on the Operating Agreement and other supporting documentation. Feel free to call Nick Fritz at 330.714.6616 with any questions. We appreciate your consideration of this potential transaction.

Sincerely,

Mikelle Moore

EXECUTIVE SUMMARY

AEI Consultants (AEI) was retained by Giv Development to conduct a Phase I ESA in conformance with AEI's contract and the scope and limitations of ASTM Standard Practice E1527-13 and the EPA Standards and Practices for All Appropriate Inquiries (40 CFR Part 312) for the property located at 529 West 400 North, Salt Lake City, Salt Lake County, Utah (the "subject property"). Any exceptions to, or deletions from, this practice are described in Sections 1.4, 1.5, and 1.6 of this report.

Pertinent subject property information is noted below:

PROPERTY INFORMATION	
Site Address(es)	529 West 400 North, Salt Lake City, Salt Lake County, Utah 84116
Property ID (APN or Block/Lot)	08361550350000
Location	Southwest of the intersection of West 400 North and North 500 West
Property Type	Vacant Land
SITE AND BUILDING INFORMATION	
Approximate Site Acreage/Source	0.31/Assessor
Number of Buildings	None
Building Construction Date(s)/Source	N/A
Building Square Footage (SF)/Source	N/A
Number of Floors/Stories	N/A
Basement or Subgrade Area(s)	N/A
Number of Units	N/A
Additional Improvements	Storm drain, gravel walkway areas and associated landscaping
On-site Occupant(s)	Not developed
Current On-site Operations/Use	N/A
Current Use of Hazardous Substances	None identified
REGULATORY INFORMATION	
Regulatory Database Listing(s)	RCRA NonGen, FINDS, ECHO

A chronological summary of historical subject property information is as follows:

Date Range	Subject Property Description and Occupancy (Historical Addresses)	Source(s)
1898	Undeveloped, urban land	Sanborn map
1911-1976	Multiple residential dwellings	Aerial photographs, Sanborn maps, prior report
1977-1979	Vacant Land	Aerial photographs
1980-2018	Portion of a larger light industrial/commercial warehouse building, occupants have included Moss-Williams Inc. (warehouse), Utah Power&Light (Traveling Plant Maintenance), Meta Designs, and SLC Tours	Agency records, aerial photographs, city directories, prior report, interview

Date Range	Subject Property Description and Occupancy (Historical Addresses)	Source(s)
2019	Construction storage with no on-site structures	Aerial photograph
2020	Unimproved land	Site observation, interview

The immediately surrounding properties consist of the following:

Direction	Tenant/Use (Address)	Regulatory Database Listing(s)
North	West 400 North street followed by three residences (514, 520, and 530 West 400 North) and Signature Books (508 West 400 North)	None identified
East	Project Open Apartments (511 West 400 North) followed by North 500 West	None identified
South	Parking lot (511 West 400 North)	None identified
West	Parking lot (511 West 400 North)	None identified

If the surrounding properties are listed in the regulatory database, please refer to Section 5.1 for discussion.

FINDINGS

Recognized Environmental Condition (REC) is defined by the ASTM Standard Practice E1527-13 as the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment.

- AEI did not identify evidence of RECs during the course of this assessment.

Controlled Recognized Environmental Condition (CREC) is defined by the ASTM Standard Practice E1527-13 as a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority, with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls.

- AEI did not identify evidence of CRECs during the course of this assessment.

Historical Recognized Environmental Condition (HREC) is defined by the ASTM Standard Practice E1527-13 as a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls.

- AEI did not identify evidence of HRECs during the course of this assessment.

Other Environmental Considerations (OEC) warrant discussion, but do not qualify as RECs as defined by the ASTM Standard Practice E1527-13. These include, but are not limited to, de minimis conditions and/or environmental considerations such as the presence of ACMs, LBP,

radon, mold, and lead in drinking water, which can affect the liabilities and financial obligations of the client, the health and safety of site occupants, and the value and marketability of the subject property.

- AEI did not identify evidence of Other Environmental Considerations during the course of this assessment.

CONCLUSIONS, OPINIONS, AND RECOMMENDATIONS

We have performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Standard Practice E1527-13 and the EPA Standards and Practices for All Appropriate Inquiries (40 CFR Part 312) of 529 West 400 North, Salt Lake City, Salt Lake County, Utah, the *subject property*. Any exceptions to, or deletions from, this practice are described in Sections 1.4, 1.5, and 1.6 of this report.

AEI did not identify evidence of RECs or CRECs in connection with the subject property during the course of this assessment. AEI recommends no further investigation for the subject property at this time.

1.0 INTRODUCTION

This report documents the methods and findings of the Phase I Environmental Site Assessment performed in conformance with AEI's contract and scope and limitations of ASTM Standard Practice E1527-13 and the EPA Standards and Practices for All Appropriate Inquiries (40 CFR Part 312) for the property located at 529 West 400 North, Salt Lake City, Salt Lake County, Utah (Appendix A: Figures and Appendix B: Property Photographs).

1.1 SCOPE OF WORK

The purpose of the Phase I ESA is to assist the client in identifying potential RECs, in accordance with ASTM E1527-13, associated with the presence of any hazardous substances or petroleum products, their use, storage, and disposal at and in the vicinity of the subject property. Property assessment activities focused on: 1) a review of federal, state, tribal, and local databases that identify and describe underground fuel tank sites, leaking underground fuel tank sites, hazardous waste generation sites, and hazardous waste storage and disposal facility sites within the ASTM approximate minimum search distance; 2) a property and surrounding site reconnaissance, and interviews with the past and present owners and current occupants and operators to identify potential environmental contamination; and 3) a review of historical sources to help ascertain previous land use at the site and in the surrounding area.

1.2 ADDITIONAL SERVICES

Other Environmental Considerations such as ACMs, LBP, lead in drinking water, radon, mold, and wetlands can result in business environmental risks for property owners which may disrupt current or planned operations or cash flow and are generally beyond the scope of a Phase I assessment as defined by ASTM E1527-13. Based upon the agreed-on scope of services this ESA did not include subsurface or other invasive assessments, business environmental risks, or other services not specifically identified and discussed herein.

1.3 SIGNIFICANT ASSUMPTIONS

The following assumptions are made by AEI in this report. AEI relied on information derived from secondary sources including governmental agencies, the client, designated representatives of the client, property contact, property owner, property owner representatives, computer databases, and personal interviews. AEI has reviewed and evaluated the thoroughness and reliability of the information derived from secondary sources including government agencies, the client, designated representatives of the client, property contact, property owner, property owner representatives, computer databases, or personal interviews. It appears that all information obtained from outside sources and reviewed for this assessment is thorough and reliable. However, AEI cannot guarantee the thoroughness or reliability of this information.

Groundwater flow, unless otherwise specified by on-site well data or well data from the subject property or nearby sites, is inferred from contour information depicted on the USGS topographic maps. AEI assumes the property has been correctly and accurately identified by the client, designated representative of the client, property contact, property owner, and property owner's representatives.

1.4 LIMITATIONS

Property conditions, as well as local, state, tribal, and federal regulations can change significantly over time. Therefore, the recommendations and conclusions presented as a result of this assessment apply strictly to the environmental regulations and property conditions existing at the time the assessment was performed. Available information has been analyzed using currently accepted assessment techniques and it is believed that the inferences made are reasonably representative of the property. AEI makes no warranty, expressed or implied, except that the services have been performed in accordance with generally accepted environmental property assessment practices applicable at the time and location of the assessment.

Considerations identified by ASTM as beyond the scope of a Phase I ESA that may affect business environmental risk at a given property include the following: ACMs, radon, LBP, lead in drinking water, wetlands, regulatory compliance, cultural and historical resources, industrial hygiene, health and safety, ecological resources, endangered species, indoor air quality, mold, and high voltage lines. These environmental issues or conditions may warrant assessment based on the type of the property transaction; however, they are considered non-scope issues under ASTM Standard Practice E1527-13.

If requested by the client, these non-scope issues are discussed herein. Otherwise, the purpose of this assessment is solely to satisfy one of the requirements for qualification of the innocent landowner defense, contiguous property owner or bona fide prospective purchaser under CERCLA. ASTM Standard Practice E1527-13 and the United States EPA Standards and Practices for All Appropriate Inquiries (40 CFR Part 312) constitute the "all appropriate inquiry into the previous ownership and uses of the property consistent with good commercial or customary practice" as defined in:

1. 42 U.S.C. § 9601(35)(B), referenced in the ASTM Standard Practice E1527-13.
2. Sections 101(35)(B) (ii) and (iii) of CERCLA and referenced in the EPA Standards and Practices for All Appropriate Inquiries (40 CFR Part 312).
3. 42 U.S.C. § 9601(40) and 42 U.S.C. § 9607(q).

The Phase I Environmental Site Assessment is not, and should not be construed as, a warranty or guarantee about the presence or absence of environmental contaminants that may affect the property. Neither is the assessment intended to assure clear title to the property in question. The sole purpose of assessment into property title records is to ascertain a historical basis of prior land use. All findings, conclusions, and recommendations stated in this report are based upon facts, circumstances, and industry-accepted procedures for such services as they existed at the time this report was prepared (i.e., federal, state, and local laws, rules, regulations, market conditions, economic conditions, political climate, and other applicable matters). All findings, conclusions, and recommendations stated in this report are based on the data and information provided, current subject property use, and observations and conditions that existed on the date and time of the property reconnaissance.

Responses received from local, state, or federal agencies or other secondary sources of information after the issuance of this report may change certain facts, findings, conclusions, or circumstances to the report. A change in any fact, circumstance, or industry-accepted procedure upon which this report was based may adversely affect the findings, conclusions, and recommendations expressed in this report.

AEI's limited radon screening, if included, is intended to provide a preliminary screening to evaluate the potential presence of elevated radon concentrations at the site. The proposed scope is not intended to define the full extent of the presence of radon at the subject property. As such, the results should be used for lending purposes only. The recommendations and conclusions presented as a result of the limited preliminary radon screening apply strictly to the property conditions existing at the time the sampling was performed. The sample analytical results are only valid for the time, place, and condition of the site at the time of collection and AEI does not warrant that the results will be repeatable or are representative of past or future conditions.

1.5 Limiting Conditions/Deviations

The performance of this assessment was limited by the following:

- While additional assessments may have been conducted on the subject property, these documents must be provided for AEI's review in order for the information to be summarized/included in this report. Please refer to Section 6.3 for a summary of previous reports and other documentation provided to AEI during this assessment.
- The User did not complete the ASTM User Questionnaire or provide the User information to AEI. AEI assumes that qualification for the LLPs is being established by the User in documentation outside of this assessment.

1.6 Data Failure and Data Gaps

According to ASTM E1527-13, data gaps occur when the Environmental Professional is unable to obtain information required by the Standard, despite good faith efforts to gather such information. Pursuant to ASTM E1527-13, only significant data gaps, defined as those that affect the ability of the Environmental Professional to identify RECs, need to be documented.

Data failure is one type of data gap. According to ASTM E1527-13, data failure occurs when all of the standard historical sources that are reasonably ascertainable and likely to be useful have been reviewed and yet the objectives have not been met. Pursuant to ASTM E1527-13, historical sources are required to document property use back to the property's first developed use or back to 1940, whichever is earlier, or periods of five years or greater.

1.6.1 Data Failure

AEI did not identify evidence of data failure during the course of this assessment.

1.6.2 Significant Data Gaps

AEI did not identify significant data gaps which affected our ability to identify RECs.

1.7 Reliance

All reports, both verbal and written, are for the benefit of Giv Development , Project Open 3, LLC, a Utah Limited Liability Company, GSB LIHTC Investors LLC, a Delaware Limited Liability Company, Goldman Sachs Bank USA, a New York State Chartered Bank, and The Goldman Sachs Group, Inc. This report has no other purpose and may not be relied upon by any other person or entity without the written consent of AEI. Either verbally or in writing, third parties may come into

possession of this report or all or part of the information generated as a result of this work. In the absence of a written agreement with AEI granting such rights, no third parties shall have rights of recourse or recovery whatsoever under any course of action against AEI, its officers, employees, vendors, successors or assigns. Reliance is provided in accordance with AEI's contract and Terms and Conditions executed by Giv Development on July 22, 2020. The limitation of liability defined in the Terms and Conditions is the aggregate limit of AEI's liability to the client and all relying parties.

2.0 SITE AND VICINITY DESCRIPTION

2.1 SITE LOCATION AND DESCRIPTION

PROPERTY INFORMATION	
Site Address(es)	529 West 400 North, Salt Lake City, Salt Lake County, Utah 84116
Property ID (APN or Block/Lot)	08361550350000
Location	Southwest of the intersection of West 400 North and North 500 West
Property Type	Vacant Land
SITE AND BUILDING INFORMATION	
Approximate Site Acreage/Source	0.31/Assessor
Number of Buildings	None
Building Construction Date(s)/Source	N/A
Building Square Footage (SF)/Source	N/A
Number of Floors/Stories	N/A
Basement or Subgrade Area(s)	N/A
Number of Units	N/A
Additional Improvements	Storm drain, gravel walkway areas and associated landscaping
On-site Occupant(s)	Not developed
Current On-site Operations/Use	N/A
Current Use of Hazardous Substances	None identified
REGULATORY INFORMATION	
Regulatory Database Listing(s)	RCRA NonGen, FINDS, ECHO

2.2 ON-SITE UTILITIES

Utility	Source/System Information
Heating System	N/A; No on-site structures present
Cooling System	N/A; No on-site structures present
Potable Water	Salt Lake City
Sewage Disposal/Treatment	Salt Lake City

Utility source/system information listed in the table above is provided by Mr. Ivan Carroll, Developer, unless otherwise noted above.

2.3 SITE AND VICINITY CHARACTERISTICS

The subject property is located in a commercial and residential area of Salt Lake City, Utah. The immediately surrounding properties consist of the following:

Direction	Tenant/Use (Address)	Regulatory Database Listing(s)
North	West 400 North street followed by three residences (514, 520, and 530 West 400 North) and Signature Books (508 West 400 North)	None identified
East	Project Open Apartments (511 West 400 North) followed by North 500 West	None identified
South	Parking lot (511 West 400 North)	None identified
West	Parking lot (511 West 400 North)	None identified

If the surrounding properties are listed in the regulatory database, please refer to Section 5.1 for discussion.

2.4 PHYSICAL SETTING

Geologic Unit: Description/Source	The area surrounding the subject property is located at the eastern edge of the Bonneville Basin, a deep sediment-filled structural basin along the eastern edge of the Basin and Range physiographic province. The Bonneville Basin covers most of northwestern Utah and is bounded immediately to the east by the Wasatch Range of the Middle Rocky Mountain physiographic province/USGS and United States Department of the Interior
Soil Series: Description/Source	The soils in the vicinity of the subject property are classified as the being in urban land and was not mapped because the ground was developed with buildings and paving and deemed not accessible. A geotechnical report preparedby GSH-Geotechnical for the property described the subsurface soils as including about 1-3 inches of asphalt or concrete, followed by 1½ to seven feet of surficial fill materials mostly gravel with some silt and clay. Natural soils consisted of silty clays with some fine sand and sandy clays/ USDA Soil Survey and GSH-Geotechnical geotechnicl report
Groundwater Flow Direction/Source	West/Topographic map interpretation
Estimated Depth to Groundwater/ Source	3-10 feet bgs/Utah Department of Environmental Quality groundwater data
Surface waters on the subject property or adjoining sites	None
Additional notes	None

Note: Groundwater flow direction can be influenced locally and regionally by the presence of local wetland features, surface topography, recharge and discharge areas, horizontal and vertical inconsistencies in the types and location of subsurface soils, and proximity to water pumping wells. Depth and gradient of the water table can change seasonally in response to variation in precipitation and recharge, and over time, in response to urban development such as storm water controls, impervious surfaces, pumping wells, cleanup activities, dewatering, seawater intrusion barrier projects near the coast, and other factors.

3.0 HISTORICAL REVIEW OF SITE AND VICINITY

Reasonably ascertainable standard historical sources as outlined in ASTM Standard E1527-13 were used to determine previous uses and occupancies of the subject property that are likely to have led to RECs in connection with the subject property. A chronological summary of historical data found, including but not limited to aerial photographs, historical city directories, Sanborn fire insurance maps, and agency records, is as follows:

Date Range	Subject Property Description and Occupancy (Historical Addresses)	Source(s)
1898	Undeveloped, urban land	Sanborn map
1911-1976	Multiple residential dwellings	Aerial photographs, Sanborn maps, prior report
1977-1979	Vacant Land	Aerial photographs
1980-2018	Portion of a larger light industrial/commercial warehouse building, occupants have included Moss-Williams Inc. (warehouse), Utah Power&Light (Traveling Plant Maintenance), Meta Designs, and SLC Tours	Agency records, aerial photographs, city directories, prior report, interview
2019	Construction storage with no on-site structures	Aerial photograph
2020	Unimproved land	Site observation, interview

The following historical addresses were associated with the subject property: 517, 519, 521, 523, 525, 527, 529, 531 and 537 West 3rd/300 North. These addresses were also researched as part of this assessment.

AEI did not identify potential environmental concerns in association with the current or historical use of the subject property.

If available, copies of historical sources are provided in Appendix D.

3.1 AERIAL PHOTOGRAPHS

AEI reviewed aerial photographs of the subject property and surrounding area. A search was made of the EDR collection of aerial photographs. Aerial photographs were reviewed for the following years:

Year(s)	Subject Property Description	Adjoining Site Descriptions
1937, 1946	Multiple row-type residences along West 400 North	NORTH: Roadway followed by residential development or vacant land EAST: Unimproved land followed by a roadway and railroad tracks SOUTH: Unimproved land WEST: Residential development
1952, 1958	No significant changes noted	NORTH: No significant changes noted EAST: No significant changes noted SOUTH: Several small structures followed by a roadway WEST: No significant changes noted

Year(s)	Subject Property Description	Adjoining Site Descriptions
1962, 1965, 1971	No significant changes noted	NORTH: Roadway followed by residential and commercial development EAST: No significant changes noted SOUTH: Several small structures followed by unimproved, urban land WEST: No significant changes noted
1977	Unimproved, urban land	NORTH: No significant changes noted EAST: Commercial building followed by a roadway SOUTH: Unimproved, urban land WEST: Unimproved, urban land
1981, 1987, 1993, 1997, 2006, 2009, 2011, 2015*, 2018*	Portion of a larger rectangular building	NORTH: No significant changes noted EAST: Portion of the on-site commercial building followed by a roadway SOUTH: Parking lot WEST: Portion of the on-site commercial building followed by a parking lot
2019*	Construction storage with no on-site structures	NORTH: No significant changes noted EAST: Under construction with the current apartment building followed by a roadway SOUTH: No significant changes noted WEST: Construction storage and parking lot

*Due to copyright restrictions, copies of the aerial photographs reviewed are not included in the appendices, but can be viewed online at historicaerials.com and through Google Earth.

AEI did not identify potential environmental concerns in association with the historical use of the subject property during the aerial photograph review.

3.2 Sanborn Fire Insurance Maps

Sanborn Fire Insurance maps were developed in the late 1800s and early 1900s for use as an assessment tool for fire insurance rates in urbanized areas. A search was made of the EDR collection of Sanborn Fire Insurance maps.

The following maps were reviewed:

Year(s)	Subject Property Description (Listed Address)	Adjoining Site Descriptions
1898	Undeveloped land	NORTH: Third North followed by multiple residential dwellings EAST: Undeveloped land followed by Forth West SOUTH: Undeveloped land WEST: Multiple dwellings and a stable used for hay storage

Year(s)	Subject Property Description (Listed Address)	Adjoining Site Descriptions
1911	Multiple duplex row-type dwellings; addresses include 517, 519, 521, 523, 525, 527, 529, and 531 West 3rd Street North	NORTH: No significant changes noted EAST: Multiple dwellings followed by 4th Street west railroad tracks SOUTH: No significant changes noted WEST: Multiple dwellings
1949, 1950	No significant changes noted	NORTH: No significant changes noted, except some dwellings have been raised EAST: Undeveloped land followed by 4th Street West and railroad tracks SOUTH: No significant changes noted WEST: No significant changes noted
1986	Portion of a commercial building identified as manufacturing; historical address includes 537 West 400 North	NORTH: No significant changes noted, except dwellings have been added and a commercial building is present to the northeast EAST: No significant changes noted SOUTH: No significant changes noted; manufacturing facility is located farther south WEST: Portion of the on-site commercial building followed by a drive-way, store and a restaurant

AEI did not identify potential environmental concerns in association with the historical use of the subject property during the Sanborn map review.

3.3 CITY DIRECTORIES

A search of historical city directories was conducted for the subject property utilizing EDR. No potential tenants of concern were identified based on AEI's review of the historical city directories. Directories were reviewed in approximate five-year increments from 1926 to 2014. The first listing for the subject property appeared in 1926. Please refer to the appendices for a complete list of historical subject property tenants identified by EDR.

Year(s)	Address - Occupant Listed
1926	517 W 3rd N: Residential listing 519 W 3rd N: Residential listing 521 W 3rd N: Residential listing 523 W 3rd N: Residential listing 525 W 3rd N: Vacant 527 W 3rd N: Vacant 529 W 3rd N: Residential listing 531 W 3rd N: Residential listing
1931	517 W 3rd N: Residential listing 519 W 3rd N: Vacant 521 W 3rd N: Residential listing 523 W 3rd N: Vacant 525 W 3rd N: Vacant 527 W 3rd N: Vacant 529 W 3rd N: Vacant 531 W 3rd N: Residential listing

Year(s)	Address - Occupant Listed
1936	517 W 3rd N: Residential listing 519 W 3rd N: Residential listing 521 W 3rd N: Residential listing 523 W 3rd N: Residential listing 525 W 3rd N: Vacant 527 W 3rd N: Residential listing 529 W 3rd N: Residential listing 531 W 3rd N: Residential listing
1941	517 W 3rd N: Residential listing 519 W 3rd N: Residential listing 521 W 3rd N: Residential listing 523 W 3rd N: Residential listing 525 W 3rd N: Residential listing 527 W 3rd N: Vacant 529 W 3rd N: Residential listing 531 W 3rd N: Residential listing
1946	517 W 3rd N: Residential listing 519 W 3rd N: Vacant 521 W 3rd N: Residential listing 523 W 3rd N: Residential listing 525 W 3rd N: Residential listing 527 W 3rd N: Residential listing 531 W 3rd N: Residential listing
1951	519 W 3rd N: Residential listing 521 W 3rd N: Residential listing 523 W 3rd N: Residential listing 525 W 3rd N: Residential listing 527 W 3rd N: Residential listing 529 W 3rd N: Residential listing 531 W 3rd N: Residential listing
1956	519 W 3rd N: Residential listing 521 W 3rd N: Residential listing 523 W 3rd N: Residential listing 525 W 3rd N: Residential listing 527 W 3rd N: Residential listing 529 W 3rd N: Residential listing 531 W 3rd N: Residential listing
1961	521 W 3rd N: Residential listing 523 W 3rd N: Residential listing 525 W 3rd N: Residential listing 527 W 3rd N: Residential listing 529 W 3rd N: Residential listing 531 W 3rd N: Residential listing
1965	521 W 3rd N: Residential listing 523 W 3rd N: Residential listing 525 W 3rd N: Residential listing 527 W 3rd N: Vacant 529 W 3rd N: Vacant 531 W 3rd N: Vacant
1970	Addresses not listed

Year(s)	Address - Occupant Listed
1971	521 W 3rd N: Vacant 525 W 3rd N: Vacant 527 W 3rd N: Vacant 529 W 3rd N: Vacant 531 W 3rd N: Vacant
1975, 1976, 1980	Addresses not listed
1981	507-529 W 400 N: Moss-Williams Inc. (Warehouse)
1985, 1990	507 and 509 W 400 N: Moss-Williams Inc. (Warehouse) 529 W 400 N: Utah Power & Light (Traveling Plant Maintenance)
1991, 1995, 2000, 2001, 2007	Addresses not listed
2014	529 W 400 N: Meta Designs
2016	529 W 400 N: Meta Designs, SLC Tours

If listed above, XXXX indicates that the address is valid but there is no occupancy information available.

AEI did not identify potential environmental concerns in association with the historical use of the subject property during the city directory review.

3.4 HISTORICAL TOPOGRAPHIC MAPS

Based on the quality of information obtained from other sources, historical topographic maps were not reviewed as a part of this assessment.

3.5 CHAIN OF TITLE

Based on the quality of information obtained from other sources, a chain of title search was not performed as part of this assessment.

4.0 REGULATORY AGENCY RECORDS REVIEW

Local and state agencies, such as environmental health departments, fire prevention bureaus, and building and planning departments are contacted to identify any current or previous reports of hazardous substance use, storage, and/or unauthorized releases that may have impacted the subject property. In addition, information pertaining to AULs, defined as legal or physical restrictions, or limitations on the use of, or access to, a site or facility, is requested.

4.1 LOCAL ENVIRONMENTAL HEALTH DEPARTMENT AND/OR STATE ENVIRONMENTAL AGENCY

Agency	Date Contacted	Method of Contact	Name & Title of Contact	Agency Response
Salt Lake County Health Department (SLCHD)	July 29, 2020	Email	Jeannine Maxfield, Enforcement Division	No records on file

Agency	Date Contacted	Method of Contact	Name & Title of Contact	Agency Response
Utah Department of Environmental Quality (UDEQ)	July 29, 2020	Website	N/A	No records on file

4.2 FIRE DEPARTMENT

Agency	Date Contacted	Method of Contact	Name & Title of Contact	Agency Response
Salt Lake City Fire Department (SLCFD)	July 29, 2020	Email	N/A	No hazardous materials records on file

4.3 BUILDING DEPARTMENT

Agency	Date Contacted	Method of Contact	Name & Title of Contact	Agency Response
Salt Lake City Building Permitting (SLCBP)	July 29, 2020	Website	N/A	Records discussed below

Records Summary

Year(s)	Owner/Applicant	Description of Permit and Building Use
October 1, 1979	529 W 400 N	Building permit/ commercial construction
October 11, 1979	529 W 400 N	Building electrical/ commercial construction
November 26, 1979	529 W 400 N	Building mechanical/ commercial construction
December 4, 1979	529 W 400 N	Building mechanical/ commercial construction
August 21, 2018	529 W 400 N	Demolition permit

Evidence indicating current or prior use or storage of hazardous substances was not on file for the subject property with the SLCBP.

4.4 PLANNING DEPARTMENT

Agency	Date Contacted	Method of Contact	Name & Title of Contact	Agency Response
Salt Lake City Zoning Division (SLCZD)	July 29, 2020	Email	N/A	No evidence indicating the existence of AULs on file for the subject property

4.5 ASSESSOR'S OFFICE

Agency	Date Contacted	Method of Contact	Name & Title of Contact	Agency Response
Salt Lake County Assessor's Office	July 29, 2020		N/A	Information obtained is discussed below

Records Summary

APN	08361550350000
Acreage	0.31 acres
Construction Date	N/A
Building Square Footage	N/A
Current Owner	GIV 529, LLC

4.6 OTHER AGENCIES SEARCHED

No other agencies were contacted during the course of this assessment.

4.7 OIL AND GAS WELLS

Agency	Date Referenced	Resource	Oil or gas wells located within 500 feet of the subject property
Utah Department of Natural Resources Division of Oil, Gas, and Mining (UDOGM)	July 29, 2020	UDOGM Map	No

4.8 OIL AND GAS PIPELINES

Agency	Date Referenced	Resource	Pipelines located within 500 feet of the subject property
National Pipeline Mapping System (NPMS)	July 29, 2020	NPMS Public Map Viewer	Information obtained is discussed below

According to information obtained from the NPMS Public Map Viewer, an active underground pipeline containing Refined and/or Petroleum Product (non-HVL) operated by Marathon Petroleum is located approximately 115 feet to the west of the subject property; see Figure 2 and the NPMS map in appendices. No stressed vegetation was observed near the pipeline during AEI's reconnaissance and subject property staff reported no known environmental concerns associated

with the pipeline. Releases from this pipeline (other than those caused by a third party) would be the responsibility of the operator. Based on this information, and the lack of a documented release identified in the regulatory database, no further action regarding the pipeline is warranted at this time.

4.9 State Environmental Superliens

In accordance with our approved scope of services, AEI did not assess whether the subject property is subject to any state environmental superliens.

4.10 State Property Transfer Laws

In accordance with our approved scope of services, AEI did not assess whether the subject property is subject to any state property transfer laws.

5.0 REGULATORY DATABASE RECORDS REVIEW

AEI contracted EDR to conduct a search of publicly available information from federal, state, tribal, and local databases containing known and suspected sites of environmental contamination and sites of potential environmental significance. Data gathered during the current regulatory database search is compiled by EDR into one regulatory database report. Location information for listed sites is designated using geocoded information provided by federal, state, or local agencies and commonly used mapping databases with the exception of "Orphan" sites. Due to poor or inadequate address information, Orphan sites are identified but not geocoded/mapped by EDR, rather, information is provided based upon vicinity zip codes, city name, and state. The number of listed sites identified within the approximate minimum search distance from the federal and state environmental records database listings specified in ASTM Standard E1527-13 is summarized in Section 5.1, along with the total number of Orphan sites. A copy of the regulatory database report, which includes detailed descriptions of the databases noted below, is included in Appendix C of this report.

In determining if a listed site is a potential environmental concern to the subject property, AEI generally applies the following criteria to classify the site as lower potential environmental concern: 1) the site only holds an operating permit (which does not imply a release), 2) the site's distance from, and/or topographic position relative to, the subject property, and/or 3) the site has recently been granted "No Further Action" by the appropriate regulatory agency.

Regulatory database listings associated with the subject property, adjoining site(s) and/or nearby sites of concern that were determined to warrant additional discussion are identified and further discussed in Section 5.1.

5.1 RECORDS SUMMARY

Database	Search Distance (Miles)	Listings Within Search Distance	Subject Property	Adjoining Site(s)	Other Nearby Sites of Concern
NPL	1.0	1			
DELISTED NPL	0.5	0			
SEMS/CERCLIS	0.5	3			
SEMS-ARCHIVE/CERCLIS NFRAP	0.5	2

ADDITIONAL ENVIRONMENTAL RECORD SOURCES	SP/ADJ	3	✔	✔	

Facility Name	Advanced Petroleum Recycling
Address	529 West 400 North
Distance & Direction	Subject Property
Hydrologic Position	N/A
Databases Listed	RCRA NonGen, FINDS, ECHO
Comments	The subject property is listed on the RCRA-NonGen database as a generator of ignitable waste based on paperwork that was submitted between at least 1992 and 2007. The site became a non-generator in 2007. General violations were identified in 1992 and resolved in 1993. The subject property is listed on the FINDS and ECHO database due to the RCRA listing and are considered duplicative. The listing appears to have been for a former tenant within the previous on-site building. Based on the lack of a documented release and the absence of current waste generation, the RCRA NonGen, FINDS, and ECHO listings are not expected to represent a significant environmental concern.

Facility Name	Bond Cleaning & Tailoring
Address	516 West 4th North
Distance & Direction	Mapped as adjoining to the north; however, the address is a historic address that is a block north of the subject property
Hydrologic Position	Down-gradient
Databases Listed	EDR Hist Cleaner
Comments	The site is listed on the EDR Hist Cleaner database as Bond Cleaning & Tailoring between 1951 and 1961. Based on the address numbering scheme in the 1950's, the address is located a block north of the subject property. Based on the lack of a documented release, the review of regulatory agency files for this site was not deemed necessary, and the site is not expected to represent a significant environmental concern.

Facility Name	Salt Lake City Maintenance Shop
Address	300 North 500 West
Distance & Direction	Approximately 550 feet southeast
Hydrologic Position	Up-gradient
Databases Listed	LUST, UST

Comments	The site is listed on the UST database with one tank that has been closed. The site is listed on the LUST database with a release that was reported on March 23, 1994 and received closure on December 13, 1995. According to records on file with the UDEQ, the on-site tank was an 8,000-gallon diesel tank. A subsurface investigation dated June 8, 1995 indicated one groundwater sample was collected and analyzed for total petroleum hydrocarbons (TPH) and bezene, toluene, ethyl benzene, and xylenes (BTEX). No TPH or BTEX constituents were identified. A No Further Action (NFA) letter was issued on December 13, 1995. Based on the absence of identified groundwater contamination and the presence of an NFA letter, the UST and LUST listings are not expected to represent a significant environmental concern for the subject property.

5.2 VAPOR MIGRATION

AEI reviewed reasonably ascertainable information for the subject and nearby properties, including a regulatory database, files for nearby release sites, and/or historical documentation, to determine if potential vapor-phase migration concerns may be present which could impact the subject property.

Based on a review of available resources as documented in this report, AEI did not identify significant on-site concerns and/or regulated listings from nearby sites which suggest that a vapor-phase migration concern currently exists at the subject property.

6.0 INTERVIEWS AND USER PROVIDED INFORMATION

6.1 INTERVIEWS

Pursuant to ASTM E1527-13, the following interviews were performed during this assessment in order to obtain information indicating RECs in connection with the subject property.

6.1.1 OWNER AND KEY SITE MANAGER

Relation to Property	Name	Date Interviewed	Method of Contact	Year First Associated w/ Property	Notes
Owner Representative and Key Site Manager	Ivan Carroll	July 23, 2020	Email	2015	Interviewed; see Interview Summary table below

Interview Summary

Question	Owner (Representative) Response/ Comment	Key Site Manager Response/ Comment
Do you have any knowledge of USTs, clarifiers or oil/water separators, sumps, or other subsurface features?	No	N/A
Do you have any knowledge of previous environmental investigations conducted on site?	Yes; refer to Section 6.3	N/A
Do you have any knowledge of current or past industrial operations and/or other operations which would involve the use of hazardous substances and/or petroleum products?	Yes; previously used for vehicle repairs	N/A
Are you aware of any known plans for site redevelopment or change in site use?	Yes; Multifamily housing and parking will be built on the parcel.	N/A
Are you aware of any pending, threatened, or past litigation relevant to hazardous substances or petroleum products in, on, or from the property?	No	N/A
Are you aware of any pending, threatened or past administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the property?	No	N/A
Are you aware of any notices from any governmental entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products?	No	N/A

Question	Owner (Representative) Response/ Comment	Key Site Manager Response/ Comment
Are you aware of any incidents of flooding, leaks, or other water intrusion, and/or complaints related to indoor air quality?	N/A; no on-site structures	N/A
Additional information provided:	Mr. Carroll indicated that the subject property was formerly developed with a building occupied by a bus tour operator that used the property for vehicle parking and repairs and an ornamental metal fabricator.	N/A

6.1.2 Past Owners, Operators, and Occupants

AEI did not attempt to interview past owners, operators, and occupants of the subject property because information from these sources would likely be duplicative of information already obtained from other sources.

6.1.3 Interview with Others

Information obtained during interviews with local government officials is incorporated into the appropriate segments of this report.

6.2 User Provided Information

User provided information is intended to help identify the possibility of RECs in connection with the subject property. According to ASTM E1527-13 and the EPA Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), certain items should be researched by the prospective landowner or grantee, and the results of such inquiries may be provided to the Environmental Professional. The responsibility for qualifying for LLPs by conducting the inquiries ultimately rests with the User, and providing the information to the Environmental Professional would be prudent if such information is available.

The User did not complete the ASTM User Questionnaire or provide the User information to AEI. AEI assumes that qualification for the LLPs is being established by the User in documentation outside of this assessment.

Question	Response/ Comment
1. Environmental liens that are filed or recorded against the property (40 CFR 312.25) Did a search of recorded land title records (or judicial records where appropriate) identify any environmental liens filed or recorded against the property under federal, tribal, state or local law?	Information not provided
2. Activity and use limitations that are in place on the property or that have been filed or recorded against the property (40 CFR 312.26(a)(1)(v) and vi)).	Information not provided

Question	Response/ Comment
Did a search of recorded land title records (or judicial records where appropriate) identify any AULs, such as engineering controls, land use restrictions or institutional controls that are in place at the property and/or have been filed or recorded against the property under federal, tribal, state or local law?	
3. Specialized knowledge or experience of the person seeking to qualify for the LLP (40 CFR 312.28). Do you have any specialized knowledge or experience related to the property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business?	Information not provided
4. Relationship of the purchase price to the fair market value of the property if it were not contaminated (40 CFR 312.29). Does the purchase price being paid for this property reasonably reflect the fair market value of the property? If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the property?	Information not provided
5. Commonly known or reasonably ascertainable information about the property (40 CFR 312.30). Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example: (a) Do you know the past uses of the property? (b) Do you know of specific chemicals that are present or once were present at the property? (c) Do you know of spills or other chemical releases that have taken place at the property? (d) Do you know of any environmental cleanups that have taken place at the property?	Information not provided
6. The degree of obviousness of the presence or likely presence of contamination at the property, and the ability to detect the contamination by appropriate investigation (40 CFR 312.31). Based on your knowledge and experience related to the property, are there any obvious indicators that point to the presence or likely presence of contamination at the property?	Information not provided

6.3 PREVIOUS REPORTS AND OTHER PROVIDED DOCUMENTATION

Documentation was provided to AEI during this assessment. A summary of this information follows:

Phase I Environmental Site Assessment, 529 W 400 N and 375 N 500 W #NFF1, Salt Lake City, Salt Lake County, Utah 84116, prepared by AEI Consultants (March 8, 2018)

This report describes the subject property within a larger parcel that includes the subject property as well as the adjoining property to the east (current apartment building) and west (current parking lot), as well as a second parcel located farther to the southwest of the subject property. The building formerly located on the subject property was identified as 529 West 400 North and was occupied by Meta Designs and City Sites, used for architectural metal

fabrication, bus rebuilds and bus storage. Various vehicle maintenance chemicals including waste oil were observed at the property; however they were not observed to be leaking and were not considered a concern. The report concludes that AEI did not identify evidence of RECs during the course of this assessment. As such, the report recommended no further investigation for the subject property.

A copy of the report is included in the appendices.

6.4 ENVIRONMENTAL LIEN SEARCH

In accordance with our approved scope of services, AEI contracted AFX Research, LLC (AFX) to perform an environmental lien search for the subject property. According to AFX, environmental liens were not identified during the review of historical ownership documentation. The current owner (since 2018) is reported as North 4th LLC. A copy of the AFX report is provided in the appendices.

7.0 SITE RECONNAISSANCE

Site Reconnaissance Date	July 31, 2020
AEI Site Assessor(s)	Laura Mathys
Property Escort(s)/ Relationship(s) to Property	Not escorted
Units/Areas Observed	AEI observed the subject property and surrounding areas
Area(s) not accessed and reason(s)	None
Other Physical Constraints	None

Reconnaissance Findings Summary

Feature	Observed on Subject Property (see Section 7.1)	Observed on Adjoining Property (see Section 7.2)
Regulated Hazardous Substances/Wastes and/or Petroleum Products in Connection with Property Use		
Aboveground/Underground Hazardous Substance or Petroleum Product Storage Tanks (ASTs/USTs)		
Hazardous Substance and Petroleum Product Containers Not in Connection with Property Use		
Unidentified Substance Containers		
Electrical or Mechanical Equipment Likely to Contain Fluids		✔
Interior Stains or Corrosion		
Strong, Pungent, or Noxious Odors		
Pools of Liquid		
Drains, Sumps, and Clarifiers	✔	✔
Pits, Ponds, and Lagoons		
Stained Soil or Pavement		
Stressed Vegetation		
Solid Waste Disposal or Evidence of Fill Materials		
Waste Water Discharges		
Wells		
Septic Systems		
Biomedical Wastes		
Other		

7.1 SUBJECT PROPERTY RECONNAISSANCE FINDINGS

During the site reconnaissance, AEI observed the items listed in the above Reconnaissance Findings Summary table, which are further discussed below.

7.1.1 Drains, Sumps, and Clarifiers

One storm drain was observed in the parking area of the subject property. AEI did not observe evidence of hazardous substances or petroleum products in the vicinity of the drain. Based on the use of the drain solely for storm water runoff, the presence of the drain is not expected to represent a significant environmental concern.

7.2 Adjoining Property Reconnaissance Findings

During the site reconnaissance, AEI observed the items listed in the above Reconnaissance Findings Summary table, which are further discussed below.

7.2.1 Electrical or Mechanical Equipment Likely to Contain Fluids

Toxic PCBs were commonly used historically in electrical equipment such as transformers, fluorescent lamp ballasts, and capacitors. According to United States EPA regulation 40 CFR, Part 761, there are three categories for classifying such equipment: <50 ppm of PCBs is considered "Non-PCB"; between 50 and 500 ppm is considered "PCB-Contaminated"; and >500 ppm is considered "PCB-Containing." Pursuant to 15 U.S.C. 2605(e)(2)(A), the manufacture, process, or distribution in commerce or use of any polychlorinated biphenyl in any manner other than in a totally enclosed manner was prohibited after January 1, 1977.

Transformers

The management of potential PCB-containing transformers is the responsibility of the local utility or the transformer owner. Actual material samples need to be collected to determine if transformers are PCB-containing.

Multiple pad-mounted transformers were observed on the adjoining sites during the site reconnaissance. No spills, staining, or leaks were observed on or around the transformers. Based on the good condition of the equipment, the transformers are not expected to represent a significant environmental concern.

7.2.2 Drains, Sumps, and Clarifiers

Several storm drains were observed in the parking areas of the adjoining properties and adjoining roadways. AEI did not observe evidence of hazardous substances or petroleum products in the vicinity of the drains. Based on the use of the drains solely for storm water runoff, the presence of the drains is not expected to represent a significant environmental concern.

8.0 NON-ASTM SERVICES

8.1 ASBESTOS-CONTAINING BUILDING MATERIALS

The subject property is currently vacant land and lacks structures. Consequently, no building components containing suspect asbestos containing materials were identified during the site inspection.

8.2 LEAD-BASED PAINT

The subject property is currently vacant land and lacks structures. Consequently, AEI did not observe building components likely to contain suspect LBP during the site reconnaissance.

8.3 RADON

Radon is a naturally-occurring, odorless, and invisible gas. Natural radon levels vary and are closely related to geologic formations. Radon may enter buildings through basement sumps or other openings.

The United States EPA has prepared a map to assist National, State, and local organizations to target their resources and to implement radon-resistant building codes. The map divides the country into three radon zones, with Zone 1 being those areas with the average predicted indoor radon concentration in residential dwellings exceeding the EPA Action Limit of 4.0 pCi/L. It is important to note that the EPA has found homes with elevated levels of radon in all three zones, and the EPA recommends site specific testing in order to determine radon levels at a specific location. However, the map does give a valuable indication of the propensity of radon gas accumulation in structures.

Radon sampling was not requested as part of this assessment. According to the US EPA, the radon zone level for the area is Zone 2, which has a predicted average indoor screening level between 2 pCi/L and 4 pCi/L, equal to or below the action level of 4 pCi/L set forth by the US EPA.

8.4 MOLD

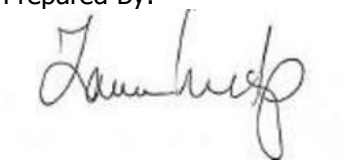

The subject property is currently vacant land and lacks structures. Consequently, mold was not addressed as part of this assessment.

9.0 SIGNATURE OF ENVIRONMENTAL PROFESSIONALS

We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professional as defined in §312.10 of 40 CFR Part 312.

We have the specific qualifications based on education, training, and experience to assess a property of the nature, history and setting of the subject property. We have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

EXECUTIVE SUMMARY

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: Also known as Superfund, the National Priority List database is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund program. The source of this database is the U.S. EPA.

A review of the NPL list, as provided by EDR, and dated 04/27/2020 has revealed that there is 1 NPL site within approximately 1 mile of the target property.

Federal CERCLIS list

SEMS: SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

A review of the SEMS list, as provided by EDR, and dated 04/27/2020 has revealed that there are 3 SEMS sites within approximately 0.5 miles of the target property.

EXECUTIVE SUMMARY

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 04/27/2020 has revealed that there are 2 SEMS-ARCHIVE sites within approximately 0.5 miles of the target property.

Federal RCRA CORRACTS facilities list

CORRACTS: CORRACTS is a list of handlers with RCRA Corrective Action Activity. This report shows which nationally-defined corrective action core events have occurred for every handler that has had corrective action activity.

A review of the CORRACTS list, as provided by EDR, and dated 03/23/2020 has revealed that there are 3 CORRACTS sites within approximately 1 mile of the target property.

US INST CONTROLS: A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

A review of the US INST CONTROLS list, as provided by EDR, and dated 02/13/2020 has revealed that there is 1 US INST CONTROLS site within approximately 0.5 miles of the target property.

State and tribal leaking storage tank lists

UT LUST: The Leaking Underground Storage Tank Incident Reports contain an inventory of reported leaking underground storage tank incidents. The data come from the Department of Environmental Quality's Potential Leaking UST Sites.

A review of the UT LUST list, as provided by EDR, and dated 04/13/2020 has revealed that there are 17 UT LUST sites within approximately 0.5 miles of the target property.

State and tribal registered storage tank lists

UT UST: The Underground Storage Tank database contains a listing of Facility, Owner, Location & Tanks not Closed or Removed. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the Department of Environmental Quality's Facilities with at Least One Non-exempt Tank.

A review of the UT UST list, as provided by EDR, and dated 04/13/2020 has revealed that there are 9 UT UST sites within approximately 0.25 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 03/23/2020 has revealed that there are 4 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

A review of the EDR MGP list, as provided by EDR, has revealed that there is 1 EDR MGP site within approximately 1 mile of the target property.

UTAH POWER AND LIGHT	600 W SOUTH TEMPLE	SSW 1/2 - 1 (0.581 mi.)	40	79

EXECUTIVE SUMMARY

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there is 1 EDR Hist Auto site within approximately 0.125 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
CAZIERS PETE REPAIRS	537 W 300 NORTH ST	S 0 - 1/8 (0.113 mi.)	B9	34

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there is 1 EDR Hist Cleaner site within approximately 0.125 miles of the target property.

Actual: 4233 ft.

RCRA NonGen / NLR:

Date form received by agency:	2007-02-22 00:00:00.0
Facility name:	ADVANCED PETROLEUM RECYCLING
Facility address:	529 WEST 400 NORTH SALT LAKE CITY, UT 84116
EPA ID:	UTD988078218
Mailing address:	P.O. BOX 18715 SALT LAKE, UT 84118-0715
Contact:	BRAD OAKLEY
Contact address:	529 WEST 400 NORTH SALT LAKE CITY, UT 84116
Contact country:	US
Contact telephone:	Not reported
Contact email:	Not reported
EPA Region:	08
Land type:	Private
Classification:	Non-Generator
Description:	Handler: Non-Generators do not presently generate hazardous waste

Owner/Operator Summary:

Owner/operator name:	COMPLEX INVESTMENTS
Owner/operator address:	375 NORTH 500 WEST SALT LAKE CITY, UT 84116
Owner/operator country:	Not reported
Owner/operator telephone:	801-355-2830
Owner/operator email:	Not reported
Owner/operator fax:	Not reported
Owner/operator extension:	Not reported
Legal status:	Private
Owner/Operator Type:	Owner
Owner/Op start date:	Not reported
Owner/Op end date:	Not reported

Handler Activities Summary:

U.S. importer of hazardous waste:	No
Mixed waste (haz. and radioactive):	No
Recycler of hazardous waste:	No
Transporter of hazardous waste:	No
Treater, storer or disposer of HW:	No
Underground injection activity:	No
On-site burner exemption:	No
Furnace exemption:	No
Used oil fuel burner:	No
Used oil processor:	No
User oil refiner:	No
Used oil fuel marketer to burner:	No
Used oil Specification marketer:	No
Used oil transfer facility:	No
Used oil transporter:	No

Historical Generators:

Date form received by agency:	1994-11-08 00:00:00.0

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Longitude:	-111.90577
HCM Label:	Address Matching-House Number
Map Scale:	-
Point of Reference:	Entrance Point of a Facility or Station
Highlights:	The Redevelopment Agency of Salt Lake City teamed up with DERR and the EPA Brownfields Pilot Program and Brownfields Community Showcase to redevelop 5 blocks along the 500 West corridor. The project was associated wth redvelopment of various Salt Lake City downtown commercial areas in preparation from the 2002 Salt Lake City Winter Olympics. The adjacent 40 acres to the Park Blocks were simultaneously developed into a large outdoor mall (Gateway Project). The site received a Pheonix Award for the redevelopment in 2003.

Point of Reference:	Entrance Point of a Facility or Station
Highlights:	The Redevelopment Agency of Salt Lake City teamed up with DERR and the EPA Brownfields Pilot Program and Brownfields Community Showcase to redevelop 5 blocks along the 500 West corridor. The project was associated wth redvelopment of various Salt Lake City downtown commercial areas in preparation from the 2002 Salt Lake City Winter Olympics. The adjacent 40 acres to the Park Blocks were simultaneously developed into a large outdoor mall (Gateway Project). The site received a Pheonix Award for the redevelopment in 2003.

Used oil transporter: No

Historical Generators:
Date form received by agency: 1980-08-18 00:00:00.0
Site name: AMERICAN BARREL COMPANY
Classification: Not a generator, verified

Hazardous Waste Summary:

. Waste code: F002
. Waste name: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

. Waste code: F003
. Waste name: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

. Waste code: F004
. Waste name: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: CRESOLS, CRESYLIC ACID, AND NITROBENZENE; AND THE STILL BOTTOMS FROM THE RECOVERY OF THESE SOLVENTS; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

. Waste code: F005
. Waste name: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

. Waste code: K049
. Waste name: SLOP OIL EMULSION SOLIDS FROM THE PETROLEUM REFINING INDUSTRY.

. Waste code: U002
. Waste name: 2-PROPANONE (I) (OR) ACETONE (I)

AMERICAN BARREL 700 NORTH (SITE 2) (Continued) **1000360559**

. Waste code: U019
. Waste name: BENZENE (I,T)

. Waste code: U112
. Waste name: ACETIC ACID, ETHYL ESTER (I) (OR) ETHYL ACETATE (I)

. Waste code: U159
. Waste name: 2-BUTANONE (I,T) (OR) METHYL ETHYL KETONE (MEK) (I,T)

. Waste code: U220
. Waste name: BENZENE, METHYL- (OR) TOLUENE

Hazardous Waste Summary:

. Waste code: F002
. Waste name: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

. Waste code: F003
. Waste name: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

. Waste code: F004
. Waste name: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: CRESOLS, CRESYLIC ACID, AND NITROBENZENE; AND THE STILL BOTTOMS FROM THE RECOVERY OF THESE SOLVENTS; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

. Waste code: F005
. Waste name: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

. Waste code: K049
. Waste name: SLOP OIL EMULSION SOLIDS FROM THE PETROLEUM REFINING INDUSTRY.

. Waste code: U002

AMERICAN BARREL COMPANY (Continued) **1000360561**

. Waste name: 2-PROPANONE (I) (OR) ACETONE (I)

. Waste code: U019
. Waste name: BENZENE (I,T)

. Waste code: U112
. Waste name: ACETIC ACID, ETHYL ESTER (I) (OR) ETHYL ACETATE (I)

. Waste code: U159
. Waste name: 2-BUTANONE (I,T) (OR) METHYL ETHYL KETONE (MEK) (I,T)

. Waste code: U220
. Waste name: BENZENE, METHYL- (OR) TOLUENE

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.
ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This

AMERICAN BARREL COMPANY (Continued) **1000360561**

information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

Hazardous Waste Summary:

. Waste code: D001
. Waste name: IGNITABLE WASTE

. Waste code: D002
. Waste name: CORROSIVE WASTE

. Waste code: D007
. Waste name: CHROMIUM

. Waste code: D008
. Waste name: LEAD

. Waste code: F002
. Waste name: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

. Waste code: F003
. Waste name: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

. Waste code: F005
. Waste name: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

TESORO REFINING & MARKETING COMPANY LLC (Continued) **1000177300**

Handler Activities Summary:
U.S. importer of hazardous waste: No
Mixed waste (haz. and radioactive): Not reported
Recycler of hazardous waste: No
Transporter of hazardous waste: No
Treater, storer or disposer of HW: No
Underground injection activity: No
On-site burner exemption: No
Furnace exemption: No
Used oil fuel burner: No
Used oil processor: No
User oil refiner: No
Used oil fuel marketer to burner: No
Used oil Specification marketer: No
Used oil transfer facility: No
Used oil transporter: No

Hazardous Waste Summary:

. Waste code: D000

TESORO REFINING & MARKETING COMPANY LLC (Continued) **1000177300**

. Waste name: Not Defined

. Waste code: D001
. Waste name: IGNITABLE WASTE

. Waste code: D002
. Waste name: CORROSIVE WASTE

. Waste code: D003
. Waste name: REACTIVE WASTE

. Waste code: D004
. Waste name: ARSENIC

. Waste code: D005
. Waste name: BARIUM

. Waste code: D006
. Waste name: CADMIUM

. Waste code: D007
. Waste name: CHROMIUM

. Waste code: D008
. Waste name: LEAD

. Waste code: D009
. Waste name: MERCURY

. Waste code: D010
. Waste name: SELENIUM

. Waste code: D011
. Waste name: SILVER

. Waste code: D018
. Waste name: BENZENE

. Waste code: F002
. Waste name: THE FOLLOWING SPENT HALOGENATED SOLVENTS: TETRACHLOROETHYLENE, METHYLENE CHLORIDE, TRICHLOROETHYLENE, 1,1,1-TRICHLOROETHANE, CHLOROBENZENE, 1,1,2-TRICHLORO-1,2,2-TRIFLUOROETHANE, ORTHO-DICHLOROBENZENE, TRICHLOROFLUOROMETHANE, AND 1,1,2, TRICHLOROETHANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

. Waste code: F003
. Waste name: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NONHALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS, AND A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR

TESORO REFINING & MARKETING COMPANY LLC (Continued) **1000177300**

MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

. Waste code: F005
. Waste name: THE FOLLOWING SPENT NONHALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NONHALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.

. Waste code: F027
. Waste name: DISCARDED UNUSED FORMULATIONS CONTAINING TRI-, TETRA-, OR PENTACHLOROPHENOL OR DISCARDED UNUSED FORMULATIONS CONTAINING COMPOUNDS DERIVED FROM THESE CHLOROPHENOLS. (THIS LISTING DOES NOT INCLUDE FORMULATIONS CONTAINING HEXACHLOROPHENE SYNTHESIZED FROM PREPURIFIED 2,4,5-TRICHLOROPHENOL AS THE SOLE COMPONENT.)

. Waste code: F037
. Waste name: PETROLEUM REFINERY PRIMARY OIL/WATER/SOLIDS SEPARATION SLUDGE - ANY SLUDGE GENERATED FROM THE GRAVITATIONAL SEPARATION OF OIL/WATER/SOLIDS DURING THE STORAGE OR TREATMENT OF PROCESS WASTEWATERS AND OILY COOLING WASTEWATERS FROM PETROLEUM REFINERIES. SUCH SLUDGES INCLUDE, BUT ARE NOT LIMITED TO, THOSE GENERATED IN OIL/WATER/SOLIDS SEPARATORS; TANKS AND IMPOUNDMENTS; DITCHES AND OTHER CONVEYANCES; SUMPS; AND STORM WATER UNITS RECEIVING DRY WEATHER FLOW. SLUDGES GENERATED IN STORM WATER UNITS THAT DO NOT RECEIVE DRY WEATHER FLOW, SLUDGES GENERATED IN AGGRESSIVE BIOLOGICAL TREATMENT UNITS AS DEFINED IN SECTION 261.31(B)(2) (INCLUDING SLUDGES GENERATED IN ONE OR MORE ADDITIONAL UNITS AFTER WASTEWATERS HAVE BEEN TREATED IN AGGRESSIVE BIOLOGICAL TREATMENT UNITS), AND K051 WASTES ARE EXEMPTED FROM THIS LISTING.

. Waste code: F038
. Waste name: PETROLEUM REFINERY SECONDARY (EMULSIFIED) OIL/WATER/SOLIDS SEPARATION SLUDGE - ANY SLUDGE AND/OR FLOAT GENERATED FROM THE PHYSICAL AND/OR CHEMICAL SEPARATION OF OIL/WATER/SOLIDS IN PROCESS WASTEWATERS AND OILY COOLING WASTEWATERS FROM PETROLEUM REFINERIES. SUCH WASTES INCLUDE, BUT ARE NOT LIMITED TO, ALL SLUDGES AND FLOATS GENERATED IN INDUCED AIR FLOTATION (IAF) UNITS, TANKS AND IMPOUNDMENTS, AND ALL SLUDGES GENERATED IN DAF UNITS. SLUDGES GENERATED IN STORMWATER UNITS THAT DO NOT RECEIVE DRY WEATHER FLOW, SLUDGES GENERATED IN AGGRESSIVE BIOLOGICAL TREATMENT UNITS AS DEFINED IN SECTION 261.31(B)(2) (INCLUDING SLUDGES GENERATED IN ONE OR MORE ADDITIONAL UNITS AFTER WASTEWATERS HAVE BEEN TREATED IN AGGRESSIVE BIOLOGICAL TREATMENT UNITS), AND F037, K048, AND K051 WASTES ARE EXEMPTED FROM THIS LISTING.

. Waste code: K037
. Waste name: WASTEWATER TREATMENT SLUDGES FROM THE PRODUCTION OF DISULFOTON.

. Waste code: K048
. Waste name: DISSOLVED AIR FLOTATION (DAF) FLOAT FROM THE PETROLEUM REFINING INDUSTRY.

TESORO REFINING & MARKETING COMPANY LLC (Continued) **1000177300**

. Waste code: K049
. Waste name: SLOP OIL EMULSION SOLIDS FROM THE PETROLEUM REFINING INDUSTRY.

. Waste code: K050
. Waste name: HEAT EXCHANGER BUNDLE CLEANING SLUDGE FROM THE PETROLEUM REFINING INDUSTRY.

. Waste code: K051
. Waste name: API SEPARATOR SLUDGE FROM THE PETROLEUM REFINING INDUSTRY.

. Waste code: K052
. Waste name: TANK BOTTOMS (LEADED) FROM THE PETROLEUM REFINING INDUSTRY.

. Waste code: K069
. Waste name: EMISSION CONTROL DUST/SLUDGE FROM SECONDARY LEAD SMELTING.

. Waste code: K071
. Waste name: BRINE PURIFICATION MUDS FROM THE MERCURY CELL PROCESS IN CHLORINE PRODUCTION, IN WHICH SEPARATELY PREPURIFIED BRINE IS NOT USED.

. Waste code: K169
. Waste name: CRUDE OIL STORAGE TANK SEDIMENT FROM PETROLEUM REFINING OPERATIONS

. Waste code: K170
. Waste name: CLARIFIED SLURRY OIL TANK SEDIMENT AND/OR IN-LINE FILTER/SEPARATION SOLIDS FROM PETROLEUM REFINING OPERATIONS

. Waste code: K171
. Waste name: SPENT HYDROTREATING CATALYST FROM PETROLEUM REFINING OPERATIONS,INCLUDING GUARD BEDS USED TO DESULFURIZE FEEDS TO OTHER CATALYTIC REACTORS (THIS LISTING DOES NOT INCLUDE INERT SUPPORT MEDIA)

. Waste code: LABP
. Waste name: LAB PACK

. Waste code: P102
. Waste name: 2-PROPYN-1-OL (OR) PROPARGYL ALCOHOL

. Waste code: P110
. Waste name: PLUMBANE, TETRAETHYL- (OR) TETRAETHYL LEAD

. Waste code: U004
. Waste name: ACETOPHENONE (OR) ETHANONE, 1-PHENYL-

. Waste code: U154
. Waste name: METHANOL (I) (OR) METHYL ALCOHOL (I)

. Waste code: U226
. Waste name: ETHANE, 1,1,1-TRICHLORO- (OR) METHYL CHLOROFORM

. Waste code: U239
. Waste name: BENZENE, DIMETHYL- (I,T) (OR) XYLENE (I)

Biennial Reports:

Last Biennial Reporting Year: 2017

TESORO REFINING & MARKETING COMPANY LLC (Continued) **1000177300**

Annual Waste Handled:

Waste code:	D001
Waste name:	IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.
Amount (Lbs):	31490
Waste code:	D002
Waste name:	A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.
Amount (Lbs):	32971.3
Waste code:	D004
Waste name:	ARSENIC
Amount (Lbs):	10400
Waste code:	D005

Waste code:	D009
Waste name:	MERCURY
Amount (Lbs):	14733.7
Waste code:	D010
Waste name:	SELENIUM
Amount (Lbs):	4420
Waste code:	D018
Waste name:	BENZENE
Amount (Lbs):	2212944
Waste code:	F003
Waste name:	THE FOLLOWING SPENT NON-HALOGENATED SOLVENTS: XYLENE, ACETONE, ETHYL ACETATE, ETHYL BENZENE, ETHYL ETHER, METHYL ISOBUTYL KETONE, N-BUTYL ALCOHOL, CYCLOHEXANONE, AND METHANOL; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONLY THE ABOVE SPENT NON-HALOGENATED SOLVENTS; AND ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, ONE OR MORE OF THE ABOVE NON-HALOGENATED SOLVENTS, AND, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR

TESORO REFINING & MARKETING COMPANY LLC (Continued) **1000177300**

MORE OF THOSE SOLVENTS LISTED IN F001, F002, F004, AND F005, AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.
Amount (Lbs): 33.1

Waste code: F005
Waste name: THE FOLLOWING SPENT NON-HALOGENATED SOLVENTS: TOLUENE, METHYL ETHYL KETONE, CARBON DISULFIDE, ISOBUTANOL, PYRIDINE, BENZENE, 2-ETHOXYETHANOL, AND 2-NITROPROPANE; ALL SPENT SOLVENT MIXTURES/BLENDS CONTAINING, BEFORE USE, A TOTAL OF TEN PERCENT OR MORE (BY VOLUME) OF ONE OR MORE OF THE ABOVE NON-HALOGENATED SOLVENTS OR THOSE SOLVENTS LISTED IN F001, F002, OR F004; AND STILL BOTTOMS FROM THE RECOVERY OF THESE SPENT SOLVENTS AND SPENT SOLVENT MIXTURES.
Amount (Lbs): 450

Waste code: F037
Waste name: PETROLEUM REFINERY PRIMARY OIL/WATER/SOLIDS SEPARATION SLUDGE-ANY SLUDGE GENERATED FROM THE GRAVITATIONAL SEPARATION OF OIL/WATER/SOLIDS DURING THE STORAGE OR TREATMENT OF PROCESS WASTEWATERS AND OILY COOLING WASTEWATERS FROM PETROLEUM REFINERIES. SUCH SLUDGES INCLUDE, BUT ARE NOT LIMITED TO, THOSE GENERATED IN: OIL/WATER/SOLIDS SEPARATORS; TANKS AND IMPOUNDMENTS; DITCHES AND OTHER CONVEYANCES; SUMPS; AND STORMWATER UNITS RECEIVING DRY WEATHER FLOW. SLUDGE GENERATED IN STORMWATER UNITS THAT DO NOT RECEIVE DRY WEATHER FLOW, SLUDGES GENERATED FROM NON-CONTACT ONCE-THROUGH COOLING WATERS SEGREGATED FOR TREATMENT FROM OTHER PROCESS OR OILY COOLING WATERS, SLUDGES GENERATED IN AGGRESSIVE BIOLOGICAL TREATMENT UNITS AS DEFINED IN SECTION 261.31(B)(2) (INCLUDING SLUDGES GENERATED IN ONE OR MORE ADDITIONAL UNITS AFTER WASTEWATERS HAVE BEEN TREATED IN AGGRESSIVE BIOLOGICAL TREATMENT UNITS) AND K051 WASTES ARE NOT INCLUDED IN THIS LISTING.
Amount (Lbs): 1044984

Waste code: F038
Waste name: PETROLEUM REFINERY SECONDARY (EMULSIFIED) OIL/WATER/SOLIDS SEPARATION SLUDGE-ANY SLUDGE AND/OR FLOAT GENERATED FROM THE PHYSICAL AND/OR CHEMICAL SEPARATION OF OIL/WATER/SOLIDS IN PROCESS WASTEWATERS AND OILY COOLING WASTEWATERS FROM PETROLEUM REFINERIES. SUCH WASTES INCLUDE, BUT ARE NOT LIMITED TO, ALL SLUDGES AND FLOATS GENERATED IN: INDUCED AIR FLOTATION (IAF) UNITS, TANKS AND IMPOUNDMENTS, AND ALL SLUDGES GENERATED IN DAF UNITS. SLUDGES GENERATED IN STORMWATER UNITS THAT DO NOT RECEIVE DRY WEATHER FLOW, SLUDGES GENERATED FROM NON-CONTACT ONCE-THROUGH COOLING WATERS SEGREGATED FOR TREATMENT FROM OTHER PROCESS OR OILY COOLING WATERS, SLUDGES AND FLOATS GENERATED IN AGGRESSIVE BIOLOGICAL TREATMENT UNITS AS DEFINED IN SECTION 261.31(B)(2) (INCLUDING SLUDGES AND FLOATS GENERATED IN ONE OR MORE ADDITIONAL UNITS AFTER WASTEWATERS HAVE BEEN TREATED IN AGGRESSIVE BIOLOGICAL TREATMENT UNITS) AND F037, K048, AND K051 WASTES ARE NOT INCLUDED IN THIS LISTING.
Amount (Lbs): 1016654

Waste code: K048
Waste name: DISSOLVED AIR FLOTATION (DAF) FLOAT FROM THE PETROLEUM REFINING INDUSTRY
Amount (Lbs): 1016254

Waste code: K049

TESORO REFINING & MARKETING COMPANY LLC (Continued) **1000177300**

Waste name: SLOP OIL EMULSION SOLIDS FROM THE PETROLEUM REFINING INDUSTRY
Amount (Lbs): 1016254

Waste code: K050
Waste name: HEAT EXCHANGER BUNDLE CLEANING SLUDGE FROM THE PETROLEUM REFINING INDUSTRY
Amount (Lbs): 1025804

Waste code: K051
Waste name: API SEPARATOR SLUDGE FROM THE PETROLEUM REFINING INDUSTRY
Amount (Lbs): 400

Waste code: K169
Waste name: Crude oil storage tank sediment from petroleum refining operations.
Amount (Lbs): 400

Waste code: K170
Waste name: Clarified slurry oil storage tank sediment and/or in-line filter/separation solids from petroleum refining operations.
Amount (Lbs): 19090

Waste code: K171
Waste name: Spent hydrotreating catalyst from petroleum refining operations, including guard beds used to desulfurize feeds to other catalytic reactors (excludes inert support media)
Amount (Lbs): 40780

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 04/27/2020
Date Data Arrived at EDR: 05/06/2020
Date Made Active in Reports: 05/28/2020
Number of Days to Update: 22

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 04/27/2020

Next Scheduled EDR Contact: 10/12/2020
Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Federal CERCLIS list

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 04/03/2019

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

State- and tribal - equivalent CERCLIS

SHWS: This state does not maintain a SHWS list. See the Federal CERCLIS list and Federal NPL list.

State Hazardous Waste Sites. State hazardous waste site records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. Available information varies by state.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Data Release Frequency: Varies

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines
An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations
EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by AEI Consultants were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1926 through 2014. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

CAUTION . . .
Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

GRAMA—RECORD REQUEST

Name of Requestor: Laura Mathys Email: lmathys@aeiconsultants.c

Business Name: AEI Consultants

Address: 2420 West 26th Avenue, Suite 400-D

City: Denver State: CO Zip Code: 80211

Daytime phone number where you can be contacted if necessary: 919-412-3083

Please note: State law does not require any agency to create any record to fulfill a request. GRAMA applies only to existing records.

In some cases, you may need to provide a social security number or other personal identifier to retrieve records. In the case of a request for medical records, the agency may require you to complete a HIPAA release.

DO NOT include your social security number on this form. If it is needed, the agency will provide a separate method for you to provide the number.

Description of records requested (Be as specific as possible; type of records, subject, year or dates wanted)

• Records regarding hazardous materials usage/storage/incidents or known environmental concerns/contamination which may have affected the property.
• Records regarding aboveground or underground storage tank (UST) systems.
• Record of septic systems installation and repairs and wells in connection with the following properties.
Properties include: 529 and 537 W. 400 N. and 375 N 500 W. Salt Lake City, Utah 84116; historical addresses for the property include: 517, 519, 521, 523, 525, 527, 529, 531 and 537 West 3rd/300 North

Check appropriate request:

- ☐ I would like to view/inspect the records.
- ☑ I would like to receive copies of the records. I understand that I will be responsible for copy costs. I authorize costs of up to $ 50. I understand that prepayment of copies over $50.00 may be required and that I will be contacted if estimated costs are greater than the above-specified amount.
- ☐ I would like to receive copies of the records and request a waiver of copy cost under UCA 63G-2-203 (4). Supporting documentation is attached.

If the requested records are <u>not</u> public, please explain why you believe you are entitled to access:

- ☐ I am the subject of the record. *(Present photo identification)*
- ☐ I am the person who submitted the record. *(Present photo identification)*
- ☐ I am authorized to access the record by the subject of the record.
  (Attach notarized "Consent for Release of Information" form and present photo identification.)
- ☐ Other (please explain): _____

- ☐ I am requesting expedited response as permitted by UCA 63G-2-204(3)(b).
  (Please attach information showing status as a member of the media and a statement that the records are required for a story for broadcast or publication, or other information demonstrating entitlement to an expedited response.)

Search for Building Permits

Until further notice the Salt Lake City Building Permits Office is closed to the public. Please submit applications electronically. There will be no interruption to inspection scheduling. Inspections can be scheduled and will be conducted as normal.

Enter information below to search the Salt Lake City's Building Permitting database. Permits can be searched by selecting any of the following:

- General Search
- Search by Address

When searching for an Address, minimal entries will result in better searches.

The search criteria can be any of the available fields or several fields that would indicate a search such as "Permit Number" or "Project Name".

Our Environmental Lien and AUL report provides a summary of recorded information on a specific property from the time the current owner purchased the property, to present time. The report is intended to assist in the search for environmental liens filed in land title records. The report will verify property ownership and provide information on recorded environmental liens and/or Activity and Use Limitations that have been recorded from the time the current owner purchased the property, forward.

Our professional network of trained researchers follow established industry protocols and use client-supplied property information to complete this Environmental Lien and AUL report. The research is conducted at all appropriate government offices based on the location of the subject property. This would include City, County, State, Federal and Tribal offices as needed. The report includes:

- Current deed information (i.e. grantor, grantee, recording dates)
- Legal Description
- Environmental Lien information
- Activity and Use Limitation information
- Any Environmental Liens and/or documents referencing AULs that are listed within our summary report

DISCLAIMER

AEI Project No. 384314

Dear Ivan Carroll:

AEI Consultants is pleased to provide the *Phase I Environmental Site Assessment (Phase I ESA)* report of the above referenced property. This assessment was authorized and performed in accordance with the scope of services outlined in AEI's contract, the scope and limitations of ASTM Standard Practice E1527-13, and the Environmental Protection Agency Standards and Practices for All Appropriate Inquiries (40 CFR Part 312).

We appreciate the opportunity to provide services to you. If you have any questions concerning this report, or if we may assist you in any other matter, please contact me at (925) 250-4671 or rfehler@aeiconsultants.com.

Sincerely,

Richard D. Fehler
AEI Consultants

EXECUTIVE SUMMARY

AEI Consultants (AEI) was retained by Giv Development to conduct a Phase I ESA in conformance with AEI's contract and the scope and limitations of ASTM Standard Practice E1527-13 and the EPA Standards and Practices for All Appropriate Inquiries (40 CFR Part 312) for the property located at 529 W 400 N and 375 N 500 W #NFF1, Salt Lake City, Salt Lake County, Utah (the "subject property"). Any exceptions to, or deletions from, this practice are described in Sections 1.4, 1.5, and 1.6 of this report.

Pertinent subject property information is noted below:

PROPERTY INFORMATION	
Site Address(es)	529 W 400 N and 375 N 500 W #NFF1, Salt Lake City, Salt Lake County, Utah 84116
Property ID (APN or Block/Lot)	08361550300000, 08361550200000, portion of 08361550280000
Location	Southwest side of West 400 North and North 500 West and vacant land to the southwest
Property Type	Light-industrial
SITE AND BUILDING INFORMATION	
Approximate Site Acreage/Source	1.5 acres/Client provided information
Number of Buildings	One
Building Construction Date(s)	1977
Building Square Footage (SF)/Source	18,000 SF/Salt Lake Assessor data
Number of Floors/Stories	One-story with mezzanine area
Basement or Subgrade Area(s)	None identified
Number of Units	Two
Additional Improvements	Asphalt-paved parking areas and associated landscaping
On-site Occupant(s)	Meta Designs and City Sites
Current On-site Operations/Use	Architectural metal fabrication, bus rebuilds and bus storage, vacant land
Current Use of Hazardous Substances	Yes, oil, used oil, gasoline, antifreeze; refer to Section 7.1
REGULATORY INFORMATION	
Regulatory Database Listings	RCRA NonGen/NLR (3), FINDS (4), ECHO (4), UST

A chronological summary of historical subject property information is as follows:

Date Range	Subject Property Description and Use (Historical Addresses)	Source(s)
1898	Dwelling and vacant land	Sanborn maps
1911-1971	Dwellings	Sanborn maps, aerial photographs
1977	East side of industrial building constructed and dwelling	Assessor data, aerial photograph
1980	Current industrial building constructed and dwelling	Aerial photographs
1981	Current industrial building occupied by Moss Williams Warehouse	City directories

Date Range	Subject Property Description and Use (Historical Addresses)	Source(s)
1981-2006	Current industrial building and southern adjacent property occupied by Complex Fabricators (steel fabricators)	City directories, interview
1985-1990	Current industrial building occupied by Utah Power and Light Traveling Plant	City directories
2010	Current industrial building and southern adjacent property occupied by True Fit Design	City directories, interview
2012-present	Current industrial building unit occupied by Meta Designs (architectural metal fabrication shop)	Interview, site visit
2016-present	Current industrial building unit occupied by City Sites (bus rebuilds and storage)	Interview, site visit

The immediately surrounding properties consist of the following:

Direction from Site	Tenant/Use (Address)	Regulatory Database Listing(s)
North	400 North followed by: Residences (514-544 W 400 N) Commercial building (508 W 400 N)	None identified
East	N 500 W followed by: Railroad	None identified
South	Multi-family residential building and clubhouse (375 N 500 W)	UST, RCRA NonGen/NLR (2), FINDS (2), ECHO (2)
Southeast of south parcel	Union Pacific Railroad Maintenance/Storage Yard (300 and 321 N 500 W)	LUST, UST
South of south parcel	Jack Mormon Coffee Roasting (548 W 300 N)	None identified
West	Residences (320-326 600 W) (555 W 400 N) and Multi-tenant commercial building (551 W 400 N)	None identified

If the surrounding properties are listed in the regulatory database, please refer to Section 5.1 for discussion.

FINDINGS

Recognized Environmental Condition (REC) is defined by the ASTM Standard Practice E1527-13 as the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment.

- AEI did not identify evidence of RECs during the course of this assessment.

Controlled Recognized Environmental Condition (CREC) is defined by the ASTM Standard Practice E1527-13 as a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority, with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls.

- AEI did not identify evidence of CRECs during the course of this assessment.

Historical Recognized Environmental Condition (HREC) is defined by the ASTM Standard Practice E1527-13 as a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls.

- AEI did not identify evidence of HRECs during the course of this assessment.

Other Environmental Considerations (OEC) warrant discussion, but do not qualify as RECs as defined by the ASTM Standard Practice E1527-13. These include, but are not limited to, de minimis conditions and/or environmental considerations such as the presence of ACMs, LBP, radon, mold, and lead in drinking water, which can affect the liabilities and financial obligations of the client, the health and safety of site occupants, and the value and marketability of the subject property.

- Due to the age of the subject property building, there is a potential that ACMs are present. According to the Mr. Ivan Carroll, owner representative, demolition of the subject property building is planned for the near future. Regardless of building construction date, the EPA's NESHAP requires that a thorough asbestos survey be performed prior to demolition or renovation activities that may disturb ACMs. This requirement may be enforced by federal, state and local regulatory agencies, and specifies that all suspect ACMs be sampled to determine the presence or absence of asbestos prior to any renovation or demolition activities which may disturb them to prevent potential exposure to workers, building occupants, and the environment. Similarly, OSHA regulations require that specific work practices be implemented when handling construction materials and debris that contain asbestos and/or lead-containing materials.
- Due to the age of the subject property building, there is a potential that LBP is present. AEI understands that demolition activities of the subject property buildings are planned. AEI recommends that the property owner consult with a certified Lead Risk Assessor to determine options for control of possible LBP hazards. Stringent local and State regulations may apply to LBP in association with building demolition/renovations and worker/occupant protection. It should be noted that construction activities that disturb materials or paints containing any amount of lead may be subject to certain requirements of the OSHA lead standard contained in 29 CFR 1910.1025 and 1926.62.

CONCLUSIONS, OPINIONS, AND RECOMMENDATIONS

We have performed a Phase I ESA in conformance with the scope and limitations of ASTM Standard Practice E1527-13 and the EPA Standards and Practices for All Appropriate Inquiries (40 CFR Part 312) of 529 W 400 N and 375 N 500 W #NFF1, Salt Lake City, Salt Lake County, Utah, the *subject property*. Any exceptions to, or deletions from, this practice are described in Sections 1.4, 1.5, and 1.6 of this report.

AEI did not identify evidence of RECs or CRECs in connection with the subject property during the course of this assessment. AEI recommends no further investigation for the subject property at this time.

1.0 INTRODUCTION

This report documents the methods and findings of the Phase I ESA performed in conformance with AEI's contract and scope and limitations of ASTM Standard Practice E1527-13 and the EPA Standards and Practices for All Appropriate Inquiries (40 CFR Part 312) for the property located at 529 W 400 N and 375 N 500 W #NFF1, Salt Lake City, Salt Lake County, Utah (Appendix A: Figures and Appendix B: Property Photographs).

1.1 SCOPE OF WORK

The purpose of the Phase I ESA is to assist the client in identifying potential RECs, in accordance with ASTM E1527-13, associated with the presence of any hazardous substances or petroleum products, their use, storage, and disposal at and in the vicinity of the subject property. Property assessment activities focused on: 1) a review of federal, state, tribal, and local databases that identify and describe underground fuel tank sites, leaking underground fuel tank sites, hazardous waste generation sites, and hazardous waste storage and disposal facility sites within the ASTM approximate minimum search distance; 2) a property and surrounding site reconnaissance, and interviews with the past and present owners and current occupants and operators to identify potential environmental contamination; and 3) a review of historical sources to help ascertain previous land use at the site and in the surrounding area.

1.2 ADDITIONAL SERVICES

Other Environmental Considerations such as ACMs, LBP, lead in drinking water, radon, mold, and wetlands can result in business environmental risks for property owners which may disrupt current or planned operations or cash flow and are generally beyond the scope of a Phase I assessment as defined by ASTM E1527-13. Based upon the agreed-on scope of services this ESA did not include subsurface or other invasive assessments, business environmental risks, or other services not specifically identified and discussed herein.

1.3 SIGNIFICANT ASSUMPTIONS

The following assumptions are made by AEI in this report. AEI relied on information derived from secondary sources including governmental agencies, the client, designated representatives of the client, property contact, property owner, property owner representatives, computer databases, and personal interviews. AEI has reviewed and evaluated the thoroughness and reliability of the information derived from secondary sources including government agencies, the client, designated representatives of the client, property contact, property owner, property owner representatives, computer databases, or personal interviews. It appears that all information obtained from outside sources and reviewed for this assessment is thorough and reliable. However, AEI cannot guarantee the thoroughness or reliability of this information.

Groundwater flow, unless otherwise specified by on-site well data or well data from the subject property or nearby sites, is inferred from contour information depicted on the USGS topographic maps. AEI assumes the property has been correctly and accurately identified by the client, designated representative of the client, property contact, property owner, and property owner's representatives.

1.4 LIMITATIONS

Property conditions, as well as local, state, tribal, and federal regulations can change significantly over time. Therefore, the recommendations and conclusions presented as a result of this assessment apply strictly to the environmental regulations and property conditions existing at the time the assessment was performed. Available information has been analyzed using currently accepted assessment techniques and it is believed that the inferences made are reasonably representative of the property. AEI makes no warranty, expressed or implied, except that the services have been performed in accordance with generally accepted environmental property assessment practices applicable at the time and location of the assessment.

Considerations identified by ASTM as beyond the scope of a Phase I ESA that may affect business environmental risk at a given property include the following: ACMs, radon, LBP, lead in drinking water, wetlands, regulatory compliance, cultural and historical resources, industrial hygiene, health and safety, ecological resources, endangered species, indoor air quality, mold, and high voltage lines. These environmental issues or conditions may warrant assessment based on the type of the property transaction; however, they are considered non-scope issues under ASTM Standard Practice E1527-13.

If requested by the client, these non-scope issues are discussed herein. Otherwise, the purpose of this assessment is solely to satisfy one of the requirements for qualification of the innocent landowner defense, contiguous property owner or bona fide prospective purchaser under CERCLA. ASTM Standard Practice E1527-13 and the United States EPA Standards and Practices for All Appropriate Inquiries (40 CFR Part 312) constitute the "all appropriate inquiry into the previous ownership and uses of the property consistent with good commercial or customary practice" as defined in:

1. 42 U.S.C. § 9601(35)(B), referenced in the ASTM Standard Practice E1527-13.
2. Sections 101(35)(B) (ii) and (iii) of CERCLA and referenced in the EPA Standards and Practices for All Appropriate Inquiries (40 CFR Part 312).
3. 42 U.S.C. § 9601(40) and 42 U.S.C. § 9607(q).

The Phase I ESA is not, and should not be construed as, a warranty or guarantee about the presence or absence of environmental contaminants that may affect the property. Neither is the assessment intended to assure clear title to the property in question. The sole purpose of assessment into property title records is to ascertain a historical basis of prior land use. All findings, conclusions, and recommendations stated in this report are based upon facts, circumstances, and industry-accepted procedures for such services as they existed at the time this report was prepared (i.e., federal, state, and local laws, rules, regulations, market conditions, economic conditions, political climate, and other applicable matters). All findings, conclusions, and recommendations stated in this report are based on the data and information provided, current subject property use, and observations and conditions that existed on the date and time of the property reconnaissance.

Responses received from local, state, or federal agencies or other secondary sources of information after the issuance of this report may change certain facts, findings, conclusions, or circumstances to the report. A change in any fact, circumstance, or industry-accepted procedure upon which this report was based may adversely affect the findings, conclusions, and recommendations expressed in this report.

AEI's limited radon screening, if included, is intended to provide a preliminary screening to evaluate the potential presence of elevated radon concentrations at the site. The proposed scope is not intended to define the full extent of the presence of radon at the subject property. As such, the results should be used for lending purposes only. The recommendations and conclusions presented as a result of the limited preliminary radon screening apply strictly to the property conditions existing at the time the sampling was performed. The sample analytical results are only valid for the time, place, and condition of the site at the time of collection and AEI does not warrant that the results will be repeatable or are representative of past or future conditions.

1.5 Limiting Conditions/Deviations

The performance of this Phase I ESA was limited by the following:

- While additional assessments may have been conducted on the subject property, these documents must be provided for AEI's review in order for the information to be summarized/included in this Phase I ESA. Please refer to Section 6.3 for a summary of previous reports and other documentation provided to AEI during this assessment.
- The User did not complete the ASTM User Questionnaire or provide the User information to AEI. AEI assumes that qualification for the LLPs is being established by the User in documentation outside of this assessment.
- At the time of the site reconnaissance, the parking lot and surrounding surfaces were covered with snow and therefore could not be directly observed. Based on regulatory agency records, this limitation is not expected to significantly change the findings of this report.

1.6 Data Failure and Data Gaps

According to ASTM E1527-13, data gaps occur when the Environmental Professional is unable to obtain information required by the Standard, despite good faith efforts to gather such information. Pursuant to ASTM E1527-13, only significant data gaps, defined as those that affect the ability of the Environmental Professional to identify RECs, need to be documented.

Data failure is one type of data gap. According to ASTM E1527-13, data failure occurs when all of the standard historical sources that are reasonably ascertainable and likely to be useful have been reviewed and yet the objectives have not been met. Pursuant to ASTM E1527-13, historical sources are required to document property use back to the property's first developed use or back to 1940, whichever is earlier, or periods of five years or greater.

1.6.1 Data Failure

The following data failure was identified during the course of this assessment:

Data Failure	The earliest historical resource obtained during this assessment was a Sanborn Map from 1898 indicating that the subject property was developed with a residence. The lack of historical sources for the subject property dating back to first developed use represents historical data source failure. However, as it is assumed that the subject property would have been previously used for residential purposes, if not undeveloped, this data failure is not expected to significantly alter the findings of this assessment.

Information/Sources Consulted	City directories, Sanborn fire insurance maps, aerial photographs, agency records, interviews

1.6.2 DATA GAPS

AEI did not identify significant data gaps which affected our ability to identify RECs.

1.7 RELIANCE

All reports, both verbal and written, are for the benefit of Giv Development. This report has no other purpose and may not be relied upon by any other person or entity without the written consent of AEI. Either verbally or in writing, third parties may come into possession of this report or all or part of the information generated as a result of this work. In the absence of a written agreement with AEI granting such rights, no third parties shall have rights of recourse or recovery whatsoever under any course of action against AEI, its officers, employees, vendors, successors, or assigns. Reliance is provided in accordance with AEI's contract and Standard Terms and Conditions executed by Giv Development on February 14, 2018. The limitation of liability defined in the Terms and Conditions is the aggregate limit of AEI's liability to the client and all relying parties.

2.3 SITE AND VICINITY CHARACTERISTICS

The subject property is located in a commercial and residential area of Salt Lake City, Utah. The immediately surrounding properties consist of the following:

Direction from Site	Tenant/Use (Address)	Regulatory Database Listing(s)
North	400 North followed by: Residences (514-544 W 400 N) Commercial building (508 W 400 N)	None identified
East	N 500 W followed by: Railroad	None identified
South	Multi-family residential building and clubhouse (375 N 500 W)	UST, RCRA NonGen/NLR (2), FINDS (2), ECHO (2)
Southeast of south parcel	Union Pacific Railroad Maintenance/Storage Yard (300 and 321 N 500 W)	LUST, UST
South of south parcel	Jack Mormon Coffee Roasting (548 W 300 N)	None identified
West	Residences (320-326 600 W) (555 W 400 N) and Multi-tenant commercial building (551 W 400 N)	None identified

If the surrounding properties are listed in the regulatory database, please refer to Section 5.1 for discussion.

2.4 PHYSICAL SETTING

Geologic Unit: Description/Source	The area surrounding the subject property is located at the eastern edge of the Bonneville Basin, a deep sediment-filled structural basin along the eastern edge of the Basin and Range physiographic province. The Bonneville Basin covers most of northwestern Utah and is bounded immediately to the east by the Wasatch Range of the Middle Rocky Mountain physiographic province/USGS and United States Department of the Interior
Soil Series: Description/Source	The soils in the vicinity of the subject property are classified as the being in urban land and was not mapped because the ground was developed with buildings and paving and deemed not accessible. A geotechnical report preparedby GSH-Geotechnical for the property described the subsurface soils as including about 1-3 inches of asphalt or concrete, followed by 1½ to 7 feet of surficial fill materials mostly gravel with some silt and clay. Natural soils consisted of silty clays with some fine sand and sandy clays/USDA Soil Survey
Groundwater Flow Direction/Source	West/Topographic map interpretation
Estimated Depth to Groundwater/ Source	3-10 feet bgs/State of Utah Department of Environmental Quality-Division of Environmental Response and Remediation UST/LUST files for sites within 1/4 mile of the subject property
Surface waters on the subject property or adjacent sites	None

Note: Groundwater flow direction can be influenced locally and regionally by the presence of local wetland features, surface topography, recharge and discharge areas, horizontal and vertical inconsistencies in the types and location of subsurface soils, and proximity to water pumping wells. Depth and gradient of the water table can change seasonally in response to variation in precipitation and recharge, and over

time, in response to urban development such as storm water controls, impervious surfaces, pumping wells, cleanup activities, dewatering, seawater intrusion barrier projects near the coast, and other factors.

3.0 HISTORICAL REVIEW OF SITE AND VICINITY

Reasonably ascertainable standard historical sources as outlined in ASTM Standard E1527-13 were used to determine previous uses and occupancies of the subject property that are likely to have led to RECs in connection with the subject property. A chronological summary of historical data found, including but not limited to aerial photographs, historical city directories, Sanborn fire insurance maps, and agency records, is as follows:

Date Range	Subject Property Description and Use (Historical Addresses)	Source(s)
1898	Dwelling and vacant land	Sanborn maps
1911-1971	Dwellings	Sanborn maps, aerial photographs
1977	East side of industrial building constructed and dwelling	Assessor data, aerial photograph
1980	Current industrial building constructed and dwelling	Aerial photographs
1981	Current industrial building occupied by Moss Williams Warehouse	City directories
1981-2006	Current industrial building and southern adjacent property occupied by Complex Fabricators (steel fabricators)	City directories, interview
1985-1990	Current industrial building occupied by Utah Power and Light Traveling Plant	City directories
2010	Current industrial building and southern adjacent property occupied by True Fit Design	City directories, interview
2012-present	Current industrial building unit occupied by Meta Designs (architectural metal fabrication shop)	Interview, site visit
2016-present	Current industrial building unit occupied by City Sites (bus rebuilds and storage)	Interview, site visit

The following historical addresses were associated with the subject property: 517-537 W 3rd St N, 369-383 N 4th St W, 24-25 Shortline Ave. These addresses were also researched as part of this assessment.

AEI did not identify potential environmental concerns in association with the current or historical use of the subject property.

If available, copies of historical sources are provided in the report appendices.

3.1 AERIAL PHOTOGRAPHS

AEI reviewed aerial photographs of the subject property and surrounding area. A search was made of the EDR collection of aerial photographs. Aerial photographs were reviewed for the following years:

Year(s)	Subject Property Description	Adjacent Site Descriptions
1937, 1946, 1952	Dwellings	NORTH: Roadway followed by dwellings EAST: Railway SOUTH: Vacant land WEST: Dwellings NORTH of south parcel: Commercial building

Year(s)	Subject Property Description	Adjacent Site Descriptions
1958, 1962, 1965, 1971	Dwellings	NORTH: No significant change EAST: No significant change SOUTH: Commercial building WEST: No significant change NORTH of south parcel: No significant change
1977	Commercial building on east side of north parcel	NORTH: No significant change EAST: No significant change SOUTH: No significant change WEST: No significant change NORTH of south parcel: No significant change
1981, 1987, 1993, 1997, 2006, 2009, 2011	Current commercial building	NORTH: Dwellings and commercial building EAST: No significant change SOUTH: Commercial buildings WEST: No significant change NORTH of south parcel: No significant change

AEI did not identify potential environmental concerns in association with the historical use of the subject property during the aerial photograph review.

3.2 SANBORN FIRE INSURANCE MAPS

Sanborn Fire Insurance maps were developed in the late 1800s and early 1900s for use as an assessment tool for fire insurance rates in urbanized areas. A search was made of the EDR collection of Sanborn Fire Insurance maps.

The following maps were reviewed:

Year(s)	Subject Property Description (Listed Address)	Adjacent Site Descriptions
1898	Dwelling (537 W 3rd St N) and vacant land	NORTH: Roadway followed by dwellings EAST: Railroad tracks followed by dwellings SOUTH: Vacant land WEST: Dwellings NORTH of south parcel: Vacant land
1911	Dwellings (517-527 W 3rd St N) (369-383 N 4th St W) (25 Shortline Ave)	NORTH: Roadway followed by dwellings EAST: Railroad tracks SOUTH: Vacant land WEST: Dwellings NORTH of south parcel: Can factory
1949, 1950	Dwelling (517-537 W 3rd St N) (24 Shortline Avenue)	NORTH: Roadway followed by dwellings EAST: Railroad tracks SOUTH: Vacant land WEST: Dwellings and restaurant NORTH of south parcel: Mattress factory

Year(s)	Subject Property Description (Listed Address)	Adjacent Site Descriptions
1986	Commercial building (537 W 3rd St N), dwelling (24 Shortline Avenue)	NORTH: Roadway followed by dwellings and commercial building EAST: Railroad tracks SOUTH: Commercial building WEST: Dwellings NORTH of south parcel: Furniture manufacturing

AEI did not identify potential environmental concerns in association with the historical use of the subject property during the Sanborn map review.

3.3 CITY DIRECTORIES

A search of historical city directories was conducted for the subject property utilizing EDR and at the Salt Lake City Public Library. No potential tenants of concern were identified based on AEI's review of the historical city directories. Directories were reviewed in approximate five-year increments from 1940 to 2016. The first listing for the subject property appeared in 1981. Please refer to the appendices for a complete list of historical subject property tenants identified by EDR.

Year(s)	Address - Occupant Listed
1940, 1945, 1950, 1955, 1960, 1965, 1970, 1975	Addresses not listed
1956, 1961	375 N 500 W- Corner Sup Grocery
1970-71	375 N 500 W- Northwest Grocery
1981	529 W 400 N- Moss Williams Inc Warehouse 375 N 500 W- Complex Fabricators
1985	529 W 400 N- Utah Power and Light Traveling Plant 375 N 500 W- Complex Fabricators (steel fabricators), KB Sales nuts and bolts, C Intermountain Stamping and Tool
1990	529 W 400 N- Utah Power and Light Traveling Plant 375 N 500 W- Complex Fabricators, KB nuts and bolts
2001	375 N 500 W- Complex Fabricators, Campro Recreation
2006	375 N 500 W- Complex Fabricators
2010	375 N 500 W- True Fit Design
2014	375 N 500 W- Modern Union Industries, Rogers Equipment Sales
2016	529 W 400 N- Meta Designs, SLC Tours

The 375 N 500 W address was likely associated with the southern adjacent site from 1956-1971 according to aerial photographs. According to the key site manager, the Complex Fabricators was associated with the southern adjacent site and subject property.

AEI did not identify potential environmental concerns in association with the historical use of the subject property during the city directory review.

3.4 HISTORICAL TOPOGRAPHIC MAPS

In accordance with our approved scope of services, historical topographic maps were not reviewed as a part of this assessment.

3.5 CHAIN OF TITLE

In accordance with our approved scope of services, a chain of title search was not performed as part of this assessment.

4.0 REGULATORY AGENCY RECORDS REVIEW

Local and state agencies, such as environmental health departments, fire prevention bureaus, and building and planning departments are contacted to identify any current or previous reports of hazardous substance use, storage, and/or unauthorized releases that may have impacted the subject property. In addition, information pertaining to AULs, defined as legal or physical restrictions, or limitations on the use of, or access to, a site or facility, is requested.

4.1 LOCAL ENVIRONMENTAL HEALTH DEPARTMENT AND/OR STATE ENVIRONMENTAL AGENCY

Agency	Date Contacted	Method of Contact	Name & Title of Contact	Agency Response
Utah Department of Environmental Quality (UDEQ)	February 21, 2018	Website	N/A	Response received, records discussed below

The Complex Fabrications Inc. at 375 N 500 W was listed with a permanently out of use 6,000 gallon UST. The tank was installed in 1981 and the tank was closed in 1989. According to a closure survey dated May 16, 1989, the tank was removed from the site. Laboratory test results indicated that the soil sample from the excavation had no detectable hydrocarbons. Based on the lack of a documented release, the regulatory oversight, and the removal of the UST, the gasoline UST located on the subject property, or southern adjacent site is not expected to represent a significant environmental concern to the subject property.

The 375 North 500 W Building C located on the southern adjacent site was identified as Chapman Racing Heads was listed as a closed RCRA site in 2006. Based on the lack of a documented release, the listing is not expected to represent a significant environmental concern to the subject property.

4.2 FIRE DEPARTMENT

Agency	Date Contacted	Method of Contact	Name & Title of Contact	Agency Response
Salt Lake City Fire Department (SLCFD)	February 21, 2018	Email	Administrator	Response received, records discussed below

The Salt Lake City Fire Department noted there was a gasoline UST at 375 N 500 W from 1981 to 1989. The UST was removed in 1989 and no leakage or major pitting was noted. Based on the lack of a documented release, the regulatory oversight, and the removal of the UST, the gasoline UST located on the subject property, or southern adjacent site is not expected to represent a significant environmental concern to the subject property.

4.3 BUILDING DEPARTMENT

Agency	Date Contacted	Method of Contact	Name & Title of Contact	Agency Response
Salt Lake City Building Department (SLCBD)	February 21, 2018	Website	N/A	Response received, records discussed below

Review of current building permits found during on-line search did not identify any building permits or other historical information for the property. Evidence indicating current or prior use or storage of hazardous substances was not on file for the subject property with the SLCBD.

4.4 PLANNING DEPARTMENT

Agency	Date Contacted	Method of Contact	Name & Title of Contact	Agency Response
Salt Lake City Planning Department (SLCPD)	February 21, 2018	Website	N/A	No evidence indicating the existence of AULs on file for the subject property

AEI reviewed on-line information regarding the subject property and found no active projects listed and the current zoning for the property listed as TSA-UC which is described as Urban Center Transit Station for mixed uses to support the downtown Salt Lake area. Property owner stated he has already received approval from the planning department for the planned redevelopment as multi-family residential (apartments).

4.5 ASSESSOR'S OFFICE

Agency	Date Contacted	Method of Contact	Name & Title of Contact	Agency Response
Salt Lake County Assessor's Office	February 21, 2018	Website	N/A	Information obtained is discussed below

Records Summary

APN	08361550300000, 08361550200000, portion of 08361550280000
Acreage	1.5 acres
Construction Date	1977
Building Square Footage	18,000 SF
Current Owner	Rowland LLC, North 4th LLC

4.6 OTHER AGENCIES SEARCHED

No other agencies were contacted during the course of this assessment.

4.7 OIL AND GAS WELLS

Agency	Date Referenced	Resource	Oil or gas wells located within 500 feet of the subject property
Utah Department of Natural Resources Oil, Gas and Mining (UDNR OGM)	February 21, 2018	UDNR OGM Map	No

4.8 Oil and Gas Pipelines

Agency	Date Referenced	Resource	Pipelines located within 500 feet of the subject property
National Pipeline Mapping System (NPMS)	February 21, 2018	NPMS Public Map Viewer	No

4.9 State Environmental Superliens

In accordance with our approved scope of services, AEI did not assess whether the subject property is subject to any state environmental superliens.

4.10 State Property Transfer Laws

In accordance with our approved scope of services, AEI did not assess whether the subject property is subject to any state property transfer laws.

5.0 REGULATORY DATABASE RECORDS REVIEW

AEI contracted EDR to conduct a search of publicly available information from federal, state, tribal, and local databases containing known and suspected sites of environmental contamination and sites of potential environmental significance. Data gathered during the current regulatory database search is compiled by EDR into one regulatory database report. Location information for listed sites is designated using geocoded information provided by federal, state, or local agencies and commonly used mapping databases with the exception of "Orphan" sites. Due to poor or inadequate address information, Orphan sites are identified but not geocoded/mapped by EDR, rather, information is provided based upon vicinity zip codes, city name, and state. The number of listed sites identified within the approximate minimum search distance from the federal and state environmental records database listings specified in ASTM Standard E1527-13 is summarized in Section 5.1, along with the total number of Orphan sites. A copy of the regulatory database report, which includes detailed descriptions of the databases noted below, is included in Appendix C of this report.

The subject property was identified in the regulatory database report as follows: RCRA NonGen/ NLR (3), FINDS (4), ECHO (4), UST. Refer to Section 5.1 for additional discussion.

In determining if a listed site is a potential environmental concern to the subject property, AEI generally applies the following criteria to classify the site as lower potential environmental concern: 1) the site only holds an operating permit (which does not imply a release), 2) the site's distance from, and/or topographic position relative to, the subject property, and/or 3) the site has recently been granted "No Further Action" by the appropriate regulatory agency.

5.1 RECORDS SUMMARY

Database	Search Distance (Miles)	Subject Property Listed	Listings Within Search Distance	Listings Determined To Warrant Additional Discussion Below
NPL	1.0	No	1	0
DELISTED NPL	0.5	No	0	0
SEMS/CERCLIS	0.5	No	2	0
SEMS-ARCHIVE/CERCLIS NFRAP	0.5	No	3	0
RCRA CORRACTS	1.0	No	3	0
RCRA-TSDF	0.5	No	0	0
RCRA LQG, SQG, CESQGs, NLR	SP/ADJ	**Yes**	3	3
US ENG CONTROLS	SP	No	0	0
US INST CONTROLS	SP	No	0	0
ERNS	SP	No	0	0
STATE/TRIBAL HWS	1.0	No	0	0
STATE/TRIBAL SWLF	0.5	No	0	0
STATE/TRIBAL REGISTERED STORAGE TANKS	SP/ADJ	**Yes**	1	1
STATE/TRIBAL LUST	0.5	No	16	1
STATE/TRIBAL EC and IC	SP	No	0	0
STATE/TRIBAL VCP	0.5	No	0	0

Database	Search Distance (Miles)	Subject Property Listed	Listings Within Search Distance	Listings Determined To Warrant Additional Discussion Below
STATE/TRIBAL BROWNFIELD	0.5	No	0	0
ORPHAN	N/A	No	3	0
ADDITIONAL ENVIRONMENTAL RECORD SOURCES	SP/ADJ	**Yes**	8	8

Facility Name	Advanced Petroleum Recycling
Address	529 W 400 N
Distance & Direction	Subject Property
Hydrologic Position	N/A
Databases Listed	RCRA NonGen/NLR, FINDS, ECHO
Comments	The site became a non-generator in 2007. In 1994, the site was a small quantity generator generating ignitable waste. General violations were identified in 1992. The FINDS and ECHO listing are in reference to the RCRA listing and are considered duplicative. Based on the lack of a documented release, the listing is not expected to represent a significant environmental concern.

Facility Name	Complex Fabrication Inc., Chapman Racing Heads
Address	375 N 500 W
Distance & Direction	Subject Property and southern adjacent property
Hydrologic Position	N/A
Databases Listed	UST, RCRA NonGen/NLR (2), FINDS (2), ECHO (2)
Comments	The site was listed as a UST site. The UST is further discussed in Section 4.1. The Complex Fabrication site became a non-generator in 2007. No violations were identified. Dumping of an unknown white substance was identified as a FINDS and ECHO listing. According to the database, there were no violations identified in 2007. Based on the lack of a documented release, the listing is not expected to represent a significant environmental concern. The Chapman Racing Heads identified at 375 N 500 W building C site became a non-generator in 2007. The site appears to have been a historical southern adjacent building. The site generated ignitable waste, cadmium, lead, benzene, methyl ethyl ketone, tetrachloroethylene, and trichlorethylene. The site was a small quantity generator in 1996 generating the same waste. No violations were identified. Based on the presumed off-site nature, and lack of a documented release, the site is not expected to represent a significant environmental concern to the subject property.

Facility Name	Salt Lake City Maintenance Shop- Union Pacific Railroad Co
Address	300 North 500 West

Distance & Direction	300 feet south
Hydrologic Position	Cross-gradient
Databases Listed	LUST, UST
Comments	According to the regulatory database, the LUST case is associated with a entry/ notification date of 3/23/1994 for a release of "diesel". The current facility status is "closed". Based on the closed status (NFA letter issued 12/13/1995) of the LUST case, this listing is not expected to represent a significant environmental concern.

5.2 VAPOR MIGRATION

AEI reviewed reasonably ascertainable information for the subject and nearby properties, including a regulatory database, files for nearby release sites, and/or historical documentation, to determine if potential vapor-phase migration concerns may be present which could impact the subject property.

Based on a review of available resources as documented in this report, AEI did not identify significant on-site concerns and/or regulated listings from nearby sites which suggest that a vapor-phase migration concern currently exists at the subject property.

6.0 INTERVIEWS AND USER PROVIDED INFORMATION

6.1 INTERVIEWS

Pursuant to ASTM E1527-13, the following interviews were performed during this assessment in order to obtain information indicating RECs in connection with the subject property.

6.1.1 OWNER AND KEY SITE MANAGER

Relation to Property	Name	Date Interviewed	Method of Contact	Year First Associated w/ Property	Notes
Owner/Owner Representative	Mr. Ivan Carroll	February 26, 2018	In Person	2017	Interviewed; see Interview Summary table below
Key Site Manager	Mr. Ivan Carroll	February 26, 2018	In Person	2017	Owner is acting Key Site Manager; see Interview Summary table below

Interview Summary

Question	Owner (Representative) Response/Comment	Key Site Manager Response/ Comment
Do you have any knowledge of USTs, clarifiers or oil/ water separators, sumps, or other subsurface features?	No	No
Do you have any knowledge of previous environmental investigations conducted on site?	No	No
Do you have any knowledge of current or past industrial operations and/or other operations which would involve the use of hazardous substances and/or petroleum products?	No	No
Are you aware of any known plans for site redevelopment or change in site use?	Yes	Yes
Are you aware of any pending, threatened, or past litigation relevant to hazardous substances or petroleum products in, on, or from the property?	No	No
Are you aware of any pending, threatened or past administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the property?	No	No
Are you aware of any notices from any governmental entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products?	No	No
Are you aware of any incidents of flooding, leaks, or other water intrusion, and/or complaints related to indoor air quality?	No	No

Question	Owner (Representative) Response/Comment	Key Site Manager Response/ Comment
Additional information provided:	Most of the current building will be demolished and a five-story 70-unit multi-family apartment will be built	N/A

6.1.2 Past Owners, Operators, and Occupants

AEI did not attempt to interview past owners, operators, and occupants of the subject property because information from these sources would likely be duplicative of information already obtained from other sources.

6.1.3 Interview with Others

Information obtained during interviews with local government officials is incorporated into the appropriate segments of this section.

6.2 User Provided Information

User provided information is intended to help identify the possibility of RECs in connection with the subject property. According to ASTM E1527-13 and the EPA Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), certain items should be researched by the prospective landowner or grantee, and the results of such inquiries may be provided to the Environmental Professional. The responsibility for qualifying for LLPs by conducting the inquiries ultimately rests with the User, and providing the information to the Environmental Professional would be prudent if such information is available.

The User did not complete the ASTM User Questionnaire or provide the User information to AEI. AEI assumes that qualification for the LLPs is being established by the User in documentation outside of this assessment.

Question	Response/ Comment
1. Environmental liens that are filed or recorded against the property (40 CFR 312.25) Did a search of recorded land title records (or judicial records where appropriate) identify any environmental liens filed or recorded against the property under federal, tribal, state or local law?	Information not provided
2. Activity and use limitations that are in place on the property or that have been filed or recorded against the property (40 CFR 312.26(a)(1)(v) and vi)). Did a search of recorded land title records (or judicial records where appropriate) identify any AULs, such as engineering controls, land use restrictions or institutional controls that are in place at the property and/or have been filed or recorded against the property under federal, tribal, state or local law?	Information not provided

Question	Response/ Comment
3. Specialized knowledge or experience of the person seeking to qualify for the LLP (40 CFR 312.28). Do you have any specialized knowledge or experience related to the property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business?	Information not provided
4. Relationship of the purchase price to the fair market value of the property if it were not contaminated (40 CFR 312.29). Does the purchase price being paid for this property reasonably reflect the fair market value of the property? If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the property?	Information not provided
5. Commonly known or reasonably ascertainable information about the property (40 CFR 312.30). Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example: (a) Do you know the past uses of the property? (b) Do you know of specific chemicals that are present or once were present at the property? (c) Do you know of spills or other chemical releases that have taken place at the property? (d) Do you know of any environmental cleanups that have taken place at the property?	Information not provided
6. The degree of obviousness of the presence or likely presence of contamination at the property, and the ability to detect the contamination by appropriate investigation (40 CFR 312.31). Based on your knowledge and experience related to the property, are there any obvious indicators that point to the presence or likely presence of contamination at the property?	Information not provided

6.3 Previous Reports and Other Provided Documentation

No prior reports or other relevant documentation in association with the subject property was made available to AEI during the course of this assessment.

6.4 Environmental Lien Search

In accordance with our approved scope of services, an environmental lien search was not performed as part of this assessment.

7.0 SITE RECONNAISSANCE

Site Reconnaissance Date	February 26, 2017
AEI Site Assessor(s)	Nicole McLaughlin
Property Escort(s)/ Relationship(s) to Property	Mr. Ivan Carroll/Owner representative
Units/Areas Observed	All interior areas of the light-industrial building
Area(s) not accessed and reason(s)	Exterior areas due to snow
Other Physical Constraints	Snow was on the subject property. Refer to Section 1.5 for discussion of limiting condition(s).

Reconnaissance Findings Summary

Feature	Observed on Subject Property (see Section 7.1)	Observed on Adjacent Property (see Section 7.2)
Regulated Hazardous Substances/Wastes and/or Petroleum Products in Connection with Property Use	✔	
Aboveground/Underground Hazardous Substance or Petroleum Product Storage Tanks (ASTs/USTs)		
Hazardous Substance and Petroleum Product Containers Not in Connection with Property Use		
Unidentified Substance Containers	✔	
Electrical or Mechanical Equipment Likely to Contain Fluids	✔	✔
Interior Stains or Corrosion	✔	
Strong, Pungent, or Noxious Odors		
Pools of Liquid		
Drains, Sumps, and Clarifiers		
Pits, Ponds, and Lagoons		
Stained Soil or Pavement		
Stressed Vegetation		
Solid Waste Disposal or Evidence of Fill Materials		
Waste Water Discharges		
Wells		
Septic Systems		
Biomedical Wastes		
Other		✔

7.1 Subject Property Reconnaissance Findings

Regulated Hazardous Substances/Wastes and/or Petroleum Products in Connection with Property Use

Substance/Waste (size/quantity)	Location	Operations Associated with Material	Disposal Method/ Frequency	Secondary Containment	Staining/ Spills
Oil (1-gallon drum/~50)	City Sites warehouse	Bus rebuilds	N/A	No	No
Used oil (255-gallon tote/ 1)	City Sites warehouse	Bus rebuilds	Unknown	No	No
Gasoline (5-gallon/1)	City Sites warehouse	Run power washer	N/A	No	No
Antifreeze (55-gallon/1)	City Sites warehouse	Bus rebuilds	N/A	No	No

No drains or other subsurface conduits were observed in this area. Based on the small quantities present, the nature of the material, the lack of subsurface conduits and the good housekeeping observed, the presence of these materials is not expected to represent a significant environmental concern.

Unidentified Substance Containers

Two tilted drums were observed on the vacant land property. It was unclear what was in the drums. The owner representative assumed sand. Based on the lack of leaking observed, the drums are not expected to represent a significant environmental concern to the subject property.

Electrical or Mechanical Equipment Likely to Contain Fluids

Toxic PCBs were commonly used historically in electrical equipment such as transformers, fluorescent lamp ballasts, and capacitors. According to United States EPA regulation 40 CFR Part 761, there are three categories for classifying such equipment: <50 ppm of PCBs is considered "Non-PCB"; between 50 and 500 ppm is considered "PCB-Contaminated"; and >500 ppm is considered "PCB-Containing". Pursuant to 15 U.S.C. 2605(e)(2)(A), the manufacture, process, or distribution in commerce or use of any polychlorinated biphenyl in any manner other than in a totally enclosed manner was prohibited after January 1, 1977.

Transformers

Type	Quantity	Owner	Presumed Date of Installation	Spills or Stains Observed (Yes/No)	Non-PCB Label (Yes/ No)
Pole-Mounted	Three	Rocky Mountain Power Co	Unknown	No	No

The management of potential PCB-containing transformers is the responsibility of the local utility or the transformer owner. Actual material samples need to be collected to determine if transformers are PCB-containing.

Transformers installed prior to 1977 may be PCB containing while transformers installed after 1977 are unlikely to be PCB containing. Federal Regulations (40 CFR 761 Subpart G) require any release of material containing >50 ppm PCB and occurring after May 4, 1987, be cleaned up by the transformer owner following the United States EPA's PCB spill cleanup policy.

AEI did not observe evidence of spills, staining, or leaks on or around the transformers. Based on the good condition of the equipment, the transformers are not expected to represent a significant environmental concern.

INTERIOR STAINS OR CORROSION

Surficial staining was observed on the concrete of the City Sites building during AEI's on-site reconnaissance from maintenance on buses. Minor amounts of oily surface staining were observed. Absorbent had been scattered across the staining at the time of the site visit. The staining was located on concrete, and no drains were observed in the vicinity. Based on the small size and surficial nature of the staining, it is not expected to represent a significant environmental concern.

7.2 ADJACENT PROPERTY RECONNAISSANCE FINDINGS

ELECTRICAL OR MECHANICAL EQUIPMENT LIKELY TO CONTAIN FLUIDS

Transformers

Numerous pole-mounted transformers were observed on the adjacent sites during the site reconnaissance. No spills, staining, or leaks were observed on or around the transformers. Based on the good condition of the equipment, the transformers are not expected to represent a significant environmental concern.

OTHER

Railroad tracks are located to the east of the subject property. Railroad tracks and spurs represent environmental concerns due to the historical application of oils containing PCBs, herbicides, and arsenic for pest and weed control, as well as the potential presence of creosote on the rail ties, and the historical common practice of using coal cinders for track fill material. The railroad tracks located adjacent to the east of the subject property are surrounded by gravel. Based on the presence of gravel, the use of oils, arsenic, and herbicides associated with weed or pest control is expected to be minimal, and therefore does not represent a significant environmental concern.

8.0 NON-ASTM SERVICES

8.1 ASBESTOS-CONTAINING BUILDING MATERIALS

Asbestos is the name for a group of naturally occurring silicate minerals that can be separated into fibers. The fibers are strong, durable, and resistant to heat and fire. They are also long, thin and flexible, so they can even be woven into cloth. Because of these qualities, asbestos has been used in thousands of consumer, industrial, maritime, automotive, scientific and building products. During the 20th century, some 30 million tons of asbestos have been used in industrial sites, homes, schools, shipyards and commercial buildings in the United States. Commercial use of ACM began in the early 1900's and peaked in the period between 1940 and into the 1970's. Common ACMs include pipe-covering, insulating cement, insulating block, refactory and boiler insulation materials, transite board, fireproofing spray, joint compound, vinyl floor tile, ceiling tile, mastics, roofing products, and duct insulation for HVAC applications. Inhalation of asbestos fibers can result in deleterious health effects.

The potential for ACM was evaluated based the USEPA Guidance Document: Managing Asbestos in Place - A Building Owner's Guide to Operations and Maintenance Programs for Asbestos-Containing Materials (the Green Book). In 1973 the NESHAPS banned the use of most spray-applied surfacing ACM, specifically asbestos containing spray-on fireproofing and insulation. Subsequent revisions to this regulation in 1975 and 1978 effectively eliminated the use of friable pre-molded pipe, boiler, turbine, and duct insulation; and the spray application of friable asbestos-containing materials for all uses in buildings. In 1989 the EPA issued regulations to ban some asbestos-containing products and phase out most others over a multi-year period. The "Ban and Phase-Down" rule was challenged in court and the regulation remanded to the agency. As a result, any asbestos-containing products then "in commerce" would not be banned. Those not in commerce would be banned. Those materials "banned" could not be sold. It did not affect such materials already installed, or in use. Most US firms voluntarily ceased production of asbestos containing building materials not covered by the aforementioned Federal bans by the mid-1980's. In 1994, the OSHA determined that employers and building owners are required to treat installed thermal system installation and sprayed on and troweled-on surfacing materials, as well as vinyl or asphalt flooring material, as ACM in buildings constructed no later than 1980 until tested by laboratory analysis to prove otherwise.

The information below is for general informational purposes only and does not constitute an asbestos survey. In addition, the information is not intended to comply with federal, state or local regulations in regards to ACM.

Due to the age of the subject property building, there is a potential that ACMs are present. A limited list of typical suspect ACMs is included in the following table:

Material Type	Location
Plaster (acoustical and smooth)	Walls and ceilings
Ceiling tile	Ceiling systems
Thermal systems insulations, packings, and gaskets	Heating systems, cooling systems, domestic and heating and cooling piping, ductwork, and other equipment
Floor tile and associate mastics, flooring felts, and papers (under hardwood/other)	Floors
Vinyl sheet flooring and adhesives	Floors
Cove base and associated mastics	Walls
Ceramic tile adhesives and grouts	Walls, floors, and ceilings
All adhesives	Mirrors, wall coverings, construction, etc.
Grout and caulking	Windows and doors
Gypsum board, tape, and joint compound	Wall and ceiling systems
Insulation materials	Walls, ceilings, and attic spaces
Roofing materials (felts, rolled, shingle, flashings, adhesives, tar, and insulations)	Roof and parapet wall systems
Brick and block, mortars	Walls

According to the Mr. Ivan Carroll, owner representative, demolition of the subject property building is planned for the near future. Regardless of building construction date, the EPA's NESHAP requires that a thorough asbestos survey be performed prior to demolition or renovation activities that may disturb ACMs. This requirement may be enforced by federal, state and local regulatory agencies, and specifies that all suspect ACMs be sampled to determine the presence or absence of asbestos prior to any renovation or demolition activities which may disturb them to prevent potential exposure to workers, building occupants, and the environment. Similarly, OSHA regulations require that specific work practices be implemented when handling construction materials and debris that contain asbestos and/or lead-containing materials.

8.2 Lead-Based Paint

LBP is defined as any paint, varnish, stain, or other applied coating that has ≥1 mg/cm² (5,000 µg/g or 5,000 ppm) or more of lead by federal guidelines; state and local definitions may differ from the federal definitions in amounts ranging from 0.5 mg/cm² to 2.0 mg/cm². Section 1017 of the Housing and Urban Development (HUD) Guidelines, Residential Lead-Based Paint Hazard Reduction Act of 1992, otherwise known as "Title X", defines a LBP hazard as "any condition that causes exposure to lead that would result in adverse human health effects" resulting from lead-contaminated dust, bare, lead-contaminated soil, and/or lead-contaminated paint that is deteriorated or present on accessible, friction, or impact surfaces. Therefore, under Title X, intact LBP on most walls and ceilings would not be considered a "hazard", although the paint should be maintained and its condition monitored to ensure that it does not deteriorate and become a hazard. Additionally, Section 1018 of this law directed HUD and EPA to require the disclosure of known information on LBP and LBP hazards before the sale or lease of most housing built before 1978. Most private housing, public housing, or federally owned or subsidized housing is affected by this rule.

LBP is defined as any paint with any detectable amount of lead present in it. It is important to note that LBP may create a lead hazard when being removed. The condition of these materials must be monitored when they are being disturbed. In the event LBP is subject to

abrading, sanding, torching, and/or cutting during demolition or renovation activities, there may be regulatory issues that must be addressed.

The information below is for general informational purposes only and does not constitute a lead hazard evaluation. In addition, the information is not intended to comply with federal, state, or local regulations in regards to LBP.

In buildings constructed after 1978, it is unlikely that LBP is present. Structures built prior to 1978 and especially prior to the 1960s should be expected to contain LBP.

Due to the age of the subject property building, there is a potential that LBP is present. AEI understands that demolition activities of the subject property buildings are planned. AEI recommends that the property owner consult with a certified Lead Risk Assessor to determine options for control of possible LBP hazards. Stringent local and State regulations may apply to LBP in association with building demolition/renovations and worker/occupant protection. It should be noted that construction activities that disturb materials or paints containing any amount of lead may be subject to certain requirements of the OSHA lead standard contained in 29 CFR 1910.1025 and 1926.62.

8.3 Radon

Radon is a naturally-occurring, odorless, and invisible gas. Natural radon levels vary and are closely related to geologic formations. Radon may enter buildings through basement sumps or other openings.

The United States EPA has prepared a map to assist National, State, and local organizations to target their resources and to implement radon-resistant building codes. The map divides the country into three radon zones, with Zone 1 being those areas with the average predicted indoor radon concentration in residential dwellings exceeding the EPA Action Limit of 4.0 pCi/L. It is important to note that the EPA has found homes with elevated levels of radon in all three zones, and the EPA recommends site specific testing in order to determine radon levels at a specific location. However, the map does give a valuable indication of the propensity of radon gas accumulation in structures.

Radon sampling was not requested as part of this assessment. According to the US EPA, the radon zone level for the area is Zone 2, which has a predicted average indoor screening level between 2 pCi/L and 4 pCi/L, equal to or below the action level of 4 pCi/L set forth by the US EPA.

8.4 Mold/Indoor Air Quality Issues

Molds are simple microscopic organisms which can often be seen in the form of discoloration, frequently green, gray, white, brown, or black. When excessive moisture or water accumulates indoors, mold growth may occur, particularly if the moisture problem remains undiscovered or unaddressed. As such, interior areas of buildings characterized by poor ventilation and high humidity are the most common locations of mold growth. Building materials, including drywall, wallpaper, baseboards, wood framing, insulation, and carpeting, often play host to such growth. Mold spores primarily cause health problems through the inhalation of spores or the toxins they

emit when they are present in large numbers. This can occur when there is active mold growth within places where people live or work.

Mold, if present, may or may not visually manifest itself. Neither the individual completing this inspection, nor AEI has any liability for the identification of mold-related concerns except as defined in applicable industry standards. In short, this Phase I ESA should not be construed as a mold survey or inspection.

This activity was not designed to discover all areas which may be affected by mold growth on the subject property. Rather, it is intended to give the client an indication if significant (based on observed areas) mold growth is present at the subject property. Potential areas of mold growth, such as in pipe chases, HVAC systems, and behind enclosed walls and ceilings, were not observed as part of this limited assessment.

AEI observed interior areas of the subject property building to identify the potential presence of mold. AEI did not note obvious visual or olfactory indications of the presence of mold, nor did AEI observe obvious indications of significant water damage. As such, no bulk sampling of suspect surfaces was conducted as part of this assessment and no additional action with respect to suspect mold appears to be warranted at this time.

9.0 SIGNATURE OF ENVIRONMENTAL PROFESSIONALS

I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in §312.10 of 40 CFR Part 312.

I have the specific qualifications based on education, training, and experience to assess a property of the nature, history and setting of the subject property. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: Also known as Superfund, the National Priority List database is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund program. The source of this database is the U.S. EPA.

A review of the NPL list, as provided by EDR, and dated 12/11/2017 has revealed that there is 1 NPL

site within approximately 1 mile of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
UTAH POWER & LIGHT/A	***600 W SOUTH TEMPLE***	***S 1/4 - 1/2 (0.385 mi.)***	***0***	***15***

Federal CERCLIS list

SEMS: SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

A review of the SEMS list, as provided by EDR, and dated 12/11/2017 has revealed that there are 2 SEMS sites within approximately 0.5 miles of the target property.

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

A review of the SEMS-ARCHIVE list, as provided by EDR, and dated 12/11/2017 has revealed that there are 3 SEMS-ARCHIVE sites within approximately 0.5 miles of the target property.

Federal RCRA CORRACTS facilities list

CORRACTS: CORRACTS is a list of handlers with RCRA Corrective Action Activity. This report shows which nationally-defined corrective action core events have occurred for every handler that has had corrective action activity.

A review of the CORRACTS list, as provided by EDR, and dated 12/11/2017 has revealed that there are 3 CORRACTS sites within approximately 1 mile of the target property.

US INST CONTROL: A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

A review of the US INST CONTROL list, as provided by EDR, and dated 11/13/2017 has revealed that there is 1 US INST CONTROL site within approximately 0.5 miles of the target property.

State and tribal registered storage tank lists

UT UST: The Underground Storage Tank database contains a listing of Facility, Owner, Location & Tanks not Closed or Removed. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the Department of Environmental Quality's Facilities with at Least One Non-exempt Tank.

A review of the UT UST list, as provided by EDR, and dated 01/17/2018 has revealed that there are 8 UT UST sites within approximately 0.25 miles of the target property.

ADDITIONAL ENVIRONMENTAL RECORDS

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 12/11/2017 has revealed that there are 3 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

A review of the EDR MGP list, as provided by EDR, has revealed that there is 1 EDR MGP site within approximately 1 mile of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
UTAH POWER AND LIGHT	600 W SOUTH TEMPLE	SSW 1/2 - 1 (0.548 mi.)	41	65

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there is 1 EDR Hist Auto site within approximately 0.125 miles of the target property.

ALS REPR SHOP	278 N 6TH W	SW 0 - 1/8 (0.124 mi.)	13	34

EXECUTIVE SUMMARY

EDR Hist Cleaner: EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Cleaner list, as provided by EDR, has revealed that there is 1 EDR Hist Cleaner site within approximately 0.125 miles of the target property.

Environmental Interest/Information System

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Summary Details:

Conditions at proposal May 5, 1989): The Utah Power Light/American Barrel Co. Site covers about 2 acres east of 600 West Street and north of South Temple Street in Salt Lake City, Salt Lake County, Utah. The site is

UTAH POWER & LIGHT/AMERICAN BARREL CO. (Continued) **1000238438**

in an industriali ed area, with Union Pacific Railroad property to the west and Denver and Rio Grande Western Railroad property to the immediate southeast. A residential area is within 400 feet to the west, and downtown Salt Lake City within 0.5 mile to the east.The property is owned by Utah Power Light UP L), which operated a pole and tie creosote treating facility on the land during the early 1900s, according to records of the Utah Bureau of Solid and Ha ardous Waste. From the 1950s to 1988, American Barrel Co. leased the land for storing drums. In 1986, Meyers Container Corp. purchased from American Barrel all drums fit for reconditioning and removed them to a recycling plant a block south of the site. Meyers also purchased the recycling plant from American Barrel. In mid-1987, an estimated 50,000 mostly empty 55-gallon barrels remained on-site, stacked on their sides to heights up to 20 feet and supported by stones on the ground. Some drums still contained wastes, and soil staining suggested that they may have leaked. During 1987-88, American Barrel removed the barrels, emptied the contents into drums, and transported the materials to disposal facilities regulated under the Resource Conservation andRecovery Act. In July 1988, EPA issued a CERCLA Section 106 Administrative Order on Consent to secure the site. The site is now fenced, locked, and posted. According to EPA tests conducted in 1987, soil 16 feet beneath the site and on-site monitoring wells are contaminated. Among the compounds in shallow ground water are styrene attributable to the barrel yard activities) and polyaromatic hydrocarbons and phenolic compounds attributable to the creosote operations of the early1900s). Shallow ground water is connected to deeper water that within 3 miles of the site provides drinking water to the Salt Lake City Water System, which serves an estimated 377,000 people. An additional 4,000 people are served by privatewells within the 3-mile radius. Status October 4, 1989): EPA is considering various alternatives for the site.

FINDS:

Registry ID: 110005194814

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of

AMERICAN BARREL COMPANY (Continued) **1000360561**

events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

Registry ID: 110031319927

Biennial Reports:

Last Biennial Reporting Year: 2017

Annual Waste Handled:

Waste code: D001
Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.
Amount (Lbs): 31490

Waste code: D002
Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.
Amount (Lbs): 32971.3

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 12/11/2017

Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 12/11/2017

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

State- and tribal - equivalent CERCLIS

SHWS: This state does not maintain a SHWS list. See the Federal CERCLIS list and Federal NPL list.

State Hazardous Waste Sites. State hazardous waste site records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. Available information varies by state.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Local Land Records

LIENS 2: CERCLA Lien Information

A Federal CERCLA ('Superfund') lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. These monies are spent to investigate and address releases and threatened releases of contamination. CERCLIS provides information as to the identity of these sites and properties.

RCRA NonGen / NLR: RCRA - Non Generators / No Longer Regulated

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historical Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

NY MANIFEST: Facility and Manifest Data

Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a TSD facility.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing
Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000
A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes
Source: National Institutes of Health

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by AEI Consultants were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1926 through 2014. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

RE: Facility ID No. 4000078
325 N. 500 W., Salt Lake City, UT

Dear Mr. Green:

We are unable to process your tank closure information until proper documentation is received by this office. Proper closure consists of removal of the tank from the ground or, if approved by your local fire department, filling the tank with an inert solid (i.e. cement or sand). Please refer to 40 CFR, Part 280 Subpart G (attached). Proper documentation consists of:

1. A signed affidavit from the company authority or individual owner/operator, or;
2. A signed affidavit and copies of completed work orders from the contracting company who removed the tanks, or;
3. A report from a witnessing local Fire or Health Department, or;
4. A report from a witnessing State Health Department personnel.

Included in the documentation(s) must be the following:

1. Owner name, address, and phone number.
2. Facility location (Facility ID No.)
3. Tank Identification (Name and Address, Tank Age and Capacity, Material the tank is made of, and Substance previously stored).
4. Date of Closure (Month, Day, Year).
5. Approved method of closure and how completed.
6. Condition of Tank when removed (i.e. clean, rusted, if it has holes and hole size in mm).
7. Site Assessment including soil contamination, groundwater conditions, presence of free product, etc.
8. Contractor(s) name, address, phone number, and certificate number.
9. Where the tank was Disposed (if removed).

Completion of the enclosed "Closure Notice" will meet the requirements.

Until we receive the required documentation information you will be assessed the yearly fees.

If your account is past due, collection action may be taken within 30 days, unless the required documentation is received to substantiate otherwise. Also, you will be assessed fees for the fiscal year in which the tanks were properly closed. The fiscal year runs from July 1 of the previous year to June 30 of the fiscal year.

If you have any questions, please call William Moore at (801)538-6170.

Sincerely,

Brent C. Bradford, Director
Bureau of Solid and Hazardous Waste

UNDERGROUND TANK COMPLIANCE

May 16, 1989

Job #1020-5

TO: Toxi-Tech Control, Inc.
2520 South State
Salt Lake City, Utah 84115

ATTENTION: Mr. Dean Silvey

SUBJECT: Closure Survey
Complex Fabricators
375 North 500 West
Salt Lake City, Utah

Gentlemen:

In accordance with your request, we have performed a closure survey of the underground storage tank site located at 375 North 500 West in Salt Lake City, Utah. A 6,000 gallon tank was removed from the site. The tank previously held gasoline.

SITE CONDITIONS

The natural soils exposed on the sides of the excavation and underlying the tank consisted of dark gray silty clay with organics (roots). The backfill soils were a reddish-brown silty sand. No petroleum staining or discolorization of the soil in the excavation was observed. Groundwater was exposed in the excavation at a depth of about 10-1/2 feet; no sheen or floating product was observed on the ground water. The tank was rusted and some pitting had occurred, but no perforations were observed.

CLOSURE SURVEY

A closure survey was performed at the site on April 24, 1989. The excavation was surveyed with a photoionization detector (PID) to aid in identifying contaminated soils. One soil sample of the native silty clay from directly below the tank was obtained for laboratory testing to quantify the presence of any hydrocarbon contamination. The soil sample was obtained by pushing or driving a two-inch diameter aluminum tube into the soil. The sample was then labeled, capped and placed in cold storage.

CONCLUSIONS AND RECOMMENDATIONS

The laboratory test results are attached and indicate that the soil sample from the excavation had no detectable hydrocarbons. In addition, we did not observed any indications of soil contamination in the tank removal excavation; PID readings did not exceed 10 parts per million (ppm). Accordingly, it is our opinion that the storage of fuel in the underground tank has not resulted in imminent danger to public health or the environment. We have observed no conditions nor have we been advised of any conditions (such as petroleum odor or vapor in buildings, contaminated water wells, or petroleum product in underground utilities) which would warrant the need for additional investigation.

Our services consist of professional opinions and recommendations made in accordance with generally accepted geotechnical engineering principles and practices. This warranty is in lieu of all other warranties either express or implied.

If you have any questions, please call.

Sincerely,
WASATCH GEOTECHNICAL

Les Pennington, P.E.

RECEIVED
FEB 18 1986

RECEIVED
FEB 18 1986
Environmental Health
Utah State Health
Salt Lake City-County Health

STATE USE ONLY

I.D. Number 40000718

Date Received FEB 18 1986

GENERAL INFORMATION

Notification is required by Federal law for all underground storage tanks (USTs) used to store regulated substances since January 1, 1974, that are in the ground as of May 8, 1986, or that are brought into use after May 8, 1986. The information requested is required by Section 9002 of the Resource Conservation and Recovery Act, (RCRA), as amended.

The primary purpose of this notification program is to locate and evaluate underground tanks that store or have stored petroleum or hazardous substances. It is expected that the information you provide will be based on reasonably available records, or, in the absence of such records, your knowledge, belief, or recollection.

Who Must Notify? Section 9002 of RCRA, as amended, requires that, unless exempted, owners of underground tanks that store regulated substances must notify designated State or local agencies of the existence of their tanks. Owner means—

(a) in the case of an underground storage tank in use on November 8, 1984, or brought into use after that date, any person who owns an underground storage tank used for the storage, use, or dispensing of regulated substances, and

(b) in the case of any underground storage tank in use before November 8, 1984, but no longer in use on that date, any person who owned such tank immediately before the discontinuation of its use.

What Tanks Are Included? Underground storage tank is defined as any one or combination of tanks that (1) is used to contain an accumulation of "regulated substances," and (2) whose volume (including connected underground piping) is 10% or more beneath the ground. Some examples are underground tanks storing: 1. gasoline, used oil, or diesel fuel, and 2. industrial solvents, pesticides, herbicides or fumigants.

What Tanks Are Excluded? Tanks removed from the ground are not subject to notification. Other tanks excluded from notification are:

1. farm or residential tanks of 1,100 gallons or less capacity used for storing motor fuel for noncommercial purposes;
2. tanks used for storing heating oil for consumptive use on the premises where stored;
3. septic tanks;
4. pipeline facilities (including gathering lines) regulated under the Natural Gas Pipeline Safety Act of 1968, or the Hazardous Liquid Pipeline Safety Act of 1979, or which is an intrastate pipeline facility regulated under State laws;
5. surface impoundments, pits, ponds, or lagoons;
6. storm water or waste water collection systems;
7. flow-through process tanks;
8. liquid traps or associated gathering lines directly related to oil or gas production and gathering operations;
9. storage tanks situated in an underground area (such as a basement, cellar, mineworking, drift, shaft, or tunnel) if the storage tank is situated upon or above the surface of the floor.

What Substances Are Covered? The notification requirements apply to underground storage tanks that contain regulated substances. This includes any substance defined as hazardous in section 101 (14) of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA), with the exception of those substances regulated as hazardous waste under Subtitle C of RCRA. It also includes petroleum, e.g., crude oil or any fraction thereof which is liquid at standard conditions of temperature and pressure (60 degrees Fahrenheit and 14.7 pounds per square inch absolute).

Where To Notify? Completed notification forms should be sent to the address given at the top of this page.

When To Notify? 1. Owners of underground storage tanks in use or that have been taken out of operation after January 1, 1974, but still in the ground, must notify by May 8, 1986. 2. Owners who bring underground storage tanks into use after May 8, 1986, must notify within 30 days of bringing the tanks into use.

Penalties: Any owner who knowingly fails to notify or submits false information shall be subject to a civil penalty not to exceed $10,000 for each tank for which notification is not given or for which false information is submitted.

INSTRUCTIONS

Please type or print in ink all items except "signature" in Section V. This form must by completed for each location containing underground storage tanks. If more than 5 tanks are owned at this location, photocopy the reverse side, and staple continuation sheets to this form.

Indicate number of continuation sheets attached ☐

Salt Lake City, Utah 84116

UTAH DEPARTMENT OF ENVIRONMENTAL QUALITY
MAR 23 1994

RE: Facility ID#4001814
Union Pacific Railroad, SLC Maintenance shop

Dear Mr. Moore:

This letter and supporting documents are submitted in response to a non-compliance issue regarding the above identified site. This matter was brought to the attention of Mr. K. R. Welch of Union Pacific Railroad in a letter dated February 23, 1994, from Mr. Kent P. Gray, Executive Secretary (UST), Utah Solid and Hazardous Waste Control Board. The letter was forwarded to Mr. Curt Hull of USPCI by Mr. John Stewart of Union Pacific on March 5, 1994. USPCI is the consulting firm which manages Union Pacific's UST program.

USPCI acknowledges the deficiencies stated in the letter and herewith apologizes for the oversight and inconvenience it has caused. In an effort to get the facility back into compliance, the following documents are attached:

- Underground Storage Tank Closure Plan (original form dated 7/31/91)
- Underground Storage Tank Closure Notice (form dated 3/14/94)

5665 Flatiron Parkway • Boulder, Colorado 80301 • 303/938-5500 • Fax 303/938-5520
24125 Aldine Westfield • Spring, Texas 77373 • 713/350-7240 • Fax 713/350-7246

- American West Analytical Laboratories, Soil Sample Analytical Report and Sample Chain of Custody (dated 8/15/91)

- Tanks Away, Inc., Certificate of Disposal (dated 10/23/91)

At the time of tank removal a release was identified. USPCI believed Utah certified tank remover Ray Reed (Certificate #TR 0068) had reported the release to Utah's Department of Environmental Quality. Reed Petroleum Equipment had been contracted by USPCI for this removal project. As no Reporting and Remediation Schedule was ever received by Union Pacific for this site, it is apparent no report was submitted.

USPCI anticipates a Reporting and Remediation Schedule will be forthcoming from the Department of Environmental Quality and will take all actions necessary on the behalf of Union Pacific Railroad to ensure the facility remains in compliance with all parts of Utah's Underground Storage Tank Act.

Please address future directives and correspondence regarding this facility to me, Ralph Rupp (303/938-5559) or Mr. Curt Hull (303/938-5569) at USPCI's Boulder, Colorado, office.

Sincerely,

Ralph Rupp

Ralph Rupp
Geologist

SITE ASSESSMENT

Complete the Facility Site Plat (Closure Notice) and Sample Information Table (Closure Notice) on pages 3 and 4 to show the locations, depths, and other information on all soil/groundwater samples taken for closure. The samples must be consistently identified by sample ID # on the site plat, table, and lab analysis report.

[X] Completed Facility Site Plat (Closure Notice) is attached.

[X] Completed Sample Information Table (Closure Notice) is attached.

[X] Certified lab analytical environmental sample results are attached.

[X] Unified Soil Classification (USC) sample results are attached.

[X] Chain of Custody form is attached.

Samples were properly: [X] Collected [X] Labeled [X] Packaged [X] Transported

[X] Samples were in sight of the person in custody at all times or in a secured locked place.

I certify under penalty of law that the closure site assessment at this facility was conducted in accordance with R311-202 (parts 280.52 and 280.72) and R311-205 U.A.C., and that any additional samples required by R311-202 parts 280.52 and 280.72 and R311-205-2(a)(1) were properly collected.

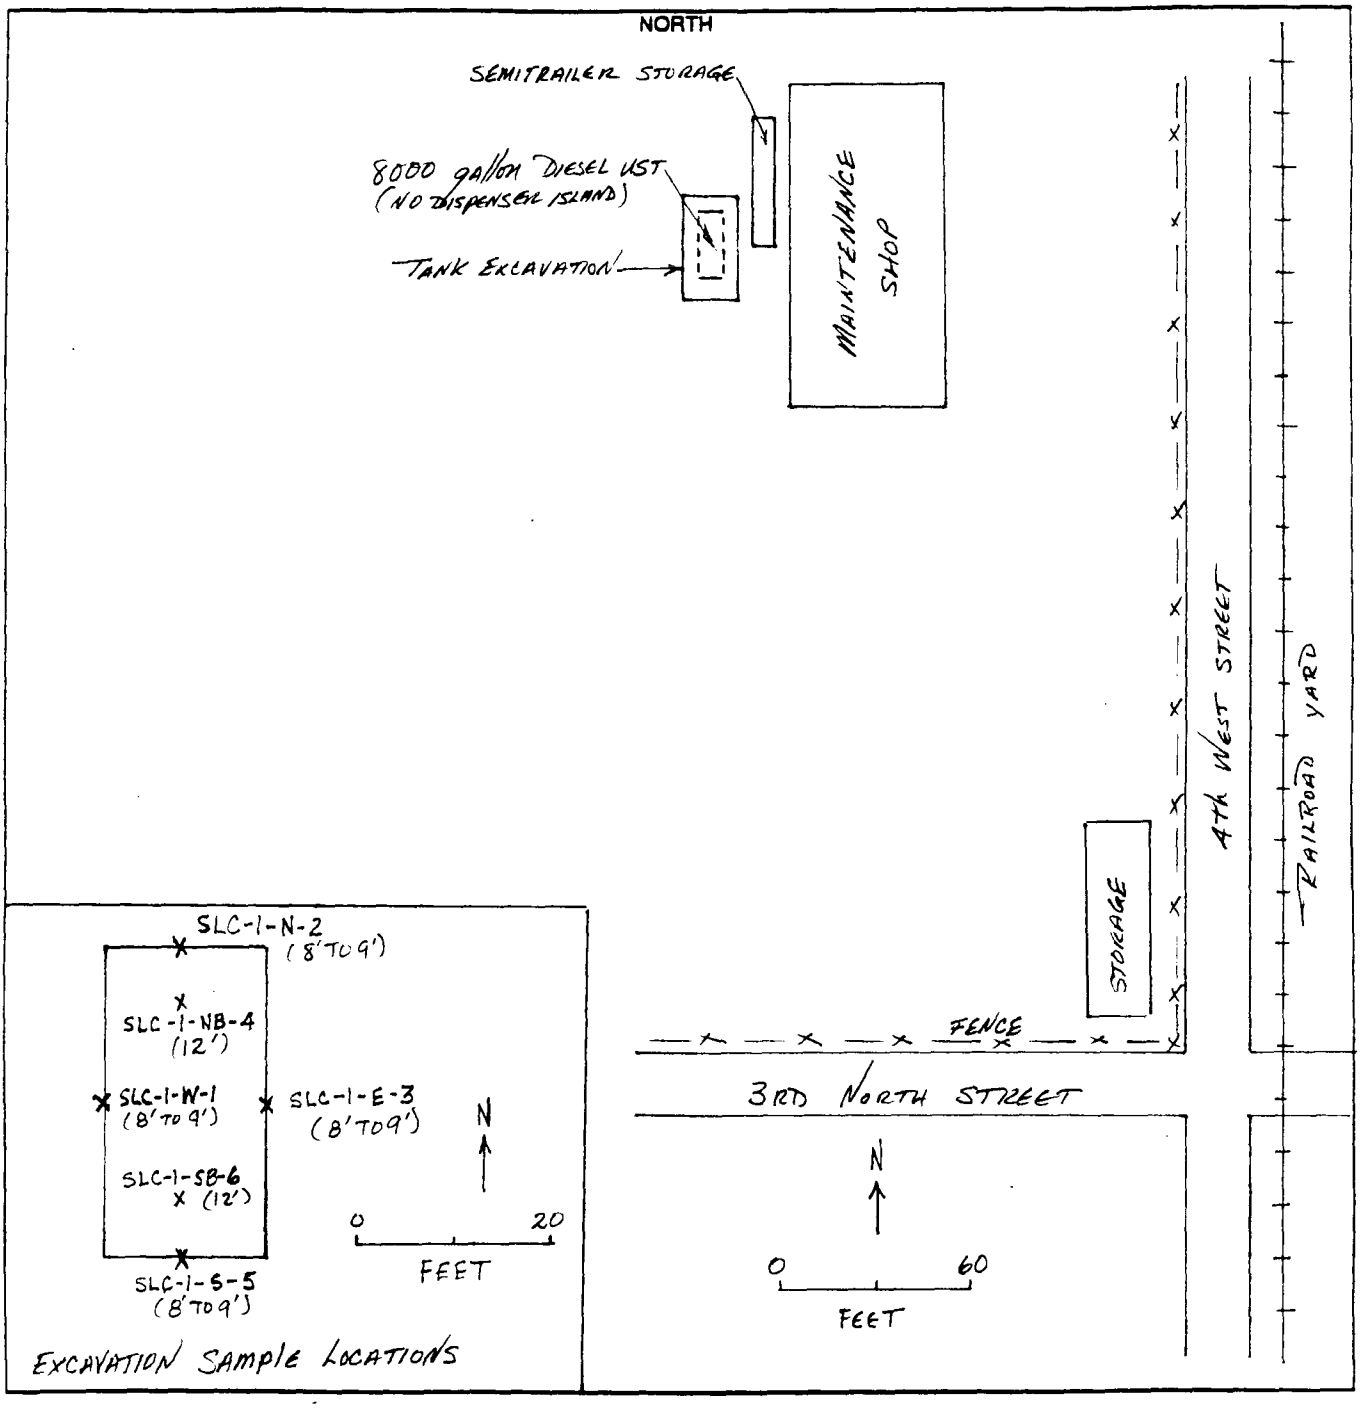

Signature of Certified Groundwater/Soil Sampler _____

Full name of Certified Sampler Kevin E. Mead **Date** 03/16/94

FACILITY SITE PLAT (CLOSURE NOTICE)

The site plat must show locations of all buildings, streets, property boundaries, tanks, piping, dispenser islands, and underground utilities. The site plat must be drawn to an appropriate identified scale. It must show actual sampling locations, substances stored in tanks, and other relevant information. Tank and sample identification numbers must be consistent with the information given on p. 1 and 4 of the closure notice.

Facility ID # 4001814 Drawn By Mike Pierson Date 8/9/91

X = Sample locations (SS-#, WS-#, USC-#)
⊗ = Monitoring Wells (MW-#,)
O = Soil boring (B-#)
● = Water Wells (domestic, livestock, etc.)

SAMPLE INFORMATION TABLE (Closure Notice)

Complete table for all samples that were taken for closure. Sample ID numbers on the table must be consistent with the sample ID numbers given on the site plat and in the lab analysis report.

Sample #/Lab ID#	Sub. stored	Spl. type[1]	Depth[2]	Compounds[3]	Analysis method(s)[4]
SLC-1-W-1/7044-01	X	SS	8'-9'	TPH,BTEX	8015 mod., 8020
SLC-1-N-2/7044-02	X	SS	8'-9'	TPH,BTEX, USC	8015 mod, 8020, 2488-84X4.2
SLC-1-E-3/7044-03	X	SS	8'-9'	TPH, BTEX	8015 mod., 8020
SLC-1-NB-4/7044-04	X	SS	12'	TPH, BTEX	8015 mod., 8020

QUALIFICATIONS

Nicole McLaughlin ☐Project Manager, Due Diligence Services

B.A. Environmental Studies, University of Colorado Boulder

Colorado Certified Asbestos Inspector Certification #23359

Ms. McLaughlin has worked in environmental consulting since 2014. Ms. McLaughlin's current responsibilities include project coordination and oversight due diligence work of large and small scale industrial, manufacturing, commercial, multi-tenant residential and rural properties in the Rocky Mountain Region. Work functions involve project development and planning, assisting clients, project oversight and technical writing.

Project experience for Ms. McLaughlin includes:

- Phase I Environmental Site Assessments (PHI ESA)
- Limited Environmental Site Assessments (LESA)
- Environmental Transaction Screens (ETS)
- Regulatory Database Review
- Historical Records Review
- Asbestos, radon, lead paint, lead in water sampling

Ms. McLaughlin provides project management to ensure ASTM compliance and satisfaction of client requirements for Phase I Environmental Assessments, Environmental Transaction Screens, Regulatory Database Review, and Historical Records Review. Ms. McLaughlin's management and technical experience has allowed AEI's projects to be performed in a cost effective and timely manner to the satisfaction of AEI's clients and regulatory agencies.

Richard D. Fehler – National Client Manager

B.S. – Zoology, University of California, Davis

California Registered Environmental Assessor (REA I)

Mr. Fehler has over twenty-five years of environmental management experience gained as an environmental consultant; in the chemical manufacturing industry; in the hazardous waste management industry; and as an environmental regulator. He specializes in all aspects of environmental due diligence, regulatory compliance and negotiations, hazardous waste management, and auditing. Mr. Fehler has also received training in Greenhouse Gas and Sustainability Verification.

Mr. Fehler has served as project principal on hundreds of projects with wide-ranging scopes, including peer reviews and desktop reviews; due diligence on large portfolios (200 sites+), as well as single assets; investigation and management of lead, asbestos, mold, and *Legionella*; investigation, remediation and management of contamination in groundwater, soil and soil vapor; regulatory compliance and auditing; and representing clients with regulators to negotiate site closure/No Further Action and/or to develop effective remediation strategies and budgets.

Project experience for Mr. Fehler includes:

- Multiple Site Due Diligence - Managed and designed projects for many large portfolios (100-plus) of varied properties spread across various states. The scopes of work frequently include Indoor Air Quality/mold issues, lead-based paint, asbestos, and radon testing. The design of appropriate Phase II sampling is frequently required to resolve and close issues.

- Environmental Compliance Reviews – Designed and managed many environmental compliance audits for single or multiple assets. Project activities usually involve inspections, interviews, reviewing environmental permits, past environmental reports, standard operating procedures, material safety data sheets (MSDS), and other information related to regulatory compliance in the areas of hazardous materials, hazardous and non-hazardous waste management, workplace health & safety, air permitting and emission reporting, waste water permitting and monitoring, storm water management, underground storage tanks, and aboveground storage tanks.

- Regulatory Negotiation – Managed many Phase II investigations conducted in response to regulatory requirements or to resolve issues and/or to obtain case closure or No Further Action. Represented clients with regulators to negotiate appropriate scopes of work and move projects to successful completion.

APPENDIX

EXECUTIVE SUMMARY

The following Subsurface Investigation Report was completed by USPCI for the Union Pacific Railroad (UPRR) as required by the State of Utah Department of environmental Quality (UDEQ), Division of Environmental Response and Remediation (DERR), in a letter dated January 31, 1995. This report is intended to address the investigation completed on March 26, 1995 of a leaking underground storage tank which was removed from the UPRR maintenance shops in Salt Lake City Utah.

1.0 INTRODUCTION

The Union Pacific Maintenance shops are located north-west of the corner of 500 west and 300 north streets in Salt Lake City, Utah. The Facility ID as assigned to this site by the DERR is 40001814. The underground storage tank (UST) had an approximate capacity of 8000 gallons and was approximately 21 feet long by 8 feet wide. It was used to store diesel fuel for the fueling of railroad vehicles. It had been out of service for an unknown period of time before its removal in August, 1991. Soil samples collected at the time of removal indicated that a release of diesel fuel had occurred. The local drainage tends to be westward in the area around the site. The site is on the toe of the westward sloping Wasach Front alluvial fan.

The objective and purpose of the investigation was to determine if the soils and groundwater immediately next to and downgradient from the former tank had been impacted in any way by the apparent release. The scope of work was to drill boreholes as close to the release site as possible and collect soil and groundwater data to determine if the soils or groundwater had been impacted with diesel fuel (see figure 2 for location of former tank berth and boring locations).

2.0 METHODOLOGY

2.1 Permitting

Boreholes advanced around the former tank berth were not drilled below 30 feet in depth. Since Utah law only requires permits for boreholes greater than 30 feet in depth, no permits were necessary for the site boreholes. Utah Blue Stake was contacted before the commencement of drilling activities and no utilities were Identified within the area of the tank basin.

2.2 Methods of Investigation

The investigation was carried out using a CME-75 mobile drilling rig with a 5 foot long continuous core sample barrel in a 4 inch ID

auger. When the core barrel was removed, an Environmental Instruments OVM was used as a field screening device to determine if any hydrocarbons were present. A USPCI geologist logged the core and made note of any soil or groundwater that looked as if it may have been impacted with diesel fuel. Samples were collected from vadose soils indicating diesel impact and from capillary fringe soils where LNAPLs generally tend to accumulate. USPCI opted to use auger drilling as the chief method of investigation because of the low cost and the quality of representative samples which could be obtained. Borings were placed as close to the former tank berth as possible. One boring each was completed on the north, west and south sides to insure an adequate sample amount could be collected. The boring on the west side was completed as a monitor well to determine downgradient groundwater quality. USPCI was prepared to complete more borings and wells if signs of contamination above the established action levels were evident in the first three borings.

2.3 Well Installation

The single well MSMW-1 was installed in accordance with generally accepted protocol. An as-built drawing is included in the appendices with the well log. All drill cuttings from the three borings were contained in 55 gallon drums and properly labeled and stored on site. Analytical results indicate that the cuttings were not impacted with diesel fuel. The cuttings will be thin spread in low spots in the yard near the maintenance shop. The well and borings were not surveyed, measurements from stationary objects and buildings were recorded, and a site map was completed by USPCI field personnel before leaving the site. The groundwater well was developed in accordance with the USPCI SOP for well development included in the Appendix. A copy of the completed USPCI well development form is also included in the Appendix.

2.4 Soil

All soil collected from the borings appeared to be clean, without staining or odor, except for a 2 inch seem of gravel and sand located approximately 4 feet below the ground surface in borehole #2. This exception was noted as having a diesel odor and hydrocarbon staining. The lithologies of the soils encountered during the drilling were logged according to there stiffness, color grainsize, odor and there general notable features. All soils collected during drilling were screened in the field using an Environmental Instruments OVM to determine if any hydrocarbons were present and to determine where to collect environmental samples. Environmental samples were collected at the areas in the soil column where contamination was most likely to occur such as areas where staining and odor were noted, and at the capillary fringe. Samples were stored in a cooler full of ice and delivered to the lab within 2 days of collection. Soil samples were analyzed for TPH and BTEXN using a modified 8015 and 8020 respectively.

2.5 Groundwater

The static water level in the completed monitor well(MSMW-1) was approximately 9 feet below the ground surface. No odor or sheen was noted in the water developed from MSMW-1 during gauging or development. No odor or sheen was noted in any of the drill cuttings collected at or near the static water level in the other two borings. The developed water was slightly cloudy after development probably due to some suspended silt-size particles. The static water level was measured using a MMC oil/water interface probe. The probe was rinsed using a spray bottle which contained deionized (DI) water and alconox, and then rinsed two more times using DI water. The probe was dried off with a paper towel and then lowered to the water table, the water level was recorded in a log book and the process was repeated to establish that the water level was correct. After 3 casing volumes of water were removed from the well with a bailer, the bailer was lowered into the well to collect a water sample. The water was decanted from the bailer into the pre-acidified voa vials in a manner so as not to aerate the water and cause a loss of volatile which might have been present in the water. After the samples were collected and checked for any air bubbles, they were labeled with the appropriate sample designation and the date and time of collection. The chain of custody form was completed and the samples were placed in a cooler full of ice, and delivered to the laboratory within 2 days of collection. All of the purge water was poured on the ground surface upgradient from the former tank excavation.

3.0 RESULTS

3.1 Soil

Subsurface geology and lithology as well the field screening results are included in the boring logs located in the appendices. The soils which were generally encountered during the drilling were mostly clays, and some silts with varying amounts of interbedded sand.

Results of the field screening, including date location and depths, are included in the boring logs provided in the appendix. No TPH was detected in any of the soil samples. Toluene at 6.2 mg/Kg was the only BTEXN analyte detected in the soil. The soil sample containing toluene was collected from the north side of the tank berth in Boring #2 at approximately nine feet in depth.

Table 1
Soil Sample Results
Underground Storage Tank
Union Pacific Maintenance Shops
Salt Lake City, Utah

Bore Hole	Sample Name	Sample Depth ft (BGS)	TPH mg/Kg	Benzene ug/Kg	Toluene ug/Kg	E-Benzene ug/Kg	Xylene ug/Kg	Napthalene ug/Kg
BH-1	MSU-1	9	ND	ND	ND	ND	ND	ND
BH-1	MSU-2	13	ND	ND	ND	ND	ND	ND
BH-1	MSU-3	18.5	ND	ND	ND	ND	ND	ND
BH-2	MSU-4	4.5	ND	ND	ND	ND	ND	ND
BH-2	MSU-5	9	ND	ND	6.2	ND	ND	ND
BH-2	MSU-6	15	ND	ND	ND	ND	ND	ND
BH-3	MSU-7	7	ND	ND	ND	ND	ND	ND
BH-3	MSU-8	10	ND	ND	ND	ND	ND	ND
BH-3	MSU-9	15	ND	ND	ND	ND	ND	ND

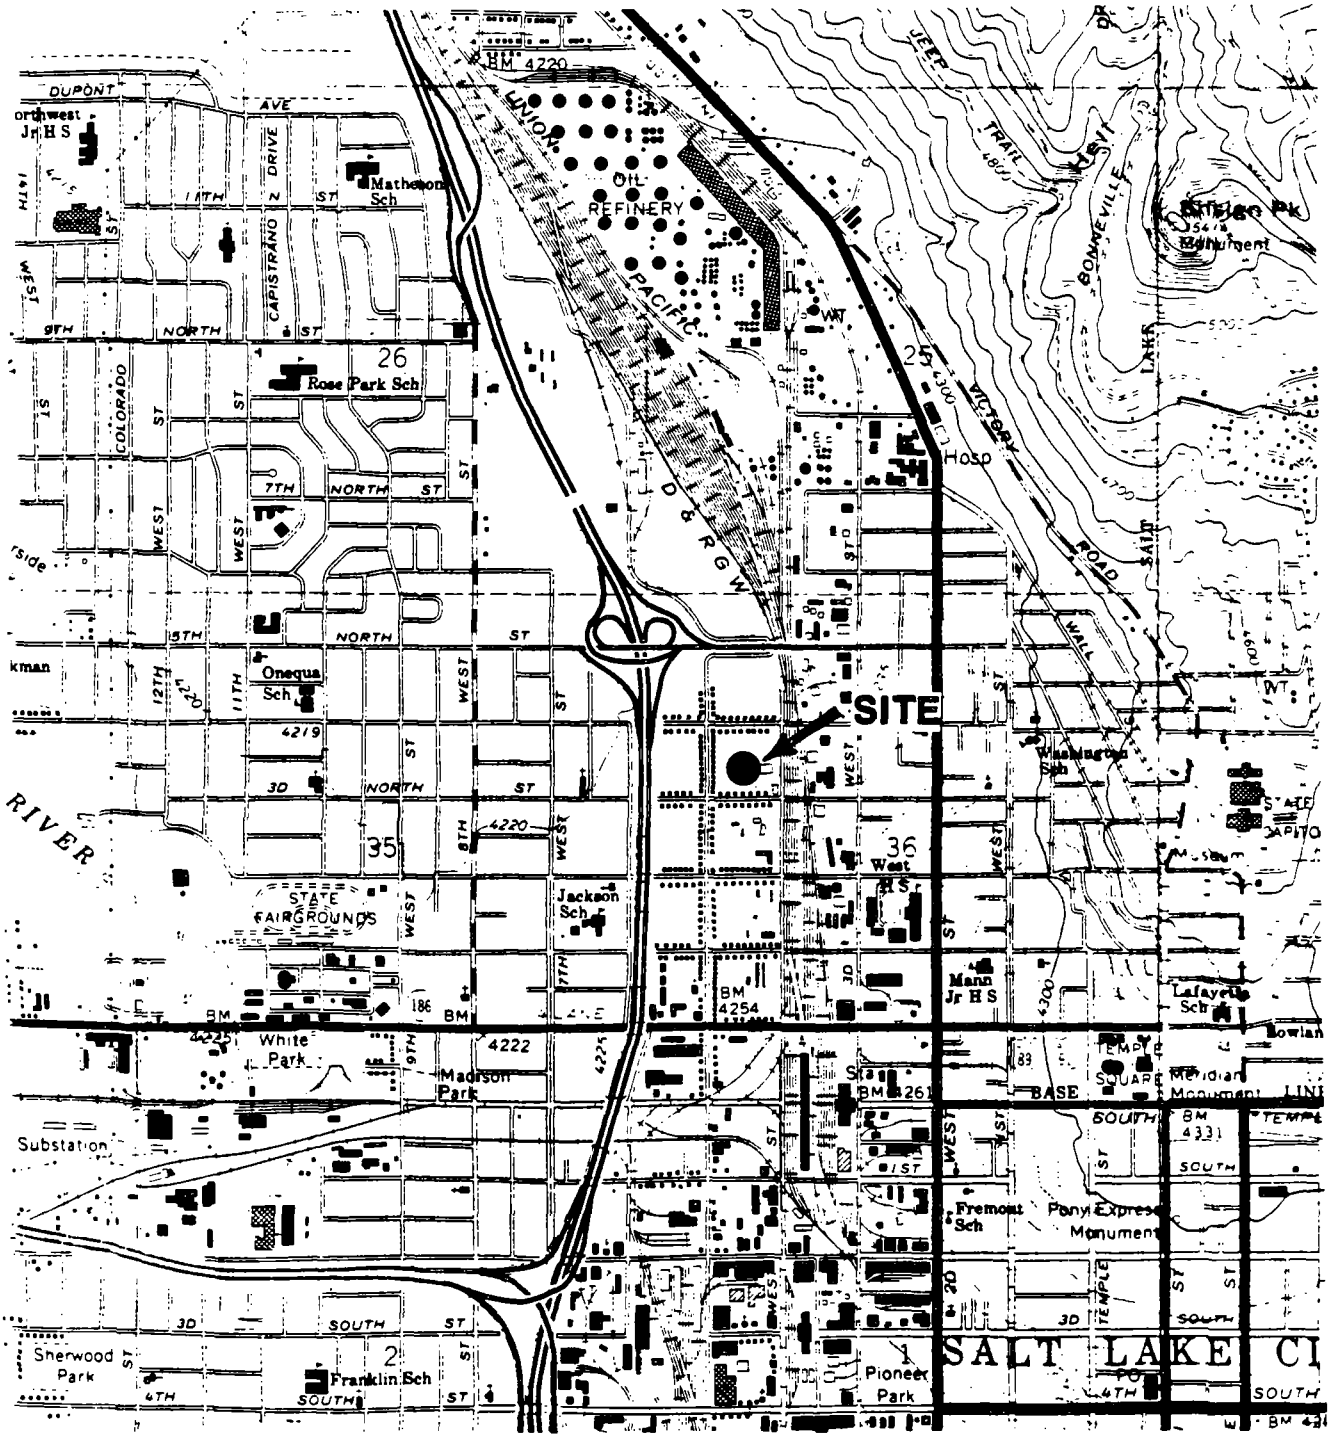

TPH was analyzed using EPA Method 8015 Modified
BTEX was analyzed using EPA Method 8020
Detection limits; TPH = 10 mg/Kg, Benzene = 5 ug/Kg, Toluene = 5 ug/Kg, Ethylbenzene = 5 ug/Kg, Xylenes = 15 ug/Kg, Napthaline 5 ug/Kg

3.2 Groundwater

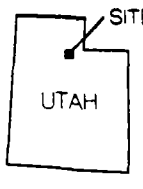

The groundwater in the monitor well immediately downgradient from the former tank was measured in March, 1995 to be approximately 9 feet below the ground surface. when the tank was removed in August, 1991 no groundwater was encountered in the excavation which was approximately 12 feet deep. Static water level fluctuates by at least 3 feet and probably more. One water sample was collected from monitor well MSMW-1 on March 26, 1995 and analyzed for TPH EPA method 8015 modified, and BTEXN Epa method 602. The analysis of the sample reveled no TPH or BTEXN constituents in the groundwater (see attached analytical).

4.0 CONCLUSIONS AND RECOMMENDATIONS

There was no evidence of any BTEX or TPH contamination in the groundwater. The only BTEX or TPH constituents found in the soil samples was 6.2ug/kg Toluene in boring #2 at 9 feet in depth. The action level for Toluene in soil is 100mg/kg. The borings placed around the former tank berth should have intercepted any contamination associated with the possible release of diesel fuel from the tank. Because the only contamination found was below the state action level USPCI recommends that no further action be required and closure be granted for this site.

LAIDLAW ENVIRONMENTAL SERVICES

Monitoring Well Purging Using Bailers

USPCI Consulting Services SOP Number - 7B
Revision Number - 1 - 1
Date - March 30, 1995

☐ This SOP has been modified to meet site specific conditions. The modifications are detailed in _____ of the Work Plan.

LIMITATION

Considerable discussion exists on the best technique for purging monitoring wells. Some researchers have indicated that, under certain conditions, purging may not be required. Other researchers have indicated that multiple well volumes (> > 5) of well bore waters should be removed prior to obtaining any samples considered representative of the aquifer. This Standard Operating Procedure (SOP) describes USPCI's methods for purging monitoring wells, and should apply to most sites. Alternative techniques are possible, and USPCI Project Manager should consult a USPCI Hydrogeologist or Geochemist when warranted.

THEORY

When obtaining a groundwater sample it is critical that the sample is representative of the water in the formation being sampled. Water that has remained in the well casing for extended periods of time has the opportunity to exchange gases with the atmosphere and react with well casing materials. This stagnant water is not representative of that in the aquifer and must be removed prior to sampling.

Purging is considered complete when the pH, electrical conductivity, and temperature have stabilized. The definition of "stabilized" may depend upon site conditions and instrumentation. For example, consecutive measurements within 10% of each other may indicate stabilization. Measurements are repeated for each well volume of water removed until the parameters have stabilized. If a well is bailed dry before three casing volumes are removed, the well is sampled when the volume of water in the well is sufficient.

SUMMARY

Prior to purging, all equipment is decontaminated, staged at the wellhead on a clean ground cloth, and the water level has been measured according to USPCI SOP 7A. The volume of water in the casing is calculated by multiplying the height of the water column in the well by an appropriate conversion factor. The conversion factors for various casing diameters are provided in Exhibit 1.

The bailer is secured to an appropriate length of nylon rope or string and is lowered into the well. When the bailer is full of fluid, it is carefully retrieved so that the length of string does not drop on unprotected ground and contaminate it. The bailer is then emptied of fluid into a calibrated bucket until one casing volume is removed, or the well is dry. After each volume of bore water is removed, the pH, conductivity, and temperature are measured and recorded in a field notebook and/or data

11. Carefully raise the bailer such that the string is oriented over the plastic sheeting and does not become tangled. Do not allow the string to drop to the unprotected ground and contaminate it.

12. Examine the bailer for evidence of a floating light, non-aqueous phase liquids (LNAPLs) or an oil sheen. If present, do not sample the well.

13. Examine the bailer for evidence of a dense, non-aqueous phase liquids (DNAPLs).

14. Empty the bailer into the calibrated bucket.

15. Continue bailing until one casing volume is extracted or the monitoring well is dry.

16. If the well is bailed dry, allow to recover and sample.

17. After each volume is removed, obtain a sample in the beaker to measure pH, conductivity, and temperature (see USPCI SOPs 5A, 5B, and 5C).

18. Remove the additional well volume and repeat the measurements until the parameters have stabilized. The stabilization criteria are:

    pH: ± 0.02 pH units
    Specific conductance: ± 10 %
    Temperature: ± 0.1 °C

19. Drum all purge water, if appropriate.

20. Sample the monitoring well (see USPCI SOPs 7B, 7C, and 7D).

RE: Abatement and Site Characterization Report, release site EINE, Facility 4001814. (UPRR site 881)

Dear Mr. Crim:

Attached is the report for Union Pacific Railroad's UST release site near the corner of 3rd North and 4th West in Salt Lake City. USPCI is the environmental contractor for the Railroad at this site.

For further comments, please feel free to write or call me at (303) 938-5573 or Curt Hull, UST Program Manager, at 5569.

Sincerely,

Ed Ullmer

ABATEMENT AND SITE CHARACTERIZATION REPORT
RELEASE SITE EINE
UNION PACIFIC RAILROAD MAINTENANCE SHOPS
SALT LAKE CITY, UTAH

Utah Facility ID No. 4001814
(UPRR Site No. 881)

1. Executive Summary

In August 1991, an 8000 gallon diesel UST was closed by removal from a site next to the Union Pacific Railroad yard in northern Salt Lake City. Soil sampling of the excavation revealed an isolated release of diesel (1600 ppm TPH) at the south end of the tank. The excavated soil was returned to the pit after removal of the tank.

2. Introduction

The 8000 gallon cylindrical steel UST was removed on August 8-9, 1991 by Reed Petroleum Equipment (Ray Reed - Certificate TR 0068) of Salt Lake City, under contract to USPCI. The size of the tank was 21 X 8 ft. The tank stored diesel solely for refueling railroad vehicles. It was out of service for an unknown period of time (years) before removal. The age of the tank is unknown.

The history of the release report is obscure. It is possible that Reed Petroleum failed to formally notify the State of the release in 1991. The release is recorded as being reported to the DERR on March 23, 1994.

3. Site Description

The legal description of the UST site is the northwest quarter of section 36, T1N, R1W, at a spot 1,100 ft east and 1,800 ft south of the northwest corner.

The site is northwest of the intersection of 4th West and 3rd North Streets within a fenced enclosure east of the Union Pacific railyard. The tank was interred about 20 ft west of the Railroad maintenance shop. See Figures 1 and 2 for regional and detailed location maps. The area around the

site is utilized principally for commercial-industrial activities. The ground cover around the UST excavation is gravel.

The local drainage direction tends to be westward in the area around the site. The site is on the toe of the westward sloping Wasatch Front alluvial fan (See Figure 1). Consult the Site Map, Figure 2 for other site details.

The final tank excavation dimensions were 32 ft long, 17 ft wide, and 12 ft deep. Two soil grab samples were collected on the pit bottom at 12 ft and four sidewall samples were gathered at 8-9 ft. See Insert on Figure 2 for excavation diagram and sample locations and Table 1 below for the analytical results.

No buried utilities are known or located near the excavation site. Virtually no piping from the tank was present other than a vent. It is believed that the fuel dispenser for the UST sat directly over the tank, thus no lateral piping would have been present.

4. Environmental Sensitivity

The depth to groundwater is not specifically known for the site. The excavation did not encounter water at 12 ft. No monitor wells are installed. The shallow groundwater table is uncertain at any particular location along the toe of the alluvial fan because of the discontinuous and lensoid nature of the permeable host sediments and the sporadic presence of hot springs. A few blocks to the north, hot springs help elevate the near-surface water table to within 1 to 3 feet below surface. In the area of the release site, the lack of water at 12 feet suggests a deeper saturated zone, perhaps below 20 ft. Recent pumping wells are screened in a typically confined aquifer that begins below 50-60 ft. The shallow water zone is generally unused in this area because of poor natural water quality.

The soil logged from the excavation was described as medium to dark brown clayey soil with scattered pebble sized fractions. The USC report by American West Analytical Laboratories describe the soil as sandy silt with gravel (ML) (See certificate attached - UPYAT SLC-1-N-2). The sample was collected at 8-9 ft from the north end of the excavation pit. The soil sample is typical of the excavated material.

Diversion plots for the municipal wells and other wells are attached. The nearest city well is 4000 ft south-southeast of the site (priority date - 1991). There are no city wells west of the site within 6000 ft. All but one (a) of the other wells plotted near the site have priority dates earlier than 1922, and most are out of service.

The nearest flowing water is the Jordan River about 1.5 miles west of the site. Hot spring effluent drains to the west in culverts a few blocks north of the site.

The population density is urban - greater than 3000 persons per square mile.

There are no known buried lines that would influence drainage or migration of the diesel contamination.

5. Nature of Release

The overall condition of the tank was fair; no obvious holes were found. The leak was detected by a single soil sample from the south end of the bottom of the pit. The lack of pervasive contamination in the pit bottom or walls suggests that the release may have been from periodic overflow or leakage from the inflow or outflow piping, or from a hole near the top of the tank. There was diesel product remaining in the tank before closure.

Representative samples for laboratory analyses were collected from the pit walls and bottom based on Utah sampling protocol, the excavation geometry, field PID screening, and odor. The PID reading from the soil carrying 1,600 ppm TPH was 315 ppm. All other PID readings were less than 103 ppm. Table 1 presents the lab analytical results; see insert, Figure 2, for sample locations. Analytical certificates are attached.

TABLE 1

Tank Excavation Soil Samples, August 8, 1991

(all values in ppm)

SAMPLES	TPH	BENZ	TOLU	ETHYLB	XYLENES
SLC1-W-1	48	0.1	ND	ND	ND
SLC1-N-2	ND	ND	ND	ND	ND
SLC1-E-3	ND	ND	ND	ND	ND
SLC1-NB-4	77	ND	ND	ND	ND
SLC1-S-5	ND	0.1	0.1	ND	0.2
SLC1-SB-6	1,600	0.1	0.4	4.7	9.1

Detection Limits: TPH-2 ppm, BTEX-0.1 ppm, ND is not detected

No product or notable visual characteristics of contamination were recorded in the pit or elsewhere near the site.

6. Abatement Measures

Six inches of diesel product were removed from the tank and disposed by *Advanced Petroleum* before the excavation began. The tank was removed and shipped by railcar to *Tanks Away* in Federal Heights, Colorado for disposal and metal recycling (See certificate of disposal attached). The excavated soil was returned to the pit along with additional clean fill. No free product was found. Air monitoring of volatiles in and around the pit, while open, recorded less than 5 ppm VOAs.

7. Contamination Removal

All the soil contamination remains on site within the original UST excavation. Samples from the pit walls and bottom suggest that only the south end of the tank berth contains significant residuals. About 20 to 40 cubic yards of contaminated are estimated to remain with TPH values above 100 ppm (diesel).

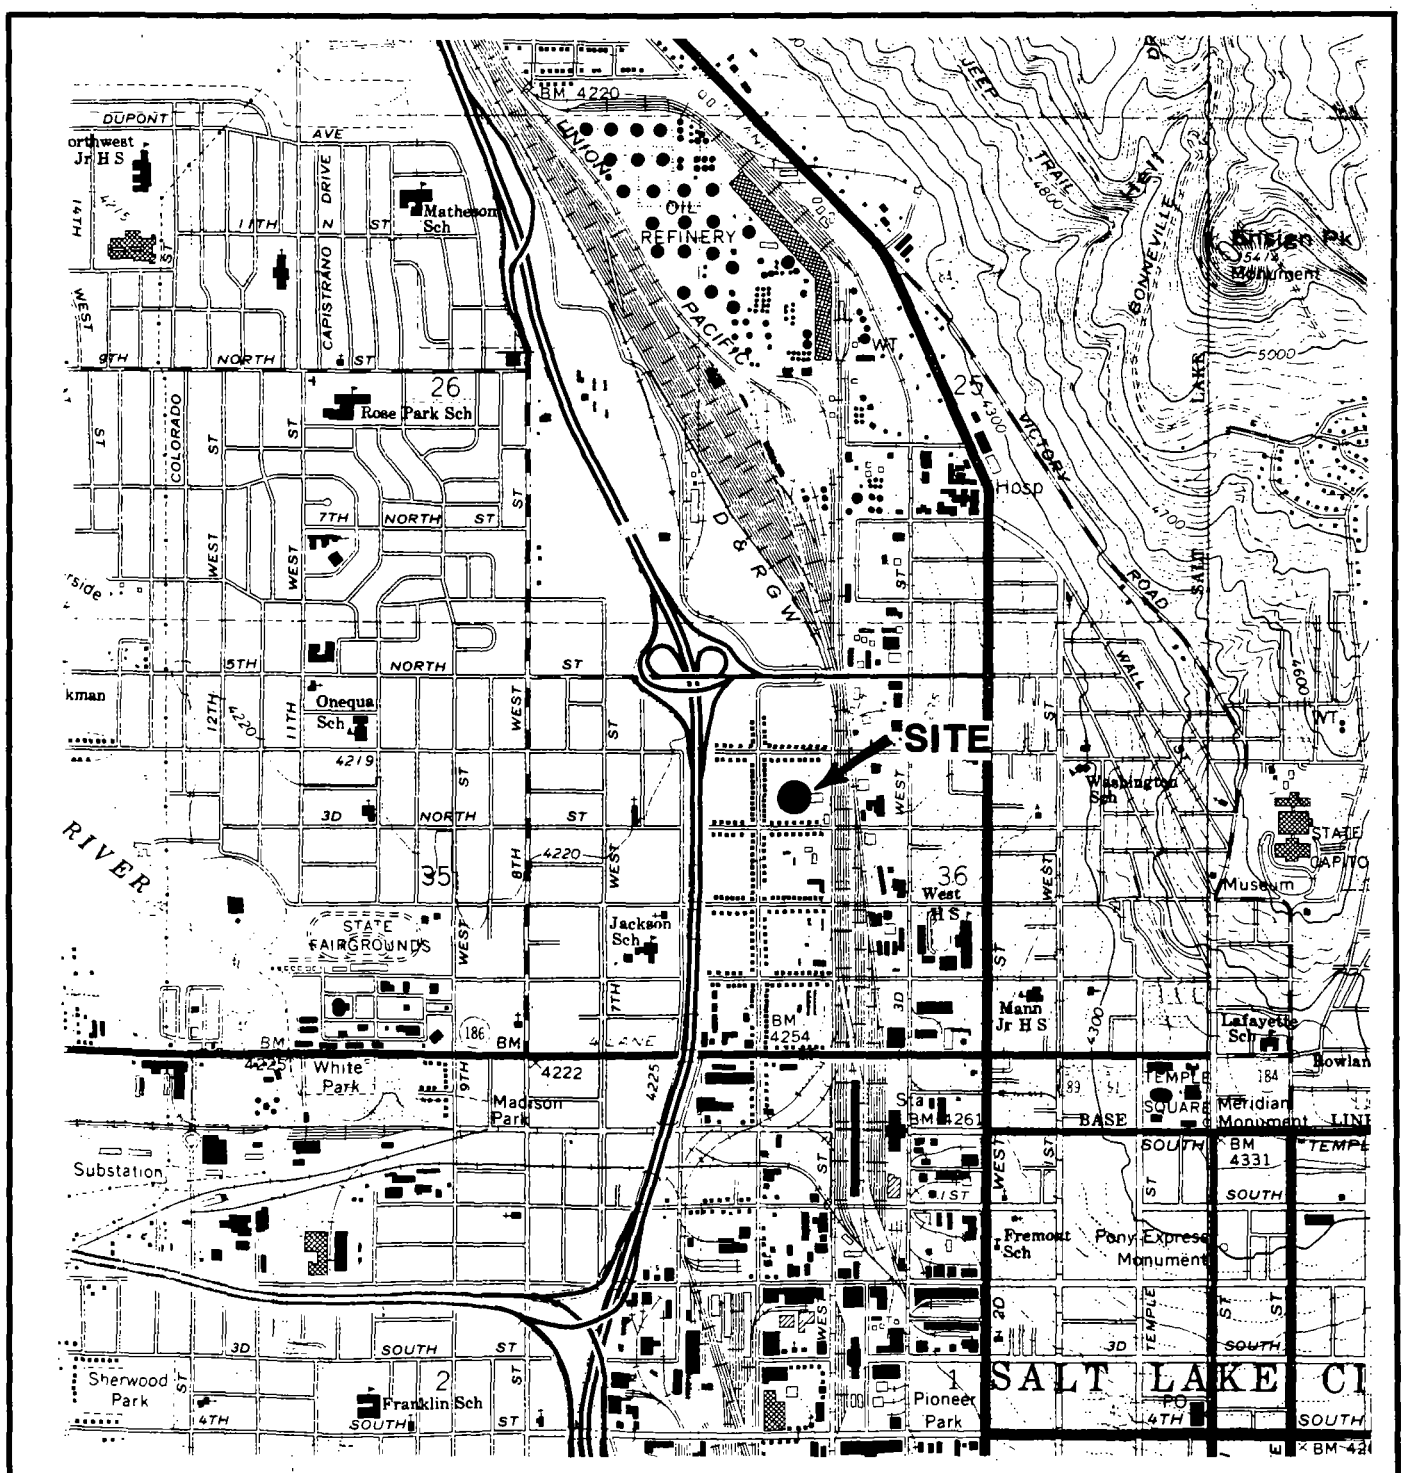

8. Sample Quality Assurance and Quality Control

The samples were collected by Kevin Mead - GS0442 (expires 5/17/93) using the standard Utah protocol for sampling UST sites.

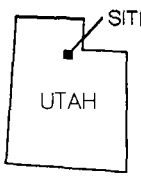

American West Analytical Laboratories of Salt Lake City analyzed the samples. The testing methods were EPA Method 8015 modified for TPH and Method 8020 for the BTEX analytes. Detection limits are listed under Table 1. See the discussion of the USC sample in Section 4.

9. Conclusions and Recommendations

A single sample from the excavation sample suite reveals a diesel release of limited extent at the bottom of the berth of the former UST. The release is more than 5 years old. If further work is necessary on this site, remedial excavation should proceed to remove the contaminated soil. The excavation would follow the contamination to deeper levels to attempt to reach the limits of the cleanup levels, if possible, or establish if groundwater may be impacted. USPCI recommends a cleanup level of 300 ppm for this site.

RE: Release Site EINE, Salt Lake County Maintenance Shops
Located at 300 North 500 West, Salt Lake City, Utah
Facility Identification No. 4001814

Dear Mr. Rupp:

The case file for this facility has been reviewed by your state project manager, Mark Crim, who has recommended that no further corrective action be taken at this time. This recommendation is based upon the information contained in the file supplied by you or your consultant.

The information you have submitted indicates that any detectable petroleum contamination at the site complies with state underground storage tank rules. Based upon these rules there appears to be no threat to human health or the environment. In the future, if other evidence indicates a spread of contamination from the Facility which may cause a threat to human health or the environment, further corrective action may be required.

Sincerely,

Bryan Jackson for

Kent P. Gray, Executive Secretary (UST)
Utah Solid and Hazardous Waste Control Board

RE: Release Site EINE
Facility Identification No. 40001814
Phase II, Reporting and Remediation Schedule Requirements

Dear Mr. Hull:

The Utah Division of Environmental Response and Remediation (DERR) received the Phase I Remediation reports for the above-referenced facility, on May 31, 1994, prepared by USPCI, Remedial Services.

The DERR project manager assigned to the facility has reviewed the reports submitted and has made the recommendation that additional investigation and remedial work are required. The project manager has relied on the information provided and has not made an independent investigation of the facility.

The additional work required pursuant to Utah Administrative Code R311-202 Part 280, Subpart F, Sections 280.65, 280.66 and 280.67, will consist of addressing the issues outlined in the enclosed Phase II Remediation Schedule. This schedule includes submittal due dates for the Subsurface Investigation Report and the Corrective Action Plan Report, which are due within **60 and 90 days**, respectively, upon receipt of this schedule. Further review of your file will either lead to close-out if cleanup at your site is successfully achieved, or additional work as determined by the Executive Secretary. Please submit all reports in the standard format as outlined in the enclosed tables of contents. All reports and correspondence concerning your site should be referred to by your above-referenced facility identification and release site numbers.

Printed on recycled paper

As the owner or operator of the UST system, you are responsible for meeting the requirements contained in this compliance schedule. Pursuant to Utah Code Ann., Sections 19-6-420 and 19-6-424.5, you may identify any other "responsible party," at the above-referenced facility, and may provide the Executive Secretary (UST) with relevant information. The Executive Secretary (UST) may then notify any other responsible parties of their potential liability and request their participation, but you are responsible for complying with this schedule. Also, if you have a consultant or a contractor perform the necessary work, our staff may consult with them, but you are responsible for maintaining compliance with established compliance schedules.

If you have any questions concerning this schedule or the Phase II required reports contained herein, please contact **Mark Crim**, at (801) 536-4100.

Sincerely,

Kent P. Gray, Executive Secretary (UST)
Utah Solid and Hazardous Waste Control Board

Facility Owner Phone # Area Code Phone Number

(For DERR Use Only)
Facility ID. # 4000814
Release ID FINS Release
Notification Date 3/23/94 Release
Reported By Robert Wetec UPRR

DERR Project Manager: Mark Grim
Person Completing Worksheet: Hillary Lund

SITE ASSESSMENT INFORMATION

(For DERR Use Only)
a. Site Classification
(use Table A.1 for most precise classification)
Classification: 4
Impacts: None

Required Response Actions:
No Further Action

b. Contaminant Source Information

Product Released	Amount Released (gal)	Cause of Release (if known)
Gasoline	____	___tank ___piping ___dispenser ___overfill/spill
Diesel	Unknown	✓ tank ___piping ___dispenser ___overfill/spill
Waste Oil	____	___tank ___piping ___dispenser ___overfill/spill
Unknown	____	___tank ___piping ___dispenser ___overfill/spill
Other	____	___tank ___piping ___dispenser ___overfill/spill

Sources Removed: ✓ tank __piping __dispenser __free product __contaminated soil

c. Land Use Information

	residential	commercial	industrial
Current Land Use at the Site:	____	✓	____
Surrounding Neighborhood:	____	✓	✓

*(**Note:** Surrounding land use is **Residential** if one or more residences share a common property line with the Facility)*

d. Soil Information

Depth to Contaminated Soil (feet below land surface): approx 2 to 10 ft
Soil Type(s): sandy silt w/ gravel (ML) Depth (below land surface): 8-9 ft
Method of Soil Type Identification *(check applicable)*: ✓ Unified Soil Classification ____Geologist's description

e. Groundwater Information

Was groundwater present in excavations? ___Yes ✓ No Thickness of Free Product: N/A
Depth to groundwater (feet below land surface): unknown
Is groundwater impacted at any concentration: ___Yes ✓ No
Groundwater flow direction *(circle applicable)*: E, (W), N, S, SE, SW, NE, NW ____Inferred? ✓ Measured?
Slope direction of surface topography *(circle applicable)*: E, (W), N, S, SE, SW, NE, NW

f. Distance from Source to Nearest Potential Receptor

(If any receptors are within 30 feet you must go to Tier 2)

Receptors *(enter distance to each in feet)*
Subsurface Utilities: None Water line None Sewer line None Natural Gas None Storm Drain None Telephone None Electrical ___ Other (specify) R.R. maintenance shop
None Property Line 20' Buildings (specify type: ___Residence ✓ Commercial ___ other, specify)

For DERR Use Only
Distance to Other Receptors
(If any receptors are within 500 feet you must go to Tier 2)
Receptors Within 500 feet ***(enter distance to each in feet and attach water well data sheets and maps; show facility location on each)***
4000' Municipal Well None Domestic Well None Irrigation Well
1-5 mi Surface water *(specify type: lake, stream, creek, river, wetland)*: Jordan River

FACILITY SITE MAP

The owner/operator must submit a facility site map, as close as possible to scale, indicating the north direction, and shows locations of the following properly labeled features:

- Current and/or former UST systems (indicate product type for each)
- Utility lines (underground)
- Buildings or other structures
- Excavations
- Soil stockpiles
- Location of the release and known contamination
- Property lines
- Monitoring wells
- Sample locations

SUPPLEMENTAL INFORMATION
(For DERR Use Only)

Site map attached

All constituents are non-detect except Toluene 6.2 mg/kg R.R. maintenance adg at 20 ft but Toluene only detected at 1 boring, but recommend closure. Groundwater not encountered all confirmation samples in soil < RCLs (toluene) + Nondetect for BEXN & TPH

Excavated soil returned to pit along w/ clean fill.

Owner/Operator Must Submit Copies of Laboratory Analytical Data

RBCA TIER 1 SCREENING LEVEL EVALUATION
(For DERR Use Only)

	Groundwater (mg/L)		Soil (mg/kg)		
CONSTITUENT	Screening Level	Highest Concentration at Source	Screening Level	Highest Concentration at Source (lowest / center)	
Benzene	0.3		0.9	0.1	ND
Toluene	7		61	0.4	ND 6.2
Ethylbenzene	4		23	4.7	ND
Xylenes	73		235	9.1	ND
Naphthalene	0.1		10	ND	ND
TPH-gasoline	10		1500	1600	ND
TPH-diesel	10		5000	N/A	N/A
Oil and Grease/TRPH	10		10000	N/A	N/A

RECOMMENDED TIER 1 ACTIONS
(For DERR Use Only)

- [ ] All contaminant concentration levels are below Tier 1 screening levels, and no receptors are within the critical distances.
  Recommendation: No further action.
- [ ] Contaminant concentration(s) exceed Tier 1 screening levels or receptors are within applicable critical distances.
  Recommendation: Perform a Tier 2 risk assessment or cleanup to applicable levels.
- [ ] All contaminant concentrations are below Tier 1 screening levels but receptors are within the critical distances.
  Recommendations: Cleanup to applicable levels.

SITE CHARACTERIZATION SUMMARY SHEET

Distance from ground surface to groundwater, if known_____ or approximately_____.

Separation distance from last known vertical contamination to groundwater, if known_____ or approximately_____.

Site determined groundwater flow direction_____.

Regional groundwater flow direction_____.

Soil type located in the groundwater table region, if known _____ and generally:

Low permeability: clay, shale, fat clay, high plasticity clay, elastic silt, low plasticity silt, lean clay, silty clay, sandy clay, silty or clayey fine sand, gravelly clay, rock formations

Moderate permeability: clayey sand, poorly graded sand-clay mixtures, silty sand, poorly graded sand-silt mixtures, other fractured rock formations

High permeability: fine sand, silty sand, sand, gravel, gravelly sand, clayey gravel, gravel-sand-clay mixtures, silty gravel, other fractured rock formations

Annual precipitation (inches) _____.
Ground cover on location: concrete, asphalt, landscaped, gravel or dirt, other.

Distance to nearest municipal production well being impacted (feet)_____
determined by: observation, analytical results, complaints, other.

Distance to other wells being impacted (feet) _____
determined by: observation, analytical results, complaints, other.

Distance to surface water being impacted (feet) _____
determined by: sheen, analytical results, dead vegetation or wildlife, other.

Affected Population (number of people) _____.
Distance from release (feet) : _____.
How impacted: vapor in buildings, drinking water, impacted well, other.
Land use: commercial, residential, industrial, agricultural, other.

Impacted utilities: water, sewer, electrical, natural gas, septic tank, land drain, other.
Depth of impacted utility line: _____.

RE: *Release Site EINE, Union Pacific - Salt Lake Maintenance Shops, Salt Lake City, Utah*
Facility Identification No. 4001814
Phase I, Reporting and Remediation Schedule Requirements

Dear Mr. Rupp:

A petroleum release from an underground storage tank (UST) at the above-referenced site was reported on March 23, 1994, to the Division of Environmental Response and Remediation (DERR) based on UST closure information. According to Utah Administrative Code (UAC) R311-202 Part 280, Subparts E and F, the release must be reported, controlled and abated, characterized and remediated, and the full extent and degree of contamination must be defined. These regulations require that specific reports addressing each aspect of the release be prepared and submitted to the Executive Secretary (UST) of the Utah Solid and Hazardous Waste Control Board within specified time frames following the release, as established by the Executive Secretary (UST).

Enclosed, please find the Phase I reporting requirements, which include the Abatement and Initial Site Characterization Report, the Free Product Removal Report, Permitting Requirements List, and Sampling Requirements for UST Sites. You are required to submit all applicable reports within **60 days** of your receipt of this letter. Please submit all reports in the standard format as outlined in the enclosed tables of contents. All reports and correspondence concerning your site should be referred to by your above-referenced Facility Identification and Release Site numbers.

Printed on recycled paper

If the results of your Abatement and Initial Site Characterization Report indicate that laboratory analytical results are above state-established cleanup levels or minimum detection levels as appropriate, or the full extent and degree of the contamination is not adequately defined, you will receive and be required to comply with the requirements of the Phase II Reporting and Remediation Schedule. The Phase II Schedule requires the submission of a Subsurface Investigation Report and a Corrective Action Plan Report.

If you encounter free product, you are required to fill out the enclosed Free Product Removal Report. During Phase I work and prior to any corrective action, you must also meet any applicable permitting requirements as outlined in the enclosed Permitting Requirements List.

As the owner or operator of the UST system, you are responsible for meeting the requirements contained in this compliance schedule. Pursuant to Utah Code Ann., Sections 19-6-420 and 19-6-424.5, you may identify any other "responsible party," at the above-referenced facility, and may provide the Executive Secretary (UST) with relevant information. The Executive Secretary (UST) may then notify any other responsible parties of their potential liability and request their participation, but you are responsible for complying with this schedule. Also, if you have a consultant or a contractor perform the necessary work, our staff may consult with them, but you are responsible for maintaining compliance with established compliance schedules.

If you have any questions concerning this schedule, identification of responsible parties or the required reports, please contact **Mark Crim**, at (801) 536-4100.

Sincerely,

Kent P. Gray, Executive Secretary (UST)
Utah Solid and Hazardous Waste Control Board

11.0 FREE PRODUCT REMOVAL REPORT (If Applicable)

ABATEMENT AND INITIAL SITE CHARACTERIZATION REPORT REQUIREMENTS

40 CFR 280.62 and 280.63

EXECUTIVE SUMMARY

Include a very brief summary or abstract of this report.

1.0 INTRODUCTION

1.1 Facility and LUST Identification numbers;

1.2 Type of facility;

1.3 Current and prior tank use;

1.4 How and when release was detected;

1.5 When release was reported to the DERR;

1.6 Any extenuating or unusual circumstances.

2.0 SITE DESCRIPTION

Each map should show proper scale and orientation (North Arrow) and should not exceed 8 1/2 X 11 inches in size.

2.1 Submit a Topographic Map showing facility location and regional drainage.

2.2 Submit, to an appropriate scale, an Area Map of the facility location which includes the following properly labeled features:

a. Property boundaries.

b. Streets and orientation *(labeled).*

c. Buildings surrounding the facility.

d. Surface water drainage *(rivers, streams, irrigation channels, storm drain inlets, etc.)* with flow direction indicated.

e. Utility conduits *(such as underground utility lines, wells, trenches or*

septic systems etc.).

f. Contaminated soil stockpiles *(if not on site map).*

g. Local land uses surrounding this Facility that could affect or be affected by the release *(irrigation canals, drainage channels, and other relevant features).*

h. Location of site map.

2.3 Submit a Site Map *(drawn to scale or dimensioned distances)* showing the locations of the following:

a. Present or former UST(s) *(including piping and dispensers).*

b. Extent *(vertical and lateral)* of any excavation(s) and known contamination and location of soil stockpile(s) *(if any).*

c. Buildings, fences, property boundaries, or other adjacent structures.

d. Locations and depths of all soil and groundwater samples collected during any phase of this investigation. Include closure samples, confirmation samples, soil borings, and monitoring well information, (if applicable). *All sample identification shown on the site map or otherwise identified in the report must be consistent with the identification labels used on the chain-of custody forms and the Utah Certified Laboratory analyses results documentation.*

If all of the sample data make the site map appear cluttered it is suggested to incorporate other standard reporting techniques such as additional site maps showing isoconcentration contours, geologic cross sections, and groundwater piezometric surface contours. When many samples are taken, it is also recommended to include the sampling results in a table format that is easily referenced to sample locations identified on site map(s).

e. Locations and total depths of monitoring wells and soil borings (if applicable).

f. Type of ground-cover *(soil, grass, asphalt, concrete, etc).*

g. Utility conduits, not included on area map (if any). Also note depth (if known) and type of utility.

3.0 ENVIRONMENTAL SENSITIVITY

Describe and document the following, including the source of the information:

3.1 Depth to groundwater *(distance from ground surface in feet)* and suspected separation distance between contamination and groundwater *(feet).*

3.2 Native soil type(s) as determined by Unified Soil Classification sample results *(see UAC R311-205-2).*

3.3 Annual precipitation *(average inches/year)* and other relevant climatological conditions.

3.4 Distance to nearest municipal production well *(feet or miles).*

3.5 Distance to other wells within a one quarter (0.25) mile radius *(Division of Water Rights plot).*

3.6 Distance to nearest surface water *(feet or miles).*

3.7 Nearby populations and the approximate population density within a 3-mile radius from the release site. Also, provide a preliminary estimate of the directly affected public for future notification requirements.

3.8 Distance to underground utility lines that may serve as conduits for contamination migration (feet).

4.0 NATURE OF RELEASE

4.1 Identify the type and amount of substance(s) stored on-site and the amount of product(s) released to the environment *(e.g., soil, surface water and/or groundwater).*

4.2 Describe the cause and location of known or suspected release(s) *(e.g., tank, piping, dispenser, ancillary, spill, etc.).*

4.3 Describe the condition of the UST system (tank and piping) and report the findings *(e.g., corrosion, holes or pitting, soil staining, odor, sheen on surface water or groundwater, or other evident signs of a release etc.).*

4.4 Describe methods used for detecting contamination and rationale for sample selection location *(e.g., visual, field instruments, etc.).* Give the rationale for the selection of additional locations that deviate from or are in addition to those identified in the approved Closure Plan.

5.0 ABATEMENT MEASURES

5.1 Perform necessary measures to abate the source of contamination and prevent further releases. Empty the UST system if necessary. Report how further releases were prevented *(temporary or permanent closure, product removal, replace or repair leaking piping, etc.).*

a. If an UST system closure is required or performed as an abatement measure after the release is detected, closure samples must be taken and a general site assessment performed in accordance with Utah Administrative Code R311-205-2.

5.2 Visually inspect the site for evidence of contamination. Determine if there is any free product in the ground, groundwater, underground utility lines, basements, or other possible pathways of contaminant migration. You must immediately begin the removal of any free petroleum product in excess of 1/8 inch thick *(see the enclosed Free Product Removal Report for applicable requirements).*

5.3 Notify all applicable State and local agencies listed in the enclosed Permitting Requirements List as required. Proper agency notification and acceptance and/or approval must be documented and reported.

5.4 Monitor and mitigate any fire or safety hazards in the contamination zone. Remedy any hazards due to excavated or exposed contaminated soils and water. Report any hazards and how they were remedied.

6.0 CONTAMINATION REMOVAL

6.1 Indicate the approximate volume of any over-excavated soil and where it was either properly disposed of, or is currently being stockpiled.

a. If soils are stockpiled or aerated they should be managed in accordance with DERR "Guidelines for Disposition and Treatment of Petroleum-Contaminated Soils." Final approval must be obtained from DERR prior to any aeration. Documentation of prior acceptance from the Division of Air Quality, local Health Department, and the local Fire Department will be required prior to DERR approval.

6.2 If all contaminated soils are over-excavated, confirmation soil samples must be taken in order to document that all contaminated soils were successfully removed *(Consult with your DERR project manager prior to any confirmation sampling for site specific requirements necessary for site closeout).* See Section 7.2 for analytical testing requirements for various types of contamination. Report confirmation sampling results with all appropriate documentation.

a. If confirmation samples document the removal of all contamination, specify the total volume, type and concentrations of contaminated soil removed.

6.3 The volume, concentration and disposal location of all contaminated water *(e.g., well purging water, groundwater, excavation water, etc.)* must be documented.

6.4 If any contamination remains in place, estimate the type, volume, and concentration of remaining contamination.

a. Continue to collect applicable environmental samples and begin procedures for defining the nature and full extent and degree of contamination. Report additional work underway or in progress at the time this report is submitted under the Conclusions and Recommendations section.

b. Identify present and future migration pathways and receptors. Report how groundwater could be or has been affected.

7.0 SAMPLE QUALITY ASSURANCE AND QUALITY CONTROL

7.1 Confirm that sampling was performed in accordance with EPA sampling protocol. *(See the enclosed Sampling Requirements for UST Sites).* Confirm that depths and locations of all samples are properly documented. Identify the State Certified sampler(s) and give certification number(s). Report basic procedures including sample preservation techniques and well sampling procedures (if applicable).

***Note: The analytical detection levels should be sufficiently low in order to detect constituents at or below their applicable maximum contaminant levels (MCLs) or State established cleanup levels.**

7.2 All environmental samples from UST sites must be collected by a Utah Certified Soil and Groundwater Sampler and analyzed by a Utah Certified Laboratory using appropriate EPA or other testing methods as outlined below *(If you have questions as to proper methods, please contact your project manager)*:

Gasoline contamination:	Total petroleum Hydrocarbons (TPH) and Benzene, Toluene, Ethylbenzene and Xylene (BTEX) 8015 Modified, 8020, 602.
Diesel contamination:	TPH, BTEX, and naphthalene (N) 8015 Modified, 8020, 602.

Waste oil contamination:	Total Recoverable Petroleum Hydrocarbons (418.1) or Oil and Grease (413.1).
Unknown contamination:	Other laboratory analyses (in addition to TPH and BTEX) may be required depending on site specific conditions *(Please consult with your DERR project manager).*

7.3 Unified soil classification (USC) samples must be taken in the native soil. Report the location(s) and depth(s) of the USC sample(s) taken and explain any variations between sampling and how well the USC samples represent the native soil at the UST site.

8.0 CONCLUSIONS AND RECOMMENDATIONS

9.0 REFERENCES

10.0 APPENDICES

Examples only: Chain-of-Custody documentation must be provided for all environmental samples, USC lab analysis documentation, Utah Certified Laboratory analytical results, Etc.

11.0 FREE PRODUCT REMOVAL REPORT *(If Applicable)*

If free product was encountered in performing the requirements of Section 5.2, this section must be completed in accordance with the enclosed "Free Product Removal Report Requirements".

FREE PRODUCT REMOVAL REPORT REQUIREMENTS

40 CFR 280.64

If free product is observed at any time, you must begin removal immediately. The removal of free product should be conducted in a manner that minimizes the spread and migration of contamination into uncontaminated areas, and must be removed to the maximum extent possible. The Free Product Removal Report must contain at a minimum, the information listed below.

1.0 Document that you immediately notified the *Utah Division of Water Quality (801) 538-6146* if free product was in contact with groundwater or surface water.

2.0 Document that you immediately notified the *Division of Air Quality (801) 536-4000* if any vapors were emitted to the atmosphere from your free product recovery system.

3.0 Describe and document the steps taken to obtain necessary permits for free product disposal, effluent water discharge, air emission, or any other local permits related to the construction of the free product recovery system.

4.0 Describe how flammable materials were handled in a safe and competent manner.

5.0 Identify the person(s) removing the free product.

6.0 Indicate the quantity, type, and thickness of product observed or measured in wells, boreholes or excavations.

7.0 Provide a site map (maximum size 8 1/2 X 11 inches) showing any information pertinent to the free product extent and removal.

8.0 Describe how free product was removed and the quantity removed.

9.0 Provide construction details and other aspects of the free product removal system.

10.0 Describe and document how the recovered free product was disposed and document disposal location. *Discharges shall not be disposed of in a manner that places them in direct contact with the environment or causes contamination to previously uncontaminated areas.*

11.0 If water was extracted in conjunction with free product and sample collection is necessary in order to characterize the effluent (water) quality and dissolved contamination, then include all sampling results in this report. Proper QA/QC should be followed and documented *(see enclosed Sampling Requirements for UST Sites).*

12.0 Describe the site status and effectiveness of the free product removal.

PERMITTING REQUIREMENTS LIST

1.0 If you anticipate emitting vapors to the atmosphere during any phase of the leaking underground storage tank investigation or cleanup ***you must immediately notify the Division of Air Quality (801) 536-4000,*** so that they may determine whether or not an Air permit is required. Submit documentation of the notification and any permits or approvals obtained to DERR.

2.0 If you know that groundwater has been impacted by petroleum free-phase or dissolved product, or that surface waters have been contaminated, ***you must immediately notify the Division of Water Quality (801) 538-6146.*** Any required permits such as UPDES discharge, pretreatment, UIC or Groundwater discharge must be obtained prior to implementing corrective action of abatement measures. Documentation of the notification and any permits or approvals obtained must be submitted to DERR.

3.0 Contact the ***Utah Division of Water Rights (801) 538-7240,*** for well installation and abandonment procedures and any other permit requirements contained in their Administrative Rules for water well drillers. Submit documentation of the notification and any permits or approvals obtained to DERR.

SAMPLING PROCEDURES AND REQUIREMENTS FOR UNDERGROUND STORAGE TANK (UST) SITES

The below-listed items assist to ensure that all types of samples collected are of good integrity, representative of environmental conditions, and provide legally defensible data.

1. Describe and document any necessary property access requirements.

2. All soil, groundwater, and surface water samples must be collected by a Utah certified sampler. The name and certification number of the sampler must be clearly identified.

3. All soil, groundwater, and surface water samples must be analyzed by a Utah certified laboratory. The name of the analytical laboratory must be clearly identified.

4. Native soil type must be evaluated using Unified Soil Classification methods. Other detailed lithologic descriptions may also be necessary.

5. Describe subsurface stratigraphy and continuity of strata beneath the site. Describe features such as discontinuous clay, silt, or sand lenses, interbedded strata, and other features.

6. Chain-of-Custody documentation must be maintained and provided for all samples collected.

7. Identify sampled media (soil, groundwater, surface water, drinking water, air, other) and ensure that the identification for each sampled media is consistent.

8. All sample identifications, names, and numbers must be consistent throughout the Chain-of-Custody documentation, laboratory analytical results, site map, data tables, and the report text.

9. Describe the rationale for selecting sample locations and sampled intervals in excavations, test pits, soil/well borings, soil land farms, soil stockpiles, or other sample locations. Describe whether the sample location determination was based on field instrument measurements, random selection, judgmental, or other rationale.

10. Describe and/or illustrate depths at which samples are collected.

11. Show sample locations on a properly scaled and oriented site map.

12. Specify the following sampled features and the applicable media sampled, including but not limited to:
    a. Excavations
    b. Test pits
    c. Soil borings
    d. Soil borings for wells

e. Soil land farms
f. Soil stockpiles
g. Wells, including vadose injection and extraction, groundwater monitor, groundwater injection and extraction, or other.
h. Piezometer
i. Surface water

13. Identify the sample type(s) including, but not limited to, the following:
    a. Grab
    b. Composite
    c. Headspace
    d. Time-flow averaged
    e. Closure sample
    f. Confirmation sample (verification)
    g. Quality control (QC) samples (duplicates, splits, blanks, etc).

14. Provide detailed descriptions of field screening methods and devices used, including but not limited to organic vapor meters, or other methods for detecting the presence of vapor contamination.

15. Describe sampling methodology, equipment, and devices used.

16. Describe devices used to measure the depth to groundwater.

17. Describe the proper QA/QC sample collection methods and equipment used.
    a. Describe sample containers for each sample type and media, and identify the source or supplier of the sample containers.
    b. Describe decontamination procedures for all sampling equipment, containers, water and product level measuring devices, drilling equipment, or other devices that contact and affect the sample.
    c. **Sampling procedures must be conducted in a manner that minimizes the loss of volatile organic compounds.** Describe the methods used to minimize the loss of volatiles and maintain sample integrity, including but not limited to the following: Zero headspace in sample container, methods used to preserve the sample at 4° Celsius (approximately 39.2° Fahrenheit).
    d. Describe methods used to transport environmental samples to the laboratory.
    e. If samples are not immediately delivered to the laboratory, describe the methods used to preserve samples and maintain sample integrity.
    f. Describe how groundwater wells were purged and the calculations that support the reported number of casing or borehole volumes removed. Purging is complete when the pH, electrical conductivity, and temperature stabilize. If following this procedure is not possible, remove a minimum of three volumes.

18. If a health and safety plan was prepared for the site, please submit a copy.

19. Analytical Methods and Contamination Concentration Determination: The following chart shows the constituents in each product type that must be analyzed using suggested analytical methods. The analyses of additional constituents may be required, as determined by the Executive Secretary.

SUBSTANCE	CONTAMINANT COMPOUNDS TO BE ANALYZED	ANALYTICAL METHODS	
		SOIL	GROUNDWATER or SURFACE WATER
Gasoline	Total Petroleum Hydrocarbons (TPH) Benzene, Toluene, Ethylbenzene, Xylenes (BTEX)	8015 Modified and EPA 8020	8015 Modified and EPA 602 or 624
Diesel	Total Petroleum Hydrocarbons (TPH) Benzene, Toluene, Ethylbenzene, Xylenes, Naphthalene (BTEXN)	8015 Modified and EPA 8020	8015 modified and EPA 602 or 624
Used Oil	Oil and Grease (O&G) or Total Recoverable Hydrocarbons (TRH) Benzene, Toluene, Ethylbenzene, Xylenes, Naphthalene (BTEXN) Halogenated Organic Compounds	EPA 413.1 or 418.1 and EPA 8020 and EPA 8010	EPA 413.1 or 418.1 and EPA 602 or 624 and EPA 601
New Oil	Oil and Grease (O&G) or Total Recoverable Hydrocarbons (TRH)	EPA 413.1 or 418.1	EPA 413.1 or 418.1
Other or Unknown	Total Petroleum Hydrocarbons (TPH) Oil and Grease (O&G) or Total Recoverable Hydrocarbons (TRH) Volatile Organic Compounds (VOC's) Or other EPA methods as approved by the Executive Secretary	8015 Modified and EPA 413.1 or 418.1 and EPA 8240 or 8260	8015 modified and EPA 413.1 or 418.1 and EPA 624

20. Laboratory analytical detection limits must be sufficiently low in order to detect contaminant concentrations at or below their applicable maximum contaminant levels or state-established cleanup levels.

21. Submit copies of original laboratory report forms; must include detection levels.

22. If soil samples are corrected for moisture content, please provide the moisture content of the sample and any other relevant information.

23. Ensure that dates of sample collection, date submitted to the laboratory, and date analyzed are clearly identified in all submitted reports and information.

24. Groundwater well installation and abandonment must be conducted in accordance with the Utah Division of Water Rights specifications.

25. If soil borings and wells are emplaced, the following information at a minimum is required:
    a. Type of drilling apparatus and equipment.
    b. Drilling fluids used, if applicable.
    c. Appropriate vertical scale must be shown on the on boring logs.
    d. Detailed geologic boring logs describing the lithology, grain sizes, grain angularity, sorting, color, moisture, firmness, plasticity, strata characteristics such as bed thickness, lenses, interbedding, or other pertinent features.
    e. Sample collection locations, including soil, groundwater, and organic vapor meter measurements, headspace, or other.
    f. Blow counts per foot, if applicable.
    g. Presence or absence of hydrocarbon staining.
    h. Depth to groundwater, if encountered, and groundwater elevations.
    i. Total depth of well or boring.
    k. Number of wells and/or borings.
    l. As-built drawings.
    m. Well construction materials, including casing screen type, filter pack material and particle size.
    n. Screen length and slot size.
    p. Type and placement of pumps, if applicable.

26. Described in detail the procedures used to dispose of drill cuttings, purged water, or any other materials generated during any phase of work.

NOTIFICATION OF PETROLEUM STORAGE TANK FUND CLAIMS PROCESS

Release Site # EINE Facility ID # 4001814

A confirmed release from your underground storage tank (UST) system has been reported to the Division of Environmental Response and Remediation (DERR). The tanks at your facility may have had a certificate of compliance and therefore you may be eligible to make a claim against the Petroleum Storage Tank (PST) Fund. However, if not all of the reporting requirements are followed, your claim for payment may be denied. A notice of intent to claim against the fund needs to be filed with the DERR within 60 days of confirming a release, or immediately after the first $25,000 in eligible costs has been expended, whichever is sooner. A notice of intent form is provided on the back of this notice.

Pursuant to Utah Administrative Code (1994) R311-207, the responsible party of the release must expend the first $25,000 on reasonable, customary and legitimate expenses, as determined by the Executive Secretary (UST) before payments are expended from the fund. **All** of these expenditures must be fully documented and submitted to the Executive Secretary for review and approval. A work plan and budget must be submitted by the responsible party to the Executive Secretary for approval **prior to** beginning abatement, investigation, or corrective action work that may be eligible for payment from the PST Fund after the first $25,000 in eligible costs has been expended. In addition, the contractor or consultant performing the work at the site must be qualified as determined by the Executive Secretary. **Failure to comply with all of the necessary requirements may jeopardize your ability to receive payment from the fund.**

If you think that you may be eligible for payments from the PST Fund, notify your state project manager **immediately** at (801) 536-4100 and request a PST Fund information packet.

NOTIFICATION OF INTENT TO CLAIM AGAINST THE PETROLEUM STORAGE TANK (PST) FUND

Release Site #_____ Facility ID #_____

Facility Name:_____

Facility Location:_____

I the undersigned, hereby inform the Division of Environmental Response and Remediation (DERR) that I intend to proceed with the PST Fund claim process. This form hereby constitutes my Notification of Intent as required by Utah Admin. Code (1994) R311-207-3(b). To file an actual claim against the PST Fund, I understand that I will need to file an eligibility application*.

_____
Signature

_____
Name (Please Print)

_____
Company Name

_____
Address

_____
City, State, Zip Code

If you have any questions regarding this notice of intent, or the PST Fund claims process, please contact the Leaking Underground Storage Tank (LUST) Section at (801) 536-4100.

Please return this notice (or a similar one prepared by yourself) to the DERR at the address listed below:

Division of Environmental Response and Remediation
Atten: LUST Section/PST Fund
1950 West 168 North, First Floor
Salt Lake City, Utah 84116

*_____ Please indicate whether an eligibility application is needed from the DERR.

Rec'd 3/23/94

UNDERGROUND STORAGE TANK CLOSURE NOTICE (Revised 03/01/93)

Facility ID # 4001814

State Use Only	
Date Processed	3/24/94 by LJ
Date Mailed to LHD	
Samples in LUST File #	
Samples to LUST Review	

Closure Notice prepared at the request of the owner/operator (identified below) by Curt Hull

of (company name) USPCI Phone # (303) 938-5569

Address 5665 Flatiron Parkway City Boulder State CO Zip 80301

FACILITY INFORMATION

Tank Owner Union Pacific Railroad Phone # (402) 271-4078

[ ] dba (individual doing business as) [ ] sole proprietorship [ ] partnership [X] corporation

Address 1416 Dodge Street City Omaha State NE Zip 68179

Facility Name Maintenance Yard

Address 300N 500W City Salt Lake City State UT Zip

Contact person Harry Patterson Phone # (402) 271-4078

Number of regulated tanks at the facility before closure: 1

Number of regulated tanks at the facility after closure: 0

TYPE OF CLOSURE

[X] Permanent [ ] Temporary [ ] Change-In-Service

Permanent or Change-In-Service [X] Fuel was emptied [X] Sludge was removed [ ] Tank was cleaned.

Tank was: [X] Purged [X] Inerted. Method Used: Dry ice with monitoring with CGI

Location of Closure Records USPCI, 5665 Flatiron Parkway, Boulder CO 80301

For in-place closure: tanks filled with N/A

Substance to be stored for Change-In-Service N/A

Temporary [ ] Fuel was emptied. [ ] Corrosion protection is operating. [ ] Release detection equipment is operating.

Residue depth remaining in tank _____ inches, or _____% by weight of total capacity of UST.

3 months: [ ] Vent lines open Cap/Secure: [ ] lines [ ] pumps [ ] manways

12 months: [ ] Permanently closed [ ] New/Upgraded [ ] Extension request

Address 255 West 2255 South City Salt Lake City State UT Zip 84115

DISPOSAL SITES USED:

Tank: Tanks Away Date 10/23/91 Number 4331

Product from Tank: N/A Date _____ Amount _____

Contaminated water from tank cleaning: N/A Date _____ Amount _____

Sludge: N/A Date _____ Amount _____

Contaminated Water: N/A Date _____ Amount _____

Contaminated Soil: N/A Date _____ Amount _____

Is any contaminated soil which was overexcavated still on site? ____ Yes __X__ No ____ Not applicable

SITE ASSESSMENT

Complete the Facility Site Plat (Closure Notice) and Sample Information Table (Closure Notice) on pages 3 and 4 to show the locations, depths, and other information on all soil/groundwater samples taken for closure. The samples must be consistently identified by sample ID # on the site plat, table, and lab analysis report.

[X] Completed Facility Site Plat (Closure Notice) is attached.

[X] Completed Sample Information Table (Closure Notice) is attached.

[X] Certified lab analytical environmental sample results are attached.

[X] Unified Soil Classification (USC) sample results are attached.

[X] Chain of Custody form is attached.

Samples were properly: [X] Collected [X] Labeled [X] Packaged [X] Transported

[X] Samples were in sight of the person in custody at all times or in a secured locked place.

I certify under penalty of law that the closure site assessment at this facility was conducted in accordance with R311-202 (parts 280.52 and 280.72) and R311-205 U.A.C., and that any additional samples required by R311-202 parts 280.52 and 280.72 and R311-205-2(a)(1) were properly collected.

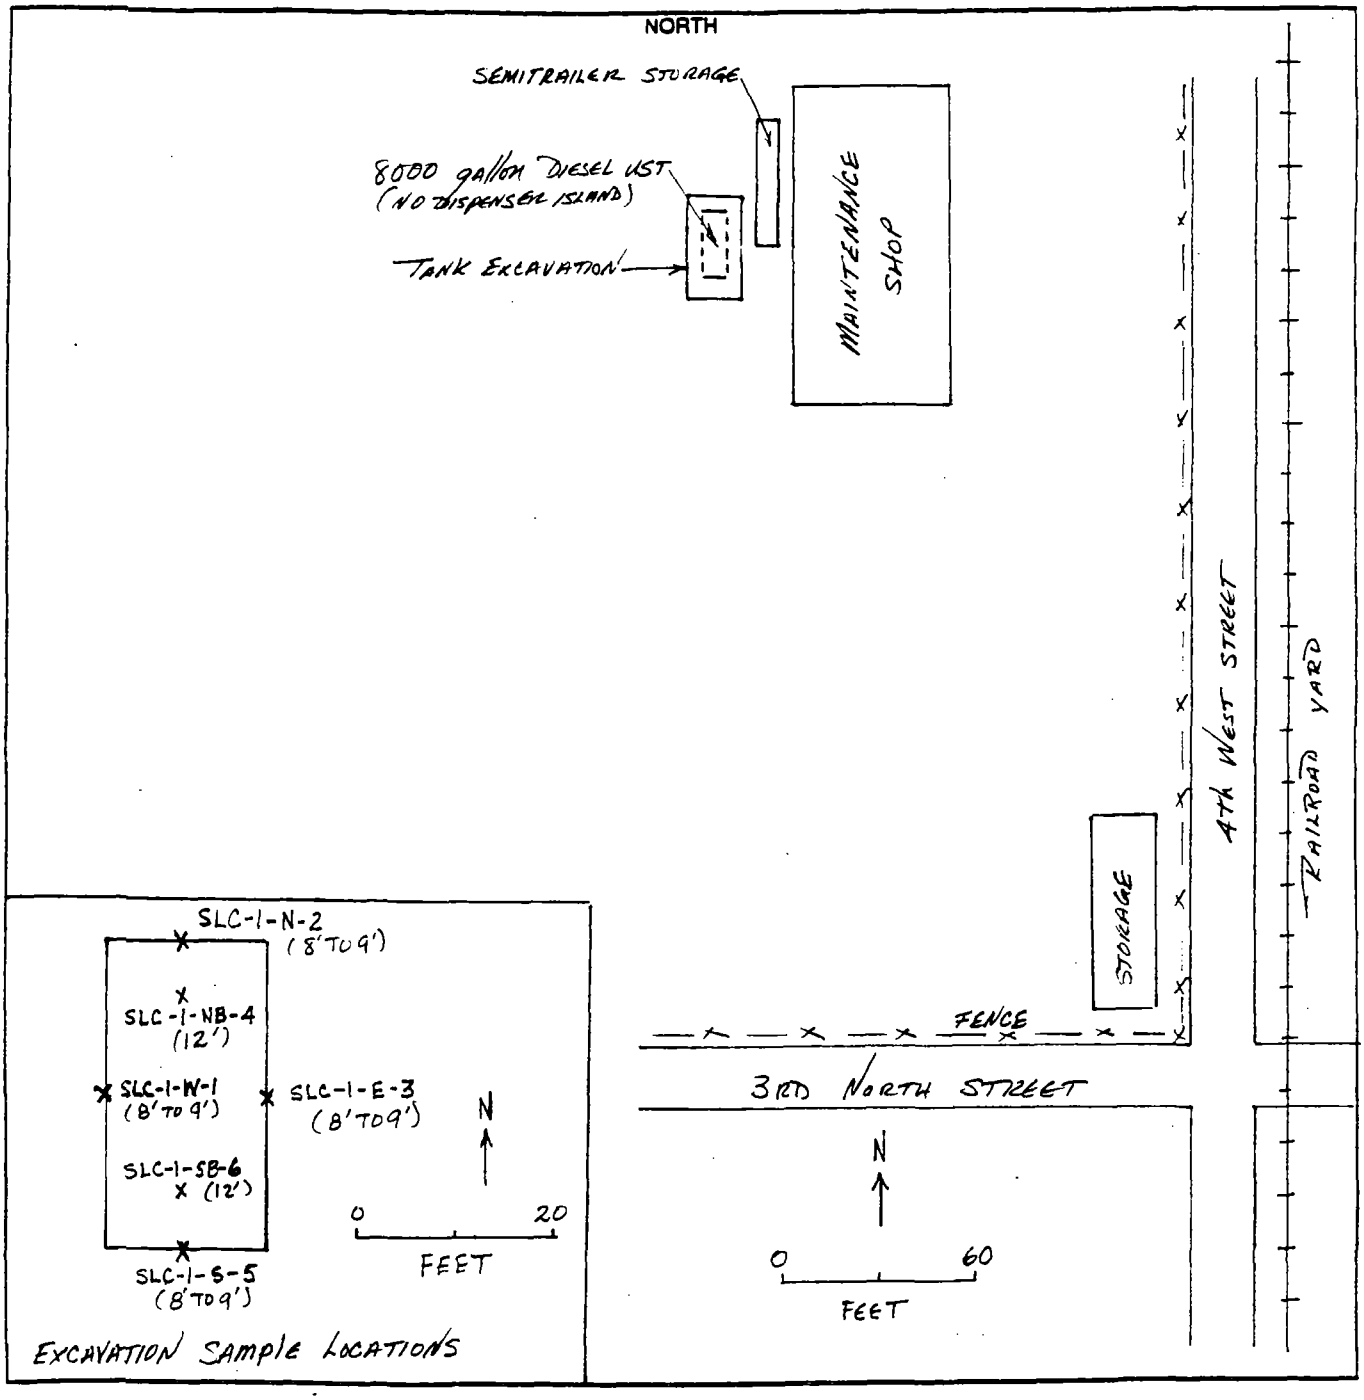

Signature of Certified Groundwater/Soil Sampler _____

Full name of Certified Sampler Kevin E. Mead **Date** 03/16/94

FACILITY SITE PLAT (CLOSURE NOTICE)

The site plat must show locations of all buildings, streets, property boundaries, tanks, piping, dispenser islands, and underground utilities. The site plat must be drawn to an appropriate identified scale. It must show actual sampling locations, substances stored in tanks, and other relevant information. Tank and sample identification numbers must be consistent with the information given on p. 1 and 4 of the closure notice.

Facility ID # 4001814 Drawn By Mike Pierson Date 8/9/91

X = Sample locations (SS-#, WS-#, USC-#)
⊗ = Monitoring Wells (MW-#,)
O = Soil boring (B-#)
● = Water Wells (domestic, livestock, etc.)

SAMPLE INFORMATION TABLE (Closure Notice)

Complete table for all samples that were taken for closure. Sample ID numbers on the table must be consistent with the sample ID numbers given on the site plat and in the lab analysis report.

Sample #/Lab ID#	Sub. stored	Spl. type[1]	Depth[2]	Compounds[3]	Analysis method(s)[4]
SLC-1-W-1/7044-01	X	SS	8'-9'	TPH,BTEX	8015 mod., 8020
SLC-1-N-2/7044-02	X	SS	8'-9'	TPH,BTEX, USC	8015 mod, 8020, 2488-84X4.2
SLC-1-E-3/7044-03	X	SS	8'-9'	TPH, BTEX	8015 mod., 8020
SLC-1-NB-4/7044-04	X	SS	12'	TPH, BTEX	8015 mod., 8020
SLC-1-S-5/7044-05	X	SS	8'-9'	TPH, BTEX	8015 mod., 8020
SLC-1-SB-6/7044-06	X	SS	12'	TPH, BTEX	8015 mod., 8020

[1] Soil (SS), Groundwater (GW), or Unified Soil Classification (USC).
[2] Final depth (in feet) below grade at which samples were taken.
[3] Contaminant compound(s) analyzed for each sample (TPH, BTEXN, O&G, etc).
[4] Appropriate analysis methods for contaminant compound(s) in each sample (8015 mod., 8020, 413.1, etc).

State Certified Laboratory used: American West Analytical Laboratories

APPENDIX I

QUALIFICATIONS

Laura Mathys – Senior Project Manager

BA Environmental Studies, University of North Carolina at Chapel Hill
BA Illustration, Columbia College Chicago

OSHA 10 Hour Construction Safety Certification

Ms. Mathys has worked in environmental consulting and remediation services since 2007. Her current responsibilities include project coordination and oversight due diligence work of large and small scale industrial, manufacturing, commercial, multi-tenant residential, and rural properties in the Rocky Mountain Region. Work functions involve project development and planning, assisting clients, project oversight and technical writing. Her experience includes due diligence investigations, soil and groundwater investigations, and remediation.

Project experience for Ms. Mathys includes:

- Due diligence work including database reviews, Phase I Environmental Site Assessments (ESA), Phase II site investigations, Limited Environmental Site Assessments (LESA), Environmental Transaction Screens (ETS), Records Search with Risk Assessment (RSRA), and historical records and file reviews.
- Subsurface investigations involving various chemical releases with the soil and groundwater.
- Due diligence work for the NEPA process for cell towers, co-location antennas and FM broadcast towers.
- Asbestos, radon, lead paint, air quality, and lead in water sampling

Ms. Mathys has been with AEI since 2011, and provides project management to ensure ASTM compliance and satisfaction of client requirements for Phase I Environmental Site Assessments, Environmental Transaction Analyses, Transaction Screens, and Database Reviews. Ms. Mathys' management and technical experience has allowed AEI's projects to be performed in a cost effective and timely manner to the satisfaction of AEI's clients and regulatory agencies.

Edna M. Picciolini ☐National Client Manager

B.A. – Environmental Sciences, Northwestern University, 1995

Illinois Department of Public Health Asbestos Inspector
USEPA Accredited Asbestos Building Inspector

Ms. Picciolini has served as a National Client Manager, Senior Project Manager and Group Leader, overseeing all aspects of Environmental Due Diligence, including Phase I Environmental Site Assessments (ESAs), Phase II ESAs, and Regulatory Compliance Audits. Ms. Picciolini has 22 years of environmental consulting experience. Her responsibilities have included coordinating Phase I Environmental Site Assessments (ESA) and Industrial Hygiene operations and managing national client accounts for sites throughout the United States, Canada and Mexico. Ms. Picciolini has produced several national client report formats for Phase I ESAs, as well as NEPA reports. She has prepared a Quality Assurance/Quality Control (QA/QC) database to track the report writing performance of internal staff. Her experience includes writing proposals, overseeing project budgets, invoicing, and reviewing Health and Safety Plans, Phase I ESAs, Asbestos and Lead Survey Reports, reviewing and writing Federal Communications (FCC) NEPA Compliance Checklists and FCC Environmental Assessments (EAs), and performing Phase I ESAs, asbestos surveys, mold inspections, hazardous materials surveys and compliance audits. She has been responsible for overall QA/QC of Phase I ESAs, Phase II ESAs, and Asbestos Surveys for multiple clients and portfolios. Ms. Picciolini has performed and managed Phase I ESAs on varied property types including retail shopping centers, commercial office buildings, high-rise structures, medical clinics, medical office buildings, manufacturing sites, industrial/warehouse structures, gas stations, automotive service stations, marinas, retail strip malls, multi-family residential buildings, railroad yards, airports, bulk oil storage terminals, cemeteries, funeral homes, and vacant parcels.

Ms. Picciolini's experience also includes FESOP and Title V air permitting, air emissions inventories, and a thorough knowledge of Comprehensive Environmental Response, Compensation, and Liability Act issues and reform options; Illinois Responsible Property Transfer Act (IRPTA) applicability; Risk Management Planning (RMP); Resource Conservation and Recovery Act (RCRA); Emergency Prevention and Community Right-To-Know Act (EPCRA) regulations; asbestos surveys; mold surveys; hazardous materials surveys, and project management.

Ms. Picciolini has a thorough knowledge of health and safety issues and regulations. She has provided Occupational Safety and Health Administration (OSHA) Asbestos Awareness Training to clients and in-house personnel, and has provided mentoring and training to junior staff. She has successfully managed and/or completed numerous multi-site portfolios within project budgets and under strict deadlines.

Project experience for Ms. Picciolini includes:

- **GMAC Commercial Mortgage Corporation -** Managed many multi-site portfolios of Phase I ESAs including healthcare, and emissions testing facilities throughout the State of Illinois. These projects were performed for re-financing purposes and identified recognized environmental conditions (RECs) associated with these sites. Provided client consultation regarding next steps for Phase II ESAs.
- **Confidential Client -** Managed major telecommunications account that involved over 1,300 projects, including FCC Checklist reports, FCC EAs, Phase I ESAs, and Phase II investigations, including asbestos surveys.
- **GuernseyBel** - Conducted air emissions inventory and completed the Illinois Environmental Protection Agency annual emissions summary report for a regional food topping manufacturer.
- **Confidential Client - Completed desktop reviews of prior environmental reports, historical record reviews and database reports for 950 properties. Risk analysis of each property was performed, with information summarized in an access database. Calculated worst case environmental liability loss.**
- **Confidential Client** - Maintained monthly reporting requirements for an active site remediation system. Activities include submitting wastewater effluent reports in connection with the industrial waste permit for an on-site remediation system.
- **Confidential Client** - Performed compliance reviews for a national drugstore's distribution warehouse facilities and an equipment rental company in Illinois, Wisconsin, and Indiana. Responsibilities included determination of compliance status and developing company-wide compliance manual.
- **Confidential Client** - Prepared EAs pertaining to flood plain, wetland, archaeological, and historical issues. Acted as liaison between local telecommunications clients and United States Army Corps of Engineers, Natural Resources Conservation Service, State Historic Preservation Agency, and local agencies.
- **LaSalle Investment Management**: Managed multiple Phase I ESAs, Asbestos and Lead Surveys, and Phase II ESAs for various properties throughout the United States and Canada for purchase and sale. Inspections were performed to current ASTM Standards.
- **Military Housing -** Conducted Mold Surveys in the southeast to support the privatization of base housing.
- **Client Management: Various** - Managed multiple portfolios of Phase I ESAs, Asbestos and Lead Surveys, and Phase II ESAs for various properties throughout the United States, Mexico and Canada for purchase, sale and refinances. Inspections were performed to current ASTM Standards. Performed staff training, prepared report formats, project management, staff assignments, report reviews, and client communications throughout the projects. Ensured projects

were performed within budget and timelines. Communicated updates to the client and provided consultation regarding next steps. Oversaw Phase II proposals and completion of Phase II ESAs. Analyzed subsurface data to determine if a reported release had occurred and next steps. Prepared or reviewed Health and Safety Plans for each project determining whether various safety issues were adequately addressed for on-site staff performing assessments.

- **Walgreen Co.** – Oversaw Due Diligence Services for a National Retail Drug Chain Account. Duties included training staff, overseeing all reporting, tracking, maintaining, developing, and providing training to the account. Oversaw project proposals, budgets, client contacts and updates, as well as made sure client performance standards were met. Sites were located throughout the United States and Puerto Rico.
- **Confidential Client** - Performed a Visual Survey for suspect microbial growth on drywall, which included cuts to drywall throughout the structure. The Survey was performed for an insurance carrier to determine if the moisture infiltration was occurring in several areas, or was isolated to one portion of the building.
- **Equity** - Prepared an Asbestos and Hazardous Material Survey for a defunct power plant. Oversaw basement dewatering, hazardous material identification removal, and asbestos abatement contractors throughout the project, which spanned over one year and was valued at over $3 million in total cost. Oversaw obtaining de-watering permits from the local municipalities, as well as compliance with local, state and federal regulations throughout the project.
- **Lillibridge Healthcare Services, Inc.**- Provided OSHA Asbestos Awareness Training to maintenance personnel and established a Corporate Asbestos Management Plan for a healthcare property management company.
- **Albertson** - Performed an Asbestos and Hazardous Material Survey for a defunct bakery building slated for demolition. Provided detailed reporting and drawings for asbestos removal cost estimates.

Re: Letter of Support for the Project Open 3 application

Attn: Salt Lake County Housing Trust Fund-ARPA Application Review Committee

Please accept this letter of support for the Project Open 3 affordable housing project located at 355 North 500 West in Salt Lake City.

It is our understanding that the developer, the Perpetual Housing Fund is proposing 22 for-sale, deed-restricted residential units for homeowners in need of affordable housing who are at or below 80% AMI.

This project aligns with the goals of the City's Moderate Income Housing Plan, referred to as *Growing SLC: A Five-Year Housing Plan 2018- 2022 (current through fiscal year 2022-2023),* to increase affordable housing in the city.

Overall, the Project Open 3 project would advance the housing affordability goals of Salt Lake City and provide increased housing options for residents of the Guadalupe and Fairpark neighborhood.

Sincerely,

Tony Milner

Tony Milner, Director
Housing Stability Division

The project understands and will comply with all insurance requirements as specified in the Salt Lake County RFA #HTF2023FRF. Upon funding notification, it will provide a Certificate of Insurance that meet the minimum requirements set forth by the County, including:

A. Workers' compensation and employer's liability insurance as required by the State of Utah.
B. Commercial general liability insurance in the minimum amount of $2,000,000 per occurrence with a $3,000,000 general policy aggregate and a $2,000,000 products completed operations policy aggregate.
C. Professional liability insurance in the minimum amount of $2,000,000 per occurrence with a $3,000,000 annual policy aggregate limit.
D. Commercial automobile liability insurance that provides coverage in the minimum amount of $1,000,000 per person, $2,000,000 per accident, $500,000 per occurrence for property damage, or a single combined limit of $2,000,000.

ARTICLES OF INCORPORATION OF

PERPETUAL HOUSING FUND

The undersigned natural persons, each of the age of eighteen years or more, acting as incorporators under the provisions of the Utah Revised Nonprofit Corporation Act, codified at Utah Code Ann. § 16-6a-101 et seq., as amended (the "***Act***"), hereby adopt the following Articles of Incorporation.

ARTICLE I
Name

The name of this corporation shall be PERPETUAL HOUSING FUND.

ARTICLE II
Purpose

PERPETUAL HOUSING FUND, is organized as a nonprofit corporation for the purposes of providing housing for low- and moderate-income individuals and otherwise fostering the development of affordable housing. To that end, the PERPETUAL HOUSING FUND will:

1. Solicit and receive contributions, purchase, own and sell real and personal property, to make contracts, to invest corporate funds, to spend corporate funds for purposes, and to engage in any activity in furtherance of, incidental to, or connected with the purposes set forth above.

2. Exercise such other powers as may be exercised by nonprofit organizations under the applicable laws of the State of Utah and are consistent with those powers described in the Revised Utah Nonprofit Corporation Act, as amended and supplemented.

ARTICLE III
Duration

The duration of PERPETUAL HOUSING FUND shall be perpetual, unless sooner dissolved in accordance with these Articles of Incorporation or the Utah Revised Nonprofit Corporation Act.

ARTICLE IV
Members

This corporation shall have no members.

AUG 30 '22 PM12:39

ARTICLE V
Stock

This corporation shall not have authority to issue capital stock.

ARTICLE VI
Registered Agent

The name and address of the registered agent of PERPETUAL HOUSING FUND is

Christopher Alden Parker
50 North 600 West, Unit D
Salt Lake City, Utah 84116

I hereby acknowledge and accept appointment as the registered agent of PERPETUAL HOUSING FUND:

Christopher Alden Parker

ARTICLE VII
Amendments to Articles of Incorporation

PERPETUAL HOUSING FUND, reserves the right to amend or repeal, by the affirmative vote of a majority of the members of its Board of Directors, any of the provisions contained in these Articles of Incorporation.

ARTICLE VIII
Use of Funds and Distributions Upon Dissolution

PERPETUAL HOUSING FUND, shall use its funds to accomplish the purposes stated in these Articles of Incorporation. PERPETUAL HOUSING FUND may make distributions in furtherance of its purposes as authorized under Section 16-6a-1302(a) of the Act. Upon the winding up and dissolution of PERPETUAL HOUSING FUND, after paying or adequately providing debts and obligations of the organization, the remaining assets shall be distributed as permitted under Section 16-6a-1302(2)-(3) of the Act.

AUG 30 '22 PM12:39

ARTICLE X
Incorporator

The name and addresses of the authorized initial incorporator of PERPETUAL HOUSING FUND is:

Christopher Alden Parker
50 North 600 West, Unit D
Salt Lake City, Utah 84116

ARTICLE XII
Principal Place of Business

The principal place for conducting the business of PERPETUAL HOUSING FUND, shall be located at:

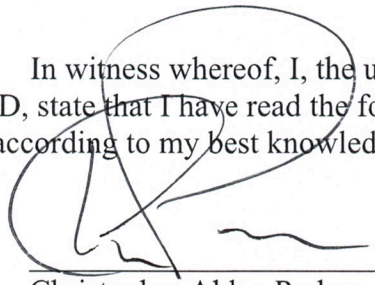

50 North 600 West, Unit D
Salt Lake City, Utah 84116

The business of PERPETUAL HOUSING FUND, shall be conducted in all counties of the State of Utah and in all state or territories of the United States and in all foreign countries as the Board of Directors shall determine.

[Remainder of Page Intentionally Left Blank—Signature Page to Follow]

AUG 30 '22 PM12:39

In witness whereof, I, the undersigned incorporator of PERPETUAL HOUSING FUND, state that I have read the foregoing Articles of Incorporation and that the same are true according to my best knowledge and belief this 30th day of AUGUST 2022.

Christopher Alden Parker
Incorporator
