- Trained an average of 500 hours yearly, requiring efficient time management, self-motivation, and commitment.

DAVID S. ABRAHAM, AIA, LEED AP ND

Project Architect, Associate

Dave demonstrates proficiency and skill at managing large diverse project teams on projects that have a high level of complexity. Dave facilitates excellent communication within the design team, the owner and the contracting teams. This high level of communication translates into the design documents and BIM models, ensuring that the project delivery is well executed.

As municipal planning continues to adopt more progressive and form based codes, Dave has been an active participant in formulating and refining these principles to apply them in a meaningful way. Always exploring the relationship between buildings and site, Dave collaborates with the full spectrum of design professionals and land planners to create places with character and identity.

In addition to private development experience, Mr. Abraham is experienced working with large institutional, government and corporate clients on sophisticated commercial projects.

Jon Nepstad is a Midwest transplant who has lived along the Wasatch for 31 years. He is a professional transportation consultant and has worked on complex and interesting projects with local, state, and federal partners throughout the West. He has visited Little Cottonwood Canyon in all seasons since arriving in Utah in 1992. Jon began his professional engagement in Little Cottonwood as a consultant to UDOT in 2005, leading the original SR-210 Study, which identified a variety of measures to help reduce the short- and long-term reliance on artillery. Much of Jon's work has been in busy resort and gateway communities, including Springdale, Aspen, Park City, Teton County, and Moab. In addition to chairing the ToA Planning Commission, Jon and his family are avid skiers and cyclists. He is also on the board of the Snowbasin ski team non-profit and a member of the Ensign Elementary School Community Council. Jon holds a Masters of Urban Planning from the University of Kansas, and is a member of the American Planning Association (APA), the Urban Land Institute (ULI), and the Women in Transportation Seminar (WTS).

Biography
Jeffry T. Niermeyer P.E.

Jeff graduated from the University of Utah with a B.S. Civil Engineering. He has focused his career on water resource management. Prior to his retirement in January of 2016, he served as the Director of the Department of Public Utilities for Salt Lake City. He was appointed by Mayor Rocky Anderson in 2007 after serving as Deputy Director for the previous 10 years. Responsible for the overall water, sewer and storm water functions for Salt Lake City. Responsibilities included management of 185 square miles of watershed, source of water supplies, distribution of culinary water, irrigation systems, sewer collection and treatment, storm water collection and permitting. He was responsible for directing the implementation of the Department's programs to meet the City's obligations under the Safe Drinking Water Act and the Clean Water Act, budget development, program monitoring, water rights, water supply, and all contractual matters. He oversaw a combined annual budget of over \$84,000,000 for three utility enterprise funds and a workforce of 400 employees. The three funds are for water, sewer and storm water.

As Director, he was accountable for the capital improvement program for the Department. Projects included water, sewer and storm drainage infrastructure. Scope of projects involve waterlines, sewer lines, pumps stations, water tanks, pressure reducing valve stations, treatment plants and large diameter interceptors lines.

Jeff was responsible for implementing a Storm Water Utility for Salt Lake City. This included developing overall Storm Water Master Plans for Salt Lake City. He wrote and implemented the City's storm water quality program required under the EPA storm water regulations.

Jeff's continuing education includes study at Harvard University Program for Senior Executive and State and Local Government, Interest-Based Bargaining in the Public Sector - Federal Mediation and Conciliation Service, Thinking Getting Staying Competitive - Association of Metropolitan Water Agencies and numerous Emergency Management Courses – FEMA.

Jeff is a Professional Engineer in Utah. He is a member of American Society of Civil Engineers, Water Environment Federation, American Water Works Association and the Association of Metropolitan Water Agencies. He is a past Chair of the Intermountain section of AWWA.

Jeff is enjoying his retirement. He spent the summer 2016 bike packing 2200 miles of the Great Divide Mountain bike route through Montana, Idaho, Wyoming, Colorado and New Mexico.

Rob Voye

Judi and I moved to Alta in 1974 and lived up at the little house and worked for the Alta Lodge as a busboy/floor mopper until.. I moved to the Rustler Lodge in 1981 to become the general manager until..

I had the opportunity to open the newly built Albion Grill in 1986...and that's when we moved downtown as we had two young children..

In 1997, I moved to Brighton Ski Resort to provide all food and beverage service for the resort and..

at the same time, I opened food service operations at 3 Salt Lake County golf courses until..

I retired December 31,2016..

Alta has always been our home...we lived up there for 12 years and love it to this day..
