3.11 Consideration of Updated and Revised Legislative Intent for Swim Lanes at the South Jordan Recreation Center 23-0253

Attachments: Staff Report

Sponsor: Councilmembers Stewart and Alvord (Approx. 10 mins)
Discussion/Direction

Council Member Stewart stated when Marv Jensen Recreation Center was closed the County agreed to help fund swimming lanes at the South Jordan Recreation Center. Funds from the sale of the recreation center and the mink

farm were earmarked for the swimming lanes. South Jordan City and the Jordan School District have come up with funds to help build the swimming lanes, but there is still a shortfall.

He proposed the following legislative intent: “It is the legislative intent of the Salt Lake County Council that \$5,429,220 of General Fund dollars previously earmarked by the County for the purpose of expanding swimming lanes at the South Jordan Recreation Center either be spent for that purpose in 2023 or returned to the General Fund and be made available for other county purposes in the 2024 budget. County funding for the project should not exceed the previously earmarked amount, thus requiring additional funding from the City of South Jordan and/or the Jordan School District towards the final cost of completing the project.”

Council Member Bradshaw stated he is supportive of the legislative intent, but it is important that the city and school district contribute a significant amount to complete the swim lanes.

Council Member Granato suggested changing the language in the legislative intent from “should not” to “will not.”

A motion was made by Council Member Alvord, seconded by Council Member Granato, to approve the following legislative intent with the amendments: “It is the legislative intent of the Salt Lake County Council that \$5,429,220 of General Fund dollars previously earmarked by the County for the purpose of expanding swimming lanes at the South Jordan Recreation Center either be spent for that purpose in 2023 or returned to the General Fund and be made available for other county purposes in the 2024 budget. County funding for the project will not exceed the previously earmarked amount, thus requiring additional funding from the City of South Jordan and/or the Jordan School District towards the final cost of completing the project.” This item was forwarded to the 4:00 PM Council meeting for ratification. The motion carried by a unanimous vote.

- 3.12 Consideration of An Ordinance of the Legislative Body of Salt Lake County, Utah, Repealing and Replacing Chapter 2.56 of the Salt Lake County Code of Ordinances, 2001, Entitled “Community Districts and Community Councils” to Reflect Changes in the Unincorporated County, and to Establish Requirements by which Nonprofit Entities Properly** 23-0260

3.15 Informational Overview of the Current Snowpack Conditions and Monitoring of Spring Runoff Conditions 23-0252

Attachments: Staff Report
20230228 Snowpack Presentation.pptx

Presenter: Lisa Hartman, Associate Deputy Mayor; Kade Moncur, Director of Flood Control; Bob Thompson, Watershed Section Manager (Approx. 10 mins)
Informational

Mr. Bob Thompson, Watershed Section Manager, Engineering and Flood Control, delivered a PowerPoint presentation on the 2023 climate and hydrology. He reviewed precipitation, drought monitor, seasonal drought outlook, snow water equivalent (SWE), Jordan Basin SWE, City Creek SWE at Lookout Peak, Parley's Creek SWE at Parley's Summit, Big Cottonwood Canyon SWE at Brighton, Little Cottonwood SWE at Snowbird, monthly precipitation outlook, seasonal precipitation outlook, monthly temperature outlook, seasonal temperature outlook, seasonal streamflow forecast, Utah Lake levels, and Wasatch reservoirs levels.

Mr. Kade Moncur, Director, Engineering and Flood Control, continued the

PowerPoint presentation comparing this year's snowpack to 1983, 1984, and 2011. Since 2011, there have been far fewer flooding issues because of improved infrastructure, better preparation, the weather warming up more gradually, and more and better data that exists regarding snowpack and weather forecasting. The best case scenario is for the weather to warm up gradually. The worst case scenario is a cold spring and then a sudden rise in temperatures.

Preparations are underway with various cities to discuss temperatures, weather patterns, snowpack, and coordinated efforts. Approximately 7,000 sandbags have been filled with the hopes of having a total of 12,000 ready prior to peak runoff. Portable flood barriers are ready to be quickly deployed. Emergency contracts have been put in place and 20 loads of riprap (angular rock) has been purchased. Emergency Management will be doing public outreach and coordination between cities for sandbagging locations. An emergency action plan is in place that includes assessment teams. Residents can pick up 25 sandbags per vehicle at the Midvale City location.

4. CONSENT ITEMS:

A motion was made by Council Member Bradshaw, seconded by Council Member Stewart, to approve the consent agenda. The motion carried by a unanimous vote. Council Members Alvord and Harrison were absent for the vote.
