

**Utah Department of Transportation
Utah Transportation Commission
Traffic Operations Center
Presentation and Tour
February 14, 2014**

The presentation and tour of the operations of the Traffic Operations Center began at 12:55 p.m. Jason Davis, Operations Engineer, welcomed the group and introduced Blain Leonard and Matt Luker, who would be assisting him during the presentation and tour.

Mr. Davis gave a PowerPoint presentation that provided an overview of the Traffic Operations Center. The following information was reviewed and discussed in detail:

- ATMS Devices
- Statewide Traffic Management
- UDOT's Fiber Optics Network
- Original CommuterLink Partners (eight in 1999)
- UDOT Traffic Partners (60+ in 2014)
- Marketing Strategy
- UDOT Traffic Management – Traveler Information
- UDOT Traffic Management Division – Operations
- Traffic Signal Coordination Improvements
- Traffic Signals Connected to the UDOT Network
- UDOT Traffic Management Division – Weather
- ATMS Maintenance
- Coordination with Region Projects

Following the presentation, Mr. Leonard gave a brief overview of the TOC facilities and the different divisions, areas, and agencies that use the facilities. He explained how they all work together and how information is used for traffic management. The group then went and toured the Traffic Lab and the Control Room. There was a short presentation/discussion regarding weather monitoring in the weather area. The tour ended at 2:13 pm

The following Commissioners, UDOT staff, and others attended the presentation and/or tour: Jeff Holt, Kent Millington, Wayne Barlow, Dannie McConkie, Naghi Zeenati, Louise Zeenati, LeAnn Abegglen, Shane Marshall, Jason Davis, Kris Peterson, Nathan Lee, Chris Newman, Blaine Leonard, Matt Luker, Arlene Kocher, Jamie Evans.

LeAnn Abegglen, Commission Secretary
