

25 May, 2023

Dear Congressman Stewart,

The purpose of this letter is two fold. First, to inform you of Grantsville City's intention to build a Veterans Memorial Park, dedicated to those who currently serve or have served in the United States Armed Forces. A committee of U.S. military veterans has been formed to oversee the park's design, construction, and fundraising efforts and will be built purely through donations and without the assistance of local taxpayer funds. After several months of regular public meetings, this committee has produced a park concept design and has secured a half acre plot of land from the city to build said memorial park.

The second purpose of this letter is to offer you an honorary position on said committee. As constituents of Utah's 2nd Congressional District and as fellow U.S. veterans, we acknowledge your dedication to our country, specifically for your work in D.C. as a member and leader of multiple committees charged to protect liberty and the American way of life. This comes without the obligation or expectation to attend or participate in committee meetings, but with the intent to honor your tireless service with gratitude and appreciation. With the acceptance of this honorary committee membership, we invite you to attend the ceremonial opening event upon completion of the Grantsville City Veterans Memorial Park, if your schedule permits.

In closing, we thank you for the dedicated and consistent work that you perform on behalf of the American People; you are an example and an inspiration to many. May you ever be sustained and guided by that same divine authority that produced this great nation 247 years ago, is our humble wish.

Sincerely,

The Grantsville City Veterans Committee
