 - e. **Approval of minutes for April 11, 2023 - Commissioner Correa made a motion to approve the minutes. Commissioner Ley seconded and all voted in favor.**
 - f. **Conflict of Interest Declaration** – None stated

2. **CONSIDER AMENDING ENOCH CITY CODE 12.500.502 SIZE AND MAKE A RECOMMENDATION TO THE CITY COUNCIL - Off-Street Parking - City Manager Dotson**

City Manager Dotson said the dimensions of off-street parking are given in the ordinance. A commercial contractor asked about the space between parking stalls. He asked what the minimums are and won't have it in our ordinance. We also don't reference ADA in the ordinance. He found the code in Cedar City, which seems to work. It would be nice to be consistent when it comes to the construction of parking lots. There needs to be some site planning put in place to remain compliant. Commissioner Ley asked about the current ordinance. She read the portion of the code that talks about the Planning Commission having a recommendation for this. City Manager Dotson said the law is worded such that there could be some changes to "A" if the Planning Commission sends a recommendation to the City Council. There is a little bit of leeway in "A" for the Planning Commission. Commissioner Ley also mentioned "H". Commissioner Correa said the one part he is opposed to is the compact parking and felt that section A is not useful. He wanted full-sized parking spaces. Chairman Tingey said there is no regulation that requires us to include compact parking. Commissioner Correa asked if they could take the compact

parking out. Chairman Tingey said we have the 20% regulation in here so we can limit it because if we take it out then they can put as much in as they want. City Manager Dotson suggested eliminating section A. The Commissioners all agreed. There was a discussion about ADA standards.

Commissioner Ley made a motion to send a favorable recommendation to the City Council regarding Enoch City Code 12.500.502 size with the elimination of A. Commissioner Correa seconded and all voted in favor.

3. PUBLIC COMMENTS

4. COMMISSION/STAFF REPORTS

Commissioner Ley said the Blue Prints of Liberty by Glen Beck event will be held at the end of June. He has collected a lot of historical documents and he will be showing them in St. George. Lindsay Hildebrand reported that she has been working with Pelorus, the city's software, to maintain Business Licensing.

Council Member Ross reported that at the last City Council meeting they talked about the Public Safety Impact Fee for police and fire. Commissioner Ley also mentioned that the City Council followed their recommendation regarding the multiple water rights in lieu of an acquisition fee.

City Manager Dotson said SB 174 was passed and it requires a two-step process to approve new subdivisions. This new bill will need to be in our ordinance by February 1st, 2024. He read the bill. There is no approval by the City Council for any subdivision anymore. Staff or Planning Commission members can be designated as members of the Land Use Committee. This committee will be reviewing the requirements and different aspects of the subdivision. We will have to change our code to fit this new law.

Commissioner Correa asked how we would avoid time constraints. City Manager Dotson said we probably just don't accept the application until it's 100% complete. There isn't a whole lot of clarity about how this works. The Utah City and League Attorney had a meeting where he answered questions. City Manager Dotson read through some of those questions and answers. There will be no more public hearings on subdivisions, which means no notice. Commissioner Ley said usually the public hearing happens because of zone changes for subdivisions. The other issue is in neighborhood streets. We can't require more than 32 feet of asphalt. Commissioner Correa said he understood the frustrations with delays, but rushing the process is not good. City Manager Dotson explained what the process would look like to Enoch City. Commissioner Correa was worried that if something important got left out, the city would be liable. Commissioner Losee suggested having a very detailed checklist of review. Commissioner Ley said if we had two or three people at the same time applying, it would be overwhelming and our engineer would have to review everyone within 15 days. She suggested that we would have to have a full-time engineer. City Manager Dotson said it's almost the same thing as what our building inspector does. He has a certain time limit. He gave an example. Commissioner Correa wanted to put something in the code regarding public access to historical trails and hills. He didn't want access restricted. Commissioner Losee asked who reports that the application is complete. City Manager Dotson said the administration if the City Council decides.

5. **ADJOURN** - Commissioner Correa made a motion to adjourn. Commissioner Ley seconded and all voted in favor.
