Marc Stilson reports this station is right where it needs to be. We exceeded an all-time historic high. All the mid elevation snow and low elevation snow is gone. This is the second largest snow pack ever. We are above our 30-year average. In 1983 Joe's valley started to spill mid-June and went until Aug. We are still expecting Joes Valley to Spill.

Flowers at Cemetery on graves – Tracy Addley

Castle Dale proposed to give an extra day for the flowers to be up at the cemetery. This year there will be signs throughout the cemetery explaining the rules and regulations regarding flowers. We want to make sure the citizens are notified. There are also benches that were made by Rue Ware that are crumbling from weather and decay. These will need to be replaced in the future.

It has yet to be properly recorded. Since it has been over a year, and they are not following the original plans set forth by Mr. Flemming, the new owners will need to address the council with new plans and approval before they will be able to move forward on any work.

We need to provide a dump truck to haul off debris.

Tracy Addley – The cemetery is in need of a new lawn mower. Tracy was able to get quotes from Ace Hardware, Magnuson Lumber and Tractor Supply. The funds for this will
