Here is one option. I am going to check another couple of options for us as well.

Subject Helicopter Flights over Salt Lake Wetlands on July 12th

Hello Brad,

We received your message about doing flights over the wetland habitats North and West of Salt Lake International Airport. This would definitely be a great way to survey and get others familiar with the area. We would love to fly you all around. Our custom tour rate is \$1800 an hour, but if you are looking to do multiple hours with us, we will bring the price down to \$1400 an hour. Our helicopter will hold up to 4 passengers at a time. Our hangar is based in Woods Cross, so we would be able to have everyone meet there while one group goes and surveys the area, and then come back and pick up another group.

Do you have any questions for me?

Thanks!

Austin Hone
