

Mayor Scott O'Hare
Jim Beagley, Council Member
Rod McGary, Council Member
LuAnn Johnson, Council Member
Brent Johnson, Council Member

Tim Heyder, Jesus Rios
Dave Smith, Trudy Smith

Mayor O'Hare stated I apologize, I'm gonna have to repeat this. I forgot to turn on the recorder. So again, this is the meeting for the May 2023 Town Council meeting of Snowville town on this day, Wednesday, the 10th of May. In attendance, we do have our council members Jim Beagley, Rod McGary, LuAnn Johnson, and Brent Johnson present, we'd like to excuse Stacey Hill, our deputy clerk as well. And then we'd like to also recognize that we have Tammie Morgan, our clerk here. We'd also like to recognize Sergeant Eddington is with us this evening. We just had the pledge by Ron McGary and the prayer by Brent Johnson. Everybody was given the council members' agenda for tonight. And also the minute meetings from the last month of April. Everybody had a chance to look over the minutes from last month. And look over the agenda for this month. Were there any additions or anybody needs to put them at this time? Okay, if not, I'd like to get a motion to accept the agenda for May 2023. And the minutes from April 2023.

Do you want separate motions or one?

Rod McGary made a motion

Mayor O'Hare motioned to accept the May agenda and accept the minutes for the previous April.

Do I have a second? Jim Beagley made the second motion. All in favor? Aye. Any opposed?

Mayor O'Hare stated Okay. Next is alcohol sales. I mentioned last month I was going over the ordinances here.

I don't know if we have a resolution. But according to our ordinances Class A beer license, which is the only two year license we have in our town right now for both facilities of the gas stations. In the ordinance it says that beer may not be sold between the hours of 1am and 5am. Do we have a resolution? Because I know both places are not selling beer until 8am. And it was brought to my attention that they could start selling before or at 5am. Mayor O'Hare asked Tammie if there was a resolution for this. Tammie stated that's something I'd have to look into. I don't know that right off.

Mayor O'Hare stated okay. Like to recognize Mayor Heyder. That's here. Mayor O'Hare asked. Do you know anything about this from before? Tim Heyder stated that there was a resolution made that they can only start selling at eight. Mayor O'Hare stated yes. Mayor O'Hare said Okay. Tim Heyder stated that he thought the facilities couldn't sell it until 10:00 a.m.

I don't know. I haven't seen the resolution. That's why I was asking. I know both facilities that are selling beer at eight o'clock, except on Sundays. They don't start until noon. And we passed that resolution last or two months ago. Tim Heyder stated that with the new ordinances he didn't know if they had changed.

And that's what I'm going by there are updated ordinances as of January is what I saw so.

So you'll let us know on that one. Tammie stated yeah, Mayor O'Hare stated we can come back to this. Tabled until next month.

Mayor O'Hare stated last month, we had talked about appointing an Emergency Management manager for the town. The two names that came up were Jed Pugsley and Kacey Smoot. Mayor O'Hare asked if anybody had a chance to speak with Kacey? Brent Johnson stated no and LuAnn Johnson stated that she forgot all about it. Sorry. Mayor O'Hare stated I've been talking with Kacey but with other businesses, so I haven't even asked him about it. You want to table this for one more month until we get a chance to speak with him? The Council stated yes. Mayor O'Hare stated okay, does anybody want to take you up on them? I will speak to him this month.

LuAnn stated Kacey? Yeah. I don't know. Brent Johnson stated that he is hard to find. Mayor stated yeah. LuAnn stated that Jed volunteered for it.

Brent Johnson stated that we need somebody that's fairly close.

Mayor O'Hare agreed. Yep. Mayor O'Hare and Jed, is fire chief. Brent Johnson stated that Kacey was still on the same schedule. He was in Montana and all over with the business so right now he's traveling he's not gonna be here.

Rod McGary stated we have better candidate already. Brent Johnson stated That's what I'd say. Mayor O'Hare asked if Jim Beagley had any thoughts. Jim stated that he didn't.

Mayor O'Hare stated so the council likes to elect you. Rod McGary stated I think we should go ahead and have Jed Pugsley be the Emergency Management Manager.

Mayor O'Hare stated that he agreed. LuAnn Johnson stated since he said he would do it.

Rod McGary stated I think he's in a prime position to already support that effort. So I think it's kind of a good fit.

Brent Johnson states other than the ambulance, he probably finds out as quickly as anybody. If there's a disaster.

Mayor O'Hare asked does anybody here and this meeting right now interested?

LuAnn asked do have any questions. Jim. Did you want to continue and have us talk to Kacey?

LuAnn states that we can do that. He just seemed unsure.

Jim stated that's totally up to you. If you want me to go talk to him. I'll go talk to

him. LuAnn stated yeah, that's not the problem was finding him at home. Jim stated that He just saw him a few days ago, and I didn't think about asking him about it.

LuAnn stated that she saw him too, but I forgot. I did.

Mayor O'Hare stated that being on the phone with them for the last two weeks. And we've been doing business about his house. Trudy Smith stated I'm happy to help, Jed, that I know he's wearing a lot of hats.

Everyone agreed. Rod McGary stated to have a primary and a secondary? Mayor O'Hare stated Well, when it comes down to it, it's gonna be if we really have a major disaster, or a mass casualty, they're going to need to there's going to need to be more than just one person kind of coordinating things. So

LuAnn stated but everybody jumps in around here and does whatever has to be done. Anyway, Trudy Smith stated so it is time to be organized we have a few calls where we need to have some organization set up and some training.

Mayor O'Hare stated we could do co emergency management, or the Emergency Management team would be Trudy Smith and Jed Pugsley, LuAnn Johnson stated yes we can do that.

If you're willing to do it, that'd be fabulous.

Rod McGary asked would you be listed as CO or alternate? Or how would you like to be? Trudy Smith stated that I'm just happy to help. So I can't help in your positions, but I'm happy to help.

Rod McGary stated Good sounds

Mayor O'Hare stated so Tammie with us putting co instead of singles, we can go ahead and vote on it since it's on the agenda, correct? Tammie stated yes. Mayor O'Hare stated, okay. So if everybody's agreed to that, I'll just need a motion for Jed Pugsley and Trudy Smith. To be a co-emergency. Manager. LuAnn Johnson made that motion to appoint Trudy Smith and Jed Pugsley to be the emergency management Team.

We'll have a second. Second. Rod McGary 2nd. All in favor? Aye. Any opposed? Okay, it's passed. Thank you, Trudy. We appreciate it.

LuAnn Johnson stated very much. Yes.

Mayor O'Hare stated Fourth of July. Coming up in two months. It's on a Tuesday this month or this year. Sorry. I'm gonna put egg on my face. But did you guys read the menu?

LuAnn stated. Yeah. I think what you went with last year. Mayor O'Hare stated I thought I forgot to send it to you guys. LuAnn stated I didn't like any of the other choices besides the pulled pork and the pulled beef.

Mayor O'Hare stated so you guys just want to go with what we've been doing with the last few years.

LuAnn stated that's what I liked

Jim stated it is easy.

Rod McGary stated he heard some people like to have it mixed up.

Mayor O'Hare stated we've done pulled pork for the last three years.

Right? So the only comment ever heard that? They enjoy it.

LuAnn stated then have them be over it then we'll give them that opportunity. Rod McGary stated that they wanted something different LuAnn stated then we will give them that opportunity. If they want something different then they are welcome to have a broader range. Yeah, whatever you guys think I think that pulled pork and beef is fine. We can vote whatever you want.

Mayor O'Hare stated I mean, we have a slice of turkey breast that we can do

LuAnn stated red meat country

Brent Johnson stated they don't like Turkey and Snowville

Jim stated I love turkey. It's my favorite.

Mayor O'Hare stated we have a shredded chicken breast we could do

LuAnn asked what would be the second choice. Well, you have pulled beef.

Mayor O'Hare stated yeah, we've been doing barbecue pulled pork and shredded barbecue beef. I don't think we could do all three. We could do all three just at lower. But then we're talking about more containers and all that and we really don't have the space for we've barely had the space for two. I mean, Jim stated if you have more options. You just made it more complicated.

Mayor O'Hare stated Right. Well, we can just go with one.

Or we can just go with what we did. Again, the pork and beef. It's up to you four people what do you think? Brent stated I'd stick with it.

LuAnn stated I like to be okay. You guys vote if it's a tie, he'll break it.

Mayor O'Hare stated well, we don't have to vote on it, we're doing the Fourth of July is not a vote thing. It's just I need to know so I can get it ordered. Before, pork and beef. Okay, we'll do the same thing as we did last year. Rod, what do we need to arrange for the fourth?

Mayor O'Hare stated so we're gonna need everybody to set up. I've been trying to get a hold of bounce houses, but holy cow. Your prices are really expensive. So I don't know what we want to go with. I talked to one place that would bring out everything, but they want \$7,000. Brent stated Oh, whoa, LuAnn stated What? Mayor O'Hare stated but it's like 10. It's like 10 different attractions, with staff and everything. So I was like, LuAnn stated No, that's a little they can go.

Mayor O'Hare stated that's a little bit much for us. So. But I'm still working on trying to get to a bounce house, getting a couple of bounce houses for the kids or a waterslide in a bounce house is what I'm looking at. Jim states the problem. Who's kind of being controlled, though, Mayor O'Hare stated correct? Yep. Jim stated you won't get the parents to do it.

Mayor O'Hare stated no, of course not. Does anybody else have any ideas of what we could do for now? LuAnn stated those are great ideas, we will have to take turns guarding it and strangling children.

Rod stated we could solicit the sheriff to come out and take care of kids who get kind of rowdy, we'd have to have the ambulance on standby.

Mayor O'Hare stated well, you guys just shoot me ideas about what you think and then we can discuss it over the telephone and stuff. As I said, it's not something we have to vote on. It's just something that we needed to decide

LuAnn asked so what is the parade that happens first? We're usually not here on the fourth. So hopefully, we will be this year.

Mayor O'Hare stated yeah, the parade usually starts at three o'clock and then softballs at 3:30. And then six o'clock is dinner. And we usually have the balance when we have had bounce houses in the past from three to nine. So for six for the six hours, or three to eight, five hours, it was a five-hour deal. three to eight. LuAnn Johnson stated Oh, really? Yeah. That's a long time.

Mayor O'Hare stated this is the thing that we're all going to be busy from, you know, three o'clock on because we got to get the food already. And, you know, and we're usually I mean, last year, we were out there at eight o'clock in the morning, setting up all the food and prepping the food and getting it you know, in those pre-cooked,

Jim stated when we moved here, me and my wife volunteered and the people who were supposed to come and take our place never showed up. That's why I got a bad taste in my mouth.

Yeah, we did that. LuAnn stated we did it for several years too. And I was on the city council before

Mayor O'Hare stated we could do some other things like Games or something like that? See if you know if we get I can check with games and see if we can get like three or four games out here where they're where they're already people, their own people see what that would cost us? Yeah, like carnival type games that the kids can go play. And you check with that? Yeah. Okay, I'll check on that. And then I'll get with you guys during the month. LuAnn stated I don't know if

we just see if we could just put a sign up that says, you know, parents, kids, at your own risk. City is not responsible for any injuries or then we can find somebody that wants to stand there and do that in the hot sun all day long.

Jim stated some of those get really, really rowdy. LuAnn stated yeah, I know three or four of them already Brent stated parents love to get rid of

LuAnn stated the dunking machine was fairly cheap. And that was pretty fun. The kids liked the dunking machine and that one wasn't expensive. And then we had the waterslide. And really nobody had to be there. Rod stated we talked about one time having the bull ride.

LuAnn said Oh, yeah Rod stated because people would pay a nominal fee and operators take care of them?

LuAnn stated. Yeah. That would be fun, too. We could switch it up. And

I don't know who has it. Mayor stated that I'll check it.

I'll figure it out. I'll reach out and see if like,

LuAnn stated that's probably pretty spendy too because they're in demand.

Rod stated that in that one, they usually charge people to do it. So yeah, they have to pay to do it's not a free thing.

LuAnn stated yeah and they could pay here too.

Rod stated, "So that one, you know, if they came, they'd be paying their money by people buying their tickets.

Mayor O'Hare stated Okay, we'll move on. We'd like to recognize Deputy Eddington and we appreciate you coming out. Everybody's got a form here that he's presented to us. I'll just introduce myself, I'm Sergeant Eddington at the sheriff's office. I've been there for 14 years off and on and on to Alaska for a little while. But I'm the deputy. I just got assigned to Snowville last month. Sorry, I wasn't here at the meeting. I had some come up. But me and my wife and family, I live in Park Valley. So I'd drive through your town every day, twice a day, at least sometimes. But I'm gonna give you my cell phone number. And any of you can call at any time. If I don't answer I'll get back to you when I get the voicemail. But it's 435-278-9013. And that's my work cell phone. So like I said, I don't if I'm at work, I have it with me all the time. But I don't. But feel free to call that number. If you have any questions. Any concerns, and, you know, I'm here to take those phone calls. So we had 16 calls of service in the month of April and how I'm going to do this so I don't have to keep track of the dates meetings are. So as you see, it's from April 1 to April 30. So next month in June, I'll provide May's stats. And it'll just be from the first to the 30th or 31st whatever it is. There were three traffic stops made in the town of Snowville. Now I say that was a little bit of caution. There could have been more. But those are the ones that were recorded through dispatch. Sometimes dispatch gets busy, and we call out a traffic stop. And it just doesn't get recorded. So there could have been more of there's three for the month of April when leaving one citation was issued in the month of April. So I know on Facebook, there's been some criticism of us pulling people over, but it's what it is, right? So if we want traffic control out here, everybody gets pulled over here from Snowville doesn't matter who you're from, doesn't matter. Right? So it's what it is and we get called lots of things so it doesn't have our feelings when you see that stuff. So but any questions from the council?

LuAnn asked Is there a certain set time and day that you come out here to patrol? I mean, like do you come out on Wednesdays from seven to 12? Are I mean, you know,

Eddington stated how it works in the sheriff's office. All these towns were supposed to come out and do what's called the extra patrols that you see on In your list, there's next patrol, and that's when a deputy comes out here and spends at least an hour in the city of Snowville because it's just like Park Valley, we sometimes make it out there a couple of times a week, sometimes we don't. It just depends on how busy we are with calls, there are times where we're in Snowville three times in a shift, you know, I'm on day shift, right now, there are times that it's 23 times, or three different calls and Snowville. But not necessarily on an extra patrol. So during our free time, we go to these communities, and we pull extra patrol cases, and we grid patrol, we make traffic stops, we do whatever needs to happen. So they're on those extra patrols, there could have been traffic stops that were logged underneath that extra patrol that I wouldn't have seen as a call in of itself. Okay, so that's kind of, we try to shoot to every community it doesn't happen once in a 24-hour period. That's our goal. We fall short of it quite frequently. But just because we have if we have, like today, we had 11 calls. And there's two of us working guys one day out at the Golden Spike National Monument because that's their celebration today. There's two of us working and so it's kind of hard for them to are working to come out to Snowville if we if we're not called out here for service, right if we got a call a family fight, and so a little doesn't matter if there's two of us working, we're going to come doesn't matter if it's in Grouse Creek, or we're gonna go. But that's kind of how it works. Every time I come to work I come through Snowville every day Yeah. So there's a lot of speeding that goes on in this town. Yeah. You can sit on Stone Road all day as much as you want and pull as many people as you want.

Mayor O'Hare stated they're gonna continue to speed. Eddington stated yep.

Any other questions?

Mayor O'Hare stated we appreciate you taking the time to come out today, though. Eddington Absolutely I will try to be here every month. But there are times when I'm on vacation with my family or whatever else or I get hung up on a call town. I can't be here, but I'll try it every month. And if I'm not here, I'll provide the mayor with the stats for that month, the month prior. So he has those to distribute to you. But if you ever have questions about something, I can't give a lot of details of stuff that goes on in town, right? I've talked to the Mayor about this. But if you ever have questions or concerns, or you see something suspicious in the city, pick the phone up and call, right? And if I pick up my phone, I might tell you, Hey, call dispatch, right? But if nobody says anything, then a lot of stuff goes unchecked, right? So I tell all my communities that I've been over, just overbearing for the last few years. If you see something, say something, right? And pick up the phone call dispatch, you can call me. But I might not be able to be right here, but I'll point them to avenues. There's a lot of stuff in that little small community because we're right on the fruit. You're right on the freeway. There's a lot of stuff that comes through this, this town, right? And so, and I come from I live in a small town and so I get it and so just get the word around and people in the community can see something, say something and we'll come out. Mayor O'Hare thanked Sergeant. Appreciate it

Next on the agenda is Eric called me today. I've been in contact with him. He had another engagement tonight. He did say that the new stop signs are on backorder. They're waiting for them to come in. He said I don't know Tammie, Do we still have the money in the budget for the corner for the curb and gutter. He said because he had mentioned to me before that we still had

money for the curb and gutter. Tammie stated was it wasn't part of it not part of the project for the pole.

Mayor O'Hare stated I think so. Yeah. Well, he thought it was because we used the money for the pole. Tammie stated so more than I anticipated too. Is that right? That pole was to be around \$ 50,000.

Mayor O'Hare stated No, it was \$ 70,000.00.

Tim stated the whole project was the money that I got. The Mayors Association was 60 grand. Okay, so we had to pay for it. First out of B&C streets and roads budget was set up. And then turn to check-in. Go to the Mayor's Association which you will have to do Scott which I did. Then there will refund to the town. Part of the bill for it.,

Mayor O'Hare stated that's what I told Stacy after the Mayor Association that I attended that we needed, they're asking for that. So they can release the money Tammie stated we have that on the list to pay out today. We had to transfer money from the B&C Roads money to cover it. We didn't have to have a public hearing for that because the road money was there so we can use it. We'll just say won't take long to clear. I'm sure we can get you a copy of that. We can get reimbursed.

Tim stated there should have been, Scott, two new stop signs, two warning signs in front of the stop signs, curb, and gutter around so it is clear around the town hall corner and Mollies is a whole new thing that will need a whole new grant. Correct?

Tammie stated okay, so then there is money because, okay, I don't know exactly what it was 45. Mayor O'Hare stated that's what he said is the stop signs are on backorder. Once they get them then they'll come and do that. And at the same time, I think don't do that curb and gutter

Snowville Fire Department we excuse Chief Pugsley at this time, he did email me or texted me today. Like me, I read this. What he would like for the town council to know is that when he went out and received a grant from the State Fire Marshal he got a hold of him and said, Snowville Fire was awarded \$5,000 from the FSR a grant to assist with the purchase of radio equipment. So he was able to get that \$5000 And the radios cost right at \$5000 apiece. So but again, it's like, it's like the same thing. That the Mayor's Association did we need to pay for the radio, turn in the receipt, and then reimburse us.

Tammie said guess that we'll just have to make sure if it's going to be used for county stuff, or I mean, the county should pay for part of those. I would think you're running county trucks and stuff. If you're putting them in County trucks.

Mayor O'Hare, I think this is a handheld. Tammie said Oh, this is the one that because the actual result

Dave Smith stated I would picture what we're doing there is it would be one that would go in the crash truck, the handheld we have one that's in the ambulance, And sometimes when you get on scene and you're not near the truck, it helps a whole lot to have and this isn't with Am I correct as an 800? Radio? Dave Smith stated Yeah, that helps with?

Dave Smith stated I think it's the same as what we have in the ambulance.

Mayor O'Hare so you can talk to dispatch from anywhere. You don't have to worry about the difference.

Sergeant Eddington stated yeah, I mean, I wouldn't imagine that. For \$5,000 You're buying a VHF radio, it's gonna be an 800.

Mayor O'Hare stated to wait a minute. I got it right here. Motorola, Motorola EPS, a PX 8000, XE 800. portable radio. I know in the crash truck that once you get over a Rattlesnake Pass, you're done. Because I've been out there on the scene before doing traffic control. And I can't even talk to them up there where they're on scene at the actual accident. And so it would create a handheld that would stay in the crash. Right, where we keep one. And here's an invoice right here from Motorola Solutions out of Hyrum Utah. And the total on it is \$4,928.25. Guys, look at that. You guys

know how much the grants are?

Yeah. And I know, I know, Chief Pugsley was trying to get 10 of these radios. So he's working at trying to get, you know, trying to get 50 grand. But he was able to do this one. LuAnn said so then they reimbursed us right?

Mayor O'Hare stated yeah, we have to, we have to pay them to get the radio and then the grant will reimburse just like the Mayor's Association. Okay.

Mayor O'Hare asked do we need to vote on what we have to wait to do to process that right.

Tammie said Let's see. I mean, well, the Fire department's on the agenda, but no, she needs to be more specific next month to vote on purchasing these. Mayor O'Hare stated okay, yeah, we probably can't do that this time. Okay.

So I will make a note. Vote and at this time

Mayor O'Hare stated we'd like to recognize President Smith with Snowville EMS.

Dave Smith stated an update on the ambulance it is in Utah. We're working on finalizing some graphics, and getting some ideas back and forth emails. So we're getting really close to having it here and, and ready to go. The grant that was in place to help pay for that ambulance. And I've communicated with Stacey because all of that has to be in by the 15th. She's got everything together for our invoices. So we should be fine with that too because the money has already come. But we just have to prove, Tammie stated that what she said she had that she wanted me to tell you. Dave stated yeah, she sent me a text here too.

LuAnn asked how much did you get from the grant?

Dave Smith stated we had \$100,000 that came in the ambulances more than that. So we should still have to pay the difference. Right? Tammie stated we have the money in your ambulance fund. Yeah. Dave Smith stated that when we take delivery of it, there's gonna be a difference that we paid because we've already paid that \$100,000. So we'd have the receipt to show up for the grant There's another \$20,000 on this same grant. Stacey had put together the receipts for that. So we should be \$100,000 Or no, this is yeah, this is \$ 120 that Mike put in for quite a while ago when it got extended. And the \$100,000 was for the ambulance,\$ 20,000 for personnel and other stuff. I visited with Stacy, she's put together enough stuff to cover that. So we should be good with all of that. We do have \$3.361 and our fiscal year 2023 per capita grant that needs to be used by June 15. So we've got that, we've got a plan, there are two items that EMTs have expressed an interest in that we'd like to spend some of that money on: one is a stethoscope that is electronic It goes to an app on the phone, So you're seeing what you're hearing there around \$600 for one of these we've talked about getting one of those to put in keep on the ambulance

Dave Smith stated if it actually gives you a rhythm, it shows you like a strip, like you have to do it on your phone and you're using the stethoscope, it also amplifies the sound so you can hear better, like when you're driving down the road. And then you can see, it puts it out. Yeah, like a rhythm. So there, we've played with one a little bit there so as soon as the analyst says I'm gonna have a dedicated phone for the ambulance, Well, that's our number two item, most of our EMTs that would use that would just have the app on their phone because they just need to have an app on the phone, and then it will recognize. So that's how we would make it work. We do have a dedicated phone on the ambulance, nobody really uses it, because everybody just uses their own phone. And what we want to do away with that phone is to upgrade it to a tablet, which then with this stethoscope, we could also have the app on that tablet. But the biggest reason to upgrade to a tablet is we can start doing the reports that have to go into the State that is done electronically. If we have a tablet that is already tied to the internet, you know, it doesn't have to be where you have WiFi, just on the ride back. Someone can start putting in that paperwork with a tablet. Mayor asked if it was better than a laptop.

Dave Smith stated I think the tablet would work, good for what we need it for, we've talked to the other EMTs and then we still have our defibrillator on there that also needs an app because it'll communicate and it'll send rhythms to the hospital. And so they will know, the tablet would with doing the records doing the billing or, the information that we put in for the State because even if once you start that you don't even have to finish it but it's in there and then you know if it was Janette doing it or Trudy doing it, they can go home and just sign in on their home computer and finish it up. But you can start it on the app. We'd have an app on there for the stethoscope, and also an app on there for the defibrillator. So we felt like we could use it. The phone just sits there, when we call the hospital, everybody just uses their own phone, we felt like that money would be better spent to have it on a tablet. So there would be a tablet, or however, that works for the upgrade. And that will take up all of that \$3,600. So talk to Stacey, I'm sure there's some other stuff that we've already spent that we can submit the receipts for, another stuff because that can just go for general supplies. Supplies that have just been ordered to restock the ambulance, we can easily cover. Those two other things with the money. So I didn't know if we needed to if that means to go out for a vote or how that works. But we got to spend it by June 15.

Mayor O'Hare stated that the two things that you want to buy first, are the stethoscope Dave Smith stated a stethoscope and a tablet upgrade to the tablet. Those are the two things that I want to earmark some of that money for the tablet. Mayor asked Is it going to be an Android or an Apple,

Dave stated probably an Android because that's what the phone is that we have on there now. Tammie said well, we already have the phone. Yeah, so we pay a monthly fee for that phone in the ambulance. You know it's with Verizon. Tammie stated that the phone has been on there forever. We've upgraded that over the years. We just want to upgrade it to a tablet, it'll still cost us the same monthly rate that we've been paying. It will just be a tablet instead of a phone.

Dave stated yeah because they don't give that away at this point anymore. Most of these ambulances like Brigham. Anybody they show up, when they show up to a call, the tablet comes out and they're their document and everything on the tablet. Yeah, he's going and sending stuff

to the hospitals. It's actually kind of nice because you can take up one of the EMTs, can take a ride with them into the house or, you know, we're taking in the defibrillator. The tablet could go, do they have a rugged tablet? I mean, the ones that come with the case, because I'm sure to bring them and all that it's just not some tablet that they just have they've got a case on a case on it. Yeah,

yeah, we probably have to spend some money for a case that rugged kit. Yeah. Because I know the way we store visit a life proofer I don't know, I've had them before that were completely waterproof. I never tested it. But yeah, because we would run the pivots on a tablet. So. Okay, do you have them out into the dirt and stuff? Tammie stated so with that? Because it's not on the agenda. But you can get away with that if it's for an emergency. I mean, he could probably go ahead and order it and you guys put it on the agenda for next month. where it needs to be spent by the 15th. But as when it's done counsel, that's what I'm checking right now. 14 next month. 14. Yeah. So is it considered an emergency that we need to spend this money before that? Is that an emergency?

Dave Smith stated well, I mean, honestly, the \$3,600 I'm sure with supplies, I mean we can go back and show stuff that we've spent already you know. Tammie asked if it would be okay if we waited. Dave Smith stated yeah, I mean we could do that, as long as we can still go ahead and we can immediately write the check out that night to show it was as far as the tablet.

Dave Smith stated yeah, but you know, like you said there's another because you're gonna have to use cuz, this the per capita grant, it can go towards supplies. I mean, I know here earlier we had to do some resupplying just because there was a lot of stuff that had expired on the ambulance, you know, and some of those drugs, we just you have to throw them away and buy new and so I'm sure we've spent enough money that we can cover that to turn in receipts for this grant by June. It just says it needs to be used by June 15 and the invoices have to be supplied no later than June 30. So the invoices that we're gonna have are the invoices to be dated before June 15.

Dave stated that any supplies we bought prior to now. But it just says the funds have to be used by June 15. Mayor asked if we can consider an emergency and then that we need to.

Tammie stated they probably have enough expenses already. I would think that we have enough expenses just in what we spend as well, but some of those might have got used on the \$ 20,000. Dave stated yeah, we can't double over so I don't know exactly what one Stacey's put together for the \$ 20,000 You know, cuz we've gotten that \$100,000.

Tammie stated I know, for the ambulance.

Dave stated does CPR see? Yeah. Automatic. Compressor. Yeah. Anyway, it sits over there. It has a name. That seems funny. Anyway, that's the majority of what \$20?

So yeah, just as long as we're not trying to double up invoices to cover, you know, with that \$20,000 that we had to spend?

Mayor O'Hare asked can you order the tablet and stuff, like with Verizon, and tell him that you're coming in on the 15th.

Dave Smith said well, we can just order it to be mailed. And you know, they'll just, you get paid for it online? It'll be built

Tammie stated yeah, it would just come on your bill with your Verizon bill. Tammie is the administrator for the account now. She is trying to give it back to Dave because he was the administrator first. Tammie stated he gave me access, and now he needs access. So we're trying to flip it back. So he can just get what he wants

Dave Smith stated but yeah, for the tablet, we were just, you know, going on online and doing it just like you're doing a phone upgrade, you know, instead of doing a phone, you just go to a tablet. Okay. And so it'll just bill up with the regular monthly bill.

Mayor asked and you guys haven't had a problem with Verizon, with the tablet and the Internet out here. And good luck with almost everyone's phones that they're using on the ambulances Tammie stated Verizon is what my call is the best service out here. LuAnn said really, surprisingly, Roy said AT&T, it's fabulous.

Sergarnet Eddington so we just have a truck that we're testing right now with a new Wi-Fi system and the through AT&T . It's First Net service, it's for first responders. They get priority on the tower. So like during Peach Days when everybody's phone was bogged down in Brigham, the first net that is first FirstNet internet had top priority on the tower. And we're finding a sort of Deputy Johnson who works on my crew. He's the one testing this and when he comes out west, he has better service now on the AT&T FirstNet. than Verizon. And we're probably going to switch. We're supposed to have priority on our trucks on the Verizon towers. But Verizon I don't know what happened across the Snowville flat a couple of years ago, it was really good, but man it's really nosedive across the flat. I am from Ward Ranch. When I climbed the hill in the Park Valley cell phone services.

It was in our house anymore, and it's never

been like that. And so we have a booster FirstNet is what I think the sheriff's office we're going to switch to and it's for first responders only. And so it's something you know, look at.

Contractors. Dave yeah, we were not under contract with Verizon. So now would be the better time to change if we wanted to change.

Tammie asked Sergeant Eddington what the name of it was. It's the first net representative in Utah that's called FirstNet. And it's an AT&T service. Deputy Johnson doesn't lose service in Yost. He had service in Yost, we've never had cell phone service in Yost. And he had full service. He made a phone call with me the other day. Are you using your personal cell? Deputy Johnson said the service was good.

LuAnn stated that Roy Neal just switched to AT & T and I asked him what his coverage was and how good the service was. And he said so much better than Verizon. You can't believe that before Trenton Neal had AT&T and it didn't work out here at all but now it's better. Roy said that it worked really well.

Mayor O'Hare stated I moved down here with T Mobile and I've had T Mobile ever since. And it's just amazing, Jim stated that for three years and never had a problem. Mayor O'Hare stated yeah, my T Mobile Internet that I had with the home internet that I had was just a little tower. And for 50 bucks a month, I was streaming everything in my house, it never went off. Really, but if they've got something for first responders that might be something to look into,

Sergeant Eddington stated that if that is what your purpose is and that Snwville would be on that plan, you had a disaster. And there were 500 people connected to the tower in Snowville.

That tablet or whatever is connected has the first priority of all the data that they want before anybody else.

Mayor O'Hare stated that'd be something to look into. Dave stated we'll look into that, make sure if we don't have enough previous expenses to cover with this grant, we got to spend this money before, you know, before the 15th we can get that figured out before, Tammie stated we will put it on the agenda for next month.

Mayor O'Hare stated okay, we'll vote on it next month. Tammie stated if you have to do it and do it. It's an emergency, I would say. Dave stated well, yeah, we don't want to lose the money. No, no, no. Tim asked if there was a big grant out there.

Dave stated there's not one that I'm aware of. And I was talking about, just the other day, because Jed and I were talking about there is there's

a year ago, just when I was going out. We got a grant for over 100 grand or something.

Dave stated we can follow up with Jed, there is a competitive grant coming up, and we'd have to have this stuff. This month. Jed had talked about it. He was going to work with me on it because we talked about upgrading the extrication equipment to battery-powered. Right now we run up with the gas engine, then run the hydraulics on the jaws.

Dave stated they've actually come a long way on the battery-powered stuff to where it's, it's pretty impressive. So we were looking at trying to put together a grant for that, but it's 100% You know, it's not a matching grant. So if we can get that, it's not going to cost the town anything, you know, other than the same kind of fiasco. So getting a purchase and getting the reimbursement but it's not like a matching grant so we'll work on that and keep you posted on how that turns out. And I think that's all I have. The Mayor told Dave to thank him.

Mayor O'Hare stated okay, next we'll go with the Tammie Town Clerk.

Okay, really quick back to the alcohol sales I found that. For a Class B beer license, which is what the Class A B? A is on tap?

That's not what I read. I read Class A was for gas stations

Well, okay, so Okay, so I'll go research that first. But for Class B, you cannot sell till after 10 am.

Write your ordinances. I mean, I was thinking that for Class B. Class B is for us what I found, just the service stations Class A is on tap. Mayor stated I can look into that. I don't know.

Yeah, we can look into Yeah, cuz I could have sworn when I was reading class A was yeah, we can look back into it. Okay. So

we just need to get approval for the budget I didn't hear from anybody that needed or wanted changes so

do we have to contact you before today for changes Yeah, cuz we were passing it today.

Otherwise, we needed to have a public hearing to change it. Oh, well, so let's do that. But the good thing is the lawnmower is being fixed. Mayor O'Hare stated that's why I was gonna talk to you, we needed to tell you now so we can move some money over to purchase lawn mower equipment. I didn't realize we had to tell you beforehand that it needed to. In the end, we have to buy a new one as well.

Mayor O'Hare stated no, no. He's right here. No, he's waiting on the parts. Soon as the parts come in he will come back down to finish it. The lawn mower for the park or for the park is done.

It's ready. What I was thinking is on Friday after I get done mowing that, then maybe we can get a trailer. Maybe we get Jim Beagley's trailer again and grab this mower and take it to the Cemetery.

Jim stated that he might not be around Friday

Mayor said okay, maybe Saturday or Sunday. I've got to use it on Friday and I might be out mowing tomorrow night since it's still light out at eight o'clock at night. So we can use that one back and forth.

Brent stated does anyone know anything about those trimmers up there? Have you tried any of them?

Jesus stated that there is a problem none of them would start. Brent said that they would start either.

I'll tell you what, these new ones are battery-powered. are awesome. They beat the gas ones Milwaukee's good, they have Stihl, and they still have a good living battery.

Mayor O'Hare stated we can go over that down here a little bit, so we can't do anything with the budget, just accept it.

Tammie stated we can change it next month. It has been approved before the end of the fiscal year. So if you want to wait, we can just pass it next month. Brent stated we got to have some little work before Memorial Day.

Mayor O'Hare stated what is the budget for next year, if I'm right, we have no money right now, and the rest of this fiscal year for Parks and Recreation. Tammie stated Yeah,

Brent stated not sure how we're gonna get them started There's three of them up there. Mayor stated I've got one down here and I couldn't get mine started. Brent said that they are all the same, they won't start. Jim said, "Do you want me to take a look at it? Brent said Yeah, if you will, somebody has to know more about them than me.

Mayor O'Hare stated so we'll push the vote for the budget next month. You want to wait, yeah. And then that way we can see if, if we can get these done. Then we can push we can move some money around to make sure we have enough money to get some equipment. But he did look at the lawn mower, which was the big thing I was worried about because it was going to cost around eight grand. But he said that he's got the parts and he can fix it. And it'll still run really well.

Brent stated that Nick is going to be out of commission right now because his secretary quit and he's the secretary. So he hasn't been here all week.

Tammie stated the other option is, it may be cheaper to look to hire it out, you know, like, have the people that do the church or just putting their own equipment. So the town doesn't have to worry about servicing and all of that.

Mayor O'Hare stated the Cemetery also.

Tammie stated that you wouldn't have to worry about your equipment.

Mayor O'Hare stated maybe we can. I mean, it wouldn't hurt to get three bids. You know, I'm saying to find out what they would charge.

LuAnn stated you mightn't get three bids, we found that with Cemetery, there's only one guy.

Tammie asked did he show up today.

Brent stated that it is not gonna be pretty because he has flags everywhere. Everything's broken because it wasn't taken care of last year.

Mayor O'Hare stated yeah, that's a good idea to actually worry about fuel. Mayor O'Hare stated yeah, The church pays us for the months that we take care of the park.

Tammie stated and then just on the town council compensation, Stacey just wanted me to go over that. So you realize that you get compensated for us for like your time to deal with the stuff or town council if you're doing work or something over then that's great to turn in hours. If it's just kind of that at all, or the money that you get is to compensate for your, I guess anything over that, that you feel like you need to be compensated for, you can turn it in hours for but that the money is for you representing that, like the park or the, you know what I mean? So say, Jim spends 80 hours at the landfill, obviously, he needs to turn in some time, you know what I mean? Jim stated so just, I just figured it came with the jobs.

Tammie stated yeah, so I mean, if you feel like you're down there, way more, and you need to turn in time, that's great. Or whatever, but it's a duty to do.

So anyway, she just wanted to touch on that tonight. So that's all I have. And I'll just do the budget next month if you guys want changes to be the same in numbers.

I actually won't be here next time I will be out of town, but I can get it ready and have Stacey read it. Mayor O'Hare stated okay, Thank you. And then we'll go back to Tammie for the treasurer.

Tammie stated oh, she just wanted to make sure that you guys all received the opening and closing of meetings. I think she said that most of you have it done. LuAnn stated that she did but she couldn't get Brent's to come back up on her phone.

Tammie asked so do you have a way to do it on the computer? LuAnn said that they don't have the internet, and we don't have a computer. Brent said she was going to do something about it but was not sure what she was going to do.

Tammie said well, we can probably print it off. And then you can just sign that and say, and so you can read through it. I think that'd be fine. Well, you can just sign it whatever you want. It's totally up to you.

LuAnn stated that after I was done I could get back on my phone and just put his name in it. But it was associated with my phone number and it said you have already passed the course right under the name. Tammie stated that she was going to talk to Stacey about it. She said she was gonna figure something out. She asked me about it last night. In fact, I'll see if I can print it off tonight before you leave and sign it or take it home and read it and bring it back. LuAnn stated that they did it together. Just wouldn't let me back in. We answered the questions. So we know the rules. But then I was going to put his name and get him his certificate, she never told me if she got my certificate. I sent it to her. Tammie stated that we just sent out Jim's because I didn't know your email address. I sent her my completion certificate, which she never said she thought but she must have missed it.

So we should be good then you guys, right? Rod stated yeah. I sent my certificate in.

Tammie stated yeah, we should be good then.

Jim asked how much is it gonna cost me for you to do mine? I'll do it tomorrow.

Mayor O'Hare stated okay, next, we're gonna go with councilmember McGary.

Just a couple of comments. Where are we on the new Well, we're going to be testing for the new well, what's the status on that?

Tammie stated I think that'll be something Eric or MaryAnn would know, AJ he's not going to make it tonight. So I don't know if he's heard anything.

I was curious. I haven't heard anything so I'm just curious if anybody else has. The next thing was the well did all of the updates on the new modules. Did that ever get done? You know, we were updating the control modules on the Well Tammie stated that all of the new updates for the Well had been done.

I just had a note to ask if it had all been done so I was checking on that. So that's all been done. The last I know, we're still under flood time. So I go by Honeyville and that drive is going crazy. The Bear River is getting very high today. So just wondering, if there is anybody, anywhere around here that is having flood problems.

Mayor O'Hare stated I think we've had all the water that we're gonna get. Rod stated but I mean with the Curlew Reservoir is that getting full I haven't heard.

Brent stated I talked to Bart, and he says that it is not up to the top.

Rod stated okay, so there's no risk of them turning out extra water.

Brent stated not. For a while, it didn't sound like it.

Jim stated I saw in the news this morning they were talking about Utah. They still had three-quarters of their snow up in the mountain and they say it's water soaked up there. So they're not even starting their floods yet,

Rod stated yeah, so just be aware. Rod said that is all that he had. Thank you.

Mayor O'Hare stated that Councilmember Beagley was next Stacey was going to compile a list of the dog licenses to see who got there and who had got theirs yet she has not got back to me on that. Did everyone review that nuisance paper and did anyone want to make any changes to it? I don't know how we're going to do those fees and stuff. But I think we should have something.

LuAnn stated well, you have to have them or it's not gonna do any good to have them at all Jim stated I know. LuAnn stated that if they're gonna break the law and let their animals out and roam and destroy other people's property they need to have to pay.

Jim states we should have something on the books that we can fall back on and we really don't. Not sure if I'm in the right format, or how I wrote it up. I'm sure the lawyer will straighten it up When he reviews it.

Brent stated see nothing wrong with it the way he got it. He wouldn't know any different anyway.

Mayor O'Hare stated the only thing different that I see that I just want to make a comment on was the animal impound fees we had to adjust, I think it was about a year ago when it was \$25 on the second offense, and then \$50 then but if you want to change it you can if you want to change it that's up to you guys.

Jim stated okay, but I didn't see, where you have that written down, it is not in the ordinances book.

Mayor stated It's not a resolution Jim stated so the new word supersedes all that stuff.

Mayor said it's often the new ordinance. Jim stated that he has never seen it. Mayor said yeah, no, it's a resolution that's not going to be printed in the new ordinance. It was after wasn't after

we redid the ordinances or was it before the order before? It was before we redid the ordinances. Tim stated that it was something that we missed when we did the ordinances. We thought that lawyer put it in when we redid the ordinances, but it got that down.

Mayor O'Hare stated It's the impound fee. For the first offense, we would impound the dog and for the first offense, we would tell the owner say, Keep a dog on a leash, the second time would be \$25. The third time was \$50.

LuAnn said so why can you charge more if you don't have your dog spayed or neutered? Maybe they don't want to, but we shouldn't charge them for that. Jim stated well, actually, it's going to be a law one these days that you're going to have to get spayed or neutered.

LuAnn stated yeah, but I just don't think we should have the power to force somebody to do that. Jim stated We don't have to do it,

LuAnn said but you're gonna charge them \$30

Jim stated okay, well, that's what this is all about, you know, other counties and towns are doing that already because I took a lot of this off their websites, Tremonton, Brigham City, and Ogden.

Jim said if you don't want it to cross that off that's great.

LuAnn yeah, I don't believe that's the part I don't agree with and then another one on the fifth offense will be permanently removed from the possession of the owner and go where?

Jim stated that something we'll have to come up with what's on the animal and impound on the animal. LuAnn said on the fifth offense resident animals will be permanently removed from the possession of the owner; all costs and fees incurred from the town county will be paid by the owner.

LuAnn said okay, you can't just take the dog away from the people who own the dog.

Jim said well, I don't know if that's legal or not. That's why we got to have something in place.

The animal's fifth offense of property off leash, I would say that not be possible.

Mayor stated well we did before I know what a nuisance dog is. This actually happened after the third time. The dog was basically banned from the town limits and they had to take it. We didn't take the dog from them but the people had to take the dog out of the town limits. It wasn't allowed back into town limits.

Jim said the vicious dog that's completely different. I don't think we should have any leniency on a vicious dog at all. The owner knows if it is vicious or not if it gets out and attacks someone.

LuAnn oh, yeah, if it attacks somebody, but if it just gets out and wanders over into the other person's yard and poops on the grass, that is not okay. I mean, it's bad, but you can't just take the dog away after doing it five times. I don't think

Jim said you want to do that. Keep on having the poop in your yard.

LuAnn said, No charge, the owner send them a bill, but I don't think she should take it away. Jim said so you want to have 500 defenses on there then? I mean, after the first one you have to come up with some type of solution. And if you don't want it, cross it out, and we won't put it in there

LuAnn said that's just my opinion. But

Jim said that's the reason why I've run around it all you guys review it and something you don't want then cross it out.

But what if he's not pooping on your shrubs? LuAnn said to shoot it.

Mayor said you can't shoot him, LuAnn. I don't know what the answer is. But I don't think I have the right to go in and take somebody's animal.

Jim said the situation in town right now where this has happened. And we've got to come up with some type of solution, even though it's a simple matter between the two property owners. We have to come up with something.

Mayor said yeah, I really liked the fees. I really liked it. I liked the example of here right away.

Mayor, I do agree. I do agree with not taking the dog away from the owners. But I think once you get to that fifth offense, if you go down, then you just up at the fifth offense you've done 150. And then every offense after that, so 150 Yes, miracle.

Okay, what if he can't afford to pay it? What are you going to do? Then you impound the dog? Yes. Mayor. What you do is you have a contract with Brigham City as I had in place.

We have

We still have that contract.

Tim said the owner should go down and pay Brigham City for the dog. Pay them to go down and get it. Have them pay Brigham City the fine, And if they don't come and get it, then Brigham City will deal with it. I guarantee you Brigham City's going to do away with that dog. If they don't take care of that. Yeah, I've talked to them.

It's not right for someone to let their dog out on someone else's property. If they want to keep control of their dog and take care of that dog. They better keep that dog on their own property Jim said and they still specifically include dogs and cats. These are all animals. So and that's why we had no ordinance that included all animals. We only had dogs and cats and ordinances we needed to put goats and everything else in Brigham City, they'd be more than happy to come out and help us in a situation like that. They said they would even get a hold of the Sheriff's Department and have them come out and support it. Sergeant Eddington said yeah, that's a problem. I don't know how recently you guys have talked to the shelters. So the sheriff's office we've been turned down. So we ended up with a dog out somewhere and we got turned down. We have no place to take the dogs. The shelters are full of both Tremonton and Brigham. We're going to not kill shelters.

Brigham is Yes, in the last three weeks, numerous times. We picked up a dog and both shelters said no. So I will make sure that if you do have a contract, it's valid. Because a lot of these cities Bear River City they all thought they had a valid contract and they're not renewing any contracts right now.

Well, if they're going to know if they're going to no-kill that's what we want. We don't want because everybody for everybody during COVID I mean, yes, everybody wants to go to a no-kill shelter. But everybody in COVID got a dog and they all ended up in the shelter. Brigham City is full. I bet if you call them right now they have no room for a dog. Okay, this was a month ago, Tremonton. So deputies get called to an animal problem. We picked up a dog. And the only two places we have to take them are those two places. So we ended up. We had a call last week, where the person who found the dog agreed to take care of it. And thank goodness, because we have no place to take them. So what would you do? What would you do? Just leave it just to back out.

So in an unincorporated Box Elder County, there's no lease law. Right. So I mean, in your city, Honeyville, Bear River City, it's all different. But for non-appropriated Box Elder, there is zero animal control, zero. So if a dog is running in Locomotive Springs, and it's having a good time like we can go pick it up, but if there's no room. So, Elwood has been gracious enough to take some dogs for us in the past, but they only have two kennels. Right. But they only hold it for 72 hours. And they adopt if they can't find the owner in 72 hours, but they don't hold on to them any longer than that. So there is a crisis in Box Elder County right now with animal shelters. And so like, I wouldn't, what I right now, depending on some of these other shelters. I mean, if you had kennels here, this is where you would want to hold them because there are times that I mean, even the sheriff's office, and we pick up dogs all the time. And there've been numerous instances in the last month, where, sorry, go find somewhere else. And usually, it's the person who found the dog. Hey, will you take care of this? Why do we advertise it on our Facebook page? And then you know, I mean, they're not no-kill shelters yet, but that's where all the shelters are heading that way. Mayor said Tremonton has a new animal control officer, the head of animal control, but she from what I've seen is doing a bang-up job. I tell you, yeah, she's got she's got a website going now she's got adoption pictures up there for those dogs and So right now they're doing a good job and stuff in front of the County Commission to have both cities have a county-wide animal control facility. And I don't know what that looks like. I mean, Greg with Tremonton he's been involved with that, but they're trying to get a bigger shelter Sergeant Eddington said He's there. Code Enforcement. He still does dog stuff, but he's not over there. Shelter. Yeah. Anyway, but just wanted to put that out there just that you know, there are some struggles right now. We had an aggressive dog in Bear River City and just had to take care of it. In their own town because Tremonton and Brigham City couldn't take care of it. So if we came out for a dog and Snowville and there was no place in the shelter, we would put it back on you guys. To house that animal here.

Tammie asked what would you do if they called about a goat?

Just curious.

Sergeant Eddington those are livestock. And so I do the livestock investigation for all of Box Elder County if it's a goat that falls under livestock, I would take it. I have an MOU with Anderson Livestock and they would go to Anderson Livestock I would advertise for 10 days. No owner goes through the auction.

Jim said we asked the brand association, they wouldn't do anything. Sergeant Eddington said that the brand department doesn't have jurisdiction over the Sheriff's Office livestock getting loose in Box Elder County so if there's a goat loose Box Elder County has jurisdiction over them.

LuAnn asked about 20 goats.

Mayor said but we know who the owner is, they just keep getting out.

Sergeant Eddington said if you know I'm not gonna come down with you know who the owner is we will come talk to the owner.

Jim said there is not so much of a problem now because of the weather changing and grasses growing but during the winter the guy wasn't feeding them.

Sergeant Eddington said so inside Snowville I don't know what your fencing ordinances so that's part of the nuisance ordinance, but just down the road once you hit Cemetery Road on the west side, it fences out. The county said if you want the animals off your property west of Howell you have to fence them out.

Jim said that's something different than I was told by another law enforcement officer. They said Box Elder County is the only area that is fenced out in Box Elder County it is open range.

Sergeant Eddington said we don't have anything called open range so the Howell mountains on the west side of Howell are all fenced out, everything. So if you went out of Dave's house and he didn't want the neighbor's goats in his yard, he would have to fence them out.

Ji stated and so that's really sad because the state does offense now. Yes, right. Yes, I can show you the state law. I researched it

Sergeant Eddington stated actually in the fencing laws. The fencing laws lie with the county. It's required by the counties to have a fencing ordinance inside their counties that lies with the county. I've done this for 14 years. I'm just that's what it is. So I do all the live investigation for all of Box Elder County.

Jim stated I'm getting different information from different law enforcement. Tim stated the town of Snowville is fenced in.

Sergeant Eddington stated yes, you guys your fence in. Mayor stated yeah, because of corporations. Sergeant Eddington stated so you can't come in and enforce your fencing? Right, because it's an ordinance. I can't come in and force it. Because that is a specific ordinance for the town.

Jim stated I understand. Mayor asked can you explain that real quick that you were explaining to me earlier? Not that you won't, but you can't enforce our ordinances. But what do you enforce for Snowville?

Sergeant Eddington stated the only thing that we enforce in Snowville is state law. So if it is an ordinance for Snowville City, there is nothing that we can come and force. We will come into the city and deal with your code enforcement officer while you deal with somebody, they're going to be able to control. But when it comes to enforcement, there's nothing no Snowville City ordinance that I can enforce here. And that goes with every incorporated town in Box Elder County, we don't enforce any ordinances. And so that lies on the code enforcement officer to enforce that animal control. So if it's an ordinance, so animal control, for example, there are only two Animal Control ordinance statutes, not when statutes in the state of Utah. One is animal cruelty. That is a crime that I can come in and enforce inside Snowville City, the other one is an aggressive animal that's already been deemed aggressive. So if that dog has bitten somebody inside Snowville City once before, then I can come in and charge them with a Class B misdemeanor, have, you know, allow aggressive animals on the loose? That's actually what the code is, it's an aggressive animal that runs loose. That's already been deemed aggressive. Those are the only two statutes that I can enforce. In Snowville City, all the other animal control ordinances have to be enforced by the code enforcement officer, the animal control officer for Snowville City.

LuAnn asked if a dog bites someone does it need to be recorded in the books somehow?

Sergeant Eddington said there needs to be a report with the city or with us. And so if somebody gets bitten inside Snowville City and they go to the hospital, the hospital has to call the sheriff's office or dispatch, so we get dispatched to dog bites all the time. LuAnn asked so it can't just be He Said, She Said, Sergeant Eddington stated the dog just runs after somebody. And the person's like, it was gonna bite me, but it didn't bite them. That's kind of a subject. How do you enforce that you know, that's pretty hard to enforce. There really has to be some type of act of

aggression towards somebody. And dogfighting in that's usually what it ends up with is a dog bite, and so that is the act of aggression that we would use to charge somebody with that crime. Those are the only two state codes, barking dogs. And it's unfortunate because a lot of these cities have a part-time animal control officer, right? And when the dog is barking at 2 am, I call the animal control officer at 2 am. They're like, can't you just deal with it? Sure, but I can't write them a citation. I can tell them to put their dog inside but if it goes outside in ten minutes and starts barking again, there's nothing I can do about it.

Jim stated we can go into a property without their permission. Sergeant Eddington said So like but if you're outside of the house, and the dog is barking and you had a nuisance animal, you could write a citation to the homeowner. Right? I can't because that's a Snowville City ordinance.

Jim stated that in such a situation, where a person claims they're being attacked by a dog and they shoot it. What do you do?

Sergeant Eddington stated so we do an investigation and make sure that there is some type of attack that was taking place, right? Jim said and that's hard because it's their word against yours. Sergeant Eddington stated sure. That's hard. And so in a, in a jury of your peers in a court of law. If I don't have proof that the dog wasn't attacking you and you're saying I'm gonna we're gonna take your word for it, right? Unless there's a video recording or, you know, something like that, people can defend themselves and their livestock. You know, we get this all the time that \$2,500 Rottweiler goes over and kills the \$5. Chicken. And the chicken owner kills the \$2,500. Dog. 100% legal, yeah. 100% legal. And so and that's hard. But when it's just a dog and a person, and nobody else witnesses this, you really have to go on. I mean, it's hard, but there's nothing to investigate, right?

Jim said I understand what you're saying. But. So, pretty much it makes it illegal for someone to shoot a dog. Sergeant Eddington stated that in this day and age will canvass the neighborhood and look for cameras. Everybody has a camera on their house, you come to my house, there's no, there's no place in five acres.

Mayor stated I've got two security systems. My whole property has cameras. Sergeant Eddington stated so we'll talk to people and if we catch it on camera, have this nice dog walking up to this guy and executing the dog, and green, you know, will charge the guy with?

Tim Heyer said that had an incident. I had a dog attack, your lady when I was Mayor. She had to go to the hospital. The same dog attacked the truck driver. I talked to the Sheriff's Department. I give the guy 24 hours to get the dog out of town. I didn't say how to deal with it. I gave him 24 hours to get the dog out of town. Or I would with the sheriff's department's help. We would remove the dog out of town and get rid of the dog. He got rid of the dog which ended the problem. But something we had to do.

Sergeant Eddington said so I want to make it clear that if you guys go out to a house and you're dealing with a citizen of Snowville City, and you're not comfortable dealing with that citizen alone, we will always come and be there with you why you deal with the person that shouldn't have a citation from the city. Because there are people in this city, right? Obviously, nobody wants to deal with a loan. When we get this passed to certain addresses in Snowville we don't come alone. They're like, it's not that we don't want to enforce your ordinances, we can't but we're always we will come and help you. If you call and say, Hey, we're going to serve somebody papers, and you're not comfortable doing it. We did this with the last Mayor, we will

come with you and we will stand there while you serve the papers. I can't serve the papers unless you have us the sheriff's office processor to serve the papers right? But will always come in. It's called to keep the peace. We don't do them at the sheriff's office only for local cities and governments. Right? So if you call in that you want, you know, child custody. We don't do that at the sheriff's office. But if it's a city that wants us to go out to a house on a dog issue, we will always come and help them.

Mayor stated we have a thing that if we go and approach citizens about an issue we always go twos, we don't go by ourselves unless it's something very mild to talk to. Sergeant Eddington said I'm sure Scott's very well aware there are a few houses that I would say I wouldn't even I would have I'd have law enforcement

Jim said okay, so the ones that you make change then we'll go give them to the lawyer to make sure they're all written up and go from there if you want.

Mayor said here is mine, you have that paper with changes that you made to the dogs? LuAnn said No, I don't want anybody to have what I wrote on it. Mayor said oh because he was gonna make the changes. And you know what your changes are?

Jim stated I can give you another one. I got more of my briefcase. Mayor asked Brent did you make any changes? Mayor said Okay, that's fine. That's fine. No, okay.

Jim said it really is or something you would disagree with. We got to put it in here where everybody's happy with it.

Jim said, " Okay, don't agree, that's fine. Do you agree with these? Okay, that's great. This is what I wanted.

Rod stated my only note was we made these definitions so that we are clear on what each of these categories is. Jim stated that's a good idea, Rod said that some people may pass for what you know, more understanding than others. So I think it'd have some definitions in there. I think it would help.

Jim said This is what after making changes you will all get a copy and get to show what it's been done.

Mayor stated council member LuAnn Johnson said I just need to let Nicholas know if we're done working on the bridge for this year.

Mayor O'Hare stated I believe we are. If I'm not mistaken, Tammie, grants are done, right?

Tammie stated Yep. Mayor OHare said so we have to be pushed off to the next year. We'll try to do that with another grant for next year.

Rod asked what's the cutoff date. LuAnn said we did it before the cutoff date, but they said we didn't do it before the cutoff date.

Rod asked I mean, when are they gonna condemn it?

LuAnn said less than three years. Nicholas said.

Rod said It'd be nice to know, you know, what when they plan on condemning it, and what the condemnation means is gonna be restrictive access, or is it? LuAnn said yes, it will be a restriction of access, according to weight there'll be no trucks, no hay haulers, and no farmers going across it until it's eventually closed completely.

Mayor O'Hare stated we have another Mayor Association meeting coming up. And they're going to have new money coming up at the end of the year. And I want to start getting an application together for the bridge, because \$250,000 after the last Mayor's Associated meetings, is not a

lot of money to ask for and to be approved for. Because we approved you know, we approved a lot of money, the last one. So I want to get that application started and get our ducks in a row. So I can present it at the next one. And then in October, when that one comes around. We can see about getting that money. And then we don't have to worry about a grant.

Tim said yeah, just I would take a picture of it. Yeah. Just tell them it used to be the old highway going through Snowville Road, and it's being condemned. They want it to start out at 700,000. Now they want 3,000,004 and a half, isn't it? Yeah. 3.5. Now 3.5, or portions gonna be 250,000.

And if we can put money and we've got money to put towards it, so that helps us that gives them they do it on a point system. So when we say hey, we're gonna put, you know, if we did 10%, that would be 220 \$20,000 for two or 24,000. For 240,000. If we said we would if we got enough money to put in 20%. That'd be 40 \$44,000, which I think we have that money to put towards it. We have a better shot, the point system goes up. The other thing is it's an emergency, almost an emergency, and that gives you a lot of points right there. If it's an emergency and this, it would be considered an emergency. If you are putting money up on it, instead of just asking for all of it, you get points. It's a point system.

Rod said also because it's a State Road, and it's an improvement to the town. It's an improvement. It's an emergency, it's and it's going to help, you know, with the main road out of town and services, the interstate going that way in that way fairly going that way. You know, you need to put all those factors into it. So they know exactly what it is. Give you the other 200.

Jim said to have a little bit of a tear when you present.

Mayor said well, it's all presented on paper. It's in the county.

The money's there, just what we do is we get the applications and then each Mayor from the county. They decide on who gets to give the money to so the year is 2023 to 2024.

Mayor asked anything else LuAnn, LuAnn said nope, that's it

Mayor O'Hare stated next would be Council Member Brent Johnson.

Brent stated just tell you what we've got done in the Cemetery so far we backfilled all the graves that fell in, raised the headstones up, and reset them that was felling of planted grass on all but three graves around on the grass seed only had 20 pounds and then fertilize the whole thing.

Ross has been helping me up there and we've been cleaning up and we've filled garbage cans. He took them down. You got to take them clear down to Keith's so they can pick them up.

Another problem was that it was a pain and I didn't know that they would load them on the back of the truck, the garbage man will not go up there. Mayor O'Hare said I thought that the garbage man went up there to pick up the garbage. Brent said the garbage guy said that he tore the bumper off of his truck which is why he isn't going up there, because it was too hard to turn around up there, Brent said that he ran over graves doing it also. Mayor said the north end entrance is where you pull in, then back out and when your front end is out of the Cemetery You turn right. Brent said it is a big truck so that is where he left his whole front in on that gate post. Mayor stated if it is the same truck that picks up my garbage he has plenty of room to turn around up there. Brent said that we could use a little more seed. He has enough fertilizer, he said that he put 150 pounds of fertilizer on the ground, the sprinkler guy was up there today.

Mayor asked if the company was named Rapid. Brent said that it was, they will send us an email with the bad news. Mayor asked so the \$120.00 was for him to come up the first time, Right? Brent said that it was, and he will send us a bid on what it will take to fix it, he had red flags everywhere, some are all the way down the pile line and then across the top, he said they are broken everywhere. Brent said that the bid will be in thousands, he can tell us that. Mayor stated that we found out that we didn't turn the water off up there, during the winter. LuAnn stated that it wasn't drained or anything. The last person just turned it off and it was a cold, cold winter. Brent said that he went by and saw Kay Harris's headstone as just a great big piece of ice so Brent got a hold of Scott Page and he got a hold of the last Mayor and she just went up there and turned the pump off. Jim asked if they usually blow out the lines. LuAnn said yes but she didn't, she just turned it off and left. Mayor said that we might want to look into automatic drains for that system. LuAnn said that she shut it off in December after it froze. Brent said that is where the problem was if it would have been turned off in October earlier this wouldn't have happened, it drains by itself, but when you have water running and it's 20 below zero. Mayor stated that I went and winterized the park. He told them that they needed to winterize the Cemetery also, and she said that she did, they had gone up to the Cemetery and did it, we were told, because she fired Scott the people that were taking care of it. Soher and her son took over the Cemetery, finishing weed eating and mowing the last couple of weeks. Brent said that he didn't know what happened, but it is a huge mess. Mayor introduced Jesus Rios who was the man helping Brent with the Cemetery. Mayor thanked him for taking on this job. An update on the mowers is it is done and ready to go hopefully tomorrow night and we will get that all done. Mayor said that on Thursdays and Fridays, I will be at the park mowing. Tammie stated that she will go over the budget and see what money there maybe we can borrow from somewhere. LuAnn stated that we will have to fix the sprinklers for the Cemetery. Jim asked if he could come and get the weed trimmers and see if he could fix them, Brent said that they are at the house. Mayor said that he will grab the one from the park and drop it off.

Mayor stated that he wants to do a couple more things really fast, Smoot's house: the contract for the new building inspector is at the lawyer's office, and the County wants two signed copies. So I am going by Molgrad's Office tomorrow to pick them up, and then take them to the County and drop them off. Next Wednesday the County Commission meets and then they will approve the contracts for the town to have the new building inspector and that time I think we can go ahead and issue the Smoots their building permit, they have sent over their building plans for their new house, the septic system, they have sent over everything, I have sent it over to Eliche has looked at it and he said that it looked good, and it is in perfect order, the inspector will have to look at it. So we are hoping to have their permit done by the 21st of May, Mayor O'Hare stated that the Annexation was done we are just finishing up the paperwork. Rod asked if there is a new map. Mayor stated that they will have a new map but he doesn't know how long it will be before it is done and get a copy of it. Beehive finished up their installation, a member of Beehive stated that they have everyone hooked up that wants Beehive, except this building and the Fire Station, Mayor said that Stacey and I are working on that now, and we have the contract signed for both the Fire Station and the Town Hall and they were sent back to Beehive, the guy said that he can install it tomorrow would be fabulous, Mayor said that he will don't be in town tomorrow and will not be here. Mayor asked if Jim is going to be in town tomorrow, Jim

said that he would be and could let him into the town hall. The Mayor asked if we could do this building first and then the Fire Department, The installer will be here at 8:00 a.m. to install it. Mayor said that he will let Jed know so someone can let him in to install it. The man said that they were finished with everything.

Mayor stated that we are on Public Comments. Do we have any public comments? No one had any at this time.

Mayor stated the next thing is, Did everyone have a chance to look at the expenses? Tammie said that Verizon is the only one that she knows about. Mayor stated that the check was the wrong amount.

Mayor asked for a motion to accept the expense. LuAnn made a motion to accept the expense with the addition of Verizon and to adjust Mayor O'Hare's check. Rod McGary 2nd. All Council Members present voted, Yes

Mayor O'Hare asked for a motion to Adjourn. LuAnn made a motion to Adjourn. Brent Johnson 2nd. All Council Members present voted, Yes
