

MARCH 28, 2023 AT 5:45 P.M. AT SPRINGVILLE CIVIC CENTER, MULTI-PURPOSE ROOM, 110 SOUTH MAIN, SPRINGVILLE, UTAH.

Board Members in attendance: Kate Henderson, Kimberly Stinson, Lee Taylor, Patrice Bolen, Polly Dunn, Shane Lamb, Sydney Condie, Adam Provance, Cindy Sweat, Dean Duncan, Jim Brooks, Kurtt Boucher, Logan Millsap, Trevor Weight

City Staff in attendance: Michael Snelson, Chris Sorensen, Stacey Child, Josh Yost, Emily Larsen, Hannah Silvey, Tyler Wilkins, Michelle Wakefield, Teresa Tipton

Members excused: Jeremy Barker, Doug Holm, Ximena Bishop

WELCOME: Patrice Bolen

APPROVAL OF MINUTES: February 28, 2023 minutes - Motion by Jim Brooks to approve the minutes. Second by Kurtt Boucher. Vote was unanimous for approval.

PUBLIC COMMENT: Jeremy Brown lives by Springville Jr High. He applied for a PAR grant. He would appreciate feed back sooner whether or not grants are approved. Please make the process more accessible to the public. Mike thanked him for speaking his request. Board will try to improve the process. Maybe respond within a week of decisions made. His grant request was not approved. Chris Sorensen said it was not intended for citizens to recommend grants for City projects. This board does want input from citizens for their wants and needs. Citizens could suggest to parks board what they would like to see done and then the City departments request PAR funds.

Future meeting to discuss this issue. Mike said it would be here in this meeting that public can come to make suggestions to the board for the departments to consider within the master plan. Patrice commented that quicker response is necessary to applicants.

MIKE HAS A QUESTION: Mike Snelson reported there has been some internal discussions on what the bike park is supposed to look like. What should the landscaping look like? What does board feel like the bike park should look like or be?

ARTS MASTER PLAN & PUBLIC ART/MUSEUM UPDATES: Presentation by Emily Larsen. Emily reported that staff had a discovery workshop last Thursday to prep for and align vision and goals for RFQ. Waiting on reports from consultant and goal is to have RFQ out in April. They're hoping to have it finished in the fall. Her presentation took the majority of the meeting. Presentation is attached to this file.

Polly Dunn asked if this master plan is focused on theater and performing arts. It covers art in general; visual, performing, theater, film, literary, music, dance, etc.

Kimberly Stinson had some suggestions for the fall arts festival with more performing arts including indoor performances. Lee Taylor reported that Open Mic night at the museum was amazing with all the

talent that he observed. Emily wants to do this quarterly. Include local talent in with the professional talents.

Please include Jerry Gardner (snow sculpture) with roundabout art, etc. Jerry lives right next to the roundabout. Dean Duncan emphasized that it is important to have indoor facilities for these public performances.

Kurt Boucher suggested having Art City crosswalks on downtown streets, including the river walk.

Chris said we need to put some elements on the west side of town in the west central park.

Kimberly suggested eventually having a performing arts festival. Polly emphasized that we need to still focus on performing arts also and she feels the master plan should have more focus on this. City Administration said to incorporate all arts in the master plan. Bring them all together so it's not disjointed. We are still at the very beginning of this master plan. Emily will send out the slide show to Teresa to share with the board.

ANSWERS TO MIKE'S QUESTION: Logan Millsap asked if Mike wants to know if there should be more natural or manicured vegetation. How should park be landscaped? Do some research on bike parks to see what they usually look like. Dean suggested water-wise landscape to conserve our water resources. Kurt feels like we already have plenty of grassy areas in the city, not manicured. Trevor Weight wants to show people how it's possible to have a well-kept, natural, water-wise park. Make a deliberate choice to make it look different to be sensitive to the environment. Polly said its purpose is to be a bike park. Kurt wants to make sure the participants stay on the trails. There will be a nice wall between neighbors and parks, plus trees from the Spring Acres Park. City is applying for a grant for the walking trail. Please email Mike with more input. Putting together a \$300,000 grant application for bike park.

ADJOURNMENT: Shane Lamb made motion to adjourn, Polly Dunn seconded it.

Meeting adjourned at 7:00 p.m.
