

Wheeler Historic Farm

FIF Proposed Project 2024

Budgeted amount: \$57,000

Patron Request: Renters of our Activity Barn complain that our kitchen surfaces are not heat resistant. The wooden counter tops have also been used as cutting boards and are showing wear.

Renter Request: Renters of our Activity Barn kitchen complain that the floor is dirty. The floor is an older epoxy which is very difficult to clean. Many stains are permanent.

Renter Request: Renters request ice. The ice machine has been broken since 2019. It is situated below the counter to the right of the sink in the photo above.

Renter Request: Renters request a better way to “hide” the kitchen from the event than the curtains currently in place.

FIF Project Request: We request FIF Funds of \$57,000 for stainless steel counter tops, refreshed flooring, freezer, refrigerator, ice machine, privacy shutters and dishwasher. We would remove gas stove currently installed and replace that with extended counter-top.
